THE MORRISITE BUGABOO.

The Work Now Before the Representatives of the "Gem of the Mountains."

BOISE, Idaho, January 24, 1889.—[Special correspondence of THE HERALD.]—This Legislature will never tire of interference with the Mormons. On Tuesday of this week a petition was presented from some cranks who call themselves "Morristsites," and reside a Soda Springs, on the Oregon short line. They want the Legislature to memorialize Congress to give them a right of action against the Mormon Church on account of alleged losses they sustained something like a quarter of a century ago, or that the general government recompense them for such loss. As there are people here from all over the Territory, your correspondent made a point of inquiry into the circumstances and ascertained from gentle sources that so far as any outrages were concerned those petitioners were of the aggressors—that they resisted arrest and when militia were sent against them by lawful authority they resisted still, and their property was returned to them by General Connor. The petition was referred to the Councilman from Bingham and Oneida counties. This means that

A GREAT BUGABOO will be made out of it—astounding "facts" reported that will chill the blood of the ordinary citizen, all of which will, they believe, tend to make Republican votes. There is an end to gullibility, as well as to all terrestrial things, and the members who have this matter in charge will find this to be the fact before they have done. That the Republicans have already proceeded too far the wisest of them know; that they will retain in the Republican organization any great number of Democrats who have gone with them thus far no one believes save themselves. We are anxious to see some one present himself before our judges and ask to be naturalized under the provisions of the act they have passed. There is no doubt but that such a case will be worked up very soon.

THE STATE UNIVERSITY BILL was in committee of the whole on Wednesday afternoon. The bill provides that it shall be erected at Moscow, in Latah County. We see but one difficulty in the way, and that is the means to erect and run the institution. It is not in the treasury now, and in view of present expenses and debts, is not likely to be for a long space of time in the future. The Territory cannot run in debt to exceed \$20,000 according to a law of Congress passed two years ago, and that limit has been nearly, if not quite reached. Our Legislature aspires to do great things, and constitutions, organic and other laws are constantly interfering between them and their aims. At length the committee on counties and county boundaries have made a report in the case of the people of Alturas west of the Sawtooth range who want a county to be called Emora, and in the case of the people of Bingham, who want a slice off from the east of the first named county. They have reported back the bills without recommendation. One half the members of the present Legislature have

HOPES OF BEING DELEGATE some day and live in mortal fear of Alturas County. It has one-sixth of the representation in the Legislature, and is as large as the State of New Jersey. These ambitious aspirants dare not make a report against her. There is pending a bill to create the county of Logan out of her southern limits. It is still with the committee, and what its fate may be no one can tell. Alturas is Republican as she is, and the politicians of that stripe do not wish to take any chances no matter how much injustice may come from a refusal to cut the county up into new political divisions.

AN IRRIGATION BILL has been introduced into the House and referred. It is very long and its provisions are copied from the Colorado statutes. It is a good bill and will confer great benefits upon the Territory if passed. It has done in the Central State. Reviewing the bills introduced during the session this one seems like an Oasis in Sahara's sands. It is feared that it will be ruined with amendments—if it passes at all, for it really seems as if the assembly turned all to ashes that comes within range of its touch. There are a number of ditches near this city which would be soon completed if the act were in force, some of them were commenced more than five years ago. It would be impossible to gain an idea of the provisions of the bill within the limits of a communication, and your readers will therefore have to be referred to the statutes of Colorado.

THE LIQUOR BILL as it now stands, has passed the Assembly and grades licenses at from one to three hundred and fifty dollars, according to the disposition of the County Commissioners. It provides that no liquor shall be sold to minors nor shall they be harbored by saloon keepers. This is a good provision, for many saloons—particularly in this city—have, at times, presented the appearance of "kindergartens." It has not yet passed the council.

The Assembly have passed the bill allowing county seats to be removed upon a vote of four-fifths of the electors of a county. The north half of Washington has been signing for the county seat, or a new county, for many years. There is a town in that section known as Salubria. Why so named it would puzzle anyone to tell, for it is

ANYTHING BUT SALUBRIOUS nine months in the year. Out of this town it is proposed to make a county seat. The law of Congress prohibiting special legislation stood in their way and so a general law has been con-

one ed or to ir benefit. The north of Washington has increased in population for many years past less than the southern part. This is entirely due the multi g ex- cements at Seven Devils, and other points. However well this act might do for a State like Kansas or Nebraska, it is entirely unsuited for a Territory so full of minerals as this where a rush is liable to take place from or to a locality in a day. Four years ago there were scarcely fifty people

IN ROCKY BAR, Alturas County. Previous to that time the population had been a thousand and is fully that now. A town has sprung up on the same side of the same county since last winter which at one time during the past summer had a population of 500. A lusion is made to Pinto Grove. A dozen instances of the same nature could be pointed out of such changes in the same county. In Boise County it has been still more marked. None of the county seats should be changed until they have towns and settlements that may be regarded with some idea of permanency. There is a great sameness in the proceedings of the Legislature and to read them as reported in the local press they seem to be nearly alike each day. This is due partially to the fact that if one member

CATCHES ON TO A NEW IDEA and embodies it in a bill a half a dozen will follow in his tracks and introduce another on the same subject if he can find one in any of the statutes in the Territorial library to suit him. Then again, they have a peculiar faculty of calling bills of which they claim the paternity up so that it may be daily exposed to view. The third house held a meeting on Monday evening last. Several members were charged with violating the principles of the test oath law, and in case they are not able to disprove the charge, may be expelled. They meet again this evening, when it is supposed they will be better able to perform their duties.

THE RAIN COMES SOBBING TO THE DOOR. The night grows dark, and weild, sad and cold; and thick drops patter on the pane; There comes a wailing from the sea; the wind is weary of the rain. The red coals flick beneath the flame, and sea, with slow and silent feet, The hood d shadows cross the woods to wh re the twilight waters oat! Now lawless from the roddy rear, a brilliant lance sweeps across the door; As, streaming down th' lattices, the rain comes sobbing to the door; As, streaming down the lattices The rain comes sobbing to the door.

Dull echoes round the casement fall, and through the empty chambers go. Like forms uns on whom we can hear on tip-toe stealing to and fro; But fill your glasses to the brim, and, through a mist of smiles and tears, Our eyes shall tell how much we love to lose the shades of other years! And hither they will hock again, the ghosts of things that are no more. While streaming down the lattices, the rain comes sobbing to the door; While, streaming down the lattices, the rain comes sobbing to the door; When, streaming down the lattices, the rain comes sobbing to the door.

We'll drink to these we sadly miss, and sing some mournful song we know, Since they may chance to hear it all, and muse on friends they're left below. Who knows—if souls in bliss, can leave the borders of their Eden-home? But that some loving one may now about the ancient threshold roam? O like an exile he would hail a glimpse of the familiar floor. Though, streaming down the lattices the rain comes sobbing to the door; Though, streaming down the lattices, The rain comes sobbing to the door. —Henry Kendall.

Striking Seamen LIVERPOOL, January 26.—Striking sea- men and firemen, last night, boarded the steamer Kansas, loading for Boston, and dragged ashore eight men who refused to strike. To-day 1,000 strikers lined the quay and prevented men from shipping, assaulting them and throwing their kits into the water. A crew was shipped for the steamer African under a strong police guard. The crowd of strikers and sympathizers are increasing, the police have summoned reinforcements. It is expected more non-striker will attempt to ship, and that a fracas will occur. Ship- owners sent a deputation to the mayor, who promised police protection.

Four Children Burned to Death. ATLANTA, Ga., January 26.—At Ogle- thorpe, yesterday, four small children, who were left in a house by Mary Porter, colored, while she went to work, were burned to death.

THE "HERALD" DRAWING. In Answer to Many Inquiries We Publish the Following: The 1,250 prizes are to be limited to the "Semi-Weekly Herald" alone, and the number being so large everyone has an excellent chance. The drawing will be conducted publicly early in 1889, due notice being given in advance. The plan will be the simplest and fairest possible. Every premium receipt issued is numbered. A duplicate of every number issued is retained in this office. All these numbers will be placed in a box and a blindfolded child will be selected to draw them out. The first 1,250 numbers drawn will entitle the holders of the corresponding numbers to the prizes. The prizes will be numbered from 1 to 1,250, graded according to their value. Thus the city lot (value \$300) is Prize No. 1. The Holstein bull (value \$200) is Prize No. 2; the Kimball organ (value \$110) is Prize No. 3, and so on down to the 1,250th. The first number drawn from the box entitles the holder of that number to Prize No. 1; the second to Prize No. 2; the third to Prize No. 3 etc. The drawing will be presided over by a committee chosen by holders of tickets. A record is carefully kept of all numbers issued, so that it can be ascertained a once where the lucky holder resides. REMEMBER, the Semi-Weekly Herald, ten pages, the brightest, largest and liveliest family paper in the west, goes with a chance in the drawing FREE—one year in advance only \$3.00
