RUBBER ROOFING!

During the building boom in Salt Lake, the question as to which is the best, cheapest and most secure material to be employed came up as the leading one. The undersigned would, therefore, present to the public their judgment on the celebrated

RUBBER ROOFING.

It is made of felt, of a pure wool fibre, and saturated with a compound which renders it impervious to water; after repeated rolling it is made STRONG, COMPACT, PLIABLE AND DURABLE.

The roofing is completed by the application

SLATE ROOFING PAINT

(not coat sanded), altogether rendering this the safest, cheapest and best roofing in the world. Call and examine goods, and learn prices before investing elsewhere.

The New York Board of Underwriters grade insurance on roofs covered with our Rubber Roofing the same as those covered with tin.
