

VOL. XVI.

EMBARRASSING.

The Alabama Claims Question Redivivus.

Palaver of the Parnellites.

Moderate Redskins—The Cholera Daily—Hardy Explorers—Still the Storm—Northwest Frost.

Very Embarrassing.

Washington, August 25.—The first Comptroller of the Treasury to-day made a ruling that is likely to embarrass the ruling commission of the Alabama claims for some time to come. It is to the effect that the employment of two or three persons borne on the rolls of the court is entirely without warrant of law and that no payments can legally be made from the Treasury on their account in the future. Mr. Andrew H. Allen, disbursing agent of the court, recently made requisitions on the Secretary of the Treasury for \$9,000 to meet the current expenses of the court. In the usual course of business the requisition came before the first Comptroller and he decided to make an investigation into the affairs of the court before authorizing the issue of the necessary warrants. His conclusions are summarized in the following statement, prepared by him for publication: The court of claims was created in 1874, to hear the proof of claims to be paid out of \$15,000,000 awarded by the Geneva commission. It was continued by various acts, and on December 31st, 1877, it was constituted of three judges, with an annual salary of \$10,000 each, a clerk at \$3,000, a stenographer at \$2,500, and an attorney to represent the United States at \$3,000. Provision was also made for the rent of courtrooms, furniture, stationery, fuel and other necessary incidental expenses. All of which were to be paid out of said fund before the judgment was rendered. The court was reorganized in 1882, with the same officers and salaries as before, except that the number of judges was reduced to three. The Comptroller in investigating the case, found that outside the above-named officers there were on the pay roll, the names of assistant counsel for the United States, clerks to said counsel, expert clerks to experts, messengers, watchmen, etc., whose aggregate salaries amounted to about \$31,500 per year. He also found, in the quarterly returns, that there has been paid to other assistant counsel over \$5,000 for the quarter ending December 31, 1884, and about \$7,000 for the quarter ending March 31, 1885, besides other alleged illegal payments. He says he finds no law authorizing said payments, and after consulting with the Acting Secretary of the Treasury and with the Solicitor of the Treasury he has decided to stop all future payments of the same.

The Hardy Explorers.

SAN FRANCISCO, August 25.—Lieutenant Parcell, who went with Lieutenant Stoney to Alaska to explore the Great Potomac River, returned home yesterday on the whaling tender Thomas Pope. Parcell reports that before proceeding up the river the party visited the newly formed Hogback Volcano. They noticed but little change in it except less smoke and a sand spot was forming to the westward of it. On July 8th Stoney reached William Inlet, into which the Potomac River empties. He intended to ascend the river as far as his large steam launch would carry him and then go into winter quarters. The party would then divide up into sledging parties for the purpose of exploring the Northern Alaska. As soon as navigation opened, he intended to come down to Potomac River and explore the North River, which empties into the inlet north of Potomac. Parcell respects the party all well. At the time he left the expedition he intended returning here next fall.

Still the Storm.

JACKSONVILLE, Fla., August 25.—At Newport, yesterday, there was a violent storm. The Atlantic Ocean was blown down and Mrs. Gilbert Hunter severely injured. All the guests of the house, about thirty women and children, were exposed for hours to a furious, driving wind and rain. News from Fremontina shows great damage done to the buildings, boats and shipping, and guests at the Strathmore House, on the beach, were driven into the town for refuge. No lives were lost there.

Not Much Damage.

MONTREAL, August 25.—Regarding the reported destruction of crops in the Northwest by frost, General Manager Van Horn, of the Canadian Pacific Railway, has received the following telegram: "Considerable amount of grain has been harvested. The frost last night was very slight, delicate flowers and garden vegetables were not affected. The reports from every station to-day state that no damage has been done to the uncut grain. Harvesting is in full blast."

Caught by an Octopus.

A diver who was trying to find pearls off the Alaska coast, found none, but found himself, all of a sudden, in the grasp of an ugly octopus with arms twenty-seven feet long. Such an experience is rare, but there are thousands of people who are caught by dyspepsia, which is quite as bad. An octopus hates to let go. So does dyspepsia. Dr. J. B. Keyser's Iron Bitters cures dyspepsia and makes it lose its cruel grip. Mrs. Schmidt and her long daughter, of 130 Con-way street, Baltimore, were both cured of dyspepsia by the use of Brown's Iron Bitters.

Parnell's Palaver.

DUBLIN, August 25.—Parnell's managers held a secret meeting here to-day to select candidates for the coming campaign, and to discuss the further policy of the home rule party. Mr. Parnell himself presided over the meeting, and it was resolved to advise all home rule constituencies to select no candidates without first consulting with Parnell and to vote for none who would not give pledges to act with the party as a unit in Parliament. It was also resolved that candidates should sign a pledge to vote and act with the Parnellites, and to resign, if the majority of their colleagues so ordered. Addressing the public meeting, Parnell said that the triumph of the Irish cause was assured, whether the Whigs or Tories won the elections. The Tories would give as good a scheme for self government as the Whigs. "Let Irish farmers," he said, "support the league, and prove that they will not allow landlords to trample upon them during the ensuing winter."

Mr. Parnell said that it had been the league's policy to support the evicted tenants to the utmost where it was shown that they were determined to suffer for principle, and thereby encourage the tenantry generally. He was glad to say that the policy had succeeded. Many evicted families had been restored to their holdings, their arrears cancelled and a reduction of 15 to 20 per cent. in rents obtained. The indirect results were even greater. Landlords feared to evict unjustly and hundreds and thousands of families thereby escaped eviction. It was the duty of tenants to subscribe freely for the support of those evicted. "If we use judgment and moderation," he continued, "we shall see the two English parties competing to settle the Irish question. There is something solemn and dazzling in the thought that we belong to a generation about to witness the finish of the struggle lasting 700 years, opposed by such tremendous obstacles and ends. (Cheers.) Only the Irish can defeat themselves. English Parliament cannot defeat us. (Cheers.) We have met, and to be beaten is the worst that England can do."

All Along the Line.

SULLIVAN'S ISLAND, August 25.—A hurricane last night and this morning was terrific and destructive. A number of houses on Sullivan's Island were blown away. The new Brighton Hotel had over 100 guests and great fears were entertained for their safety. About 9 o'clock this morning the storm reached its greatest velocity. At that hour, while the boats were at anchor, the Casino fell with a crash that building had been vacated. There were grave apprehensions that the dining room and main building would soon succumb to the violence of the storm. At 9 o'clock the wind changed from the southwest. When the Casino fell, it is thought that the maximum of the storm was from sixty-five to seventy miles an hour. The main building of the hotel is intact, having stood the storm without very serious damage. At 10 o'clock it was entirely over. The loss to New Brighton will be \$30,000. There has been a general destruction of property on the island. The island was in the main submerged, but when the wind changed the waters receded.

Murderous Redskins.

SAN FRANCISCO, August 25.—A Nogales, Arizona, special says: The murder of three Americans and eight Mexicans at Basachuca, by the Arachas has been confirmed by Agapito Franco, who arrived here yesterday from the scene of the crime. TOMSONE, Arizona, August 25.—Sixty Apaches made a raid on Friday last on the ranches near San Pedro, Mexico, forty miles south of this city and carried off a number of horses. The raid was witnessed by a squad of Mexican soldiers, but no interference was attempted. The report reached here to-day that the San Bernardino ranch, famous in connection with Indian hostilities, had been abandoned owing to the bold depredations of the hostiles. A party of armed citizens left here for the Mexican border to assist in driving the Indians from United States soil.

Cholera.

MARSEILLES, August 25.—The cholera panic has now extended to all classes in the city, and all who can get away are resorting to flight. Deaths from cholera have occurred in many of the villages and towns in the department of Rhone. In Lancon eight fatal cases of cholera have been reported; in Grans, three, and in St. Chamans, two. Besides these several cases of cholera exist in Istres, Morguane, Aig and Arles. It is also reported that five persons have died from cholera in Sisteron.

Another One Gone Wrong.

COPENHAGEN, August 25.—The cashier of the Landmanns Bank, of this city, has been arrested. He has embezzled 132,000 kroner.

Life in the Paris Sewers.

It is possible, for the short time in the robust, but the majority of refined persons would prefer immediate death to existence in such a dwelling. Dr. Pierce's "Golden Medical Discovery" restores normal purity to the system and renews the whole being.

Poor McCullough.

PHILADELPHIA, August 25.—George W. Arundel, who was a commissioner in Lunacy, appointed by the court to inquire into the mental condition of the actor, John McCullough, has just returned from a visit to the Bloomingdale Asylum, where Mr. McCullough has been placed under treatment. In speaking of the unfortunate actor's condition, he said: "Mr. McCullough's condition is that of a decrepit old man. I tried hard to waken his recollection of himself. He labored in his endeavors to place me, but gave no evidence of recognition. As I was leaving the doctor and Mr. McCullough went with me to the door. The latter clasped the doctor's hand, and bade him good day, as if he was going to leave with me. The doctor tells me that his condition is hopeless, and that his death is only a question of a few months."

A Sweeping Storm.

FREDRICK, August 25.—For the third time this summer a heavy storm swept over Frederick County to-day. The Catoctin River, running through Middleton Valley, overflowed its banks and carried away everything that offered obstruction. Barns, bridges and dwellings were demolished, and fully \$15,000 damage was sustained. Several bridges have twice been swept away within the past three months, and the loss fall to the poor farmers, who can ill afford it. Considerable damage was done to the growing corn throughout this section of the State.

Smallpox.

MONTREAL, August 25.—The rush on the public vaccinators of persons who wish to be vaccinated is so great that policemen have been detailed to keep the crowd in order. About eighty cases were reported to-day, but only a portion of these have been investigated by the health officials. A case of smallpox is reported at Stroz Parish. It is reported the disease had broken out at Michelin, some miles from Montreal. It has also broken out at Farnham.

Mutual Assurance.

BOSTON, August 25.—The tenth annual convention of the Mutual Life Benefit Association of America opened this morning, with President E. F. Phelps, of Galesburg, Ill., in the chair. About thirty gentlemen, representing societies in all parts of the country, were present. President Phelps delivered his annual address, taking a very cheerful and hopeful view of mutual insurance, as did also the Executive Committee in its report in the afternoon.

Bringing in Bandits.

NEW YORK, August 25.—A Laredo, Texas, special says: Five bandits were brought in yesterday by a company of soldiers, who captured them after a desperate fight, in which three bandits were killed and two soldiers wounded. One of the bandits was Juan Chetarra, aged 18, who is said to have killed six people. He was a brother of Calcedonia Chetarra, which was hanged here on the 14th instant.

Helping the English.

SPAKIN, August 25.—Two hundred and forty friendly natives, in their own steamboats, accompanied the English steamer 140 miles north of here on the Red Sea, to the village of Shinat, which was attacked and destroyed. The British and their allies in this battle killed a large number of hostile Arabs who inhabited Shinat, and captured enough grain and cloth to make a cargo.

The Boy: Cyclist.

WASHINGTON, August 25.—At the bicycle race last night, between John Brooks, champion of Pennsylvania, and Woodside, Irish champion, the American records at various distances were broken, and the twenty miles race won by Brooks, by five feet, in one hour, two minutes and forty-one seconds, beating the best American record five minutes and two seconds.

A Thread Tie.

NEWBORT, R. I., August 25.—Theodore Frelinghuysen, son of the late ex-Secretary of State, was married this morning to Miss Alice Coates, daughter of James Coates, of the firm of J. & P. Coates, of Scotland. The floral decorations were beautiful and profuse, and the presents many and magnificent.

Baseball.

ST. LOUIS, August 25.—St. Louis 13, Buffalo 7. CHICAGO, August 25.—Chicago 8, Detroit 0.

The Test of Experiment.

Let those, if any such there be, who question the efficacy of "GLENN'S SULPHUR SOAP" as a means of preventing and obliterating complexional blemishes, give this harmless cosmetic a fair and honest trial. There is no test like experiment to convince the judgment, and to that test Glenn fearlessly appeals. Remember that "GLENN'S SULPHUR SOAP" differs entirely from the dangerous cosmetics, and contains no deleterious substance. Beware of counterfeits. See that "U. N. CANTONER" is printed on each packet, without which none is genuine. Sold by druggists at 25c., three cakes 60c. Coupled with this appointment of the toilet, "HILL'S INSTANTANEOUS HAIR DYE," finds its place in the dressing rooms of fashion. Time is inexorable, and damages must be repaired; but with these two articles he may be long held at bay.

To the rescue with Hale's Honey of Horehound and Tar before the baby strangles with croup. Pike's Toothache Drops cure in one minute.

THE PROHIBITIONISTS

Giving the Pennsylvanians Cold Water.

THE POOR, STARVING UTES.

I Don't Want a Duel—A Mild Storm—A Carolina Cyclone—New Postmasters—Two Much Water.

Cold Water People

HARRISBURG, August 25.—The State Prohibitionists assembled in convention this morning. There are over 100 delegates present. M. A. Stevens was chosen permanent chairman. Ex-Governor St. John was brought in amid much applause and made a brief speech. The committee on resolutions reported a platform advocating in general the prohibition, importation, manufacture, and sale of intoxicating liquors for the purpose of use as beverage, or that, failing to procure redress for wrongs inflicted from its evil by the people to the Legislature through either party, the prohibition party has been organized to right at the ballot box, that no vote shall be cast for any man who does not stand upon their platform; that they endorse the Woman's Christian Temperance Union and congratulate them upon the success attained in the Legislature last winter; that the qualification for national and State officers should be based upon proved capacity and faithfulness, not on party consideration. That civil service reform was favored in its extension and application to all purely administrative and clerical positions; that the "spoils system" must be eliminated from the political contest; full protection to every vote should be secured, and disfranchisement be a penalty to all who, in any way, corrupt or interfere with the ballot; that the Sabbath day should be protected from profanation by secular pursuits and pleasures. Labor and capital should be such as to secure equal protection to both. The platform also contains the following: That the Republican and Democratic parties, in their failure to carry out the mandates of the constitutions against the discrimination of freight rates on our public lines, carriage, and the appointment of the State into Congressional and assembly districts, merits the condemnation of the citizens of the commonwealth.

The resolutions were adopted as read, a campaign fund of \$1,000 raised by subscription and cash. Barr Spangler of Marinetta was nominated for state treasurer almost by acclamation, several other candidates receiving but a few votes. After appointing a state committee and electing officers convention adjourned.

The Starving Utes.

WASHINGTON, August 25.—The report of General Miles, upon the condition of the Southern Utes in Colorado, was received at the Interior Department this morning, and the Commissioner of Indian affairs immediately instructed the agent to secure supplies for the Indians. Bureau officers say that the trouble was caused by deficient appropriations for the purchase of food supplies. The department has endeavored to distribute the amount of the appropriations throughout the fiscal year, but to avoid starvation among the Indians it has been found necessary to set apart for each quarter, and to let Congress to make good the deficiency. In the case of the Southern Utes, there is an interest fund that can be used for the purchase of food when the regular appropriation is exhausted. Supplies amounting to 10,000 pounds of beef and 3,000 pounds of flour will be issued weekly to these Indians.

A Mild Storm.

SAVANNAH, August 25.—The storm, this morning, did but little damage to this city or to the rice plantation. At Tybee, a dwelling hovel was blown down, but no one was injured. The Carolina Clipper went ashore on the knoll inside Tybee, and the bark, X. Y. No. 1, on North Beach, half a mile south of the Tybee light. A dispatch from Darsen reports no damage to either shipping or rice crops.

Too Much Water.

SAVANNAH, August 25.—During the storm this morning the steamer Marion and two barges dragged their anchors and were driven ashore. They have shipped much water, but are lying comparatively easy, and can, it is believed, be released.

Full of Peril

Are those disorders which, beginning with an apparently trivial inactivity of the kidneys or bladder, terminate in Bright's disease, diabetes and cystitis. The first two not only interrupt the functions of the renal organs, but destroy their structure with as much certainty as tubercular consumption does that of the lungs. Hostetter's Stomach Bitters is an excellent diuretic, promoting the activity of these organs without over exciting them, thus averting the deadly maladies in which their inaction is so prone to culminate. It is removed from the blood of impurities which the kidneys should, but do not, when inactive, secrete, is another beneficent effect of this incomparable medicated stimulant and depurant. The Bitters is, in all cases, too, a fine restorative of vigor and aid to digestion, remedies malarial dyspepsia, and banishes liver complaint and constipation.

Warning!

How many people ruin their stomachs by swallowing cold drinks on a hot summer day, when they could avoid all danger by adding ten drops of Anger's Bitters, besides imparting a delicious flavor to their summer beverages.

A Carolina Cyclone.

CHARLESTON, S. C., August 25.—Charleston was struck by a cyclone this morning, and one-fourth of the houses in the city are unroofed; parts of the spires of St. Michael's and St. Matthew's Churches were blown down, and the spire on the citadel square of the Baptist Church is demolished. Wharves and warehouses are badly damaged. At Sullivan's Island two steamers are aground and the new Ashley River bridge, now constructing, is swept away. Four vessels which arrived yesterday are wrecked. Telegraph wires are down, and there are no cars running. The loss is estimated at \$1,000,000. The work of restoration has already begun.

Subject of Investigation

SAN FRANCISCO, August 25.—The appraiser's office in this city, under its former administration, will, it is said to-night, be made the subject of an official investigation. It has been discovered that large quantities of opium and other valuable merchandise have been systematically stolen from the stores by persons having entry to them. Many of the charges are alleged to be of the most serious character. The charges all date prior to the appointment of the present incumbent, Mr. Thomas Beck. Mr. O. L. Spaulding, special officer, sent here from Washington to examine into the affairs at this office, has been for some days busily engaged in drumming up witnesses and preparing a report which will be placed before the special government agent who is expected to arrive here from Washington next week. It is also intended that the latter shall specially investigate the customs service and the Chinese certificate business.

The Pauper Immigrants.

WASHINGTON, August 25.—The case of sixty paupers who were refused landing at New York, but who subsequently landed at Halifax, or one of the Canadian ports, and made their way thence to the United States, has been laid before the Treasury Department. Mr. Lyman, Chief of the Navigation Division, says there is no remedy; that the pauper immigrant law only applies to the landing direct from ships and is silent on the question of their coming by land. Congress will be asked to legislate on the subject.

Didn't Want a Duel.

BAN HABON, Maine, August 25.—Alfred R. Conkling scorns the idea promulgated last night of his having challenged anyone to fight a duel. He acknowledges, however, the remarks of the lieutenant in reference to General Grant, alluded to in the report, and is angry at his very much and a slight altercation of words only occurred. All endeavors to ascertain the name of the offending naval officer so far have proved futile.

New Postmasters.

WASHINGTON, August 25.—The Acting Postmaster-General to-day appointed the following named fourth class postmasters: In California—San Louis Rey, Simon Goldburn; Pacific, H. P. Carr. In Oregon—Prairie City, J. W. Mack; Fallouville, T. J. Mellier; New Era, W. A. Jesse; Amety, J. J. Jellison. In Colorado—White River, Joseph Mitchell.

Grace Hawthorne.

"Miss Hawthorne's success in the highly emotional character of Camille," says an informant, "has been a most pronounced one, she having received the highest praise from the press and public for her conception and rendition of the part. In Denver, on the occasion of her opening night, she received seven calls before the curtain, and after the great climax with which she concluded the last act, she was again recalled, although it was after 12 o'clock when the curtain finally descended. She is possessed of a rare magnetism which draws her audience to her, and holds them spellbound throughout the performance. Added to her power as an actress, Miss Hawthorne possesses her characters elegantly, and being considered the most handsomely dressed artiste on the stage." The New Orleans Picayune says: "Grace Hawthorne is a sensational Camille. Her make-up, tragic attitudes and stride, and business with upturned eyes, like Sarah Bernhardt, and then, again, the reminds one strongly of Clara Morris. In her emotional, tender and colloquial scenes, the house was packed to overflowing, and Miss Hawthorne certainly was a great surprise to all who saw her acting. She actually galvanised the part of Camille. She gave it new life. Miss Hawthorne knows every card in the game of acting, and takes every trick. She is indeed a great actress." The sale of seats begins to-morrow morning.

West Point Cadetship.

The competitive examination for the nomination as cadet to the United States Military Academy at West Point, will be held in the Desert University building, in this city, on Saturday next, 29th inst., commencing at 9 o'clock.

Before Operation.

After Operation.

J. B. KEYSOR, Herald Building.

One Set of Best Teeth.

Free, \$10.00; Pure Gold Filling, \$2.00 to \$4.00; Silver, Platinum and other Fillings, \$1.00; Extracting Teeth, 50c. All work guaranteed first-class.

Carp Culture.

The demand for the pamphlets "Carp and Carp Ponds" and "Carp and its Culture in Rivers and Lakes" has been so great that my supply is exhausted. I wrote to the Fish Commissioner for more, but through not having them in stock it is uncertain when they will be received. This will explain to correspondents who have applied why they do not receive the pamphlets. I have no blank application for carp on hand just now, but expect a fresh supply in a few days, when all orders will be filled. JOHN T. CAIRN, SALT LAKE, AUGUST 25, 1885.

BORN

ENGLER—Last evening, at 7:10 o'clock, to the wife of D. A. Engler, a daughter, weight 11 pounds, healthy and vigorous.

DIED.

HARTWELL—August 25th, at her home in the Twelfth Ward, Salt Lake City, after suffering from bronchitis for six weeks, Hortense, beloved wife of Elliot Hartwell. She leaves a large family and many friends to mourn her loss. Notice of funeral given hereafter.

DUNN—At Pleasant View, Sugar House Ward, August 23, 1885, Robert Dunn.

Born August 17, 1812, at Darley Bridge, Derbyshire, England. Died in full fellowship and good standing in the Church of Jesus Christ of Latter-day Saints. Funeral took place on Monday evening, 1st inst.
