DELEGATE ELECTION.

HEADQUARTERS People's Territorial Central Committee. SALT LAKE CITY, Oct. 26, 1886.

To the County and Precinct Committees, and Voters of the People's Party:

As the biennial election for Delegate to Congress will occur on Tuesday, November 2d, 1886 your attention is respectfully directed to the following suggestions:

County Committees should proceed at once to fill all vacancies in the Precinct Committees, and give them necessary instructions, pertaining to their duties at the approaching election.

Precinct Committees should arrange for the conveyance of ladies and infirm persons and use their influence to have all voters who are registered go to the polls on election day.

The Precinct committee should be present at the opening of the election, and two of their number continue at the polls until the election is closed. Remain and witness the count, as representatives of the candidate of the People's Party. Make a record of the result and report the same to the county committee. Observe and reel anything having the appearance of intimidation. Report immediately any irregularity or proceeding detrimental to the rights of voters, to the county committee.

Voters should be prompt at the polls on the day of election. Rights are sacred as the franchise should not be ignored. Exercise your privilege of citizenship and walk on November 2d to record a routing vote for the People's candidate.

The Territorial Central Committee. JOHN SHARP, Chairman.

Our Rapid Transitory Existence.

Brief as it is at the longest, is liable to be materially curtailed by our own indiscretions. The dyspeptic eat what they should not, the bilious drink coffee in excess, and the rheumatic, neuralgic and consumptive sit in draughts get wet feet and remain in damp clothes, and then wonder when they find how they became so. To persons with a tendency to neuralgia we recommend a daily use of Hostetter's Stomach Bitters, and always a wineglassful after unavoidable exposure in damp or otherwise inclement weather. Efficient protection is afforded by this pleasant safeguard which diffuses a genial glow through the system, invigorates and tones it and promotes nerve tranquility. Fever, and ague, biliousness, constipation, dyspepsia and renal disorder, are among the maladies which it remedies and prevents.

FOR THE RELIEF and cure of the inflammation and congestion called "a cold in the head" there is more potency in Ely's Cream Balm than in anything else it is possible to prescribe. This preparation has for years past been making a brilliant success as a remedy for cold in the head, catarrh and hay fever. Used in the initial stages of these complaints Cream Balm prevents any serious development of the symptoms, while almost numberless cases are on record of radical cures of chronic catarrh and hay fever after all other modes of treatment have proved of no avail.
