TELEGRAPHIC NEWS

Egypt.

Cairo, 10.—It is stated that four more
battalions of English troops will proba-
bly be sent home very soon.

Alexandria, 10.—A peaceful demon-
stration of several thousand of the poorer
members of the foreign colony was made
to-day, before the consulates of the great
powers to protest against the delay in the
payment of the indemnity for losses dur-
ing the bombardment. Nearly all consuls
promised to telegraph their respec-
tive governments. The French agent
expressed apprehension that long delay
in the payment of the indemnity would
cause serious disturbances among the
lower classes. The English consul was
absent.

London, 10.—General Sir Evelyn
Wood takes command of the Khedive's
new army.

Paris, 10.—The *Republique Francaise*
again violently attacks the policy of the
British government in Egypt. The arti-
cle concludes: Egypt is too big a mor-
sel to be swallowed even by England,
and this she will find out.

London, 11.—It is understood that
Egypt will contribute \$3,200, monthly,
towards the expenses of the army of oc-
cupation.

Sad News.

Chicago, 11.—A New York special,
speaking of the northwestern railway
war and the stories of stock speculation,
which are expected to precede its settle-
ment: Henry N. Smith, owner of "Gold-
smith Maid," says a few years ago a
measure favorable to the Union Pacific
was to be introduced in Congress. We
sent a man to Washington who was to
wire us the minute the bill was offered.
The dispatch agreed upon if everything
went right was: "Father is dead." The
eventful day came and the hours rolled
on, but father did not die. The stock
went up the scale a point at the time, but
the sad tidings of father's demise did not
come. When the stock had gone up five
points on the news of father's death
came. The boys had received the mourn-
ful intelligence ahead of us. I have al-
ways taken my chances with the boys
since.

Mr. Smith dried his eyes in remem-
brance of the sad event, but everybody
else smiled.

Stealing Taxes.

Louisville, Ky., 10.—A committee of
the city council has been investigating
the tax collector's office for 79. It in-
vestigates there was collusion among some em-
ployees in the collector's and assessor's
offices, whereby about half the revenues
were pocketed and covered by false an-
tries. Geo. Levi, now assistant fire chief,
was one of the clerks, in the second
district at that time. A man named
Postman, was cashier in the collector's
office. He is now in Leedsville and a
subpoena has been ordered for him.
City Auditor Hinkle is also said to be
implicated. The bottom, it is said, is
not yet reached.

It is stated that tax bills to the amount
of \$19,000 were duplicated by forgery and
turned in as part of the sales. The offi-
cers implicated deny all the charges.
The shortage for '79 is about \$90,000. A
member of the committee says it will
probably reach \$100,000.

Fire.

Vincennes, Ind., 8.—A fire in Peters-
burg, yesterday, destroyed a number of
stores and residences. Loss, \$30,000; par-
tially insured. A man supposed to be
the incendiary rode out of the town at a
hard gallop, just before the flames were
discovered. It is believed the incendiar-
ism grew out of an old quarrel whether
the county seat be Petersburg or Win-
low.

Lincoln, Neb., 8.—Hon. C. C. Burn's
elegant new mansion burned yesterday.
Loss, \$30,000; half insured.

London, 11.—A fresh outbreak at the
scene of the recent great fire in Wood
street, occurred on Saturday night, and
the warehouse belonging to Selber &
Fleming, was destroyed.

Newark, N. J., 11.—The dry goods
house of Ferrand McManus, burned
this morning. Loss, \$35,000; insured.

New York, 11.—The Sturtevant House
caught fire last night, and the same very
near being a great disaster. Loss, \$15,-
000; insured.

Pension Report.

Washington, 10.—The report of the
commissioner of pensions for the year
ended June 30th, 1882, issued by Com-
missioner Dudley, says the bounty land
laws should be generally remedied and
simplified. Congress should give
thoughtful consideration to the entire
question regarding pensions, making
disability rather than rank the measure
of pension. Officers and men having
been drawn from and retired to the same
walks of life, there are no very different
grades of pensioners. It is proposed to
give an officer the benefit of his actual
rank as an act of simple justice. It is
recommended also that in order to place
all war claims more readily on the same
footing, the limitations in section 4713 be
removed.

Unrecognized Duke.

Chicago, 11.—Washington special:
The Duke of Newcastle has been here for
a few days on a visit. Yesterday morn-
ing he presented himself at St. John's
church, where the President worships, but
being quite tardy, was told to wait in the
vestibule until the service began before
he could be provided with a seat. After
waiting half an hour, the Duke was in-
formed that all the seats were filled and
thereupon returned to his hotel. It is
needless to say the Duke was not recog-
nized.

Mexico.

City of Mexico, 10.—The minister of
foreign affairs says the report that com-
missioners have been appointed to nego-
tiate a commercial treaty with the United
States is incorrect. Romero, who sailed
for the United States to-day, carries full
instructions on the subject, and shortly
the commission will be appointed to join
him in Washington where negotiations
will be conducted. The minister of
finance states that the Woodhouse Mexi-
can bonds offered in New York are not
recognized by the Mexican government.

pepsia, indigestion, malaria, or
weakness, you can be cured by

Murder Will Out.

Hutchison, Kas., 11.—Advises just re-
ceived by the News from Kingman, indi-
cates a high state of excitement in that
county over the alleged unearthing of
a dark crime that has slept for two years.
It appears that two years ago a gigantic
land swindle was in operation in that
county, and included in its active partici-
pants, the sheriff and county attorney.
The fraudulent scheme was discovered
and all the parties arrested. Sheriff Mc-
Lane broke jail and escaped, while the
county attorney, J. Sprawles, gave bail and
suddenly disappeared from the neigh-
borhood, and it was supposed he had
jumped his bonds. A relative of
Sprawles, fearing foul play from his con-
federates, sent a Pinkerton detective to
Kingman, some time ago, to ferret the
matter out. The result was the finding
of a piece of charred coat on the farm of
one Carr, that had two bullet holes in it,
and it was identified as that of Sprawles;
Carr was one of the men implicated in the
land swindle, and it is supposed all hands
interested in the case killed Sprawles to
prevent his giving states' evidence. Ar-
rests are being made.

Ambitious Territories.

Chicago, 11.—*Journal's* Washington:
It is quite probable a couple of new
states may be admitted, and perhaps
three. Washington, Dakota and New
Mexico will make very vigorous efforts
for admission. There are already favor-
able reports upon Washington and
Dakota. Their admission would give
Republicans increased strength in the
Senate, where the majority is so small as
to be quite a serious matter. Represen-
tative men from New Mexico are also
here, urging the admission of that terri-
tory, but as its politics are a little uncer-
tain, it will probably not be successful
in its efforts.

Suicide.

Chicago, 11.—Mrs. Cora Wendell,
heart-broken at the death of her husband
and child, shot herself through the heart
this morning, at the residence of her sis-
ter, No. 333, Wabash avenue. This was
the twentieth birthday of Mr. Wendell,
who died in California two months ago,
and she has never been reconciled.

Nominations.

Washington, 11.—The President nomi-
nated John P. Baker, of Illinois, major
and paymaster; Chandler B. Watson,
collector of customs, southern district of
Oregon.

Gullean's Remains.

Washington, 10.—Dr. Yarrow, United
States army, says Gullean's remains are
ready to be turned over, to a person
whom the court shall designate.

Cold.

Washington, 10.—The Potomac was
frozen solid from Annapolis Island to Little
Falls, a thing unprecedented within the
memory of the oldest river men.
