

IT IS A CHESTNUT, I KNOW,

But it is a fact all the same, F. G. Champeny, 219 Main street, old post office, is compelled to vacate his store in Ten Days More, and has decided to go out of business, therefore we have No Use for Goods and must be sold. Don't hesitate but what this is a Sale of Compulsion, and we offer you without reserve, every yard of Goods and every pair of Shoes for less money than we paid for them, to Close this Stock out in Ten days' time. Can move money better than Goods. Remember an occasion to walk to a Dress Goods Department, a Linen Department, a Notion Department, a Parasol and Hosiery Department, a Flannel Department, a Fine Shoe Department and buy such Goods is a RARE CHANCE.

We Do It, Because we Have to do It.

FINANCE AND MINING

Lead Remains Steady, Silver Rising Slightly.

THE ORE AND BULLION OUTPUT

Crews' Estimate of the Crops of the World—Business at Home and Abroad—Mining Matters.

Our latest mail advices from that great commercial centre, New York, are to the effect that the unusual conservatism which prevails in nearly all sections and branches of business impresses upon a most disheartening symptom. "But," qualifies the report, "it may, with at least equal reason, be interpreted as the very best ground for confidence in a healthy and solid improvement when new and large crops come forward more freely. The absence of speculative excitement, the indisposition to buy in haste, are having a most wholesome influence. Prices of material and products are thus kept in such a relation that large and fairly profitable business is possible, but will be based when it comes upon the actual demands of consumers, and not upon inflated hopes. This conservative attitude is the more necessary this year, because, while money is now abundant here and cheap on call, the possibility of disturbance abroad, or of difficulty in obtaining needed supplies for moving crops at the west, is not yet entirely removed."

Reports from other eastern cities show a waiting, rather than a confident, attitude throughout the west, and a general dullness at the south.

Salt Lake has maintained her usual excellent showing throughout the week just closed, and again gives evidence that she is entitled to be classed among the leading business cities of the country.

Lead and Silver

Lead has remained steady at \$4.40 during the week. Silver has fluctuated from \$160 1/2 to \$160 3/4.

Business Failures

The business failures occurring throughout the country during the last seven days, as reported to R. G. Dan & Co., number, for the United States, 222, and for Canada, 25, or a total of 247, as compared with a total of 237 last week, and 254 the week previous to the last. The corresponding week of last year the figures were 197, representing 175 failures in the United States, and 22 in the Dominion of Canada.

The Crops of the World.

That eminent authority, Mr. Henry Clowes, speaking of the grain crops of the world, has this to say: "This very important crop question is now assuming measurable dimensions. An eminent English authority on grain statistics, while anticipating an almost average British crop of wheat, estimates the deficiency in France at 1,200,000,000 bushels, and some French calculators place the deficit as high as 175,000,000. The total European deficiency would be supplied from external sources, the English estimate places at 380,000,000 bushels of wheat; or, if we were to accept the figures of the French statisticians for France, the total European deficit would be about 1,000,000,000 bushels, or nearly, therefore, it may be assumed that Europe will have to import about 400,000,000 bushels of wheat. Such a demand implies a higher price for that cereal than has prevailed during late years; and, were the price estimated at the consensually low figure of \$1 per bushel, it would follow that Europe will have to pay about \$400,000,000 for wheat, or nearly \$400,000,000 more than she would have to pay for the same quantity of wheat, which is an amount almost without precedent. Our own crop is variously estimated between 300,000,000 and 350,000,000 bushels; and, as prospects now stand, 550,000,000 is perhaps a fair estimate. Estimating our domestic requirements for various purposes at 250,000,000 bushels, it would follow that we have a surplus of 100,000,000 bushels for export, assuming the home stock to remain at its present quantity, whatever that may be. According to these estimates, we are in a position to furnish to Europe close upon—or possibly fully—one-half of its total required imports of wheat. This means that this one item of our exports will amount to nearly \$300,000,000. To the United States this is a very exhilarating prospect, but to Europe it is a very gloomy one."

At the Banks.

The ore and bullion shipments made by the various banks of the city for the week ending July 18, 1891, amounted to \$100,453.00, as against \$148,570.00 for the week previous. They were reported as follows:

Table with columns: Name, Amount. Includes McConick & Co., Wells, Fargo & Co., Bullion, Fine bars, etc.

NEWS FROM THE MINES

Mr. Hansner, Jr., reports the week as being a very fair one. Park City, Bingham and Tintic have been quite lively, and the Cottonwoods, Stockton, Pioche and Frisco were heard from.

The Comstock

As we are advised that the Comstock Mining company (L) have secured ample funds for the erection of their hoisting works, and the further development of their property, and that work will be resumed immediately upon the return of Mr. Dusseldorf, a review of the prospects of this very promising property is given.

It is located at Park City—up Thayne's canyon, immediately adjoining the Crescent, Roaring Lion, Silver Key, Apex and Gem properties—and crosses the apex of the vein within the limits of its ground for fully 3,000 feet. The work already done demonstrates to the practiced eye of a miner, that untold treasures are to be had by attaining greater depth, and there is no prospect in the camp that has a better showing. The vein on the upper workings is about sixty feet wide, showing good ore, and in the lower tunnel, which is open for over 200 feet, they cut the vein at a distance in of about 200 feet, and for the balance of the way—some 600 feet—the vein is in ore all the way. Some seventy-five tons are on the dump, taken out in driving the tunnel. The work done on this tunnel level shows that they are on top of a very large ore body, and all that is required to make it a dividend paying mine is about three or four hundred feet of greater depth.

Other Tintic Topics.

W. C. R. Allen and Messrs. Milan and Henry, of Salt Lake City, were in Silver City last week viewing several properties there. It is reported that they have purchased a fraction of a claim in the neighborhood of the Cleveland mine, but the consideration was not given.

The Ontario.

The sampler having started up again, bigger shipments may be expected. The usual dividend has been declared.

The Anchor.

The usual lot of concentrates came in. The assessment is due on the 21st. It will be fully paid up as usual.

The Vevaspian.

Nineteen tons came in. Half 19 silver, 45 lead and 1/2 gold; the remainder 16 lead, 45 silver and 2 gold.

Peebles, the well-known druggist of Ogden, were in Tintic this week examining some properties on the divide between Eureka and the North Tintic district. They will immediately commence development work on the Graphite and Hermes claims in Greeley gulch, about one mile and a half north of Eureka, Tintic mine.

The Alaska.

Work is being pushed and the outlook is most encouraging.

Mammoth Hill.

On the property of the Mammoth Hill Mining company, consisting of the Rebel, Union and Louisa claims, and controlled by a Provo company, there are reports of a good strike having been made, but as yet we have no particulars of it except that a vein near the surface has been uncovered from which assays as high as 400 and 1,500 ounces of silver have been obtained. The property adjoins the Crimmon-Mammoth on the north, and is looked upon as a coming bonanza.—Mines.

Centennial-Eureka.

Ore is being rushed out at a rapid rate. The 28 dividend recently paid has attracted wide attention in mining circles both in and out of the territory.

The Caroline.

There is the usual news.

Other Tintic Topics.

W. C. R. Allen and Messrs. Milan and Henry, of Salt Lake City, were in Silver City last week viewing several properties there. It is reported that they have purchased a fraction of a claim in the neighborhood of the Cleveland mine, but the consideration was not given.

The Vevaspian.

Nineteen tons came in. Half 19 silver, 45 lead and 1/2 gold; the remainder 16 lead, 45 silver and 2 gold.

The Renton.

A large shipment represented the new company.

Diamond Consolidated.

Harry Joseph, who is a stockholder in the Diamond Consolidated, paid a visit to the mine this week. He is very enthusiastic over the prospects, and says three veins have been cut through in sinking the shaft.

Bullion-Beck.

There is the usual steady output. Two hundred and fifty men are now employed.

The Treasure.

It would appear the property was rightly named.

The Park.

The Chief says the Park mine will soon be patented.

The Cave.

W. T. Dowling, owner of the Cave mine, intends to resume work on this property shortly. Several mining men have lately examined the property and pronounce it one of the most promising prospects in the district. It has a shaft down eighty-nine feet, displaying a ledge five feet across the face.—Chief.

The Orphan Boy.

Pay ore has been struck. Shipments may be expected.

South Swanes.

Another shipment is looked for this week.

The Mammoth.

Ninety men are now employed. The new machinery will soon be in operation.

The Keystone.

Regular shipments continue.

Martha Washington.

Rice's sampler received two tons of this ore. It was of a very good grade.

Graphite and Hermes.

Mr. John Zernung, a mining operator largely interested in Colorado and Wyoming properties, in company with Mr. C. L.

Free Wants!

All employment advertisements inserted three times without charge; other advertisements in this column 10c per line first insertion, 5c each time after; by the month, \$1 per line. Marriage notices, \$1; birth notices, 50c; death announcements, free; obituary notices the same.
