## The Present Session of the Idaho Legislature

### GOING FOR THE GOVERNOR

Representative Pycatt Accuses Him of Unofficial Aims in Vetoing a Bill—Another Election Bill Introduced.

BOISE, Idaho, Feb. 27.—[Special telegram to THE HERALD.]—As anticipated, the adjournment of the legislature is not far off. Although the supreme court decided this morning that the session and pay are unlimited, a concurrent resolution passed the senate to-day making the adjournment for Friday, March 6.

A bill was introduced amending the statutes in relation to the compensation of directors of the insane asylum. Also one to prevent the sale of liquor within a mile and a half of any railroad in course of construction, it being found a few days ago they had definitely postponed the house bill for the same object before reading it, the title being thought enough. Now they find they acted too hastily, and will make amends by introducing the same bill in the senate.

For the first time in three days the house concluded to go through the order of business. On the question of passing over the governor's veto the act for the inspection of metalliferous and coal mines, a heated debate arose. Representative Pycatt accused the governor of unofficial aims in his veto, but said he would not oppose the governor, as the legislature was not the proper place, but seeming to intimate that the courts would be held. The governor had explained that he did not deem an inspector necessary as there were no coal mines in operation in the state and this would be about all an inspector would be of use to the state. The governor's veto was sustained by a vote of 24 to 8.

A communication was read in regard to the meeting of trans-Mississippi congress in Denver, in May, and a bill was introduced to appropriate \$250 to pay the expenses of a delegate.

Passed: The act for a stenographic reporter of the district court. Also one for filing transcripts in the federal court, and regulating fees, introduced by the ways and means committee. An act for the appropriations for the expenses and salary of state officials for the year 1892.

# CLAGGETT'S CLAIMS

## To a Seat in the United States Senate

### WILL BE VIGOROUSLY PUSHED

By Shellabarger & Wilson—They Treated them Honorably at First, but Became Convicted he had a Good Case.

WASHINGTON, D. C., Feb. 27.—[Special telegram to THE HERALD.]—Claggett's credentials were presented to the Senate by Mr. Stewart, of Nevada, and referred to the committee on privileges and elections.

Claggett's strong aggressive personality is making itself felt. I am satisfied that he believes firmly in the justice of his cause, and he is gradually impressing this belief upon others. He has engaged the celebrated law firm of Shellabarger & Wilson as his attorneys, and it is their intention to push the case vigorously. Claggett tells me that when he first called upon Mr. Shellabarger that gentleman was disposed to treat the matter humorously, but after Claggett had gone over it in detail, Shellabarger assured him that he had a case so strong that the Senate could not afford to reject him. Claggett's memorial, together with such other papers as it may be necessary to lay before the Senate, will be printed at his own expense. He thinks they would not be finished in time if they were sent to the government printing office, and as he wishes the Senators to read them before adjournment, he is compelled to pay the cost himself in order that the work may be done expeditiously.

I asked Claggett to-day what the political effect of his rejection would be upon the party in Idaho. "It would result," he said, "in such an upheaval as they had not had for years. The state," he continued, "is Democratic by 500 majority, outside of the Mormon vote. We carried the legislative ticket because we were first in the field with the proposition to divide the senatorial delegation between the north and the south. Hundreds of Democrats voted with us who will not do so again unless justice is done to me. More than this, there are hundreds of Republicans who will become indifferent and allow the party to go to the dogs. If Dubois is given the seat. There are in Ada county alone 200 Republicans who will be thus influenced, and a similar dissatisfaction exists relatively throughout the state. Dubois represents the politicians who have no interest beyond the patronage. I represent the people and they are behind me in this fight."

Scribner, druggist, was in his store when it was swept away, the building collapsed and he was killed. Not a building was left standing on its foundation in Tia Juana. The loss here is the only building not completely wrecked; that is badly damaged. The main current of the Tia Juana river now runs through the city, and the main current of the river is now completely swept of fencing, wind-mills, etc. There has been no communication with the Mexican side. It is impossible to tell the damage to the city. A message from San Diego states thirty-three inches of rain have fallen within sixty hours, at Stonewall and Cuyamaca dam it is the heaviest rainfall ever known in that section.

### The Flood Around Los Angeles

LOS ANGELES, Cal., Feb. 27.—There is no change in the general situation, except every minute has been utilized by railroad people in getting their tracks in shape. The first train for San Francisco will probably leave to-day. The situation south is much worse. It will probably be Saturday or Sunday before the line to Yuma is opened. The Santa Fe is still badly blocked. Little is known east of San Bernardino. There is one or two trains somewhere between that place and Barstow. It will be some days before the coast line to San Diego will be in possible condition. Local trains are running. There are no further reports of loss of life. The loss to property is not as heavy as at first anticipated. Reports from Yuma are very discouraging. Committees of the board of trade are getting up subscriptions for that place.

By Engineer Peary, of the Navy, Under the Patronage of Scientific and Geographical Societies—His Method of Travel.

WASHINGTON, Feb. 27.—There is to be another arctic expedition. It will be led by an officer of the navy, although not under the patronage of the government. Civil Engineer H. E. Peary will undertake the task of going as far north as possible. He has selected a few men who are to accompany him on the expedition, but their names have not yet been disclosed. The expenses of the journey will be defrayed by geographical and scientific societies which have been interested in Engineer Peary's scheme. That officer has asked the navy department for a leave of a year and a half, and in his letter of application sets forth at length his plan for the expedition. He does not go so far as to state his ability to reach the north pole, but believes he can reach a point further north than that attained by Lockwood, of the Greely expedition. Lockwood journeyed by the Greenland coast, and went as far north as 83 deg. 22 min. before turning back. Mr. Peary proposes to go through Greenland. The party will leave next May, going to Whale sound on the western coast of the island. The services were according to the ritual of the Episcopal church.

Peary's Ideas for the Journey. PHILADELPHIA, Feb. 27.—Lieutenant Peary said to-night: "I shall travel on foot as I did four years ago, walking at night, when the sun glares the least, and sleeping in the day. The sleeping bags, in which one may rest comfortably, are big pouches of water proof seal skin, lined with reindeer skin, and provided with a flap to pull over the head. My associates have not yet been picked out, but they will be selected with great care. I feel that I am on the threshold of success, and though I know there is a sentiment against my far north explorations, because of the many disasters, I do not propose to be disappointed. For neither disappointment nor hardship broke the hearts of many explorers."

It appears McCaffrey and Tutbill met a party of friends at a well known sporting resort a few nights ago and became involved in a discussion as to the respective reputations of several prominent pugilists. McCaffrey claimed Jack got his reputation by defeating him. Tutbill then remarked that he must have deserved it, as Jack had never won a battle in his life only in a fair and square way.

When Dominick spoke about the Fitzsimmons fight, Tutbill said in his opinion that Dempsy in his best days could not beat the lanky Australian. After considerable talk McCaffrey said he would like to get another chance at Dempsy, and Tutbill snapped him up by offering to make a match for the above amount. He produced a big roll of bills and wanted to see if he could put up his money in a day or two if the Manhattan Athletic club officials will allow him to fight. Gus told him that he would give no more money, and that the court shall battle if he would make the match. Tutbill is waiting to hear from McCaffrey or his backers.
