CITY COUNCIL.

Proceedings at the City Council, on Tuesday evening, September 5th, 1882, Mayor Jennings presiding:

Ed. Harris petitioned for the use of a portion of the street in front of his store, No. 12 First South street, whereon to place building material for a period of thirty days. Granted under the usual restrictions.

Jos. Hyrum Parry petitioned for the use of a small portion of the street in front of his place on East Temple street, whereon to place material to be used in repairs, for a period of three days. Granted under the usual restrictions.

Hyrum B. Barton petitioned to have the old rock wall in the street adjacent to his premises, corner of Garden and Walnut streets, torn down as it was inconvenient for persons having wagons loaded with hay, etc., to pass, as well as unsightly to the neighborhood. Referred to the committee on streets and alleys.

Wm. Newman Cook petitioned to have some action taken upon his former petition relating to the title of a parcel of land near the Fort Douglas military reservation, so that he might know what to do. Referred to the committee on public grounds.

Applications for the renewal of license to transact business as retail liquor dealers for three months, at their respective places of business were submitted from Hill & Trehwala, Barr & McTernan, Jacob Levisburg, May & Gummell, John Lollin, Travis & Co., Tufts & Nyström. Granted.

Application for license as retail liquor dealer was also submitted from John M. Burke to do business in the old postoffice building, Second South street, for three months from September 12th. Granted.

Alderman Speirs verbally petitioned in behalf of William Wilson for the use of a portion of the street and sidewalk on Third South street, immediately west of the Cliff House, to place building material upon for a term of sixty days. Granted under the usual restrictions.

The committee on sanitary regulations and quarantine, to whom was referred the petition of Joseph Warburton and 113 other residents of the city, complaining of the cesspools of the Salt Lake City Brewery, reported that they had examined into the matter, and recommended that the proprietors, Messrs. Keyser & Moritz, be required to construct cesspools that may be completely covered, so that all unpleasant odors from the refuse and washings of the brewery may be effectually prevented from annoying the citizens of the vicinity; and that said proprietors deodorize the refuse in their present cesspools with dry earth. Adopted.

The committee on improvements, to whom was referred the petition of Simon Noall and twenty-four others, remonstrating against the establishment of an oil depot at the corner of Fourth North and Fourth West streets, reported that after examining into the matter they found no reason for interference in the erection of said building, as it was as far isolated from other buildings as any eligible location in the city, the nearest house being sixteen rods distant. The committee therefore recommended that the prayer of petitioners be not granted. Adopted.

Alderman Speirs presented the police court report for August, showing that 194 cases had been tried and 29 dismissed, \$590.20 assessed in fines, \$10.00 in cash collected on old fines, \$322.50 assessed in labor fines, making a total of cash and labor fines, for the month of \$1,202.70. Approved.

A report for the quarter ending August 31st of the amount received by the city weighmaster, James Shiellmerdine, for weigh charges and pasturage, at Washington Square was presented, showing a total collection of \$108.25. A bill of \$117.50 accompanied the report for balance due weighmaster to make his salary \$40 per month for the quarter. Report adopted and bill allowed.

The following bills for the month of August were presented for action and allowed by the Council: Marshal's expense bill \$217.93; expenses of fire department \$142.70; Salt Lake City Gas Company for street lighting \$920.83—for gas to city buildings \$53.61; Andrew Burt, jailor, for boarding city prisoners—264 meals at 15 cents each—\$392. Adam Speiers, for services as police judge to August 14 (one month) \$125.00; assistant watermasters, \$385.

The city attorney, to whom was referred the duty of examining into the provisions of the charter given by the council to the Salt Lake City Railroad Co., for the purpose of ascertaining if said company was not exceeding its privileges, reported that the recent extension to the road on Third South street was constructed in the center of the street, as required in the franchise, though some of the tracks in other parts of the city were not. The attorney called attention to the fact that the charter aforesaid exacted a per capita tax from said company for passengers carried, and also specified that the fare to be charged should not exceed fifteen cents, while the facts at present were that in many instances, persons wishing to go from one part of the city to another were obliged to change cars and pay the regular fare, viz, ten cents to each conductor, making a total collection of twenty cents for the journey.

On motion, that portion of the attorney's report relating to tax and fare was referred to the committee on license.

Adjourned for one week.

Married.

On Tuesday Lieutenant R. W. Young, of the Fifth Artillery, U.S.A., and Miss Nervie Richards, were married, the ceremony being performed by President Jos. F. Smith. Lieutenant Young recently graduated from the academy at West Point with great credit. He is a son of the late Hon. Jos. A. Young, and is a young gentleman of undoubted ability, sterling character, is energetic, and is admired by all for his many excellent qualities of heart and mind. Miss Richards is a daughter of H. P. Richards, Esq. She is one of the most lovable young ladies, and possesses in a marked degree those rare qualities which make a friend out of every acquaintance; her friends are her admirers, her admirers are her friends. Mr. Young is indeed to be envied on his more than good fortune. The union has long been impending, and as they have been looked upon as eminently suited to each other, the consummation of the event was the occasion for general rejoicing. A reception held in the evening at the home of the bride's parents witnessed the assembling of a host of relatives and friends. The utmost sociability prevailed, and the affair, while not wanting in elegance, was as free and pleasant as any person could have desired. The evening—passed in looking at the beautiful presents, in lively conversation, and in partaking of the elegant repast prepared by the only George Arbogast—was all too short for the happy and delighted friends; and when they did turn to depart, it was with a renewal of the sincere wishes and fervent congratulations which had been extended from all quarters during the evening. The future is as bright as the happy pair themselves could desire; and that it may remain so always is the sincere wish of the HERALD.

Naturalizations. This week every person competent to take out citizenship papers is doing so; and this may give some indication of the interest felt in the approaching November election.

On Tuesday morning, it is said some thirty persons went up from Salt Lake to Ogden, and there made application and were admitted to citizenship. This is done because the Third District Court here long since adjourned sine die, and does not reassemble until the latter part of the present month, while those taking out papers now are doing so that they can be registered next week. The Ogden Herald, on Tuesday evening, says on this subject:

The First District Court in this city was engaged all day Monday in issuing final papers to all aliens who applied and were entitled to them. Eighty-nine persons were made citizens of the United States, and seventeen declared their intentions and took out their final papers.

The court will be in session all of the present and next week. This will afford an opportunity for a great number to obtain the documents which entitle them to all the rights of American citizenship granted to foreigners.

It is also understood that quite a party will go to Ogden this morning on the same errand, being compelled to do so because they cannot get their papers. Persons are also going to Ogden from other parts north, with the same object in view. There was some talk on Tuesday of making an effort to get Governor Murray to call a special session of the Third District court here, so that the deats of those who desire to be admitted may be kept in this district. Whether the Governor has consented or will consent, remains to be seen, but it would seem to make little difference to those interested, as they are determined to get their papers anyhow.
