The mother and three children are dead from the effects. The mistake arose from having morphine and quinine side by side on the mantelpiece in the same sized bottles.

Crime.

Memphis, 21.—Last night, nine miles south of this city, D. Townsend (colored) and his wife, an aged couple, while sleeping were shot and killed by Alex. Hill, a youth of 20 years, who worked on the farm owned by Townsend. No cause for the desperate deed is assigned by Hill, who has the appearance of being soft brained. All parties slept in the same room. The murderer was arrested.

THE FLOODS.

Louisville, 21.—Since daylight the river has been falling at the rate of an inch and a half per hour. Many houses overflowed are beginning to show up, with liberal coatings of mud inside and out. Owners are busy cleaning out, and in a week business on the river front will be resumed. Point Portland shipping port, not so fortunate, will take weeks besides thousands of dollars to put them on the same basis occupied before the floods came.

Memphis, 21.—The river to-night is twenty-four feet three inches—three inches above danger line. Many thousand sacks of corn are reported ruined in New Madrid Bend by rising water; also flooded upper St. Francis River, and caused suspension of work on the line of the Kansas City, Springfield and Memphis Railroad.

Incest.

Omaha, Neb., 21.—A miserable wretch, named W. J. Duncan, was brought into the police court this afternoon on a charge of committing incest with a 13 year old daughter, but the case was soon continued for one day to get witnesses. An immense and indignant crowd assembled at the police court and shouted "hang him," causing great excitement. Judge Beneke summoned ten policemen to escort the prisoner back to jail in safety, which they succeeded in doing. Duncan, about two years ago, was arrested on suspicion of having killed his mother, but although the evidence was quite strong, it was not deemed sufficient to hold him.

The Irish.

Dublin, 21.—Since Carey's disclosures, many Irish-Americans and farmers' sons are leaving for America. Dwyer Gray, owner of the Freeman's Journal, when chairman of the municipal health committee, charged Carey with conspiracy. The first letter of condolence Miss Burke received after the murder of her brother, was from James Carey. The Irish national league condemns the presence of "eaves-dropping" police at meetings.

XLVII. CONGRESS.

SECOND SESSION.

SENATE.

Washington, 21.—Gariand offered a resolution for the appointment of a committee of seven senators to examine into the work now in progress for the improvement of the Mississippi River below Cairo. Laid over.

Van Wyck offered a resolution calling on the President for information touching the alleged joint agreement between the ministers of the United States, Great Britain, France and Italy at Lima, Peru, to make a joint effort to bring about peace between Chili and Peru, and whether the minister of the United States had been instructed to invite or accept the mediation of European powers in the settlement of a purely American question. Laid on the table.

The bill passed appropriating \$25,000 for the erection of a monument at Washington's headquarters, Newburgh, New York, and the Senate went into executive session.

When the doors were reopened, the Senate proceeded to consideration of the army appropriation bill.

Edmunds called up the joint resolution to provide for the termination of the Treaty of Washington in relation to the fisheries.

Windom asked Edmunds whether the question of the joint resolution repealing the act to carry into effect the provisions of the treaty relation to fisheries would repeal the law under which goods are permitted to be transported in bond through American territory?

Edmunds said, to avoid all possible misconception on this point, he would move to limit the application of this section of the resolution by inserting the words "so far as it claims to be articles of said treaty so to be terminated." This amendment was agreed to. The joint resolution then passed.

Edmunds moved to take up the Utah bill. The call was opposed. On motion the Senate, by a vote of 22 yeas to 17 noes, decided to take up the bill.

Hoar moved to strike out the seventh section, which provides it shall not be lawful for any female to vote at any election hereafter held in the Territory of Utah for any public purpose whatever.

Edmunds defended the provision. The votes of Mormon women were controlled by men who desired to keep up the political power of the polygamous Mormon church. He thought the importance of breaking up the Mormon system could fully justify the suspension of females voting in Utah without any reference at all to the general question of woman suffrage.

Hoar said Edmunds proposed to deprive all the women of Utah of the right of suffrage because he believed a certain class of them would not vote as he thought they should vote.

Edwards said the question of suffrage was a political question within the control of the political power, and what Hoar said about the opinions of Mormon women is entirely apart from this bill. If the real opinions of those women could find expression, he would wish to have them vote, because the nature of every virtuous woman revolted against polygamy and all its influences. It would not be constitutional to undertake to disfranchise any man or any woman on account of opinion, but everybody, except perhaps Judge Black, would agree that in point of law, Congress could regulate suffrage in the District of Columbia, or in any territory, and could confine it to property holders of \$100,000, to paupers, or to any other class.

Blair moved the amendment of the seventh section of the bill, so as to make this provision apply to persons, instead of females, only; and only to persons lawfully convicted of the crime of bigamy or polygamy. The bill and amendments were still pending when the Senate adjourned.

HOUSE.

Washington, 21.—The senate amendments to the pension appropriation bill were concurred in.

Caswell submitted the conference report on the post office appropriation bill, stating that the conference had been unable to agree.

Caswell explained that the chief points of difference were the items appropriating \$185,000 for special mail facilities and relating to the compensation allowing land grants to railroads for mail transportation. A further conference was ordered. The house went into committee of the whole on the sundry civil bill.

Defaulter.

Kansas City, 21.—Frank B. Hoff, a well known lawyer of this city has been missing since January 23d. The belief is growing that he has left the country. It is stated that he is short \$15,000 on collections for capitalists of West Chester, Pennsylvania.

New York, 21.—Numerous rumors are current in the vicinity of an alleged disagreement between Mr. Palmer and his leading man DeBelleville, which resulted in the retirement of the latter. The origin of the difficulty is supposed to be not indirectly connected with the DeBelleville marital troubles.

The sale of the seats in the stock exchange of E. P. Dewey, formerly of San Francisco, is recorded, also the purchase of a handsome uptown property for \$87,000 by C. A. Low.

Much indignation is expressed among merchants and others doing business in the West Indies at the insult to the flag on the steamer Valencia. A prominent Wall street merchant said, my business brings me into contact with many persons and there seems to be deep dissatisfaction with a government that cannot make the flag respected among other nations. No one that I have heard bears any animosity against the Dutch, for we knew them to be neither bad-tempered nor hasty. We feel our flag is not respected as the flags of other nations are. There is where the bitterness comes in.

Washington, 21.—Mme. Patti, accompanied by her husband, Nicoline, and General Sherman called on the President this afternoon.

New York, 21.—The Dramatic News; The tour of Theodore Thomas, next spring, is now certain to take place. Charles E. Coast Notes.

San Francisco, 21.—An ordinance reducing water rates was to have come up on its final passage at a special meeting of the board of supervisors, to-night, but this afternoon Judge Sawyer, United States circuit court, enjoined the supervisors from passing the ordinance until the question of constitutionality, was passed upon by the court.

The board of trade to-day passed a resolution asking the Legislature to memorialize Congress in favor of continuing a subsidy to the Australian mail service via San Francisco.

Obituary.

Chicago, 20.—A private dispatch received here to-night from Quincy, Illinois, states that Samuel J. Medill, brother of Hon. Joseph Medill, and for many years managing editor of the Chicago Tribune, died there at 9 o'clock to-night. He was suffering from consumption and his death has been momentarily expected for some time. He went to New Mexico and Southern California, but taking cold and becoming much worse was brought back to the house of his father-in-law, Hon. J. B. Carson, Quincy, where he died to-night.

Fired On.

New York, 21.—The United States mail Steamship Valencia, on her return trip from the Spanish main to New York, was fired upon by the Dutch garrison stationed at the fort on the Island of Curacao. The Valencia arrived yesterday. Consul Beach took the affidavit of all the officers and passengers on the Valencia and will present them at Washington on his arrival to-day. At the office of the company the story was ridiculed. It was not believed that the cannon was aimed intentionally at the ship.

Stolen Bonds.

Philadelphia, 20.—A man calling himself Creston, to whom has been traced a Denver City water bond stolen in July last, states that a prominent physician here has \$250,000 worth of securities obtained irregularly and it is thought now the lot includes \$60,000 worth stolen from the State street Safe Deposit Company, Boston, January a year ago.
