DR. BENDISOT, who acted as one of the aides on the Fourth, was thrown from his horse while the animal becoming frightened at the music and bolting. His injuries, however, are not serious, and he will be on deck again shortly.

THE GRAND stand at Washington Square was held closed on Wednesday night. The refreshment booth suffered the most from the onslaught, quite a number of articles being carried off. This is the second time the grand stand has thus been visited.

THE LIBERALS are training their forces, preparatory to the coming school elections on Monday next, when they are confident of electing several more trustees. The hottest and most interesting contests will be in the Seventh, Eighth, Twelfth and Fourteenth districts.

THE RESIDENTS on Fourth West Street, along which the Salt Lake & Fort Douglas have asked for a right of way, seem to be of the opinion that the petition will be granted, and are canvassing around with the intention of employing legal counsel, and making a fight in the courts in case it is.

THE REGULAR monthly meeting of the officers of the Young Ladies Mutual Improvement Association will be held next Saturday, 7th inst., at 11 a.m., in the Fourteenth Ward Relief Society Hall. It is earnestly desired that all of said officers attend. All interested are cordially invited. Mary A. Frezza.

YESTERDAY AFTERNOON a man named Gitten got on the rear platform of the Warm Springs car and became involved in some kind of a dispute with another man, whose name was not learned, and before reaching the Valley House corner, Gitten was struck a fearful blow over the eye, which knocked him from the car. The police overtook the car, but Gitten's assailant had vanished.

SHILEY, GROSSBELL & HATHAWAY sold to John S. Flynn, representing the Richardson Drug Company, St. Louis, two lots in Muscatine Place, yesterday; he expresses himself much pleased with Salt Lake and has great confidence in its future. D. H. Spencer is registered at Shiley, Grossbell & Hathaway's office seeking a good investment for his gold.

THE NEW paraphernalia of the I. O. O. F. arrived in the city yesterday, and will probably be used to-night for the first time, by lodge No. 2. The trappings, etc. are most magnificent, being made expressly for the McKenzie innovation in Odd Fellowship. They are made for the use of the teams which were recently trained in the new system, and were purchased at a cost of \$500.

THE FUSKRAI services over the remains of Grandmama Bourne were held at her late residence last evening at 5 o'clock. Brief remarks were made by Theodore Curtis, Bishop Hinesy and Bishop Taylor, old friends of the deceased, and all upright, charitable and honest life. There are few women like Grandmama Bourne; the world would be much better were there more of such.

IT IS probable that all the troops, including the batteries from Fort Douglas, Fort D. and those from Fort Bridger will be ordered to combine and spend the month of August in encampment at either somewhere in Strawberry Valley for the purpose of receiving practical instruction in the military art. There will be eighteen companies in the encampment and it is expected Colonel Blount of Fort Douglas will have command.

THE DAY WE CELEBRATE can be made more glorious by remembering that of all places Utah where good jewelry can be purchased for the least amount of money, is at E. J. Swearer & Co.'s. A new line of the choicest goods has just been received.

THE DAY ELSEWHERE.

The Celebrations at Provo, Eureka and Lehi.

ALL RINGING SUCCESSES.

Provo at Her Best—A Fire at Eureka—'Oil and Water' at Lehi.

Yesterday was a great day for Provo. The celebration of the glorious Fourth properly began on Tuesday evening, and not a jot of patriotic fervor was abated till the management at the Opera House closed the party at midnight last night. Felt Brothers set the ball rolling on Tuesday evening by starting a large balloon, and were ably seconded by Will Smoot with a better, which set the thousand onlookers wild by veering up and down Centre Street, and then catching fire in mid air. From then till curfew the small boy and the fire-cracker reigned supreme.

The next day found the town all alive with preparations for a day of joyous abandonment. The procession was not the brilliant affair expected. However, the Goddess of Liberty was a success, the "bouquet of beauty" left nothing to be desired, the Territories were well represented, and so were the States. The horrors were horrible enough, but not at all funny, as they were expected to be; and the trades had only two representatives.

After the parade was over, and the theatre had accommodated about 1,800 people, A. O. Smoot, Jr., led off with the Declaration of Independence. The lady who remarked on the street that she had attended these gathering time and again, but had never yet heard the Declaration, was probably satisfied yesterday. The reader's tone was round and clear, eliciting repeated applause.

George Sutherland, the orator of the day, then delivered the masterpiece of the occasion. Overflowing with rare eloquence, his effort was a fit opening for the oratory that followed. What with joining in the choruses of the patriotic songs, and following in the elevating sentiments expressed by the speakers, the audience grew more and more enthusiastic to the closing.

The afternoon was given over to the children for a party in the theatre. As night closed down the citizens gathered about the west square to enjoy the fireworks. It is enough to say that no one was disappointed. At the theatre the youth closed the hilarious day tripping the light fantastic.

Taken all in all, those who had in mind an enthusiastic fusion celebration of the Fourth of July, have reason to be satisfied with the effort of yesterday.

NOTES. It is touching the topic very lightly to say it was hot yesterday.

The Silver Band was the subject of much praise yesterday for their untiring efforts to render the occasion meretricious.

MR. G. E. ANDERSON, the Springville photographer, knowing one of Provo's strong points, was over taking views of our representative girls in the procession.

WILL SMOOT closed his eloquent laudatory remarks on "Utah," yesterday with the sentiment: "He that do not love his country and his country's laws, let him leave his country for his country's good."

Those who have favored open saloons must have felt their arguments weaken yesterday.

The decorations of the theatre were tasty and complete.

MR. SAXBY set an example yesterday in speaking without manuscript. Provo, July 5, 1888.

AT EUREKA. Yesterday the patriotic people of Eureka turned out in full force to do honor to the anniversary of our natal day.

They erected a large and commodious carriage fitted up for the occasion, containing a young lady representing the Goddess of Liberty, and thirty-eight young ladies representing the thirty-eight states of our Union.

Fourth—The school children and teachers.

Fifth—Citizens on foot and in carriages.

The exercises at the Bowery consisted of music by the band, singing patriotic songs by the choir, prayer by the chaplain, the reading of the Declaration of Independence, a stirring patriotic oration by De Los Lombard.

At 9 o'clock in the evening a fire consumed the two-story building of Mrs. Con. Sullivan. By the energetic exertion of the men who turned out in force, the fire was prevented from spreading. Had the wind been blowing as it usually does, the greater part of the town would undoubtedly have been destroyed.

EUREKA, July 5, 1888.

AT LEHI. The ever glorious Fourth was ushered in by the burning of the usual amount of powder, or sufficient to salute every State and Territory, the unfurling of the national banner at day break, etc.

At 8:30 a.m. the marshal of the day and his aids were promptly on hand, as were also the materials for a procession consisting for the most part as follows: Brass and silver bands, thirteen young ladies in white with appropriate mottoes to represent the thirteen original

States, thirty-three young men with sashes and names, inscribed to represent the existing States, also one for each Territory, including Utah, with a banner, "Utah the Queen of the West," founders of Utah, municipal authorities, political societies, Sunday schools, teachers and scholars, citizens generally.

The procession being formed, it marched to the grove owned by Mr. R. G. Glickner, which had previously been well watered and a stand erected.

The usual services were held, opening by singing and prayer and the reading of the Declaration of Independence. The oration was eloquent and forcible. The usual toasts were responded to by the various speakers with eloquence and good taste, which, along with songs, recitations and music by the two bands, filled up the time until dinner.

In the afternoon there were games and races, with a dance in the Music Hall, for the children. Good humor and hilarity prevailed. In the evening there was a general dance in Garth's Hall, which closed a very pleasant day, and proved our previously-called "Oil and water celebration" was one of the most united ever witnessed in Lehi.

He is not only possessed of the latest theories of the day, but his work proves that he is practically qualified to carry them into successful operation.

Among the leading families of Utah were numerous cases of cross eyes, which have been straightened by Dr. Prentice. Some of these have been successfully treated and operated on by other physicians. Many cases of deafness have been relieved, catarrh successfully treated, and sufferers from piles have been cured by one treatment. Dr. Prentice's offices at the Continental Hotel are crowded daily. BASEBALL.

The Nationals Worsted by a Close Game of 7 to 5.

The third game of the series of eleven (the first contest last week was an extra and didn't count) between the new Salt Lakes and the Nationals, was played yesterday afternoon before a fair turnout. The light attendance was probably due to a misunderstanding on the part of the public that the games on the Fourth would be followed up by daily contests. The game was a very close one, despite the fact that both sides had their batteries working, Margets and Flenk-n playing for the Salt Lakes and Barker and Ediges for the Nationals. The youngsters at first started in as if they had recovered all their old prowess. They made three earned runs in the first innings, with a total of four, and got in another in the second lifting their score to five. There it stuck, however, till the close, all the other seven innings resulted in white-washes. The Salt Lakes began to creep up after the first four innings. On the fifth they tied the score. In their sixth they shot over it and keeping their opponents down the score, remained as shown below:

Table with columns for SALT LAKES and NATIONALS, and rows for individual players and totals. Includes names like Griffin, McAndrews, Straub, etc.

THE FOOTBALL GAME. Quite a large audience witnessed the game of football last evening between the Park City Stars and a Salt Lake team. The game was called at 7 p.m. and it was nearly 8 o'clock before either side secured a point.

THE CATTLE KING.—Mr. James H. Wallick, in his Arizona idyll, the Cattle King, drew a great black sea of down-trodden faces to the galleries of the Theatre last night, and rather sparsely filled the lower part of the house.

THE CATTLE KING.—Mr. James H. Wallick himself stands as an actor, about midway between Buffalo Bill and Frank Mayo, a good deal better than the one and a good deal worse than the other. The stars of his company are the horses which do a number of intelligent acts, and gallop over a paved stage quite as if it were a green sward.

THE CATTLE KING.—The drama is a wild, lurid blazing mass of sensation, with some good scenery and some effects designed to cause the galleries to split their throats and the dress circle to indulge in hearty laughter. The one effect where the hero is supposed to be burning on a pile of faggots was quite realistic. The horses and Mr. Wallick appear to-night and to-morrow night, a new piece, The Banquet King, being introduced.

IN RAILWAY CIRCLES.

That Eastern Cut—The Lake Deserted—General.

The Sixteenth Infantry Band go out to Garfield Beach to-morrow morning, by invitation of Mr. Sherman.

The approaching meeting of the Texas Traffic Association in Denver on the 10th inst., is looked upon in railway circles as being a most important one.

SYRACUSE drew 1,000 people on the Fourth, a great number of them going from Ogden, and the remainder from towns along the line of the Utah Central.

The Lake resorts were deserted yesterday, there being only a few stray tourists around. Salt Lakers had scarcely recovered from the evening previous.

GRAND BROS. run busses from both depots to the Cullen, Continental, White House, Cliff House, Valley House and St. Elmo. Fine turnouts for tourists. Telephone 211.

The Chicago, Rock Island & Pacific office was among the most attractive fronts in the city on the Fourth. Agent Brown was admirably seconded in his efforts by E. E. Rich.

The afternoon train for Garfield on Wednesday was said to be the largest outgoing train ever started from this city. There were 1,700 passengers aboard, and it took a double-header and a pusher to move her from the Utah and Nevada depot.

A BALOON ascension a mile high, and a drop into the lake by means of a parachute, is the next attraction for lake resorters. There is a belief in the minds of some of those who know the lake better than does the learned professor who is coming to entertain us, that he will prefer dry land to lake water just as soon as he gets a taste of the latter.
