

Organs Organs!

Although there is much said that this and that Organ is the best there is no disputing the fact that the SHONINGER ORGAN is full Superior in anything that is before the Public. They are acknowledged by the MUSICAL CRITICS to be the BEST ORGAN IN THE WORLD. Their Matchless Beauty, Purity of Voicing, Prompt Speech, Quickness of Touch with a full Organ Tone, have won the admiration of all that have seen and heard them. The SHONINGER is the only Organ with a Chime of Bells of 24 octaves which can be played with or without the other stops. The Pedals close up to exclude Mice and Rats. They have received the Highest Awards wherever they have been exhibited, and are sold at a Much Less Price than what is asked for any other first-class Organs.

Call and see them or send for catalogue and price lists. I also keep a full stock of all MUSICAL GOODS and the Wonderful QUEEN SEWING MACHINE.

Shop and Office North side of First
South Street opposite Continental Hotel,
in Morris' old Paint Shop.

Susan B. Anthony.

Miss Susan Brownell Anthony, whose name has become familiar to the public in the United States for more than thirty years, is about to leave this country for a long sojourn in Great Britain and France. Miss Anthony intends however, to make her European trip no mere voyage of recreation, for she has in view the continuation in foreign lands of the earnest and laborious work in behalf of womankind to which she has so long and so conscientiously devoted herself in her native country. Miss Anthony has not succeeded in convincing a majority of intelligent Americans of the wisdom of according the right of suffrage to women; but her sincerity and the firmness with which she has upheld her individual belief upon all occasions have won for her the esteem, if not the support, of the influential portion of this community. Miss Anthony believes that the cause for which she has worked, has made much progress latterly, and she probably thinks that it will be ultimately successful, and, although it is not likely that the advocates of the extension of suffrage to women in this country are numerically stronger to-day, in proportion to the population, than they were thirty years ago, yet it will be conceded that the agitation for woman's rights has produced good results in the amelioration of the condition of women and their administration as co-laborers with men in many branches of industry; Miss Susan B. Anthony is now nearly 63 years of age; she was born at North Adams, Mass., and her ancestors were Quakers; she was educated in the city of Philadelphia, and began in that peaceful settlement her philanthropic labors. The Philadelphia Times learns that Miss Anthony's departure, which will be made from that city on the 21st instant, will be preceded by a public reception to the distinguished lady on the 19th instant, when some of her associates will felicitate her and themselves upon the good work they have accomplished, and bid her godspeed and success in her mission to less enlightened lands. It is pleasing to learn that Miss Anthony who has used a large share of a small income for many years to benefit others, has recently fallen heir to a considerable sum of money.—New York Times.

Cincinnati Cooking Club

The young ladies of an ultra-fashionable quarter of Cincinnati have organized, or rather made a start at organizing, a cooking club; but from reports of the first meeting which we have received, we have some doubts as to its successful accomplishment. On the day set for the meeting all the young women interested turned out in force and their good clothes, and some twenty or more were present. No regular order of exercises was adopted, but an informal talk took place just to test the acness of the meeting.

Miss Daisy H. said that, as she understood it, the object was to establish a club in which they could all learn to cook good plain dishes.

Miss Clara D. said she didn't know that it was necessary to cook the dishes. She wasn't certain, however, because she had never been in the kitchen to see just how a meal was prepared. She did remember, though, that the dishes were always hot when they were brought to, which was no doubt the result of the cooking.

Miss Mary C. was told she would have to bring a rolling-pin to the next meeting, and very innocently inquired if they wanted one with lids on or not.

This raised a little laugh, which was subdued by Miss Fanote H. saying that the new style rolling-pins didn't have lids, as they were made with an open front.

Miss Hattie D. said that she had been a member of a club once, and that the nicest cake the club ever made had been bought at the baker's.

Miss Sallie W. wanted to know if she brought a skillet, had she better get a brass or a copper one, as the brass one might make the bread green and poisonous.

Miss Virginia K. wanted to know if they made pie crust with a flat iron, because if they did, she thought she could get an iron from the laundry without any trouble.

Miss Estelle L. said if griddle cakes were made in layers, she could make a nice one, for she had taken lessons in making layer cake.

Miss Kate M. wanted to know if they made corn muffins the same way they made corn beef, and how much soda went to the pound of flour.

Miss Mollie O. said if they had to wash the potatoes with strong rosin soap she wouldn't belong, because she wasn't going to spoil her hands.

Miss Katherine V. said that poor folks might wash their rosin soap, but the best families only used the finest toilet article.

Miss Vinnie J. was requested to cook a beefsteak, and she asked if it should be put in boiling water, or in cold water and brought to a boil slowly.

Miss Fanote F. wanted to know if they washed eggs, or put them right in the oven out of the nest.

Miss Sadie M. asked if they fried coffee or broiled it.

Miss Zerelda E. thought that coffee was better if stewed over a slow fire.

Miss Agnes N. asked if in making a drawing of tea they used oil or water colors.

Miss Mary S. said she wasn't certain, but she thought they used crayons.

Miss Madge D. asked if bees laid butter in the winter time, because if

they didn't the girls couldn't afford to start the club if the prices of everything were going to be high. Thus the informal talk ran on, and when the supper bell rang the meeting adjourned until the following week, when active measures would be taken toward a permanent organization. The young ladies appeared very well pleased with the intelligence displayed, and are in high hopes of being ready to invite their gentleman friends to a feast along in strawberry time.

We may be mistaken in our original surmises, and shall watch these meetings with more than ordinary interest, and give our readers the results of future developments.—Cincinnati Drummer.

A New Cause for Thanksgiving.

At this season of Coughs and Colds, and other diseases of the breathing organs, all men and women with sensitive lungs have cause to be thankful that "Hale's Honey of Horehound and Tar" is everywhere accessible. It is conceded by the faculty and proclaimed by the people at large, that diseases of the Respiratory Organs which resist all other medicines, are readily cured by this remarkable specific. Sold by all Druggists at 50c. and \$1. Purchase the large size, as it is much the cheapest.

PIKE'S TOOTHACHE DROPS cure in one minute.

NOTICE

TO FRANK HOHMANN, PETER Melin and John P. Wretberg, your and each of your heirs, executors, administrators, assigns or representatives. You, and each of you will take notice that the undersigned, a co-owner with you in that certain mine, known and recorded as the "Melin Mine" or Mining Claim, situate and being in Mill A, South Fork and Mineral Fork, Big Cottonwood Mining District, in Salt Lake County, Territory of Utah, has performed and done, and caused to be performed and done, the assessment work required by law to be done on said mine for the year 1882, and has expended and caused to be expended therefor and for said purpose for you and each of your proportions respectively, the following sums: For Frank Hohmann, the sum of thirteen and one-third dollars; for Peter Melin, the sum of thirty-three and one-third dollars; for John P. Wretberg, the sum of forty dollars. And you, and each of you are hereby notified that unless said sums respectively, are paid by you to the undersigned within ninety days after the expiration of the publication of this notice, then your and each of your interest in and to said mine will be forfeited to the undersigned, and you, and each of your respective interests therein, in accordance with law in such case provided, will become the property of the undersigned. Dated at Salt Lake City, this 10th day of November, 1882. PETER OLSON.

MANHOOD!

KNOW THYSELF.
A Book for Every Man!
Young Middle-aged and Old.

THE author declares that results from the life written in only life may be obtained and secured. These who doubt this assertion should purchase the new medical work published by the FEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR SELF PRESERVATION. Exhaustive Vitality, Nervous and Physical Health, Premature decline in Man, or Vitality impaired by the Errors of Youth, or too close application to business, may be restored and manhood regained. 20th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language written by a physician of great experience to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 150 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed full gilt. Price only \$1.25, by mail, postpaid, on receipt of price. Illustrated sample list sent, send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION. is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address:

FEABODY MEDICAL INSTITUTE, or W. H. FARRER, M. D., Bulfinch Street, Boston, Mass.
