A Remarkable Escape.

Mrs. Mary A. Bailey, of Tunksanock, Pa., was afflicted for ten years with asthma and bronchitis, during which time the best physicians could give no relief. Her life was despaired of until, in last October, she procured a bottle of Dr. King's New Discovery, when immediate relief was felt, and by continuing its use for a short time she was completely cured, gaining in flesh 30 lbs. in a few months.

A Desperate French Woman.

PARIS, November 27.—A tragedy which caused a great sensation occurred here to-day. The wife of Deputy Clovis Hugues, with a revolver shot and killed Morin, commission agent at the Palais de Justice, because he had slandered her. She fired six shots at her victim, four of which lodged in his chest. Hugues, who approves his wife's action, together with Madame Hugues, was arrested. Last year, Hugues and wife prosecuted Morin for defamation of character and secured a sentence of two years' imprisonment. Morin, however, by a system of dilatory motions, carried the case from court to court. Madame Hugues became angry, and to-day, hearing that the assize court of the Seine would grant another adjournment of a fortnight, proceeded there, and upon the court rising for luncheon, Madame Hugues, her husband and counsel in descending the staircase, met Morin, when the tragedy ensued. After Madame Hugues had been arrested, which was immediately after the assault, she declared to the commissary of the police that she hoped she had killed the man who, during the past two years, had been killing her by inches by his atrocious calumnies.

The Romantic Story of Neveille's Life.

TOLEDO, November 28.—The trial of Charles Neveille, the alleged baronet, for bigamy, which has been in progress during the present term, was resumed this morning, after an adjournment from Wednesday. The attendance was larger than on the previous day. In May last, Neveille was married in this city to a daughter of Mr. C. J. Whitney, of Detroit, and was arrested at the instance of Whitney on a charge of bigamy. During the first two days of the trial, the prosecution presented the evidence of a former marriage by Neveille, and the three ladies whom he is said to have married have been present in court while the trial was going on. In to-day's proceedings, the detective who was in charge of the prisoner at the time of the arrest last spring, rehearsed the story of Neveille's life, as told by him at that time. He claimed to have served in, and been discharged from the English army; left England in consequence of trouble with his mother; came to this country and traveled over Canada and the west; was married in Newark, N. J., under the name of George Perry, being drunk the night of the marriage; spoke of another marriage in the State of New York, under the name of Newbold. Said his real name was Sir Roger Tichborne Neveille, and he was the owner of large estates in England and Ireland. This afternoon, the defendant Neveille, indicted as George Robert Newbold, took the stand, nervous and excited. He testified to unimportant correspondence with men in Newark, N. J. He would tell nothing about himself. The prosecution offered evidence of three certificates of conviction in Canada, one for bigamy, in 1870—in the same name as the indictment here—for which he was sent to the penitentiary at Kingston, Ont., for two years. Two convictions for obtaining goods under false pretenses while he was a government inspector of mines at Belleville, Ont. The evidence was not accepted. Both sides rested and the argument will be taken up to-morrow. The defendant says he will go to the penitentiary, but says he has saved his wife's name by remaining silent, and will divulge nothing. He is an Englishman, of 42 years; was Whitney's coachman when he was Whitney's daughter. From the Newark marriage he claims he had been divorced. Witnesses are present from New Jersey, Michigan and Canada.

The Broken Bank.

MIDDLETOWN, N. Y., November 28.—The bank examiner, George T. Way, of Washington, is now in possession of the Middletown National bank. President King takes all the blame on himself. In July last, the directors notified King that Brown's credit must not be extended, but reduced. King disobeyed the instructions and broke the bank. The record of acceptances of Brown's drafts on the bank was kept by King in a book in his possession and concealed from the other officers. So far as known, more than \$200,000 of such acceptances are out. It is the opinion of the best informed that the entire capital and surplus will be wiped out. The run on the savings bank here drew \$20,000 today. The bank is solvent and ready for any emergency. President King is home very ill. It is not thought here that he has profited by the crooked transactions, but he was infatuated with Brown. Brown's operations were very heavy. As much as \$500,000 of his paper was handled by the bank in a single week.

Suicide.

DENVER, November 28.—The Tribune-Republican's Mount of the Holy Cross special says: J. Seymour Hall, owner of the Cleveland mine, suicided last night by shooting himself through the head. Business troubles, together with recent discouraging developments in his mine, probably led to the act. He was 30 years of age, and a relative of A. M. Hall, of Portier, Gros & Co., of New York.

Another Suicide.

NEW YORK, November 28.—Charles T. Goodwin, of Charles T. Goodwin & Co., cracker manufacturers, committed suicide at Port Chester, between 3 and 6 o'clock this morning, by placing his head on the railroad track. His head and right arm were cut off, and his body otherwise mangled. He left his home at 2 o'clock this morning, making a great noise; he was pursued by his wife and neighbors. He was found about 6 o'clock with his head lying about twenty-five feet from his body. He was evidently insane.

Mining Puss.

COLUMBUS, Ohio, November 28.—The ore hoppers at Straitsville were fired about 7 o'clock this evening and a crowd of men refused to let the citizens put it out. The fire department was called out, but did nothing, and finally one man rushed in, and the flames were extinguished. Several shots were fired to intimidate those who wanted to put the fire out. All the mines at Straitsville are closed and the company is holding the county responsible for the damage to its property.

That Cannibalism.

LEWES, Del., November 28.—The stories told by Bertrand and Hanson, the pilot and seaman blown out to sea and picked up by the schooner "Emma T. Anzell," both agree that the flesh of Swanson, their dead companion, was eaten. Bertrand, however, denies that he partook of it. Hanson admits that he ate pieces of Swanson's flesh and thinks that Bertrand did.

Washington Territory's Vote.

PORTLAND, Oreg., November 28.—Washington Territory official vote: Voorhees (Democrat), Delegate to Congress, 20,995; Armstrong (Republican), 20,849. The total vote in 1882 was 19,496, showing an increase of 22,348 in two years. The women cast between 10,000 and 11,000.

Sudden Death.

WELLINGTON, Kansas, November 28.—Captain David L. Payne, the famous leader of the Oklahoma boomers, died suddenly this morning while at breakfast at the Hotel de Barnard. He addressed a meeting last night and was seemingly in his usual robust health when he entered the breakfast room this morning. While partaking of breakfast he was observed to lean forward, as if from a slight suffocation, and then to drop to the floor and expire immediately. The coroner's inquest is now in session. His sudden taking off has created no little sensation here and there is profound sorrow among his co-workers and followers in attempting to settle in Indian Territory.

A Cruel Brute.

NEW YORK, November 28.—Matthew McCarron, a laborer, reeled into his tenement house, on East Eighteenth street, at midnight on Thanksgiving. His wife upbraided him for having left her, a sick woman, alone all day. At 8 this morning, the wife was found with terrible wounds about her head and face she had been stabbed in both eyes. A bloody shoemaker's awl was discovered in the bureau drawer. McCarron had left the house, after forbidding his wife to open the door. Her groans attracted the other inmates. The suffering woman told how her husband had assaulted her. She will be blind if she lives. McCarron was arrested.

Ending of a Strike.

COLUMBUS, Ohio, November 28.—By the persistent efforts of the local authorities of Hocking, Athens and Perry Counties, aided by the officers of the Columbus, Hocking Valley & Toledo road, the Ohio Coal exchange and syndicate operators, the indications are that the strike which has been in progress in Hocking Valley the last six months will soon end. Indictments have been found against more than twenty intimidators, who made the assault on Murray City on November 5th, and all but three or four have been lodged in jail. Their trials will begin next week. The detectives expect soon to make new developments and secure the arrest of a still larger number of striking miners who took part in burning the bridges of the Hocking Valley road. It has been decided by the officers to prosecute these under the conspiracy act passed by Congress some twenty years ago. President Greene, of Hocking Valley, is of the opinion that there will be no more intimidation, as arrests will be pushed to the furthest extent. The three bridges burned will be ready for trains to pass to-morrow, when these additional mines will be opened. The output, it is thought, will soon reach the point it was before the strike began, and it is thought that a large number of old miners will return to work on December 1st, when they learn they will be protected from the lawless element. The companies, however, say they will not discharge any new miners to give place to the old. All the mines in the valley are now being operated at 50 cents per ton.

Mad Mrs. Macduff.

NEW YORK, November 28.—A middle-aged, fine-looking man, giving the name of John Macduff, and registering as a Bleeker Street diamond broker, applied to the Yorkville police court this afternoon for the arrest of his wife, who, he said, shot him in the back yesterday. Mrs. Minnie Macduff, a stylishly-dressed young woman, wearing much jewelry was brought before the judge. Macduff testified that his wife demanded \$300 per month pocket money and he couldn't afford to give it. This resulted in a quarrel and his wife shot him, when he wasn't looking. Mrs. Macduff swore that her husband used her to further his swindling schemes, in disposing of diamonds. She got very little of the money received and he had beaten and abused her. On Thanksgiving day her husband loaded his revolver and she was warned by her mother to "be prepared." Then she shot him. In default of \$2,000 bail, Mrs. Macduff was placed behind the bars.

TREASURER WYMAN'S REPORT.

Mad Mrs. Macduff—Big Fire—News from the Flowery Land—Fire in Dundee.

Treasurer's Report.

WASHINGTON, November 28.—The annual report of Treasurer Wyman, of the United States, shows that the net revenue of the government was less than in 1883, by \$49,767,712; a decrease in receipts from customs of \$19,639,007; in receipts for internal revenue, of \$23,134,248; and in receipts from miscellaneous sources, of \$8,849,248. From the aggregate of these items should be deducted an increase of \$1,854,840 in receipts from sales of public lands, leaving the net reduction, as stated above. The net expenditures aggregated \$244,123,344, a decrease from the amount in 1883, of \$21,281,893. The surplus applicable to the reduction of the public debt amounted to \$104,303,625; a decrease of \$28,485,818 from that of the previous year. The items of expenditures showing a decrease, are as follows: On account of the war department, \$9,481,779; interior department, \$11,469,980; interest on the public debt, \$4,581,732. There was an increase of \$2,242,411 in the expenditures account of the civil and miscellaneous and \$2,009,164 in the expenditures account of the navy department. The disbursing officers of the United States had to their credit on the books of the treasury, at the close of the year, \$32,453,980. The statement of assets and liabilities for September, 30, 1884, shows that the general balance was reduced from \$103,232,463 in 1883, to \$140,525,062 in 1884, a reduction of \$13,707,400. The aggregate amount of gold and silver coin and bullion held in the Treasury was increased from \$352,510,819 in 1883, to \$355,210,297 in 1884, an increase of \$2,700,478. The gross assets were increased from \$563,119,517 in 1883, to \$519,600,249, an increase of \$43,519,268 from November 1st 1883 to November 1st 1884. The reserve decreased \$12,752,255, or from \$190,822,545 to \$148,070,290. There were, nominally, outstanding at the close of the fiscal year, silver certificates amounting to \$129,891,691, an increase of \$32,274,860 during the year; the amount held by the Treasury increased from \$15,095,145 to \$23,384,680, thus leaving actually outstanding \$107,507,011, an actual increase of \$21,886,325. The amount of standard silver dollars coined to September 30, 1884, was \$182,380,820, of which the Treasury held \$142,349,409. Of this amount \$97,094,881 was for the redemption of silver certificates outstanding. The amount in circulation was \$39,961,939, or about 21.8 per cent. of the total coinage.

Chinese News.

HONG KONG, November 28.—The Catholic mission here has advised that the vicery of Canton has closed all the chapels there and also razed the entire Catholic settlement. A missionary arrived at Canton from the interior states that the Christians in the western provinces are fugitives in the wilds of Tonquin. He also states that the Chinese authorities in the northern provinces have issued a decree ordering the expulsion of all missionaries. Upon an appeal to the higher authorities at Peking, however, the decree was rescinded, and the missionaries were taken under the protection of the Chinese general government.
