REPORT.

The following gentlemen are authorized to receive payment and receipt for the Salt Lake Daily, Semi-weekly and Weekly Herald; also to receive payment and receipt for the same:

In the Supreme Court of Utah Territory, Term term, 1880. J. B. Wilkins, Respondent, vs. Iron County, Appellant.

Proceedings at the City Council on Tuesday evening, September 28th, 1880, Mayor Little presiding: A petition was submitted from Messrs. Studebaker Bros., asking permission to erect a temporary platform across the ditch in water to their repository on East Temple street, for the display and final disposal of their prairie wagon, to be given away October 7th, 1880, at 4 p.m.

known as Union Square, situated in the Third Municipal Ward of this city (said grounds being in our opinion the same as the grounds mentioned, or any owned by the corporation; upon condition that the chief building of said repository be erected and maintained on said grounds, and that the said building be used exclusively for educational purposes, and that the same be used for the sale of said city, at all reasonable times, to use said grounds for a promenade, under such regulations and reasonable restrictions as may be prescribed by the council and board of regents of said university, and that whenever said platform is to be erected, the title in fee shall revert to Salt Lake City.

September drawn to a close. Conference begins one week from today. It is predicted that winter will set in early this season. Again no bollion shipments from the south last night. Pity garden thieves are very numerous at present. The bollion shipments, on Tuesday, aggregated \$2,117.75. Utah grapes are selling at 5c. per pound; California at 15c. The mercury, on Tuesday, went up to 74°, and dropped to 42°. The arguments in the mandamus case commence to-night at 7 o'clock. John George, a native of England, was admitted to citizenship on Tuesday. One woman drunk was fined \$30 on Tuesday, and one male drunk, \$10. The home missionaries of the state will meet in the Council House at 7 o'clock this evening. The Hasenwinkle Dramatic Company appears at the Theatre to-morrow evening. Mr. James Currie, for shoving Robinson, who was charged with stealing \$12 from Mrs. Douglas, was fined \$20, on Tuesday. Another proposition for lighting the city by means of the electric light, was made to the City Council last evening. It appears in the Council minutes this morning. On Sunday a party of ladies went to Brimley's Ward. When getting out of the carriage the driver stamped the buggy too far and one of the ladies was thrown out and had her head pretty badly cut. Haynes & Son, the well-known boiler makers, have an order from the Horse Silver Mine to make with all possible speed three fine 60 horse power boilers. Haynes & Son are doing an immense business. The City Council has decided to give Union Square to the University of Deseret for the erection of the new University building. For present purposes, a suitable location could not have been found. Some fellow somewhere predicts that it will be very stormy about the end of September and the early part of October. We cannot say as to the latter part of September, but regarding the early part of October we are prepared to offer a statement on storm. Conference begins early in October. In the case of J. T. Gore against B. W. Morgan, the referee's judgment, that the plaintiff recover the amount sued for, has been affirmed by the court. A stay of proceedings was granted, to give the defendant time to prepare a statement on motion for a new trial. In the suit just instituted by the Butte Mining Company against the Oregon, West Wind and City Rock Claims, in Big Cottonwood, an order of court has been granted giving the plaintiff the right to cause a survey of the workings of the property against, in order that the extent of trespass and amount of damage may be determined. Last evening Mrs. Emmeline B. Wells, one of the ladies mentioned in Geo. B. Maxwell's petition as being registered, received a telegram from Mrs. Belva A. Lockwood, of Washington, telling her to stand by her rights: "Allow no encroachments of your liberty; no mandamus here;" which shows that the question is now known all over the country. There are a number of us who sleep in this world to eat and sleep. And know no reason why we're born, but only to consume the corn. Over the cattle, the cow and the pig. And leave behind an empty dish. Ravens and crows might fill their place, and know certain causes. Then if their tombs when they die, Ben't taught to labor and to lie. There's nothing better will be said. They're not to be put up with bread. Drink up their drink and go to bed. A Bargain in Kid Gloves. We received to-day 100 dozen of the celebrated Victoria Kid Gloves, in Street shades, which we will sell at 50c. per pair. This is the best bargain offered at that price in this city. COHN BOOK.
