It is said the expenses of General Weaver, the greenback candidate for president, are paid by the national republican committee. Those who are expected to vote for Weaver would vote the democratic ticket if the greenbacker were not in the field.

MR. QUAY, a Pennsylvania republican, is the kind of politician that it does the scales of finance committee-men good to encounter. When called upon for a speech at a Garfield meeting, the other day, he replied: "Gentlemen, this campaign requires work and not talk; here is my check for \$500."

PROFESSOR MARKS recently made some calculations as to the maximum speed at which locomotive engines could be driven before the centrifugal force acting on the tires of the wheels would become so great as to cause them to burst. These calculations gave a limit of speed in the neighborhood of 150 miles an hour.

THE THIRTING TOWN of Eureka, Nevada, is truly ill-fated. It is only about a year since the place was laid in ashes, when many a business man was ruined, as well as scores of families rendered homeless. Yesterday fire broke out in that city again, and following the path of the former flame, soon left ruin and desolation in its track. The loss this time is estimated at \$1,000,000, from which figure we judge about all that was valuable in the place, in the way of buildings, has been burned. We are lacking in details, though enough has come by telegraph to let us know that the suffering will be great and the losses many. In all probability Salt Lake will be called upon to contribute towards the relief of the unfortunate Eurekaans, as she has in the case of former destructive fires in Nevada; in which event her generosity will doubtless equal the magnitude of the sad affair.

It is in San Francisco now that the woman is who exorcises evil spirits, and she is represented as doing a lucrative business. If she can really drive out devils, as she professes to do, she has unquestionably chosen a good place in which to operate. She told a reporter: "I have expelled hundreds and hundreds of devils. One case I had last fall of a gentleman living in the country—a man of fine intellect and cultivation, who was regarded by his friends as on the sure road to the lunatic asylum. He was impelled to go days and nights without food; to take long tramps, which his normal strength would not have been sufficient for. He would talk brilliantly, and as if inspired, one moment, and the next use low and vulgar language. He came to see me six times, and the last time I sat with him from 5 o'clock to 11 o'clock, when my band of spirits effected his final release." The woman cited several instances where she had been successful in driving out devils, and said that certain incantations known only to her, seldom failed to make the evil influence go. She holds that most persons considered insane are merely incited by imps inside. The strangest part of her story is that men and women are fools enough to believe in her powers, and patronize her.

Accidental Death. Omaha, 17.—Yesterday afternoon, during a heavy rainstorm, Willie Copley, aged 9, while running home, was caught by a plank sidewalk which had been piled against the fence to allow the grading of the street, and which was blown over on him. He was crushed underneath it in two feet of water. His mysterious disappearance was explained this afternoon by the accidental discovery of his body under the fallen sidewalk.

The Hostile Reds. Denver, 17.—A Tribune's Sant Es special says: Hostile Apaches, after crossing the Rio Grande, marched sixty miles into the interior and took their stand in the mountains of the Sierra Candelaria, where they are now. After crossing the river the band kept a southwest course, and when about sixty miles from El Paso, struck the little Mexican village of Santa Maria where they killed two Mexicans and stole a few head of horses. Colonel Vails has gone into Chihuahua, but where his troops are is not known. They are probably on the trail of the hostiles.

Body Found—Suicide. Denver, 17.—The body of Mrs. M. A. Clark, wife of an old timer and prominent ranchman of this county was found in a field near Littleton yesterday afternoon, whether it had been carried by the flood. Mrs. Clark lived alone in a gulch and the house was carried away by the sudden flood. This afternoon a hack driver named William Kearney, shot himself through the head at his room and died instantly. He was the man for whom Gipey DeLuxe suicided last Friday night. The two people were warmly attached, but had some misunderstanding. Since the girl's death the modern Romeo has hardly left his room.

Foreign. Vienna, 17.—The new governor appointed by the Porte at Erzeroum, was refused admittance. All Turkish functionaries have been dismissed. Government titles have been seized, and 1,200 well-armed Armenians have been dispatched from Erzeroum to aid the secular committee against Monte Negro, which is also threatened with invasion by Ali Bey, from Guesinje and Kolasobin.

Constantinople, 17.—Pisa Paeba has left for Beirut to carry out the execution of April 1878, which provides for the cession of Tuel. Intelligence from Sofia states that Bulgarian reserves have been called out.

Berlin, 17.—Count Henry Von Arnim, declared guilty of treason, desires a rehearing, and has expressed readiness to submit himself to Russian jurisdiction.

The Misses, COLLINGS, London, doubt that Dr. Tanner really fasted forty days, as claimed, and offer to wager \$5,000 that the doctor cannot abstain from food for forty days and nights, they doing the watching. In view of the circumstances connected with the doctor's late fast, doubts as to the genuineness of the test are not only ungenerous, but are impudent and unwarranted. The doctor was closely watched, night and day, sleeping and waking, by honest and reliable physicians, some of whom at least, preferred that he should fail, having relinquished the idea that he could abstain for the long period without food. The doctor's emaciated condition was another evidence that he was honest in the trial, but a conclusive proof that he partook of no food during the forty days, were the daily analyses made of the matter that come from his stomach. Dr. Tanner might not be able to endure so great a strain upon his constitution a second time, and it would be suicidal for him to attempt it, but that he did fast for forty days there should be no question now.

THE UNOFFICIAL estimates made from the census returns place the population of the country at nearly 50,000,000, while it is said by some that the number will be even greater than that. Utah is a long way ahead of the other territories, and is only 1,000 below Delaware. New York has over 5,000,000. Pennsylvania over 4,000,000, Illinois and Ohio over 3,000,000 each, Indiana and Missouri over 2,000,000 each, and the following over 1,000,000 each: Alabama, Georgia, Iowa, Kansas, Kentucky, Massachusetts, Michigan, New Jersey, North Carolina, Tennessee, Texas, Virginia and Wisconsin.

THE RUMOR telegraphed from Louisville on Monday night, and published yesterday morning, that Hon. Proctor Knott, the distinguished member of Congress from Kentucky, had been killed, proved upon investigation to be without foundation. Kentucky has a good many brilliant men, but she cannot well afford to have any so able as Proctor Knott murdered.

LATEST TELEGRAMS. Inquiry. Philadelphia, 17.—The coroner today, began an inquiry into the cause of the death of nine persons who died here from injuries received in the May's Landing disaster of a week ago.

Escaped Jail Birds. Cheyenne, Wyo., 17.—A special to the Leader from Evanston, Wyo., says: Three prisoners in the county jail, named Jeff McBride, an Indian; Jack Butler, a negro; and Wm. Clark, overpowered Sheriff Pepper and escaped with heavy shackles. McBride is a murderer, Butler a rambler, and Clark a robber.

Detroit, 17.—Michel Cahill, a Catholic, will have the effect of checking the business in which he was engaged in other alleged medical colleges, for this ill-starred feud was not the only one who was thus recklessly trifling with life. He may have been one of the most successful and largest dealers in medical diplomas, but other institutions and other men are doing what they can in the murderous business. Let up hope Buchanan's exposure will not be the only one, and if it were not too much to expect we might wish that all the frauds would be shown up, and the time come when a medical diploma could be regarded as evidence that its holder knew something of medicine and the human system.

The Conclave.

Chicago, 17.—After the parade had terminated so abruptly and disastrously to some of the spectators, the air knights dined and then the triennial meeting was held at the asylum, on Lake Front. The session was secret and it is only known that the usual committees were appointed, and that the reports of the financial officers show the order in good condition, due from the grand commanderies in three years having been \$7,021. Three hundred members were present at the meeting, exclusive of the grand officers, who number eleven, the junior warden being dead. This is by far the largest attendance since the organization of Templarism, the next largest being in 1877, at Cleveland, when there were 209 present. It is estimated by the knights themselves, that there is only 100 in the city, and 32,000 in the line to day. Several cases of snuff-taking or prostration by heat were reported, the sufferers all being of the most respectable non-political class, and were severely affected. No accident of any kind occurred to mar the pleasure of the day. The exposition building was brilliantly dressed to night to welcome the guests who attended the grand ball. The apse of the hall was more than double the size of the dimensions of that used at the national convention and was so completely filled that walking about was attended with the greatest difficulty. Thousands were unable to gain admission and the doors were locked to the applicants for entrance early in the evening. The heat inside was intense, and those who were in were glad to get near the window or leave altogether. The toilets were unusually elegant, and every feature was pleasant except the crowd and the heat. A train was furnished for dancing, but that was only possible for a few sets. The only exercise at the building were an address of welcome by Norman T. Gastie, chairman of the triennial committee, and his response on behalf of the Apollo, Chicago and St. Bernard commanderies by Wiley Meagan, who explained that his Grand Commander Morse and Grand Master Horbut, were to be ill attending owing to the fatigues of the day.

Hoosier Republicans Desperate. Indianapolis, 17.—The following call for a national republican club convention has been issued here, and will be sent to the chairman of every republican campaign club in the United States: HEADQUARTERS YOUNG MEN'S REPUBLICAN CLUB OF INDIANA, August 17, 1880.

Dear Sir,—For the promotion of the organization of republican clubs, and of increasing their membership and influence, it has been decided to call a national republican club convention, to meet in the city of Indianapolis, on Wednesday, the 10th day of September, 1880, at 10 o'clock a.m. This convention has been decided upon after mature deliberation and consultation with gentlemen connected with club organizations of the several states, and with the chairman of a republican central committee of a majority of the northern states. Each organized republican club, young men's republican club, of Garfield and Arthur campaign club is requested to send one delegate to the convention, with credentials properly certifying him to be a member of the club or organization, signed by the president or secretary of the club. (Signed) JOHN O. HARDISTY, President; CHAR. F. ROBINSON, Secretary; Young Men's Republican Club of Indiana.

BRIEF TELEGRAMS. Hiram Warner, chief justice of the circuit court of Georgia, has resigned. Grant was banqueted at Denver on Tuesday night and spoke at some length on the progress of Denver. At Pueblo, on Tuesday afternoon, Henry Orr, a railroad employe, engaged in driving pills, fell against the point of a crowbar, which passed entirely through the body, killing him instantly.

THE PEOPLE'S PAPER. HERALD. SALT LAKE DAILY HERALD. The remarkable success of the paper in the past, as manifested by its large and steadily growing subscription list, its increasing advertising patronage and the expressions of goodwill towards the journal which greet us from all quarters, convince the publishers that they are doing what they set out to do—namely, furnish a newspaper that the people would like, and therefore support. THE HERALD, as in the past, will be the people's paper. Independent in a political sense, it will always be found on the side of the people, outspoken on questions affecting the rights of the masses; battling for local self-government and the largest liberty to individuals consistent with public good; laboring for a pure, honest and economic administration of government; treating public matters dispassionately and employing language calculated to enlighten the reason of man rather than inflame their passions, and working for peace and the development of the resources of the territory, instead of trying to create strife and retard progress. With our increased facilities for gathering news, both by telegraph and mail, the employment of a larger number of correspondents in different sections of the country, and the better arrangement of all the major details of the establishment, we confidently promise to make the SALT LAKE DAILY HERALD a better paper than ever.

SALT LAKE SEMI-WEEKLY HERALD. This valuable and popular edition of the HERALD will continue to make its appearance twice a week during the year, and the same degree of progress and improvement that marks the Daily will be seen in its columns. No better newspaper can be found in the West for those people who are not blessed with daily mail facilities, than the SEMI-WEEKLY HERALD. It contains all the news, domestic and foreign, in a condensed and readable form. The design has been to make it combine the distinguishing characteristics of a commercial and home journal, and we believe that this has been successfully carried out. The SEMI-WEEKLY has certainly met with unexpectedly great favor at the hands of the people.

SALT LAKE WEEKLY HERALD. The demand for a WEEKLY HERALD has been very pressing during the past two or three years. The aim of the publishers will be to furnish a paper for those people who live in all the main lines of travel and who are not accommodated with mail a review often than once a week; to provide a newspaper for those who have only one day a week of leisure to devote to the pleasant and profitable employment of reading; to supply a suitable edition of the HERALD for sending abroad—a paper that shall faithfully and honestly represent the great and growing territory, with its many and important industries and its thrifty, enterprising people; to make a paper for the home circle and family fireside, one that shall contain no less interest at the same time combine the essential elements of a literary, educational and industrial journal. In fact, our aim will be to make the WEEKLY HERALD a welcome visitor to the home, where it will be found a constant fund of instruction, entertainment and profit to all members of the family! Besides the leading characteristics of the Daily, the Weekly will contain matter especially for the agricultural, the gardener, the stock-raiser, the mechanic, the kitchen and the household generally, and an important feature of its columns will be the well-chosen, entertaining and moral literature, also reports of the Tabernacle discourses. Nothing will be admitted to its columns that has not first been carefully prepared and revised.

SALT LAKE WEEKLY HERALD. The demand for a WEEKLY HERALD has been very pressing during the past two or three years. The aim of the publishers will be to furnish a paper for those people who live in all the main lines of travel and who are not accommodated with mail a review often than once a week; to provide a newspaper for those who have only one day a week of leisure to devote to the pleasant and profitable employment of reading; to supply a suitable edition of the HERALD for sending abroad—a paper that shall faithfully and honestly represent the great and growing territory, with its many and important industries and its thrifty, enterprising people; to make a paper for the home circle and family fireside, one that shall contain no less interest at the same time combine the essential elements of a literary, educational and industrial journal. In fact, our aim will be to make the WEEKLY HERALD a welcome visitor to the home, where it will be found a constant fund of instruction, entertainment and profit to all members of the family! Besides the leading characteristics of the Daily, the Weekly will contain matter especially for the agricultural, the gardener, the stock-raiser, the mechanic, the kitchen and the household generally, and an important feature of its columns will be the well-chosen, entertaining and moral literature, also reports of the Tabernacle discourses. Nothing will be admitted to its columns that has not first been carefully prepared and revised.

THE PEOPLE'S PAPER.

HERALD. SALT LAKE DAILY HERALD. The remarkable success of the paper in the past, as manifested by its large and steadily growing subscription list, its increasing advertising patronage and the expressions of goodwill towards the journal which greet us from all quarters, convince the publishers that they are doing what they set out to do—namely, furnish a newspaper that the people would like, and therefore support. THE HERALD, as in the past, will be the people's paper. Independent in a political sense, it will always be found on the side of the people, outspoken on questions affecting the rights of the masses; battling for local self-government and the largest liberty to individuals consistent with public good; laboring for a pure, honest and economic administration of government; treating public matters dispassionately and employing language calculated to enlighten the reason of man rather than inflame their passions, and working for peace and the development of the resources of the territory, instead of trying to create strife and retard progress. With our increased facilities for gathering news, both by telegraph and mail, the employment of a larger number of correspondents in different sections of the country, and the better arrangement of all the major details of the establishment, we confidently promise to make the SALT LAKE DAILY HERALD a better paper than ever.

SALT LAKE SEMI-WEEKLY HERALD. This valuable and popular edition of the HERALD will continue to make its appearance twice a week during the year, and the same degree of progress and improvement that marks the Daily will be seen in its columns. No better newspaper can be found in the West for those people who are not blessed with daily mail facilities, than the SEMI-WEEKLY HERALD. It contains all the news, domestic and foreign, in a condensed and readable form. The design has been to make it combine the distinguishing characteristics of a commercial and home journal, and we believe that this has been successfully carried out. The SEMI-WEEKLY has certainly met with unexpectedly great favor at the hands of the people.
