

THE HERALD. SALT LAKE CITY, UTAH.

THURSDAY, June 19, 1890

THE DAILY HERALD is published every morning, Mondays excepted, at THE HERALD BLOCK, corner West Temple and First South streets, Salt Lake City, by THE HERALD COMPANY. Subscription price, in advance, \$10.00 per annum, post paid.

THE SEMI-WEEKLY HERALD is published every Wednesday and Saturday morning. Price, in advance \$2.50 per year; six months, \$1.75, post paid.

THE SUNDAY HERALD is published every Sunday morning. Price, in advance, \$2.50 per annum, post paid.

Advertisements will confer a favor by forwarding information to this office when their papers are not promptly received. This will aid us to determine where the fault lies.

All communications should be addressed to THE HERALD, Salt Lake City, Utah.

By the year (in advance) \$10.00 By the month \$1.00 By the week .25

J. T. DUNBAR & Co., Circulators.

Entered at the Postoffice at Salt Lake City, Utah, for transmission through the mails as second class matter.

MORE OF THE GRADES.

Mr. BASKIN dies hard in the matter of the cutting down of the street in front of his residence on First North street. A week ago the council refused to heed his protest against the act and sustained by the majority. On Tuesday evening by a majority of one the council declined to reconsider its action, but afterwards voted to visit the premises and look at what was being done. If the councilmen are reasonable and just the visit will settle the matter in favor of the protestant, and the excavated street will be filled up; if they are not reasonable and just, THE HERALD again expresses the hope that Mr. BASKIN will carry the case into the courts and have it settled once and for all, if an engineer can establish and chase street and sidewalk grades without regard to the rights or convenience of lot owners. We hope Mr. BASKIN will do this not only in his own interest, but in behalf of all citizens and of the municipal corporation itself. If no restraint can be placed on an engineer, if he can cut and slash at pleasure and make things conform to his own peculiar ideas, it is high time all understood the matter, when in selecting an engineer the council could choose one who would give assurance that he would not use his autocratic power to the injury of individuals and to the bankruptcy of the city treasury. The grade was once officially established on First North street, and in building and arranging his lawns, gardens and drives, Mr. BASKIN conformed to the lines laid down by the surveyor; now, after many years, comes along another engineer and cuts down the street eight or ten feet, leaving the lawn high in the air, closes some of the drives, and besides destroying the beauty and convenience of one of the most highly residences in the city puts the owner to hundreds, if not thousands, of dollars of expense, and involves the city in the expenditure of a large sum of money. And all this to very little purpose. The improvement of the street when finished will be trifling, and comparatively few people will be pleased by the new grade. Mr. BASKIN is right in denouncing the business as "a glaring outrage."

A similar outrage, only less in degree, was committed on South Temple street, east, in laying the new cement sidewalk. That street was not particularly uneven, and it wasn't absolutely necessary that the walk should be constructed on a true grade from one end to the other; indeed there are those who think that the appearance would have been better if different grades had been followed and the walk been made to conform somewhat to the natural and by no means abrupt slopes of the country. In fixing the grade the engineer seemed to be controlled by the idea that he was surveying for a railway, and his duty was to avoid pulls and save steam. The result is that the lot owners will have to expend thousands to get off and on their premises without the employment of balloons or ladders, while it will cost the city fully \$30,000 to make South Temple and the cross streets conform to the new grade; and after the work has been done and the money gone, three men out of four will say that neither beauty nor convenience has been added to it. We do not believe the city has any such rights as those which are being exercised by the engineer. Whatever rights in this matter the corporation possesses must be exercised in reason, which is not being done at present, hence the hope that the courts will be appealed to to check the recklessness, extravagance, ignorance or stubbornness that is being indulged. Private citizens and the public treasury need protection which it seems cannot be obtained this side of a suit for damages.

THE WARM SPRINGS.

Referring again to the proposition to recently made to purchase the Warm Springs property, as THE HERALD understands the case it is not in the power of the city council to sell the property to any one only on the same plan that the Capitol Hill and other lots were sold, viz., to the highest bidder. The offer to buy the springs and grounds from the city and pay the sum of \$50,000 for them shows that there are parties here who are beginning to appreciate the great value of the property. When Salt Lake shall have one hundred thousand inhabitants the Warm Springs will be worth at least one hundred thousand dollars of any man's money.

There is one thing certain, and that is that the Warm Springs should be improved, or they should be sold. We are decidedly in favor of the city making the needed improvements. There are few public institutions which are more beneficial than a bathing resort under the control of the city. In some places large sums of money are expended to secure accommodations of this kind to be under the control of the corporation. Salt Lake needs nothing of the kind as it is the possessor of one of the finest warm springs on earth; and if it were fixed up as it should be and made attractive it would bring thousands of people here every year. There could not possibly be a better investment than to improve the Warm Springs. They are as good as a gold mine, and a good one at that, for Salt Lake, if they are taken advantage of as the Hot Springs at Las Vegas are taken advantage of by the Atchison, Topeka & Santa Fe railroad company.

If the city retains the springs and improves them there will be no complaint from the tax payer.

The Warm Springs could be made one of the chief attractions of Salt Lake city, and there are no persons who could possibly afford to make them as attractive as our city can.

Let the Warm Springs be retained by the city and let the city improve them so

that every citizen will take a pride in the place as one of the public institutions of our city, and a place to which every person who has a visitor friend will desire to take him. There should be a delightful park and some fine buildings on the present desolate and dreary lot. Let us have the Warm Springs park and at once.

CALIFORNIA'S DISGRACE.

The governor of California has concluded to take a hand in the prize-fighting in that state. He will not enter the ring and with either soft or hard gloves stand up and batter the bruisers, but will send his chief law officer to do the knocking out. He has given instructions to that effect, and of course he will be obeyed, as public sentiment is with him. California has a good statute against prize-fighting; but during the past two or three years it has been a dead letter. Mills are openly indulged in, the brutal exhibitions being given before the public and in the very presence of the police. They are given, however, in the so-called club rooms and are not designated as prize fights, but as athletic exhibitions. They differ from the genuine article only in the name. They are just as brutal, just as bloody and quite as exciting. Only a few days ago one of the principals in one of these innocent and mild displays of the manly art was knocked out so effectually that his seconds were unable to revive him, and he will not be able to appear again before the resurrection. In fact he was killed, though the club called the affair sport and within the plain letter of the law.

It is high time that the governor interfered. At the rate things were going slugs would not have to keep their mills and meeting places secret; SULLIVAN and KIRKMAN would not find it necessary to sneak away from the officers of the law and pummel each other in the woods, nor would they run the risk of doing time in jail. They could do their business in a fashionable quarter of San Francisco in the presence of all who were willing to pay to see them hammer each other until one or the other could no longer toe the mark and endure the punishment.

Plainly, the exhibitions which have been given in San Francisco lately have brought that city and state under more or less disgrace. They were neither more nor less than prize-fighting, and the fact that they were given under the auspices of a club did not make them less criminal. The principals, promoters and spectators were as much guilty of violating the law as they would have been if they had sneaked away to some meadow for their exhibition.

It knows plainer every day that this Congress will provide no silver legislation that will be valuable. It may be doubted that any bill will get through both houses and receive the sanction of the President and it is absolutely certain that no bill can be passed over the executive veto. But while nothing can be done now, the voters will see to it in November that their wishes cannot be denied with impunity. The people have demanded that silver be restored to its rightful place in our coinage system and the Republican party has refused compliance with the demand; the result will be that the Republicans will be relegated to private life, and Representatives chosen who will faithfully fulfill the trust imposed in them. The next Congress will provide free coinage, and we believe it will do it in spite of the Presidential veto.

The Wyoming admission bill is in a position where it can be readily taken up and passed, but what has become of the Idaho bill? Has Delegate DeBono caused it to be side-tracked in a spirit of revenge for the opposition to his aspirations in the proposed state?

It is a very tight box into which the Democrats are driving the Republicans over silver. Unfortunately for the country the Republicans have neither the courage nor the manhood to extricate themselves, even if they had the desire to get out.

The Idaho statehood boomers should induce the enumerators to hold back the census returns until the admission bill has been acted upon. If the figures are given away in Washington, the statehood scheme will be given away in the same place.

The new water rates seem to be a reduction which does not reduce.

The Blessing of Strong Nerves is recoverable, not by the use of mineral sedatives, but by a recourse to electrical tonic treatment. Opium and the like should only be used as an anesthetic, and then as sparingly as possible. Vigorous exercise is quite ones, and the most direct way to render them so is to take the vital energies. That sterling invigorator, Hostetter's Stomach Bitters, will be found all-sufficient for this purpose, since it entirely removes impurities through digestion and assimilation of the food, so that the body is assured its due amount of nourishment, and consequently of stamina. Rheumatic tendencies and all diseases of the kidneys and bladder are also counteracted by the Bitters, which is besides a pleasant medicinal stimulant, and which reacts vigorously upon the nervous system.

Epilepsy. This is what you ought to have, in fact, you must have it, to fully enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee that Electric Bitters, if used according to directions and the use persisted in, will bring you Good Digestion and cast the demon Dyspepsia and install instead, Epilepsy. We recommend Electric Bitters for Dyspepsia and all diseases of Liver, Stomach and Kidneys. Sold at 50c and \$1.00 per bottle by A. C. Smith & Co. Druggists.

A NOTED MONTH. FROM KROKUK, LA, DEMOCRAT. August, 1887, was a noted month. It gave extreme heat and extreme cold, the results of which were disastrous to the public health. Cases of cholera, cholera morbus and diarrhoea were abundant and there were numerous deaths at the drug store for Chamberlain's Colic, Cholera and Diarrhoea Remedy. Druggists of this city tell us that this remedy has been more frequently called for during the past month than any other preparation, and that it has proven a panacea for the very worst cases. Chamberlain's Colic, Cholera and Diarrhoea Remedy is a meritorious medicinal preparation for all summer complaints for which it is recommended, and grows in popularity in this city and vicinity. The sales are increasing rapidly and wonderful cures are reported. For sale by Z. C. M. I. Drug Department.

WILLIAM'S AUSTRALIAN HERB PILLS. If you are yellow, bilious, constipated with headache, bad breath, drowsy, no appetite, look out, your liver is out of order. One box of these pills will drive all the troubles away and make a new being of you. Price 25 cents.

ARE YOU AWARE That many diseases prevail in the spring and summer? Head them off by taking Garfield's Tea. Z. C. M. I., drug department. Samples free.

A LOVELY COMPLEXION Can only be had by regulating the liver and bowels and removing the surplus of bile. Garfield's Tea does it and quickly, too. The handsomest ladies of America endorse it. Z. C. M. I., drug department.
