DAILY WEATHER REPORT.

WAR DEPARTMENT.

Division of Telegrams and Reports for the benefit of Commerce and Agriculture

SALT LAKE CITY, July 16, 1884.

Table with weather data: A.M. 4.41, 5.41, 12.41, 8.41; P.M. 2.41, 3.41, 4.41, 5.41. Includes barometer, thermometer, humidity, wind direction, and moon phase.

CHIPS.

It is probable that the sale of Stewart's drug store, fixed for to-day will be postponed.

The drug stores which have the soda fountains may be called the bar rooms of the ladies.

The Old Folks' excursion will take place on July 23d instead of on the 24th, as we stated yesterday morning.

In the through sleeper on the U. P., which leaves here this morning for Council Bluffs, every berth has been taken.

The bathing train this evening will not stop at Black Rock, but will carry its merry company, on to the classic sands of Garfield.

Twelve million people crossed the Brooklyn bridge in the first year of its active existence; and yet it is said that the ferries have been as busy as ever.

An eastern paper says: It is announced that the pencil of Mr. Navv will be sharpened to its keenest point against Blaine and Logan. This will help make things lively at this rate.

Numerous complaints are expressed by the patrons of the telephone against the present plan of furnishing a list of subscribers. A person when hurried by telephoning is forced to turn over the leaves of a pamphlet to find the number.

A new word has been coined, "telepathy," meaning the mysterious impressions and impulses which one person's mind receives from another at a distance, and not through any known channel of communication.

Mr. Dwyer's return to business is characterized by his usual enterprise. As of yore he is early in the field with the eastern publications, being already here with "Frank Leslie's Popular Monthly" for August.

There is complaint from patrons of the Twentieth Ward street car line that one of the drivers is subject to fits of profanity. It is rumored that the gentleman friends of some of the ladies who have been annoyed by his cursory remarks, intend to put a small piece of ice on his head to cool his temper.

Charles Popper says that his notice in regard to the Dry Canyon water right is only intended to settle the legal point in regard to his title. If his right is established he still intends to allow the people to draw all the water they can from that source.

There is a good deal of trouble in Utah between the Indians and the whites, and the latter are threatening to offer serious resistance if the former continue their depredations on their stock and on the wild game. They think forbearance has ceased to be a virtue.

On the morning of the 22d General H. B. Clawson will have out the Julia Dean with four prancing steeds, to take the old folks of the Twelfth Ward, of which he is presiding bishop, down to the excursion train. It is to be hoped that public spirited citizens in each ward will provide comfortable transportation to the depot for the aged ones.

The case of the City vs. Cunningham and Bodfish was finally brought to a close yesterday afternoon, and the defendants were bound over in \$800 each to appear before the grand jury on the charge of resisting officers. The attorney for the defense made an argument which would have done credit in point of argument and so forth, to Sargeant Burfus, the noted attorney in the case of Bardell vs. Pickwick. According to the position taken by him, a rag of hoodlums should be allowed to run the town whenever they feel like it, and they should be the only judges of their conduct. Par vobis! quite sage!

HE FEELS.

BASE BALL MATTERS.

Yesterday's Game—Defection of the Reds.

Complaints Against the Athletic Association.

The Games at the Park.

The days of '76 with their tremendous scores, multitudinous errors, passed balls, lost balls and the hundred other attendants on amateur games, were forcibly recalled by the contest yesterday between the once famous Olympics and the boys from Mill Creek; even the old Eneas, Steg and Fetchets, juniors and juveniles might not have been ashamed of their records had they been present yesterday and seen the reckless manner in which the runs were piled up on both sides into the twenties and toward the thirties.

There is no money for the boys, even if they received all the gate fees, in such exhibitions as that of yesterday; the Mutuals came to time with only one of their regular nine missing, but instead of the Olympics advertised, there came into the field only three or four of that team, with the remainder made up of such substitutes as could be hastily picked up. Barlow, Bess, George, Morris and McLean were all absent. The game was noticeable for its heavy batting on both sides, though the Olympics far excelled their opponents in this particular. Denhalter, Beatie, Clawson and Golding did some terrific execution in the closing innings, and it was mostly due to their efforts that the seventeen runs in the sixth and seventh innings were gained. The Mutuals did but little to distinguish themselves, though they batted Barker much more heavily than had been anticipated. Their pitcher, catcher and first baseman probably took the lead for outside playing. The following score shows more fully the particulars of the game; the errors, however, were not all recorded by the scorer, only the more palpable ones being noted:

Table with columns: Runs, Outs, Errors. Rows for BEATIE, GOLDING, BARKER, DENHALTER, SHARP, CLAWSON, GEORGE, BESS, HEDGES, GRILLITHS, TOTALS. Includes sub-tables for MUTUALS and INNINGS.

The Reds, who are thus far in advance in the championship series, have withdrawn from the league recently formed by the clubs of this county; the reason for this step, as given by several of their members, is that they were dissatisfied with the financial outcome of the game on July 4th. According to their statements, which are for the most part substantiated by Mr. Hedges, secretary of the league, the receipts at the gate on that day were in the neighborhood of \$240, of which, after the payment of expenses, the Athletic Association received 50 per cent., the bicyclists 25 per cent., and the base ball teams 25 per cent. of the 30 per cent. the winning nine was to receive two-thirds; "and yet," said Mr. Marquette, captain of the Reds, "we, who came off victorious, received for our share the sum of \$18.50; how does that look?" It was intimated that the real reason of the Reds' defection from the League, was their fear to meet the Blues, but this is prob-pooched by the first named, who says they will make a match for \$100 a side with the Blues as soon as they have returned from their starting trip to the Park; at present their whole attention is taken up with practice and preparation for the contest with the Summit County nine. Three games are to be played in Park City, commencing on the 24th, and from the enthusiasm with which Mr. Burton, (one of the team from that place) says the game is regarded in his town, the Reds feel sanguine of a better financial outcome than that of the Fourth.

Mr. Hedges was asked yesterday for some particulars of the Ball Club's complaint against the Athletic Association, a petition in relation to which was read in the City Council Tuesday evening. Mr. Hedges said: "The base ball clubs comprising the Salt Lake County league feel dissatisfied with the manner in which the financial affairs of these grounds are conducted. The city required, when they gave permission to the Athletic Association for the use of the square, that any moneys realized from games and exhibitions held there, should be devoted to the improvement of the grounds; we claim that there have been moneys made over and above all expenditures, and that the grounds show no evidences of any improvement; we want to know to what use the

money has been put, that's all. Another thing is that the clubs feel they should be allowed a representation in the athletic association, as I believe the City Council intended they should have; but so far we have no voice in that organization, though the bicyclists, I believe, have several; another matter is, and this is wherein the Reds feel so sore, that by our arrangement with the athletic association on July 4th, the expenses of the game were to be paid with the general expenses before any division was made; but when we came to settle the officers of the association would allow neither our advertising, cost of ball, nor the umpire's fee, so we have petitioned the Council for redress."

The above is given as the statement of one side without any knowledge of what may be claimed by the other; the City Council have referred the matter to the proper committee, who will probably see to a settlement of any existing differences; before another game is played, however, either the clubs or the association should have the grass in the outer field mowed down; the ball was lost no fewer than three times during yesterday's game, and any number of runs made in consequence. Joe Barlow has quit the Olympics and is about to visit Old Mexico in the photographic business.

The Hill & Symons' Block.

This new block of buildings is just about completed. It contains three stores, two of which belong to Mr. Hill, the other to Fox & Symons the photographers. The frontage of the block is sixty-one feet with a depth of seventy feet. Fox & Symons' part extending back for 145 feet. The building consists of two stories and a basement. The front was built by Barnard & Fielding and the brick used were the best pressed brick made by Mr. Jackson of Ogden. The cellar ceiling is nine feet in the clear, the first story fourteen feet and the second thirteen feet. Hill's contains ten large, elegantly furnished rooms upstairs, with water and gas and all the modern improvements. The apartments are to be let to either single parties or families. Mrs. McDaniels occupies the south store, and is very well pleased with it and the handsome appearance. The other store is not yet rented. Fox & Symons' part is being fitted up for photographic purposes and when finished will be one of the finest galleries in the west. The skylight is coming from New York, and there is none other like it west of Chicago. It cost \$500. An elegant, easily ascended stairway leads up to the second floor; the plastering is by Swan & MacDonald, and is the finest piece of work of the kind in the city. Each store has twelve panes of glass each 40x54 inches, besides glass doors. The glass is supplied by Culmer Bros. Mr. Hill's part will cost \$11,000 for walls and fixtures, and the furniture about \$3,000. Fox & Symons' part will cost \$9,000 and fully \$10,000 when ready for business. The block has as handsome an appearance as any in the city, the Sappete marble showing off to great advantage. Mr. H. Nichols is the architect, and planned and superintended the whole of the work. An asphaltum sidewalk will soon be laid in front of the block, which latter improvement the public will no doubt appreciate.

Butterflies.

Those contesting for the premium offered through THE HERALD for moths and butterflies, will please bring their collections to my residence, opposite Bishop Watson's, 19th ward, on Monday, the 22d inst. before 7 p. m. Please remember to have your name and the number upon your box. I will also be pleased to see those who have made collections, but do not expect to get the premium. C. H. BLISS.

OLD FOLKS AT HOME.

Further Details of the Rejuvenating Fete July 22.

The undersigned committees are happy to be able to announce that a free excursion for all persons over 70 years of age, resident in Salt Lake County, is tendered them on July 22d; the destination is American Fork. The citizens there have generously given a warm invitation to visit them. This invitation is extended to all persons of any race, faith or color, but they must be 70 years old; this is the only qualification. The Bishops of each of the wards in this city and the Ministers of the different denominations are earnestly requested to send in their lists of the names and ages of all persons who may desire to accompany us that day. On receipt of same, tickets will be given for the excursion and for the street cars, which will also be free on that day. All those between the ages of seventy and eighty must wear a red badge; between eighty and ninety, a blue badge; between ninety and one hundred, a white rosette. These badges must be firmly fastened on the left breast. Residents of the different wards owning teams are respectfully invited to assist the committee in hauling to and from the depot any old persons living away from street car lines. The excursionists must provide and take care of their own picnic, and should be provided with cups, as lemonade and other refreshments will be provided going and returning. Hot water for tea will be furnished by the Ladies of American Fork at the grove. Old folks living along the line of the Utah Central in Salt Lake Valley will be taken on board the train on the way down. But their names and ages must be handed in and tickets given to them in advance. Bishops in these settlements will please see that this is attended to. Ten persons over 70 can be accommodated from Lehi. It will easily be understood that the committee cannot furnish transportation for any others than those provided with tickets, and all such tickets must be obtained in time to make all the necessary arrangements for coaches. This must not be later than Saturday, July 19th. It is hoped that as many as can provide themselves with folding seats for their own use in the grove and elsewhere, will do so. Tickets can be obtained of Mr. John Kirkman, at the General Fitting Office, to whom the bishops and others are requested to apply. The generous-hearted friends to this movement who have hitherto helped the committee in donations, will please remember us again on this occasion. The train will leave the Utah Central Depot at 7 45 a. m. Returning will arrive at 7 p. m. GEORGE GODDARD, C. R. SAVAGE, WM. EDDINGTON, WM. NAYLOR, WM. L. BINDER, JOHN KIRKMAN, ANDREW JENSON, NELSON EMPEY, Committee of Arrangements.

Persons living south of American Fork, who desire to visit that city during the old folks' celebration, can obtain half fare tickets, good for three days, over the Utah Central and D. & R. G. railroads.

Races. The promises are that on the 24th inst., some of the finest trotting races ever seen in the Territory will take place. Two purses are hung up by the association, one free-for-all for \$250, with Frank L. and Tommy Dodd to trot to wagon or to pole. In this race it is thought Countryman, Grey George, Est Hunt, and Rarus, Jr., will be entered—a galaxy likely to make a most interesting race. There will also be a 2 1/2 mile race for trotters and pacers, for a purse of \$150.

That Land Syndicate.

SALT LAKE CITY, July 16, '84.

Editors Herald:

Under the above heading an article appeared in this day's issue of THE DAILY HERALD giving particulars of an interview between a member of the Irish Syndicate and your reporter, in which the former gentleman stated that it was the intention of that body to purchase about 200,000 acres of land in a certain portion of Utah. I am at a loss to understand under what act or law the Syndicate can acquire the title to government land save by actual residence upon said land. Is it possible for a person to obtain a title to United States land by purchase without first filing on and improving the same? I have taken the liberty of requesting THE HERALD to enlighten myself and others upon the subject. Respectfully, R.

The land for which the Syndicate is negotiating is not Government land, but belongs to private parties. It is a portion of the land granted to the Central Pacific railway company, by which corporation it was sold a year or two ago, to John W. Kerr and others.—ED. HERALD.

A Good Act.

Messrs. F. G. Brooks and Wille Bowring are to be credited with an act deserving of the highest praise and commendation. Knowing that the fire of Tuesday morning had left Mrs. Sanders in anything but comfortable circumstances, these young gentlemen went to work and raised by subscription about \$25, secured a new stove for her, paid a month's rent in advance, and opened her new establishment for her yesterday morning, giving the lady the remaining money with which to again begin business. This act shows a commendable spirit, not only on the part of the young gentlemen mentioned, but also in regard to all who so kindly contributed. The sum, although not by any means reaching the amount lost by the lady, will do much towards helping her to again get a start in the world.

Cheap European Excursion.

One of the biggest ventures in the excursion business is now being managed by John A. Maynes, Herald Block. It is no less than an excursion to the old world, and will leave Salt Lake on Saturday, August 30th, 1884, for England, Ireland, Scotland, Paris, Antwerp, Hamburg and Rotterdam. The fares, (second class), have been fixed as follows: To Liverpool, Belfast and Glasgow, \$155; to Antwerp, Paris, Hamburg or Rotterdam, \$175. Privilege is given to return at any time within six months. A rare chance to visit the old world, and one that should be taken advantage of. See Mr. Maynes, at his store in THE HERALD Block.
