

THE BALL PLAYERS.

Vignaux Beats Slosson by Big Odds.

BENCHMAN 600, SLOSSON 136.

The Victor Makes the Two Lengths Run on Record and is Dubbed the Champion.

The Billiard Tournament.

CHICAGO, November 20.—Slosson and Vignaux met again to-night in the billiard tournament before a large audience. The game was one of especial consequence as, if Slosson won it, he captured a big pile of money, while should Vignaux win there would still be a chance to tie all round, if Schaefer beat Slosson to-morrow night.

In the betting, which was quite brisk, Vignaux commanded odds of 100 to 80. Slosson appeared in a close-fitting Cardigan jacket, while Vignaux doffed his black dress coat and played in shirt sleeves. The bank for lead was won by the Parisian, who quickly gathered the balls on the left hand rail, where they lined after the ninth shot, and he failed in a masse stroke. Slosson found them fairly grouped, but lined them on his first shot; he massed to the cushion and counted, securing a good position thereby. He soon organized the worries at the head rail and by judicious and careful drives to the sides and ends, he beat the record of the tournament for the biggest opening run, which ended at 77, with a miss on an easy direct carom. He left Vignaux a very hard across-the-table cushion shot, which he made, but after making a second shot the balls broke absolutely safe and he stopped. Slosson's run of 24 in the second innings ended with a miss of a very mean draw shot, when his ball was against the rail. The call was—Slosson 10, Vignaux 11.

When Vignaux went to the bat in his third inning he found the balls very stubbornly inclined, and had a succession of the toughest possible breaks, but overcame them with masterly power and kept on clubbing out billiards; the balls stopped in line at least a dozen times, compelling him to play masse and bank shots. He proved equal to every emergency, and played as if he would never stop. After a time the balls grew more tractable, and at 100 he had a handsome walk-line position at the lower end of the table and held it for twelve shots. Then he changed to the side rail and kept in, and when he beat his own run of 100, the audience cheered vigorously. He stopped at 195 on an easy one-cushion shot. At Slosson's first shot the balls lined safe on him and he missed. The call now was—Vignaux 205, Slosson 161. Vignaux made a terrific draw, nearly the length of table, for the opening shot in his fourth inning, and stopped at 32 on an easy spread. Slosson had to go around the table and missed. The French terror now cracked out another big run, making his billiards as though nothing could be easier. At 59 he narrowly missed a simple masse. Slosson could do nothing in his next two innings, and Vignaux missed a long cushion shot with English on his sixth, at the end of which inning the score was 337 to 111 in his favor. Vignaux caught on again in his seventh inning and pounded out some more stunning billiards. There was very little ball-line in this run, but there was some tremendous execution. There is nothing to say of this big playing except that it was count, count, count, all the time, with long drives and short drives, draws, masses, forces, follows, banks, and all the known technique of billiards. Slosson, who saw \$5,000 slipping from his grasp, stood by and watched his downfall with a wan and hopeless face. When Vignaux had finished his run of 174 he was exactly 400 points ahead—511 to 111. Slosson seemed to feel lighter-hearted now that he knew he was beaten, and in his seventh inning played very prettily until he failed on a long one-cushion stroke and left the balls in the middle. Vignaux proceeded to run out the game, having accomplished the greatest record ever known at billiards. The game occupied 1 hour and 50 minutes. The feeling now is that Vignaux has under-played in practice, and that he is unquestionably the greatest billiard player on earth. Following is the score: Vignaux—9, 2, 195, 32, 99, 0, 174, 89; total, 600. Average—75. Highest runs, 195, 174. Slosson—78, 24, 1, 0, 2, 7, 25; total, 136. Average—19.67. Highest run—77.

Caceres Defeated.

LIMA, via Galveston, November 20.—An official dispatch from the Prefect of Junja states that Caceres has been defeated by the first division of the government forces, who cut off his retreat by Huariapampa. Caceres lost heavily in killed and prisoners.

Fornist Parnell.

LIVERPOOL, November 20.—O'Shea, who was the member for Clare in the Parliament just closed, will oppose Parnell in the contest for the member for the exchange division of this city.

The Iron Interest.

Whether we should finally decide on Protection or Free Trade in iron may make considerable difference to the capitalist and iron-workers. To the person who suffers from debility and languor the most important question is as to the proper amount of iron in the blood. If this is not present there will be misery, faintness, weakness and wretchedness. The only reliable iron preparation for the blood is Brown's Iron Bitters, which enriches, strengthens and renews the whole system. Every reputable druggist keeps this preparation of tonics, and sells it a dollar a bottle.

Change the Rules.

WASHINGTON, November 20.—Speaker Carlisle said to a Republican reporter to-night, in speaking of the plan proposed by Springer to change the rules of the house, that the plan did not originate with Springer. "Ever since the forty-sixth Congress," he said, "there has been dissatisfaction at the present rules, and this movement is the result of that dissatisfaction. From what I hear, and the strong advocacy the plan seems to have, I think it is probable that the rules will be changed." He said the plan to distribute the appropriation freer amongst committees is not an attack on Mr. Randall any more than one else, as the same dissatisfaction was manifest when Mr. Hisscock and Mr. Atkins were at the head of the appropriations committee. "I have no desire," he said, "to take away any of Mr. Randall's power, and I don't think there ever was any such feeling. The complaint is that the handling of all the appropriation bills is too much work for the appropriation committee. A change would, of course, facilitate legislation. Mr. Carlisle said he favored the distribution of bills to the proper committees, except the sundry, civil, legislative and general deficiency bills, as they really belong to no other committee. He said that the proposed revision would work good results.

Conflicting Ideas.

WASHINGTON, November 20.—The Treasury Department has prepared a circular to the customs officers, relative to the statute regulating protests in customs cases. The circular sets forth that the statute that now regulates protests on appeals of suits when an importer complains of the duties exacted in excess on imported merchandise, was enacted more than twenty years ago, and there has been conflicting interpretations of its meaning by subordinate Federal courts which have not been finally adjudged by the Supreme Court. The views of the customs officer are called for, as to whether or not the existing law requires amendment.

How They are Bled.

NEW YORK, November 20.—At to-day's session of the committee on State Senate, making investigation into the affairs of the city government, two stenographers of the civil district courts testified to paying money liberally out of their salary towards election expenses and for other purposes. George Strasser, attached to Judge McCarthy's court, said he paid in this way \$1,200 a year out of his salary of \$2,000, and when he stopped these payments, he was discharged. Maurice J. O'Connor, stenographer in Judge William Kelly's court, testified to almost exactly a similar experience.

In Favor of Callan.

DUBLIN, November 20.—Parnell, having ordered reelection in Dunalk for delegates to the national convention of the south, because the former delegates were in favor of Callan for member of Parliament, an election was held, to-night. The result is in favor of the Callan delegates by majorities of five to one. Parnell's candidate is Joseph Nolan, manager of the Music Hall, Liverpool.

A Generous Giver.

ITHACA, November 20.—Henry W. Sage, the founder of the Sage Female College, Cornell University, has given \$10,000 to endow a professorship of ethics and moral philosophy in the Cornell University, in memory of his late wife. At a meeting of the board of university trustees to-day the gift was formally accepted.

A Re-election.

BERLIN, November 20.—Parliament to-day re-elected the president and vice-president of the last Reichstag. The Polish members gave notice they would question the government regarding the expulsion of the Poles from East Prussia. The Conservatives introduced a proposal for the holding of a quinquennial Parliament.

Death of a Forger.

LANCASTER, Pa., November 20.—Benjamin H. Longnecker, director of the poor of Lancaster County, disappeared last March, after embezzling \$5,000 of the trust funds. A body, found recently in Los Angeles County, California, has just been identified as that of Longnecker. The cause of his death is unknown.

The War.

LONDON, November 20.—Official admissions from Belgrade show that a panic exists there. The siege of Widdin has been raised, and General Loschjanin, who, with his division, has been carrying on the siege, is now marching to assist King Milan.

Guilty of Criminal Negligence.

DENVER, November 20.—A Silver Cliff special to the News says: The coroner's jury investigating the Bull Domingo disaster this evening found Foss, superintendent, guilty of criminal negligence.

Parnell.

LONDON, November 20.—Parnell to-day issued a manifesto to the Irish voters of Great Britain. He urges them to vote with the Conservatives in the coming election.

Carlisle Improving.

WASHINGTON, November 20.—Speaker Carlisle's condition is very much improved. He was able to leave his bed to-day.

THE WAR.

More Talk of an Immediate Armistice.

TROUBLE OVER RIEL FEARED.

President's Message—Fire—A Family Fuss—Assumes the Office—Heavy Rains in California.

BELGRADE, November 20.—After an exchange of dispatches between Count Kalauoky the Austro-Hungarian minister of foreign affairs, and M. Garachinze, Servian premier and minister of foreign affairs, the latter has gone to Pirot to remain with King Milan until decisive action has been taken at Slatiniza. Hostilities were in abeyance to-day in honor of the feast of St. Michael. The Servian guards conducting the prisoners to this city look fatigued and careworn.

LONDON, November 20.—The Times has advised stating that King Milan's advisers counsel him to propose immediate peace, whether Soga be captured or not and that the treaty of peace will probably be arranged next week. Prince Alexander has ordered the removal of the State archives from the treasury at Sofia to a place of safety. They will probably be taken to Shumla. The consuls at Sofia are removing their papers to Rustchuk and elsewhere. The Standard's Vienna correspondent says that some of the powers, including Austria, oppose Turkish mediation and insist that the conference at Constantinople should decide the Balkan question. A dispatch from Paris to the Temps says: Greece is expected to open hostilities by means of a naval exploit almost hourly.

CONSTANTINOPLE, November 20.—It is reported that the Privy Council has decided to send Djeval Pacha to Philippopolis as temporary Governor of Eastern Roumelia. This is virtually restoring status quo ante. BELGRADE, November 20.—The rumor prevails here that Prince Alexander has proposed an armistice.

Heavy Rains and Serious Washouts in California.

SAN FRANCISCO, November 20.—It has rained almost steadily throughout the State for five days. It cleared off this morning, but it is raining harder than ever to-night. The total fall for the month up to 8 o'clock this evening, is 8.07. This has never been exceeded, except perhaps in the year 1849, when 11.80 fell during October and November. Judging from the rainfall to-night, the probabilities are that before the present month is ended that record will be exceeded. Reports from Los Angeles to-night state that portions of the Southern Pacific railroad between Sepulveda and San Fernando has been washed out and San Fernando tunnel caved in several places. The damages, however, are not considered serious. A dispatch to-night states that Charles Crocker of the Southern Pacific company and a party who left some days ago for the east are detained by floods in the Colorado desert. They have started back on their return to this city. The Southern Pacific has sent out construction trains to all points where the washouts are reported. Heavy washouts are also reported on the California Southern Railroad, which connects with the Atlantic & Pacific road. The railroad bridge in Cajon Pass, on the California Southern, has been washed away and the Atlantic & Pacific track, near Ludlow station, has been badly washed out in several places. A cloudburst in Devil's Canyon near San Bernardino last night, destroyed the toll road for some distance. The gate keeper and family barely escaped drowning. Damages from the floods are also reported from many other points in the State.

RIEL. MONTREAL, November 20.—Strong police patrols are on duty to-night, ready for action in case any trouble occurs. Solemn requiem mass was celebrated at the Church of Notre Dame de Pitie this morning for the repose of Riel's soul, at the request of members of the Union St. Joseph. At a meeting of the Canadian Artisans' Society to-day, it was resolved to protest publicly against the execution of Riel, and to have solemn mass requiem chanted in the church of St. Jean Baptiste village, on the 26th instant, for the repose of the soul of the deceased chief. La Patrie thinks that the government is alarmed at the sentiment displayed by the French Canadians and Irish over Riel's execution and shrinks from the butcheries of the Indians fixed for the 27th. It says the Indians will be pardoned, but this act of mercy will be done too late and the past cannot be retrieved. The Club National and St. Jean Baptiste Society, to-night adopted resolutions condemning the execution of Riel. The St. Jean Baptiste Society also decided to have masses for the repose of his soul and asked similar societies in Ontario, United States and other places to do likewise. It is expected there will be forty speakers at the Champ De Mars meeting on Sunday. No disturbances have been reported to-night.

The President's Message.

WASHINGTON, November 20.—Assistant-Secretary Fairchild called at the White House to-day, at the request of the President, and had a long conference with him in regard to the operations of the customs laws and the general condition of the service under its present organization. It is understood that the President will make several important recommendations to Congress in his forthcoming message, looking to the general simplification and improvement of the customs service and to the prevention of many of the abuses and frauds alleged to exist under the present system. Fairchild has supervision over that branch of the service, and the President sent for him so as to secure the benefit of his experience and observation. It is said the President will pursue the same practical course in obtaining information on other subjects of his message to Congress.

Fire.

CLEVELAND, O., November 20.—A special dispatch to the Leader, from Sandusky, O., says: A fire broke out in the Erie County Infirmary to-night, and destroyed the main building. Five of the ninety-eight inmates perished in the flames. They were all in the north-west wing of the building when the fire originated. As the institution was two miles from the city, and as there were no facilities there for extinguishing the flames, considerable difficulty was experienced in getting water on the blaze. Two engines went from this city, but on arrival, the firemen found the building a mass of fire. While endeavoring to save the inmates, Superintendent Motry was injured and now lies in a precarious condition. The loss is estimated at between \$15,000 and \$20,000. The amount of insurance cannot be ascertained to-night.

A Family Fuss.

WASHINGTON, November 20.—Louis Sommerfield, a Pole aged 52, to-day shot and instantly killed his wife and Gottlieb Eisenbaum, at the latter's saloon in the north-eastern part of the city. Sommerfield's wife left her home some weeks ago and had been living at Eisenbaum's. This afternoon, Sommerfield entered the saloon and, drawing a revolver, emptied all the chambers, one of the shots passing through Eisenbaum's heart, while Mrs. Sommerfield was shot in the back. Sommerfield was arrested. He made no explanation, that his wife had left him and cheated him out of his money.

He will also be designated by the President to act as secretary in absence of the Secretary and of Assistant-Secretary Fairchild.

WASHINGTON, November 20.—Wm. H. McArdle, who was to-day appointed consul of San Juan Del Norte, Nicaragua, is an old newspaper man, and a particular friend of Secretary Lamar. He lives at Jackson, Miss. He was very strongly endorsed by all the prominent men of that State.

Preston L. Bridges, appointed Consul at Montevideo, Uruguay, was endorsed by both United States Senators and the most prominent men of North Carolina, as a man of special fitness for the place. He is a personal friend of Senator Vance.
