J. HACELL'S,  
Opposite Theatre.

## LATEST TELEGRAMS.

HOLDS HIS OWN.  
The President does not ap-  
pear to be gaining.

But is Losing no Ground.

THE UGLY GLAND.

Washington, 29.—Up to 11 p. m.  
the President's marked improve-  
ment continues unabated. Confi-  
dence is fairly justified. The only  
uneasiness has been on account of  
the too high temperature to-night,  
which the physicians say is due to  
the pain in the gland. The gland  
is unusually troublesome to-night.  
It is an ugly looking swelling like a  
carbuncle and might be one. The  
granulation of the original wound  
began again this evening. These  
are very favorable symptoms; no  
excitement; hope is strong, as de-  
spair was on Friday and Saturday.

The Jennings apparatus was kept  
working until about 10 o'clock, the  
President having complained of ex-  
cessive heat. His temperature is  
said to have diminished sensibly,  
and the pulsations are down to 108.

EFFECT ON POLITICS.

Des Moines, 29.—On account of  
the President's condition the demo-  
cratic state central committee with-  
draws its appointments of meetings  
and a truce to state politics is likely  
pending the recovery.

PYEMIA OR SEPTICEMIA.

New York, 29.—Dr. Bliss having  
been asked if any persons during  
the war, who suffered from pyemia,  
had ever recovered, promptly said:  
The case of the President is not  
pyemia at all, but of septicemia,  
and many such have recovered. In  
fact, I am myself an instance. He  
has had septicemia, and I do not  
consider his symptoms were ever  
those of pyemia. In a case of genu-  
ine pyemia there are multiples of  
abscesses, a peculiar sweetness of  
the breath, temperature very high,  
color pallid, with anxious counte-  
nance, the patient is restless, with  
great constitutional disturbances,  
all of which are different from the  
symptoms in this case. There must  
be a definite line somewhere if we  
are going to use the terms septic-  
emia and pyemia. I will say, how-  
ever, that if the President's case is  
one of pyemia, then we will show  
you a case of pyemia in which the  
patient got well.

MOUNT GARFIELD.

The following official action was  
taken a day or two ago: "The select-  
men of the town of Franconia,  
Crafton County, state of New  
Hampshire, by virtue of the custom-  
ary powers of boards of selectmen,  
in regard to the naming of streets  
and public places, do hereby give  
the name of Mount Garfield to the  
mountain situated in said town,  
which has heretofore been known  
as Haystack Mountain, next ad-  
joining Mount Lafayette, in the  
White Mountain Range, in token  
of the public respect and sympathy  
for the honorable James A. Garfield,  
President of the United States."

THE MORNING BULLETIN.

Washington, 30.—Executive Man-  
sion, 8:30 a.m.—The President slept  
the greater part of the night,  
awakening at intervals, and re-  
taining liquid nourishment ad-  
ministered by the mouth. His  
general condition this morning is  
about the same as at the same hour  
yesterday. Pulse 102, temperature  
98.5, respiration 18.

(Signed)  
D. W. BLISS,  
J. K. BARNES,  
J. J. WOODWARD,  
ROBT. REYBURN,  
D. H. AGNEW.

ANOTHER GOOD DAY.

The President enjoyed another  
good night's rest, and it is thought  
starts out on what bids fair to be  
another good day. His stomach still  
continues to perform its work satis-  
factorily, and the parotid swelling is  
progressing favorably. His pulse,  
temperature and respiration, as com-  
pared with yesterday morning, are  
about the same. The slight increase  
in the frequency of the pulse is  
thought to be due to the accumula-  
tion of pus in another portion of  
the glandular swelling, which was  
observed this morning by Dr. Bliss,  
who made still another incision and  
released the pent up pus. On the  
continuance of these favorable  
symptoms another day of progress  
is predicted.

COL. ROCKWELL.

Executive Mansion, 2 p. m.: In  
reply to Col. Rockwell said: This  
afternoon the President's condition  
was about the same as it was yester-  
day. He has fully held his own,  
but no gain is perceptible in  
strength. No especial importance  
is attached to the high pulse shown  
by the noon bulletin. It is attrib-  
uted principally to the irritation  
caused by the cutting of the parotid  
swelling this morning. "As long,"  
Col. Rockwell said, "as the gland  
continues to be a source of almost  
constant disturbance, we must ex-  
pect these fluctuations of pulse.  
Since the noon bulletin, however,  
the President's pulse has gone down  
again to 110. We think he is doing  
well."

The President's condition has not  
materially changed since my last  
dispatch. Another incision was

made this morning in the parotid  
gland with very satisfactory results.  
Pus flows freely and the swelling  
grows less. The pulse at this hour,  
2 p. m., is lower than during the  
forenoon yesterday, but on both  
days it was higher than his other  
good symptoms would seem to war-  
rant. It is now 110. At noon it  
was 115.

COLORED CRANK.

New York, 30.—Post's Washing-  
ton: The police have just arrested  
another "crank" at the White House  
gate, a poor colored man, manifestly  
insane, bent upon killing every man  
who was not a Garfield man, and he  
had a large tin can into which he  
proposed to place their heads.

Washington, 30.—Executive Man-  
sion, 6:30 p.m.—The President has  
passed comfortably through the day.  
He has taken the usual amount of  
nourishment by the mouth, with  
stimulating enemata at periods. The  
rise of temperature this afternoon  
is a degree less than yesterday at  
the same time, and the pulse is less  
frequent than at noon to-day. The  
parotid swelling has been dis-  
charging more freely and is con-  
tinuing to diminish in size. Pulse  
109, temperature 99-5.10, respira-  
tion 18.

(Signed)  
D. W. BLISS,  
J. K. BARNES,  
J. J. WOODWARD,  
ROBT. REYBURN,  
D. H. AGNEW.

BLAINE TO LOWELL.

The President, if not rapidly ad-  
vancing, is at least holding his own.  
The fever is less than last night and  
the swollen gland steadily improves.  
His pulse continues rather higher,  
running this evening from 110 to  
114. Perhaps the best indication in  
the case is that the President him-  
self feels better and his mind being  
now perfectly clear, he readily com-  
pares one day's progress with an-  
other.

The extremely quiet and unevent-  
ful news from the sick room is very  
gratifying. Shortly after the mid-  
day bulletin a ripple of excitement  
was noticeable owing to the rise in  
the patient's pulse to 116. The rise,  
the surgeons said, was due to the  
slight incision in the parotid gland  
this morning. They express  
the opinion that during the ext-  
remely enfeebled condition of the  
patient, no importance can be at-  
tached to slight fluctuations of the  
pulse. The President continues to  
take the usual nourishment and  
during the day, in addition to kou-  
miss, milk porridge and beef tea,  
which he partook of freely, he  
called for another piece of milk  
toast which he ate with apparent  
relish. The beef tea which he is  
taking, is prepared by Mrs. Gar-  
field from raw beef chopped fine,  
to which is added a quantity of water  
and a few drops of muriatic acid.  
The patient greatly relishes this.

Dr. Boynton said the glandular  
trouble is apparently much better.  
There was a large discharge from  
this morning. There is not much  
change in the condition of the  
wound. Granulation has been re-  
newed, but not to any great extent.  
He considered the general condition  
of the patient fully as good as yester-  
day.

Chicago, 30.—Washington special:  
Captain Henry telegraphs as fol-  
lows:  
EXECUTIVE MANSION, WASH-  
INGTON 29, 9 p. m.:

To Friends in Ohio:  
The improved symptoms I spoke  
of last night at this hour, continued  
through the night and day. The  
swelling in the right side of the face  
forward and below the ear has dis-  
charged quite freely during the day.  
At and especially about sunset the  
doctors appeared to feel confident  
that they are nearly through with  
that trouble. Like an enormous  
carbuncle, it had for days caused in-  
tense pain to the already exhausted  
patient. At times he could not re-  
press a moan with each breath. The  
fevered and vitiated blood, going  
past into his head caused the brain  
to wander at times, until the iron  
will could regain its faculties. So  
the struggle continued for several  
days. The whole strength of will  
was exhausted to keep reason en-  
throned for a little time, and still  
the brain worked on. It was a few  
days and long, weary nights of pain;  
a terrible fight, with fearful odds  
against the feeble wounded man.  
His vitality, preserved through life  
by correct habits, came to his relief,  
and General Garfield won, as he  
had in a hundred conflicts. His  
mind is now bright and clear. The  
ugly sore near the ear has spent its  
force. This morning about 3 o'clock  
the President awoke and made some  
effort to clear his throat from the  
mucous that had accumulated from  
the swollen gland. Dr. Boynton,  
who is with him almost constantly,  
night and day, assisted him in his  
efforts. The President remarked:  
"Ah, Silas; how many more stations  
must we stop at before we get  
through?" He referred to the  
parotid swelling as a long stop  
on the road to recovery. I saw Dr.  
Bliss a few moments ago. Said I:  
"Doctor, I am flooded with tele-  
grams and letters asking about the  
exact condition of the President—  
what shall I say to-night?" Said he:  
"You can say the President is on a  
higher plane toward recovery. He  
did splendidly to-day; the  
stomach worked well; the swell-  
ing is discharging freely and the  
general symptoms are im-

proved." The doctor rounded off  
with emphasis and a confident nod  
of the head: "He is going to get  
well." The children have not been  
in the sick room, although they  
would very much like to see their  
father. They think they will go in  
and see him in the morning. I men-  
tion this fact to remind the  
reader that, amid all the hope-  
ful, rosy reports, the President is  
still weak and feeble, and that a lit-  
tle accident or incident would end  
any chances of recovery. Careful  
nursing is required from this on,  
more than surgical science, and the  
nurses say the President feels more  
cheerful to-day than yesterday. I  
saw Mrs. Garfield, to-day, just as she  
was completing a letter to the Pres-  
ident's mother. She wore the same  
cheery look of sunshine, but it is not  
as enthusiastic as some of the papers  
have spread about the favorable  
symptoms and the improvement of  
the President. She is thoughtful,  
watchful and cheerful, but not  
enthusiastic. She asked me  
yesterday if the President's old  
regiment would hold their reunion  
this year and where. I replied at  
Galion, Ohio, on the 31st inst. She  
seemed pleased and said the Presi-  
dent did not like such things put off  
on his account. To sum up, I think  
the points of great danger are now  
nearly passed. True, the President  
is feeble, with a fearful wound, not  
yet healed, almost through his body;  
an ugly, painful carbuncle sore on  
the side of his face; his strength  
almost gone in the long and desper-  
ate struggle for life; yet he will live.  
Why should he not? Doctors say he  
will. The nurses think he will. In  
less than forty-eight hours from now  
sixty long days and nights will have  
been spent in this memorable battle  
for life.

An Exciting Arrest.

Albany 30.—The train from the  
north on the Delaware and Hudson  
River Canal company's railroad was  
the scene, to-day, of an exciting af-  
fair. When the train reached Cas-  
tack, two men, supposed to be  
members of the Trawley and Magee  
gang, entered the car as passengers.  
The chief of police of Albany and  
Deputy Sheriff Post of Saratoga  
county were telegraphed for and  
when the train reached Mechanic-  
ville, Post and assistant boarded the  
train. Post walked up to one of the  
men and plucked the ticket in his  
hat to see whether it read Albany  
or not. The man immediately drew  
a revolver and fired, inflicting an  
ugly wound in the neck of Post,  
who quickly returned the fire, hit-  
ting his man in the forehead. The  
second fellow fled and Post's victim  
undertook to follow, but fell to  
the floor of the car from loss of  
blood. Post pounced upon him and beat  
him until handed off by the train  
bricks. Number two, while running  
off, was shot in the neck by a  
farmer. Both were then secured  
and taken to Balleston jail. The  
names given by the criminals are  
Lewis Proctor and Jno. Murray.  
In the firing that followed the  
deputy sheriff was wounded in the  
breast and a civilian  
named J. K. Farnham, was shot in  
the shoulder, but not dangerously  
injured. Proctor's wound is in the  
back of the neck. One of the pris-  
oners said to a reporter that if his  
paper circulated he would like him  
to publish the fact that Proctor and  
his friend were arrested in New  
York state.

For Protection against Out-  
breaks.

Denver, 30.—Santa Fe special:  
Gov. Sheldon has returned and is-  
sued an address announcing his in-  
tention at once to organize and arm  
an independent company in the ex-  
posed territory so that, in the event  
of an outbreak, a strong force can  
be mobilized to act in conjunction  
with the military for aggressive, as  
well as defensive operations. Such  
policy will certainly prevent a repeti-  
tion of the raids which have re-  
cently occurred.

Valuable Grants.

Washington, 30.—On Tuesday the  
commissioner of the general land  
office transmitted to the surveyor-  
general of California, patents for  
part of the Rancho Cobeza de San-  
to Rosa, located in Sonoma county,  
containing 336 acres of valuable  
land. This is the last of the five  
derivation claims confirmed at vari-  
ous times, which comprise the en-  
tire grants.

The Explosion.

New Haven, 30.—The fearful ex-  
plosion occurred soon after 2 o'clock,  
and was in the loading room of the  
factory. The cause was the explo-  
sion of a machine used in loading  
cartridges. One story of the build-  
ing was blown out and both sides  
of the walls fell in, but no person  
was in that part of the room.

Shot and Killed.

Los Vegas, 30.—Henry Bishop  
was shot and killed, on Friday last,  
at Fort Boscom, by Thomas Duffy.  
Bishop was clerking in a store. The  
dispute was about some goods. The  
murderer was arrested.

FOREIGN.

Dublin, 30.—The landlords view  
with alarm the appointment of  
John Givan, as assistant commis-  
sioner under the land act. They de-  
clare that Givan is a pronounced  
partisan of tenant rights.

London, 30.—At the London cen-  
tral prayer meeting, yesterday, spe-  
cial prayers were made for Presi-  
dent Garfield.

More forest fires are reported from  
different parts of Algeria. Some  
1,200 kilometres of forest are ablaze  
near Algiers. It is stated that many  
natives have been burned in the  
woods of Coilt, province of Con-  
stantine.

Bradlaugh, in his manifesto to the  
English people, announces that he  
will go to the House of Commons  
again next session, and ask them to  
protect him against unlawful vio-  
lence.

Tunis, 30.—Roustan, French min-  
ister, has taken leave of the heir ap-  
parent, prior to his departure for  
Paris. The latter expressed himself  
in the most friendly terms towards  
France and said the Tunisian mili-  
tary authorities were at the disposal  
of the French commander.

Domestic Dashes.

Philadelphia, 30.—The American  
Iron and Steel Association proposes  
holding a convention, which shall  
be a demonstration in favor of an  
intelligent and equitable revision of  
the tariff laws.

At the Catholic Young Men's  
Christian Association Union meet-  
ing, prayers for President Garfield's  
recovery were held to-night. There  
was much interest and another will  
be held next Tuesday.

Coney Island, 30.—Three quarter  
dash, "Bonnie Lizzie" won, "Sir  
Hugh" second, "Fillow Play" third.  
Time 1:15.

Washington, 30.—The secretary of  
the treasury says that no call for  
bonds is likely to be issued just yet,  
as the continued bonds are the only  
ones which can now be called.

It is expected that the debt state-  
ment will show a reduction of \$14-  
00,000 dollars during August.

Twelve million dollars in gold  
have been transferred to the New  
York assay office to pay for ship-  
ments hitherto of bullion.

Terrors of the Deep.

New York, 30.—The ship *Sand-  
usky* left Pensacola for Liverpool  
August 26th. On the 24th a strong  
wind began blowing, and increased  
to a heavy gale. The ship began to  
take water on the 26th, and with ten  
feet of water in her hold went over  
on her beam ends. At 8:30 p.m. all  
provisions and water were swept  
overboard, with three seamen. The  
rest of the crew took to the rigging  
of the ship, which then righted  
gradually. In the afternoon of the  
28th she was sighted by the steamer  
*Hudson* for New York, and the  
crew were relieved, after being sev-  
enty-eight hours without food or  
water.

The schooner *Lucie Wheatley* sank  
during a hurricane. The crew were  
saved by the steamer *Chalmette*.  
They were four days without water.

Ran Ashore.

Camden, Me. 30.—The steamer  
*City of Richmond*, in a fog this  
morning, ran on Mark Island, Pen-  
obscot Bay. The captain and a  
part of the crew came here in a  
small boat and chartered the steamer  
*Pioneer*, which has just gone to  
take sixty passengers to Rockland.  
She ran on the Portland and Mount  
Desert line. She is probably a total  
loss.

A Noble Theft.

Vienna, 30.—Count Jourdeville,  
one of the oldest French legitimist  
nobility, was arrested for stealing a  
carriage and horses at Spa, selling  
them and leaving the country.

MONEY AND STOCKS.

New York, Aug. 30, 1881.  
Money, active, 4, 6, gov'ts, strong;  
stocks closed weaker; Western Union,  
58 1/2; Quaker, 13; Pacific, 49; Mari-  
ona, 2 1/2; Wells Fargo, 12 1/2; New  
York Central, 12 1/2; Erie, 4 1/2; Pan-  
ama, off, 4 1/2; Union Pacific, 12 1/2;  
bonds, 117; Central Pacific, 99 1/2; bonds  
114; Sutor, 1 1/2.

Railways in Utah, Wyoming, Colorado  
or Nevada. Special attention given to  
the drawings of either of the above.  
Address all communications to  
**E. HUNTER,**  
at 30 American Fork, Utah Co., U. T.

**NOTICE.**

**TO THE FIRST NATIONAL BANK**  
of Devenport, Iowa, its Successors  
and Assigns: You are notified that the  
undersigned, co-owner with you in the  
Alpha Mining Claim in Little Cotton-  
wood Mining District, Salt Lake County,  
Utah Territory, expended for you in do-  
ing your share of the assessment work on  
said Mine for the year 1880, the sum of  
sixteen dollars, sixty-six and two-thirds  
cents (\$16.66 2/3) being your pro rata for  
the 300 feet undivided owned by you, and  
that, unless you pay me said sum, with  
costs of publication, at or before the ex-  
piration of one hundred and eighty days  
from the first publication of this notice,  
your interest in said Mining Claim will  
be forfeited to me.  
Dated and published at Salt Lake City,
