Neither mental nor physical labor can be accomplished satisfactorily unless the system is in order. When you feel tired, languid, wearied without exertion, the mind slow to act, and requiring great mental effort, you can rest assured that your liver is not acting properly, and that nature requires assistance to help throw off impurities. There is no remedy that will accomplish this so mildly and yet effectually as "Prickly Ash Bitters." A trial will satisfy you of its merits.

THE UTAH-GAZETTEER.

The work laid out by the projectors of the Utah Gazetteer is really of a stupendous character, and we are confident will require a great deal of time and the outlay of a large sum of money. The magnitude of the undertaking may be better understood when it is stated that in addition to the complete directory of the four principal cities—Salt Lake, Ogden, Provo and Logan, and a business directory of the whole Territory—the work will embrace all the information which in other places is supplied by a bureau of statistics; so that whatever of a material character relates to the Territory, concerning which any question may arise, will be embraced in the work. If it is possible for any projectors to make a success of such an undertaking, we are confident the young gentlemen who have embarked in the project are the very ones to undertake it. Both are well known to the public, and need no recommendations as to their qualifications. Mr. D. O. Dunbar is business manager of THE HERALD, and although young, shows rare business tact and foresight, and is noted for his enterprise and determined energy. Mr. Robert W. Sloan has been connected with THE HERALD since its first publication; he is a practical printer, a successful canvasser, and a promising writer. He was city editor of THE HERALD for a period of six years, resigning at last because he could no longer keep up under the strain which constant night work imposed upon him. His long and active connection with this journal has necessarily made him very conversant with material Utah, and fitted him eminently for the work in which he is now engaged; but were other recommendation necessary, it would only be required to cite the fact that in the active competition which took place among several able writers for the prize offered some three years ago by Mr. George A. Meears, for the "Best Essay on Utah, her Resources and Attractions," etc., Mr. Sloan was the fortunate competitor, being the almost unanimous choice of the awarding committee. We wish the young gentlemen every success, and feel confident that their combined efforts and ability will bring forth a book that will not only be of great value to Utah, but creditable to themselves and a complete financial success.

In this connection we may add that the work will be printed by THE HERALD in its new building, and will be the product of the many new facilities in securing which this company has already expended a deal of money, and purposes laying out much more. We can promise that the mechanical part will be equal to that of any book of the kind, wherever published, and will be in keeping with the literary work. The work is already an assured financial success, as the reports of canvassers now at work all over the Territory demonstrate.

Cheap Service.

SALT LAKE CITY, Dec. 31, 1883.

Editors Herald:

In reply to the query of "A Fireman" in your issue of the 30th inst. permit me to state, in behalf of the District Telegraph company, that it is their purpose to furnish the Fire Department one of their boxes and perform the ordinary service—for which subscribers are required to pay—free of all cost to the department. What they ask \$5 per month for is their running a special wire to the engine house—furnishing the city a perfect fire alarm system for the business portion of the city and wherever their lines may hereafter be extended. In view of the fact that it would cost the city two or three thousand dollars to establish a fire alarm telegraph and cost in the neighborhood of two hundred dollars per month to operate and maintain it, we are unable to see anything unreasonable in the proposition. Respectfully, F. D. GLE, General Manager, District Telegraph Co.

Howard Sebree Company.

Having incorporated my business in Salt Lake and Ogden, as well as my trade to Idaho, hereafter will be known as Howard Sebree Company. Main office, Salt Lake City, Utah; branch houses at Ogden, Utah, Shoshone and Caldwell, Idaho. Address all communications as above. P. S.—The undersigned continues to manage the business, no change having been made except to consolidate for the purpose of carrying on the well-established Bain Wagon more vigorously than it has ever been done before. Howard Sebree Company starts out with all the former attaches and the bright prospects for a big trade in 1884. Thanking friends and patrons for past favors, and hoping to merit a continuance for the new company. HOWARD SEBREE.

THE NEW YEAR.

A Few Suggestions and Some Reflections.

The human animal never contemplates the death of anything without a feeling which the most vivid imagination has not yet been able to represent in words. The departure of friends and kindred may fill the soul with gloom, with sorrow and with anguish, all the more poignant because language cannot express the emotions by which the mind is controlled and the heart moved at such times. But we welcome the birth of an infant without a thought of the latest victim to time, accident or disease, although fully conscious of the fact that the newborn's sphere of action is as fully beset by danger, narrowed by chance and terminable by the action of the common reaper as is the case with any that have preceded, that are contemporaneous with, or may follow him. So it is with the New Year: We receive with it rejoicing, with ceremony, in some instances with pomp. The old year is gone, with its record of triumphs and defeats, its hopeful parade of lives just begun and its ghastly showing of those that have departed. With his mystical contribution to the pageant of mortals and panorama of events which began before records could be made or ideas transmitted, Time is ever present, the only unbroken but still indistinct binding us to the boundless part and the limitless future. And when another score is recorded for our sphere upon his tablet, when again our realm has completed its revolution around the centre of its system—the glorious god of light and day—and the year just born has entered the immeasurable conclave of things that are past, will we meet in friendly communion now be with it, or will we remain to see many other years come and go? Will the experiences of the past be a light by means of which our feet will be guided to a better life, or will we pursue the beaten path unchanged? In some cases this might be desirable, but in how many? That each and every one may so live and shape their future conduct that at the close of the year now entered upon, they will have no other regret than that it passes to the past, is the sincere hope, accompanied by the best wishes, of THE HERALD.

They All Do It.

Some of the good people of Utah County are now doing a little "kicking," and the kicking, if report is true, seems to be well founded. After the completion of the D. & R. G. through Spanish Fork Canyon and into Salt Lake, lumber enterprises and other industries on the line were operated and a fair rate of freight charged to encourage them; but latterly, it is claimed the "little giant" has been emulating the policy of the Union Pacific, and is squeezing the shippers, absolutely in its power, in every conceivable way. One gentleman stated that he had a rate of 4 cents at one time for a certain class of goods, and for a definite distance; and that lately the rate has been raised to 19 cents for the same goods and the same distance—an advance of 15 cents, or four times as much again. We don't know anything about the matter, but it brings out the conclusion that all railroads do it—where they can.

A Bad Accident.

Coe Kilgore, proprietor of the "Hermitage," in Ogden Canyon sustained a severe, if not a fatal, accident on Friday last. We learn from the Pilot that he and some men were engaged in hauling logs in the canyon, and had a logchain fastened to one with the team at work drawing it. The chain broke and the horses began to run, Kilgore was thrown from his feet and in some manner the lines became fastened about his feet, and he was dragged about 150 rods down a mountain side. The horses were finally stopped and the injured man extricated from his perilous position. He was conveyed to his home and Dr. Mitchell was sent for. The doctor found his patient suffering severely, locating his injuries about his hips and abdomen. It was impossible to determine definitely the extent of his injuries or to do much for him that night beyond relieving the intense pain of the injured man. Dr. Mitchell visited him again yesterday and found Mr. Kilgore much easier, and although he is badly and perhaps internally injured, yet the doctor does not at present consider him in a dangerous condition. Mr. Kilgore is a man over 50 years of age, and to receive such a shock as above stated will prove a very heavy tax upon his system.

A Fine Calendar.

Our Logan contemporary, the Journal, has just published a fine New Year's card and commercial calendar, embracing the usual matter contained in such publications, together with business announcements from the principal business firms of that city, all of which are properly and prominently set forth. The manner in which the work is done is very creditable, the figures are accurate, the letter-press is perfect, and the production as a whole reflects great credit upon our friend in the northern limit of the Territory.

Home Club To-night.

This afternoon at 2 o'clock and this evening at 8 the much talked of "Life of an Actress" will be presented at the Theatre by the Home Dramatic Club. Space will not permit an extended notice this morning, and we do not know that the company appearing to-night require it; their successful productions, their present ensemble, and the reputation of the play they present, are well enough known to stand on their own merits. Seats are now selling rapidly for both matinee and night.

The Funeral.

The funeral services of the late Mrs. Groesbeck were held in the Seventeenth Ward school house on Sunday, Bishop Tingey presiding. The great love and respect for the lady were manifested in an attendance that more than filled the large hall. Brief consolatory addresses were delivered by Presidents George Q. Cannon and D. H. Wells, and Bishop Tingey. A large cortege followed the remains to the city cemetery.

The extremely low rates at which Simon Brothers are selling ladies' goods and general fancy articles are an attraction not to be overlooked, and the people are taking advantage of it by calling early and often.

Sullivan, the man accused of murdering Scanlan at Frisco, was arrested by Sheriff Hardy at St. George a few days ago. After the arrest, word was dispatched to Sheriff Hutchings, at Beaver, and it was ordered that Sullivan be taken to that city for trial.

Mr. J. L. Chalmers, the weaver at the silk factory, is now turning out most elegant brocaded silk handkerchiefs, which are as beautiful in appearance and as excellent in quality as any that are imported. It is certain that silk-weaving is at last a success in this city.

Horse-Thieves Nabbed. About three months since, Deputy Sheriff William Brown received a dispatch from Milton Thomas, Deputy Sheriff of Summit county, notifying him that a pair of horses had been stolen from near Park City, and requesting him to look out for the thieves. Time passed on and nothing was seen of them, until about three weeks ago, when two men arrived here who were at once spotted by Mr. Brown, who has since had them under his eyes watching for developments.

On Thursday evening, one of the offered for sale an outfit consisting of bride's saddle and other trappings. The deputy sheriff felt sure they were the birds for which he was hunting. He did not at once arrest them on suspicion, but waited for a fitting time, got hold of one of them, and after a little private conversation with him caused him to confess and "give the whole thing away." Sheriff Brown then made the arrest and notified Sheriff Thomas. The latter came down from Park City, got his prisoners and took them away last evening.

The animals were stolen from Evanston, but we understand they have not been recovered.—Ogden Herald.

SURROUNDED as we are by adulterators of food and living in the midst of their vile products, it ought to produce at least a refreshing sensation to be told where a real genuine article can be obtained. Such a species of gratification may be had by purchasing Dr. Price's Cream Baking Powder. The biscuits made with it are really elegant.

CHIPS.

1884. Awfully cold. Fair young moon. Swearing-off day. Happy New Year! Frozen to death—1883. Don't forget to write it 1884. The maiden's opportunity—leap year. The bicyclists have gone from our gaze. Subscribe to the concerts and secure seats. Begin the New Year properly and adhere to that plan. Don't give your callers wine to-day, or anything heavier. The new moon beamed smilingly upon us yesterday evening. No suicides were reported yesterday. The city is extremely quiet. No sleighing yet—not even at the Park, where they spell it differently. The mud is at last non est, but no credit is due to it for the departure. 1883 now occupies a place only in the memory of man and the history of times. See the "Life of An Actress" at the Theatre this afternoon and evening. A big performance at the Theatre this afternoon and another in the evening. The children's dance at the Opera House this afternoon should not be overlooked. Mayor and Mrs. Jennings will receive today at the Devereux House, from 12 to 3 p.m. The district telegraph system will not be in operation for the next two or three weeks. Waiting arrival of the instruments or boxes. Lewis Cunningham, the would-be suicide, is rapidly recovering from his wounds and also, it is to be hoped, from his intention. The same phenomenal quietude which has surrounded us for several days past, was in existence yesterday. Over which shoulder did you see the moon? To see it over the left shoulder at the end of a year, means especially good luck—if it means anything.

THE HERALD ventures the prediction that 1884 will pass without bringing a legislative commission to Utah. Please post this in a conspicuous place.
