EDWIN BOOTH.

Seized with Dizziness While Playing with Salvini.

THE SHIP RAILWAY COMPANY.

The Southwest Strike—Missionaries in Japan—Labor Troubles—Other News Notes.

Booth and Salvini.

New York, April 29.—The second performance of Othello with Salvini and Booth in the principal roles at the Academy of Music last night was anything but a great presentation owing to the unfortunate condition of the American actor. From the very first Booth appeared to be in very poor form, his reading of the lines was uneven and there were instances where he lost the thread of his lines. As the play continued, his walk was ungraceful and positively unsteady. It was not, however, until the third act in the great scene with Othello that the growing apprehension of the audience was completely confirmed. After Othello, (Salvini) had thrown Iago to the ground in his burst of wrath, he assisted Booth to his feet again without disturbing, apparently, the natural course of the action. As Booth regained his feet, Salvini let go his hold and the American actor lost his balance, staggered backward and squatted down in front of the footlight rail. A few of the audience nearest the stage jumped forward as it seemed the actor was about to fall into the orchestra. He recovered his self-possession wonderfully and continued throughout the act. His conduct called forth some hissing, but the audience, pained as it no doubt was, seemed to extend their sympathy by encircling him as usual. The entrances and exits from this point were timid and made with a perceptible hesitant step. His great scene where Roderigo is killed was played with great force and he was warmly called before the curtain. He seemed to have recovered again but in the last act he weakened and his closing scene was extremely weak and with his hands tied behind his back his condition was too painfully apparent to even ordinary observers.

The actors of the Salvini-Booth combination who were assembled at the Academy of Music for the morning's rehearsal, discussed with much interest Booth's sudden manifestation of dizziness last evening. Booth reached the Academy a few minutes after 11. He said he had been affected by an attack of vertigo. "Similar attacks have troubled me often before," he added as he passed on. "Yesterday it was caused, I think, by a bilious attack."

The Ship Railway Company.

WASHINGTON, April 29.—The Senate committee on commerce to-day voted to make a favorable report on the New Atlantic and Pacific ship railway bill, as a substitute for the original ship bill. Ends and such others as may be associated with him are created a corporation with the title of the Atlantic and Pacific Ship Railway Company with power to issue capital stock and bonds, not to exceed in the aggregate \$100,000,000. The United States obligates itself to pay the company for the period of five years after the ship railway shall have been completed and tested, any sums of money required to make two-thirds of the revenues of said company as amount annually to the sum of \$3,500,000, provided the total liability of the government shall in no case exceed the sum of \$7,500,000. The obligation of the United States shall not attach until the railway shall have transported in the presence of a board of engineers appointed by the President of the United States, a loaded vessel, weighing with her load not less than 6,000 tons, at an average speed of not less than six miles per hour, and place her in a harbor on the other side of the Isthmus, without injury to the vessel. All the members of the executive committee are not in the city and no action can be taken until they can bring together a quorum. The committee asked this morning what the prospects for an early settlement were. The knights replied that they would consider the letter of the citizens' committee, but did not think the proposition contained in it would effect a settlement of the strike because it takes no cognizance of their grievances.

The Southwest Strike.

St. Louis, April 29.—The executive committee of the Knights of Labor have held no formal meeting as yet to consider the proposition of the citizens' committee looking to a settlement of the southwest strike. All the members of the executive committee are not in the city and no action can be taken until they can bring together a quorum. The committee asked this morning what the prospects for an early settlement were. The knights replied that they would consider the letter of the citizens' committee, but did not think the proposition contained in it would effect a settlement of the strike because it takes no cognizance of their grievances.

Missionaries in Japan.

Pittsburg, Pa., April 29.—At to-day's assembly of the Women's Foreign Missionary Society, the secretary read a letter from the missionaries in Japan, which sets forth the absolute necessity of strong treaty stipulations for the protection of missionaries. The Chinese outrages in this country, the letter continues, have caused the greatest indignation in China, and if they are continued, it is hard to tell what will be the result.

Indemnity Bill.

WASHINGTON, April 29.—The House committee on foreign affairs, to-day, ordered favorable reports on the Chinese indemnity bill and the Morrow Chinese restriction bill. The latter will be precisely similar to the bill ordered in a week and will contain the amendment to which the objections were made. It is the intention of the committee to have the indemnity bill first considered by the House.

Called to See ex-President Arthur.

New York, April 29.—A Washington special says: "Rev. Leonard, rector of St. John's Episcopal church here, has been summoned to New York to see ex-President Arthur."

Eight Hours' Work: Ten Hours' Pay.

MILWAUKEE, April 29.—Every planing mill of importance in the city is shut down to-day. The men recently organized an assembly of Knights of Labor, with a membership of about 500. A demand for eight hours' work at the present ten hours' pay was rejected by the proprietors. A strike was ordered and to-day every mill is shut down and will stay so until the men accept what the proprietors claim will be more reasonable terms. In addition to the Knights of Labor several hundred other workmen at the mills are thrown out of work by the shut down.

It is an Ill Wind, Etc.

New York, April 29.—The new employees on the Third Avenue lines show evidences of poverty that comes from a lack of work. All of them tell the same story of hardship. In many cases they are in abject need, through repeated failures to secure work. In not a few instances the hostility of the labor unions and of the Knights of Labor has prevented them from getting employment.

The Minister of War Resigns.

ATHENS, April 29.—The minister of war has resigned. The resignation is due to the fact that he did not coincide with the action taken by his colleagues during his absence at the front. The powers have approved the action of their representatives here in presenting the ultimatum to the Greek government.

Cabinet Crisis.

MADRID, April 29.—There is a serious disension in the Cabinet. The friction is due to the refusal of other ministers to yield to the demands of Secor Camacho, Minister of Finance, for economy on the budget, which he insists is necessary. A crisis is impending.

No Unjust Demands.

ST. LOUIS, April 29.—The furniture manufacturers of this city resolved that no objections will be made to the introduction of the eight hour system. If unjust or excessive demands are made upon any one of them, all will close down.

Saturday Half Holiday.

ALBANY, April 28.—The Governor signed Cantor's Saturday half-holiday bill to-day. The standard gas bill becomes law to-day without the Governor's signature, the time having expired.

Less Hours—Same Pay.

CHICAGO, April 29.—Freight-handlers on one division of the Northwestern Railway struck at noon to-day for eight hours' work and ten hours' pay.

A Costly Blaze.

LONDON, April 29.—Wilkinson's mills at Beoston, Nottinghamshire, together with many adjoining houses are burned; loss, \$750,000.

Closed Its Doors.

MARIETTA, Ohio, April 29.—The Bank of Marietta closed its doors this morning, having made an assignment.

Bankrupt.

LOS ANGELES, April 29.—Baron Headley is declared bankrupt.

H. E. GROW.

Electro-pathist, 112 W. South Temple Street, Opposite Valley House.

A lady assistant always in attendance.

City, April 27th, '86.

H. E. Grow: Dear Sir—Having suffered this winter with a severe attack of Rheumatism, also Pneumonia, I take pleasure in testifying to you that under your treatment of Electricity I have found great benefit and relief in both instances. Respectfully, Mrs. M. M. BARRATT.

SALT LAKE CITY, April 26, 1886.

H. E. Grow: Dear Sir—I am pleased to say that your Electrical treatments have been very beneficial to me in removing Neuralgia and Billious affections that have troubled me for a considerable time. Yours truly, Geo. CARLSON.

SALT LAKE CITY, April 27, '86.

H. E. Grow: Dear Sir—I take pleasure in stating that my wife has been benefited by your treatments. Yours respectfully, H. J. GRANT.

SALT LAKE CITY, April 26, 1886.

Mr. H. E. Grow: Dear Sir—Having suffered with Bronchitis and Catarrh for some time, I have derived a great benefit and comfort from your treatment, namely, from the application of electricity, which though in its youth, has shown great results. Respectfully, JAMES E. JENNINGS.
