A RESOLUTION has been created among the police force by the announcement that an order would soon be issued compelling the officers to display their badges on the outside of their coats instead of as at present worn.

THE FIRST general use to which it was proposed to put Liberty Park was postponed on account of the shooting of President Garfield; the first public services of any nature in the Park will be the memorial services of ex-President Grant.

IN THE Police Court yesterday, in the case of the People vs. Robert Burns, the demurrer of the defendant to the complaint was overruled. The prosecution not being ready to proceed to trial then, the case will be heard to-day at 2 o'clock.

PHIL MARGETTA and wife returned from Provo last evening, where they have been on a visit. By invitation, they attended last Saturday's performance at the new theatre. Phil speaks very highly of the building, and is also enthusiastic at the manner in which the "Streets of New York" was presented.

THE IDAHO Register, published at Eagle Rock, Idaho, says of a well-known character in this vicinity: "About six weeks ago we engaged a man named R. K. Land to make a trip to the Salmon River country. For the past two weeks we have not heard from him, but are continually receiving letters from patrons asking why their papers are not sent, and why they do not get their printing which they ordered and paid for. From what we learn this hunk has gone to Montana. We therefore warn publishers in that part of the country to look out for him."

"WHY, SIR, I tell you our mountains have barely been scratched for hidden treasures, our coal mines are inexhaustible, our iron supply incalculable, we have every mineral known, except tin, our sulphur springs are the best of any, our lake is the finest bathing in the world; we have everything within our borders that man can desire to eat or drink, and would be the most prosperous country on the face of the earth if we could only pull together, and induce capital to come here. As long, however, as the Tribune manufactures its lying reports, and the red-nosed hoodlum is in command of the Associated Press, we may expect but very little assistance from the outside. The Tribune, to-day, is the avowed enemy of anything and everything that does not immediately coincide with its peculiar ideas of propriety; its silly, senseless, and shameless yarns have driven away millions of money that would have been invested here, and it is getting no better very fast."

THE CLOSING GAME.

Our Boys Retrieve Themselves a Little.

LARSEN, THE PET OF THE MOB.

His Brilliant Playing in the Closing Game—General Notes—The Score—7 to 13.

DENVER, July 27.

Special Correspondence to THE HERALD: The Utah Colorado tournament is now a thing of the past, and the Utah contestants are this morning scattering and packing up for home.

The grand struggle between the nines of Denver and Leadville, which occurs here this afternoon, and to gain one glimpse at least of an evenly matched ball game.

Yesterday's contest, though it resulted, as usual, for the Salt Lakes, the score being 13 to 7, was still an interesting one, and on account of a number of the plays by the visitors, almost a brilliant one. It was no secret that the Denvers would make every possible attempt to demoralize their opponents, with a view to shutting them out. They went at once to work with this view, and succeeding in getting three men on bases, commenced by a series of runs, sneaks and darts, in their effort to get the boys rattled. Singular to relate, however, the boys passed the ball around swiftly and coolly, and actually succeeded in capturing all three men as they frisked around and between the bases. The crowd cheered immensely as the first whitewash was thus secured.

In the second inning the Denvers made four runs. In their second, the Salt Lakes made three; and at the end of the fourth the score was a tie 5 to 5, a result which was received with the greatest enthusiasm. The Salt Lakes could not hold their opponents; and at the end the score stood as announced below.

The great feature of the day was the playing of Larsen. He made one base hit, one two base hit, and achieved a home run, the second which has been recorded in the history of the Denver grounds. The enthusiasm of the crowd was such as almost to interrupt the progress of the game and the yells did not diminish until Larsen had doffed his cap and threw a kiss. After that, when he appeared at the bat, he was invariably applauded. West played an off game throughout. Both he and Margetta occupied the pitchers box.

THE SCORE. Following is the score: DENVER.

Table with columns: Names, AB, R, H, E, Errors. Rows include Miles, Ryza, Hager, Hudson, O'Brien, Brown, McDonald, Sullivan, Marton, Total.

SALT LAKES.

Table with columns: Names, AB, R, H, E, Errors. Rows include Larsen, Hudson, West, Beas, G. Golding, Beck, Barlow, Margetta, Hall, Total.

SCORE BY INNINGS. The score by innings is as follows: DENVER, 1 2 3 4 5 6 7 8 9—Total 13; SALT LAKES, 0 0 1 0 1 0 1 0 1—7.

Earned runs—Denver 2, Salt Lakes 1. Walks—Larsen 1, Margetta 2, West 3. Passed ball—Ridges 3. Struck out—By Marton 5, by Margetta 4, by West 3.

Bases on balls—Off Marton 2, Off Margetta 2. Left on bases—Salt Lakes 6, Denver 7. Double plays—West to Barlow and Barlow to Golding. Home run—Larsen. Two-base hits—Hudson, O'Brien, McDonald, Larsen, Peck, West. Three-base hit—Larsen. Time of game—Two hours.

The attendance was a large and brilliant one, Sunday being the gala day here as in all other parts of Colorado.

Notwithstanding the fact that they have been invariably defeated, the boys all feel that they have had the best of times, and all realize that their experience with the skilled teams with which they have come in contact will be invaluable to them. All speak in the highest terms of the generosity and courtesy of the D. & R. G. officials, through whose efforts the trip was rendered possible.

All contracts were promptly met at Leadville, Pueblo and Denver, and the money guaranteed by each city: \$300 from Leadville, \$300 from Pueblo and \$400 from Denver, were at once paid; though the rain throughout interfered so materially with the attendance that each of the home clubs was an actual loser by the result.

After paying all expenses, each of boys received between \$35 and \$40, which, added to the enjoyable time they have passed, and the experience they have gained, renders the trip, despite its defects, anything but an unpleasant one. G.A.X.

RETURN OF THE VANQUISHED

The First Instalment of the Great Defeated.

Seven of the Salt Lake baseball team—West, Ridges, Beas, Margetta, Kelly, Golding, Peck and Joe Barlow—arrived home last evening, and were met at the depot by a few friends. Most of the boys at once repaired to their "respective places of abode," and shortly after some of them showed up at their headquarters, where a large crowd had gathered to greet them.

West's appearance was the signal for a general handshaking, and a few minutes later the assemblage was called to order and Pete Tomney nominated for chairman. A secretary was also elected, and the meeting declared ready for business.

S. A. Kenner was then called for, and stepping out from the crowd he produced a peculiar combination of weeds, flowers and vegetables which he alleged was a bouquet. A large bet was the most conspicuous "flower" in the collection, and the orator took occasion to call the attention of his audience to the appropriate and fitting symbol. At the conclusion of his remarks, he handed the bouquet to West, amid a howl of applause.

Not yet, however, was the programme over. Stepping aside, the speaker was handed a huge leather medal, decorated with red and blue ribbons, and a neat bow of crape. On the bar were the words: "Leadville, Pueblo, Denver," and beneath on the medal proper, which was in the shape of a cipher, the inscription in black and gold:

"Presented to the Salt Lake B. B. Club, For Honors Won in the East. A Token of Esteem from the Citizens of Salt Lake."

Another appreciative howl went up as the orator of the evening held it up at arm's length to the gaze of the admiring crowd, and proceeded to make a presentation speech, at the conclusion of which the medal was handed to West, who proudly donned it amid a storm of applause, when the meeting was adjourned to practice at the bar.

Hall and Larsen will return home this evening, having waited to witness the Denver-Leadville struggle of Monday.

The boys all feel well, and have enjoyed the trip immensely.

CITY COUNCIL.

Our Municipal Fathers Hold a Session, Brief and Unimportant.

A petition was submitted from H. F. Evans and ninety-five others, directing attention to the present condition of First South Street, at the point of intersection with Fifth West Street, and also to the streets leading south and west from that point. They asserted that the place was positively dangerous after dark, to persons unacquainted with the locality, and dangerous to teams.

Other places in the same locality were also in like condition. The petitioners asked that curbs be placed at the crossing of Fifth West Street, to conduct the water, and that the necessary improvements be made on the streets named, by graveling, etc.

Referred to the committee on streets and alleys.

Bishop Joseph Warbur complained of the water in the basement of the First Ward Meeting House which he said was two feet deep, caused, as alleged, by seepage from the Jordan and Salt Lake City Canal, and asked that a committee be sent to provide relief. Referred to the committee on Jordan and Salt Lake City Canal.

Adam Speirs, alderman and justice of the peace, submitted a report of the business transacted in the Police Court for the month of June, showing as follows: Cases tried, 168; dismissed, 17; cash fines for month, \$1,375.70; labor cash fines, \$284.50; amount appealed, \$157.85; not paid, \$22. Referred to committee on police.

An appropriation of \$1,000 was made to the contingent fund of the supervisor of streets.

Adjourned for one week.

ACCIDENT IN PANGUITCH.

An Infant Loses Its Life by Drowning.

Correspondence of THE HERALD. Our town was thrown into a state of mourning on the 23d inst., in consequence of the sudden death by drowning of the infant daughter of our esteemed citizen, Albert DeLong, which occurred on the above date at the Mammoth Mill, situated fifteen miles south of Panguitch. It appears that the little girl in question was playing a short distance from the house, as was her wont to do, in company with other children, and in the innocent ramblings wandered to near the fatal spot, and losing her balance was precipitated head foremost into the creek, at a point where the water is dammed up for the purpose of churning, thus forming a rather deep hole in the creek. The child was almost instantly seized by the anxious mother and other members of the family, and a search for the little one was immediately begun, which resulted in the finding of the lifeless form of the child as above stated. All that possibly could be done under the circumstances to restore the child to life, was resorted to, but all to no purpose, as life was extinct. The child was a little over 1 year old, and an exceedingly bright and intelligent little girl. The bereft parents and relatives sadly feel and deplore the loss of their little darling, and they have the entire sympathy of the community in their sad bereavement. The funeral, which took place at 10 o'clock a. m., on the 27th inst., from the First Ward Meeting House, was largely attended, and the different speakers on the occasion rendered appropriate and consoling remarks, which, to a certain extent, had the effect of alleviating the sorrowful feelings of the grief-stricken parents. A very large concourse of people paid their respects to the deceased by following the remains to their last resting place.

Owing to the above calamity, our programme for the celebration of Pioneer Day was somewhat dispensed with, out of respect for the deceased; however, at early dawn on July 24th, the Stars and Stripes could be observed floating proudly to the breeze from the cupola of our new and elegant brick Tabernacle, and also from the dome of the postoffice. At 2 p. m. the people assembled in the large Tabernacle, and were called to order by the marshal of the day, when the programme was commenced, which consisted of speeches, songs, vocal and instrumental music, recitations, toasts, etc., after which amusements and various games were indulged in by the children, and a social ball for the adults in the evening. Taking into consideration our sorrows and joys on this day, being blended in one, the day passed off as merrily as could be expected.

Very respectfully, J. M. DUNNING.

PANGUITCH, July 25, 1885.

A PERILOUS POSITION.

Two Little Children in a Lively Runaway.

At about the same hour as the fire alarm was sounded, yesterday, a span of horses attached to a heavy country wagon, came dashing along past the City Hall, with a couple of small children clinging frantically to the sides of the box and being bounced up and down in a manner that every moment threatened to throw them headlong to the ground. Scores of excited people rushed from the stores, and a number endeavored to catch up with the runaway, but without success. The animals increased their speed, and the crowd gained in numbers, until two or three more blocks had been covered, when the outfit was brought to a sudden stop by a couple of firemen who were on their way to the Hall. The only injury sustained by the little ones was a bruise or two and one of the most severe shakings they have ever had in their lives. The escape, however, from instant death, was almost miraculous. The runaways were brought back to Main Street by Ted Taylor.

YESTERDAY'S ALARM.

A Good Deal of Noise and Dust, but no Damage.

The fire alarm turned on at 3:15 yesterday afternoon was caused by the burning of a pile of manure at the residence of F. A. Mitchell, corner of Eleventh East and First S. 10th Street. During the afternoon reports came from the residence of the gentleman that the barn was burning, and again that the barn had been consumed by fire. The truth of the matter, however, was that neither of the places mentioned was even singed, the blaze being located some distance from either of them. Loss nothing.

BEFORE MCKAY.

A Woman Threatens to Blacken a Man's Eyes.

Jacob Bai, a resident of the Eleventh Ward, appeared in Commissioner McKay's office yesterday, as complainant in a charge brought against Elizabeth Aggett, a neighbor, in which he alleged she had threatened his wife, and also intimated that she would take a great deal of pleasure in giving him a couple of eyes of ebony hue. Several witnesses were brought out on each side, in the course of the examination of which it was learned Bai was an exceedingly "hard" man to have for a neighbor; that he had killed a number of ducks belonging to defendant, and that Mrs. Bai had used language scarcely fit to be tolerated in polite society. On the other hand, Bai claimed that his life was in danger, that Mrs. Aggett had threatened to whip him, and he felt sure she was able to and would do it if she ever got the chance.

The Commissioner continued the case for thirty days, with the understanding that the Aggett family was liable to be brought up at any time if they misbehaved themselves in any way, or troubled their neighbors.

Yacob Bai, notwithstanding his testimony to the contrary, is evidently considerable of a nuisance to all residing in his locality. He is a frequent complainant at the Police Court, and has never yet been able to make one of his charges stick. He went to the city Prosecuting Attorney last week with the same complaint filed in the Commissioner's office, but the frequent failures to make a case had so disgusted that official that Bai had deposited enough money to pay costs in case of another failure. As a consequence the Commissioner was resorted to.

Baseball in the South.

SPRINGVILLE, July 26, 1885. The Democrats of Salt Lake City and the Resolutes of Springville, met on the diamond field, at the latter place, yesterday, and indulged in a social game of baseball. At the close the game stood 35 to 7 in favor of the Democrats. The Resolutes were playing in the absence of some of their best players. They would be pleased to meet the boys again in the near future, when they feel assured of showing better results. The game as a whole, however, was lively and interesting and one that showed some remarkable good players on both sides, especially the Salt Lake boys. DIX, A. CITIZEN.

"NOW that the 24th has passed without the bloodshed predicted by the Tribune, the question in my mind is, what is the next fool scare the 'American gentlemen' of 'good-eating' 'bumkiesim' propensities will inaugurate with which to help paralyze the industries of the country."—Castile Merchant.

The King.

As the heart is the chief of all the human organs, so a medicine that will keep it in order may justly be called the "King of Medicines." This is what Mr. George D. Spangler, of Harrisburg, Ohio, calls Brown's Iron Bitters. He writes that for months he was suffering from heart disease. The best physicians failed to cure the difficulty. After using one bottle of Brown's Iron Bitters, he says: "I feel like a new man, and I judge another bottle will fully destroy the dreadful disease." It also cures dyspepsia, indigestion, etc.

The Mails Again.

EPHRAIM, Utah, July 27th, 1885. To the Editor of THE HERALD:

IS THE DAILY HERALD changed to a tri-weekly, or what is the matter? Only three copies to hand in one entire week. If THE HERALD is at fault acknowledge your error and do better, if the lynching system is to blame have them reform or banish them to Siberia.

In these critical days, when the most prominent warriors of the nation cannot keep at bay our common enemy—death, when the militia of several of the States and Territories are sheltering in their boots because of the anticipated Sunday School Jubilee; and when the illustrious "American citizens" of Salt Lake are pulling up their coat sleeves to make the mournful "Mormons" happy—it is not a time for editors to feed the public on half rations. A Necessity of Health.

It is a prime necessity of health that the action of the bowels should be kept regular. But the way to overcome a temporary fit of constipation, or to remedy chronic costiveness, is not to deluge the stomach and drench the bowels with purgatives of violent and painful action. The happy medium between an insipid and violent cathartic is Hostetter's Stomach Bitters, which acts just sufficiently upon the bowels to relax them, without pain, and which, being a wholesome tonic, as well as aperient, has the effect of strengthening both them and the stomach, and promoting the well-being of the whole internal economy. The removal of bile from the liver, increased activity of the liver, usually dormant in cases of costiveness, and sound digestion follows the use of this beneficent medicine, as thorough and genial in its effects as it is safe and pure in composition. Rheumatism, fever and ague, kidney troubles and debility are also remedied by it.

A Good Sloger.

St. GEORGE, U. T., July 29, 1885. Singer Manufacturing Co.:

The sewing machine of your manufacture which I had the good fortune to draw in Park Hazlett Distribution of April last at Salt Lake City, has now been in constant use in my family for two months. We find the machine is well made, elegant in appearance, very light running and simple in construction. Everything about it is handy, and having tried it on all classes of family work, we find all the attachments work beautifully. In short, we find the machine fills the guarantee of its manufacturers fully, and I can truthfully recommend it to all who desire a really first-class, honestly made, light running sewing machine.
