THE ELIXIR OF LIFE.

How Local Physicians View Brown-Sequard's Discovery.

DON'T TAKE MUCH STOCK IN IT.

Professor Hirsching Says That He Will Make Some Experiments—An Ellixir of Life Impossible.

The alleged discovery of an "elixir of life," by Dr. Brown-Sequard, has been a universal sensation, and has excited as much attention in this city as any other part of the scientific world.

At first the physicians were loth to criticize too harshly, showing a disposition to wait a couple of hundred years or so and see what time would prove, but when a few cases were found in which the "elixir" proved a decided hastener of death...

Thinking that the opinions of some local physicians on this subject would be of interest, a HERALD reporter yesterday gathered the following expressions on the subject:

DR. HAMILTON. The father of Utah physicians was found sitting in his buggy in front of his office. "I don't care to express an opinion," he said in reply to the reporter's question as to what he thought of the elixir.

DR. STANBART. "It is possible," he said, "that Brown-Sequard has discovered a very exhilarating tonic, but I don't think it is a life-giving elixir."

DR. BOWER. "I believe that if I understand it right, the preparation made of the thymus gland of the spinal cord, by simply pounding it and dissolving it in water, the clear solution after settling is ready for injection."

DR. THOMPSON. "I think there is a good deal of psychology in the whole thing. I would have more faith in a tonic that does not do anything than in one that does."

DR. M. A. HUGHES. "I have found at his new quarters in the Scott-Auerbach building 'I don't think there is anything in the elixir of life,' as the doctor would have it placed in the same category as Ponce de Leon's 'fountain of youth.'"

THE INITIAL TRIP.

The Brilliant Inauguration of the Electric Railroad.

PROMINENT PEOPLE PRESENT.

Six Car Loads Carried Over the Line—Real Estate Transfers and Other Business Notes.

The inauguration of the electric railroad system in the city last evening was a brilliant affair in every respect—entirely during the beginning of it to proceed an enterprise as our great rapid transit.

Hold & Johnson's band were out soon after 7 o'clock, and after playing one or two selections on the streets, marched to the city hall, where there was a large assemblage of prominent citizens, who had been invited to take the initial ride.

At the appointed hour six of the handsome cars drew up in front of the hall, and the people were soon comfortably seated, ready for the start.

Gov. Thomas, Secretary Sells, Presidents Wilford Woodruff and George C. Cannon, Judge and Mrs. Zane, Daniel H. Wells, Mayor Armstrong, president of the board, Mr. John Clark, Mr. and Mrs. J. H. Bacon, Mr. and Mrs. J. H. Moyle, Mr. and Mrs. Bolivar Roberts, Donnell Sowers, Recorder Wells, James P. Little, S. L. Clayson, P. L. Treadell, Councilor Carlson and wife, Mr. and Mrs. George C. Lambert, Bishop Whitney, Henry Dinwoody, Isadore H. Lippincott, Mrs. H. G. Whitcomb, Mr. and Mrs. P. W. Madison, George A. Snow, George J. Taylor, T. W. Ellerbeck, Mr. and Mrs. J. Y. Parker, M. E. Cummings, James P. Little, S. L. Clayson, P. L. Holland, Mr. and Mrs. Francis Cooper, Mr. and Mrs. B. J. Hampton, L. G. Hardy, Mr. and Mrs. John C. Cutler, Mr. and Mrs. E. J. Liddick, Mrs. H. G. Whitcomb, Supt. and daughter, Marshal Solomon, Supt. and daughter, and several others.

Leaving the city hall, the line of cars ran to the D. & R. G. depot and after a wait of some minutes, returned up first south to Thirtieth street and thence back to Main.

The company in putting in so complete and expensive a plant should win for them the praise of all who are interested in the city's welfare.

The outlay on the road up to this time has been \$140,000, and it will take another \$100,000 to carry out the company's plans.

Mr. Carter's Say. He Tells What He Knows of the Valley House Management.

The Tribune published a sensational story yesterday morning concerning the Valley house management, and as the article was one-sided, it might have been expected, a Herald reporter called on Mr. Carter.

Mr. Carter says that the report published is entirely false. He went on and stated the case as follows: "Mr. Hall always disagreed with his partners. Before I purchased an interest in this house, Mr. A. Woodruff was his partner and they were continually disagreeing."

Mr. Hall's coming into the house and complaining that the stove did not happen to be polished to his liking, it led to the sale of Mr. Woodruff's interest to me. Mr. Hall kept running down to my house night after night, begging me to buy Mr. Woodruff out. The terms of purchase were \$5,000, \$3,000 of which was to be paid off the debts of the house, and \$2,000 twelve months from then, on chattel mortgage, there being no mortgage given on the property since that date, as was stated in the Tribune.

MEDICAL Electricity.

The most wonderful part of man, most difficult part to comprehend, perhaps, is the nervous system, which touches and controls every part of the body.

The brain secretes a nervous fluid which is magnetic in its effects and influences. The magnetic element travels along the nerves like electricity, from the roots of the hair to the tips of the fingers, and through the telegraphic communication penetrates the whole system.

It removes the wretched symptoms of hysterical maladies and averts their dreadful results. It relieves more agony and suffering than tongue can tell, as the following personal reference will show.

A Remarkable Cure. One Son—had been troubled with an inflammation of the optic nerve of the left eye for several weeks which not only caused me to lose my sight, but rendered my eyes almost blind.

Leaving the city hall, the line of cars ran to the D. & R. G. depot and after a wait of some minutes, returned up first south to Thirtieth street and thence back to Main.
