

# A DAY OF DISASTER.

## Awful Railroad Wrecks Yesterday.

### TWO TRAINS COLLIDE,

Resulting in the Death of Thirteen Persons.

### FIRE ADDS HORROR TO THE SCENE

Human Beings Burned Before the Eyes of Rescuers—Robbers Wreck a Train on the Santa Fe, Which Results in the Death of Four Persons—Other Wrecks.

CLEVELAND, Sept. 21.—What will undoubtedly prove the most disastrous accident in the history of the Pittsburgh, Fort Wayne & Chicago railway took place early this morning near Shreve. The fast east-bound express train collided with a west-bound freight, both running at full speed. The collision occurred on a sharp curve and in a cut where neither crew was able to see the other train approaching. Immediately after the crash

thirteen burned and blackened trunks were taken from the wreck. They are: GEORGE SMITH, fireman, Crossville, D. E. REESE, postal clerk, Mission, H. S. ALLEN, postal clerk, Columbia, W. C. MANN, postal clerk, Chicago, J. C. PATTERSON, postal clerk, Beaver Falls, Pa.

There are five unidentified bodies, including those of a lady and a child. Some of those unidentified were bound for Alliance and others for Epoxville, Pa. The seriously injured are:

FRANK BURT, Crestline, engineer of the express train; JAMES EATIS, Sandusky, passenger, D. R. STOKER, Pittsburg, Pa. D. G. RIVERS, Birmingham, Pa. A. H. W. BROWN, Huntington, Ind. L. KOON, Massillon, O. M. ARMISTEAD, Noblesville, Ind. J. EARNST, Millville, N. J.

Two postal cars, filled with through mail, one express car and three freight cars were consumed by fire. This afternoon \$50,000 in silver bricks were taken from beneath the mass of iron and cinders. Some of the silver was melted.

A temporary track has been built around the wreck and travel partially resumed. The WRECK WAS A TERRIBLE ONE, and with the exception of three Pullman cars, the passenger train was a shapeless mass.

As soon as the people of Shreve heard of the wreck many of them hastened to the scene with local physicians, and tried to extinguish the flames and rescue the unfortunate in the day coaches. The fire had gained too great a headway, however, and little could be done. Those who perished were pinned down by timbers, and the people outside had to stand back while the shapeless victims slowly burned to death.

The fireman of the freight train had a horrible death, as he was caught in the cut, and his frightfully burned body dangled in the air in view of the hundreds who visited the scene, the wreckers being unable to get at it because of the heat.

### WRECKED BY ROBBERS.

Terrible Result of the Finnish Work of Train Wreckers.

KANSAS CITY, Sept. 21.—Passenger train No. 5 on the Atchison, Topeka & Santa Fe railroad, east bound, was wrecked early this morning three miles west of Osage City by train robbers, who hoped to plunder the express car of a million dollars being transported from the City of Mexico to Boston for the Mexican Central railroad.

A wrecked train, four feet high, thirty-two men, women and children injured and the only results of the attempted robbery. The robbers stole tools from the section house at Barclay, three miles west of the scene of the wreck and removed the fish plate which joined the two rails together. The robbers selected the top of a grade, going up which the train was likely to slide down, lessening the chances of so badly wrecking the train as to bury beneath the debris the treasure they were seeking. The precautions were unavailing, as everything they sought to avoid occurred.

When the train reached the spot the engine left the track and most of the cars followed it.

FLINGING ONE ON TOP OF ANOTHER and making an awful wreck. The express car was buried so that it required two hours' digging to get at it.

Fortunately, although the engine was at the bottom, the pile of debris didn't catch fire, and thus an awful horror was avoided, as many of the injured would in that event have perished before the rescuers could have reached them. The engineer, fireman, express messenger and guard were crushed to death in the wreck. There were about two hundred and fifty passengers on the train, but not one was killed. Several were badly injured and a few may die.

The million dollars was rescued from the wreck by Major Llewellyn of the Santa Fe road and turned over to the Wells-Fargo company. Santa Fe has offered \$1,000 reward for the train wreckers, and several parties are searching the country.

ANOTHER ACCIDENT. KANSAS CITY, Mo., Sept. 21.—A special to the St. Louis from Topeka says the wrecked train consisted of a baggage, express and mail cars, two day coaches, two chair cars and three sleepers. It was thrown over an embankment three feet high, and the first six cars were derailed. Fifty persons were killed outright and thirty-five seriously injured.

THE KILLED AND INJURED. Express Messenger FRANK BARTER of Kansas City. Express Guard HENRY BLOOMFIELD of Mexico. Fireman JAMES CHAMBERLAIN of Topeka. Engineer ED MOTT of Topeka. Most of the injured are western people, but among the number was Lydia Luman

of Brommington, Ill., who is badly injured and bruised about the head and face. C. T. Woodlief of Elliott, Ill., is also badly injured.

The wreck occurred at a small bridge where there was a heavy down grade. The train was running forty miles an hour and it was impossible for the engineer to see the misplaced rails in time to check the speed of the train.

The coaches piled one over another until the baggage and express cars were completely buried from view. Men, women and children were piled over each other, caught in the seats and thrown through the windows. Relief first arrived from Emporia. An examination of the track shows the fishplates had been carefully removed and bolts taken out and spikes drawn from ties and the rail bent over to the inside.

Twenty was unquestionably the object, as the train, carried \$1,000,000 in currency en route to Mexican Central headquarters in Boston. A spot was found where three men had lain concealed in the grass and their tracks were discovered leading from that spot to the track. The passengers were brought to Topeka at 10 o'clock this morning. Some of the wounded could not be removed and several will probably die.

### STILL ANOTHER.

Second Section of an Express Train Runs Into the First.

LANCASTER, Pa., Sept. 21.—The second section of the westward bound express on the Pennsylvania railroad ran into the first section at Rheims station yesterday afternoon and both trains were badly wrecked. One engineer was killed, the other engineer and both firemen fatally hurt. No passengers were injured.

Grady of the Union Pacific was killed at the Strawberry Point water tank, a few miles east of Devil's Gate early yesterday morning. He went out to extricate some traps and fell under the wheels. ### TEST OATH CASE.

Republicans in Idaho Apprehensive of the Mormon Vote—Court Proceedings.

MONTICELLO, Ida., Sept. 21.—[Special telegram to THE HERALD.]—In the case of the United States vs. Solon W. Robinson for perjury, involving the test oath and on which a petition for habeas corpus is now pending in the circuit court at Cour d'Alene, continued in the United States commissioner's court of J. Sunderwood until today, was called at 10 a. m. today.

Much to the surprise of everyone the Republicans, represented by J. A. Barclay, the nominee for representative on the Republican ticket, opposed a continuance of the case and demanded an immediate preliminary examination. J. C. Rich and T. L. Glenn for defendant, insisted that the case of the defendant was and is now pending in Judge Beatty's court as the city of Cour d'Alene, some 1,500 miles distant, and that the United States commissioner could not act during the pending of the habeas corpus proceedings. Judge of the case of the defendant was not insisted upon, but the fact remains that the Republicans are doing all in their power to resist in the course of the question whether the Mormons have the right to vote at the coming election. Put it down that the Republicans are afraid of the Mormon vote in Bear Lake county.

### BEAVER BRIEFS.

Jury Seated in the Wade Nicolls Case—Other Cases—Democratic Doings.

BEAVER, Sept. 21.—[Special telegram to THE HERALD.]—After a continuous effort of twenty-nine hours a jury was obtained in the celebrated case of the People vs. Wade Nicolls, alias "Tex," at 3 p. m. today. He is charged with the murder of Howard Tanner in November last. Four witnesses have so far been examined. Court adjourned at 6 1/2. The evidence is very strong against the defendant and his counsel, Kenner and Christie, are working to reduce the degree.

Judge Miner today called up Herman Parscher, whose case the grand jury ignored, and said he had learned that there was more in the case than had come to light, wherefore he ordered the defendant's case again submitted to the grand jury and bail was fixed at \$2,000. Later in the day he reduced it to \$1,000, which may be given.

The Democrats are having one of the grandest rallies of the season tonight. Ladies with badges and a conspicuous feature, white music and oratory hold full sway. The situation is gradually heating up and will soon be warm enough for all purposes. The speeches at the Republican meeting Monday night made more Democratic than Republican votes.

He also saw O'Brien, armed, coming from the mountains.

MINNEAPOLIS, Minn., Sept. 21.—The Tribune tomorrow will publish long interviews with Senators Davis and Archbishop Ireland relative to the resolution introduced in the German Catholic convention at Dubuque yesterday. Senator Davis said he certainly would not retract the words spoken under an impressive sense of his duty as American citizen and senator. The senator said his respects were more to Catholicism and said he would rather be honored by going back into private life than to comply with a demand full of insinuation. Archbishop Ireland expressed the utmost surprise at the resolution and said it would never be adopted. The archbishop added that Senator Davis did well in repelling such a foreign attack, and all Americans will applaud his action.

### FORWARDED HIS RESIGNATION.

Essential Rankin of Wyoming Talks About His Case.

RAWLINS, Wyo., Sept. 21.—[Special telegram to THE HERALD.]—Your correspondent today had a long interview with ex-Sheriff Rankin, brother of United States Marshal Rankin. The latter passed west yesterday morning. To say that he is mad is hardly the expression. His resignation has been forwarded. He charges Wilcott, Tisdale and Irvine as the conspirators to down him, simply because he would not make wholesale arrests in Johnson county upon trumped up charges. Their influence is through Senator Manderson of Nebraska, with possible help from the Wyoming senatorial delegation. Mr. Rankin has demanded a thorough investigation, as he is one among the few whose accounts with the department have been adjusted and settled.

A glee club of veterans sang a song inviting the encampment to Indianapolis next year and were gloriously applauded. Commissioner Douglas of the District of Columbia read an address of welcome, and Captain Palmer made a tasteful and appropriate reply. After the report of the committee on credentials had been received

### PALMER MADE HIS ANNUAL ADDRESS.

Following is a synopsis of the address of Commander-in-Chief Palmer to the Grand Army of the Republic today:

A large portion of the address was directed to patriotic reminiscences of the war and to the memories that it awakens around Washington recalled to the veterans. The race question, which has disrupted the Grand Army of the Republic organizations in Mississippi and Louisiana, was reviewed at great length, the commander explaining how he was forced to ignore the rights of the department of those states to surrender their charter, and to insist that colored posts Nine to Seventeen must be recognized.

The passage by Congress of the disability pension bill was warmly commended, and it was urged that the statutes to protect the rights of the veterans of the late civil war in civil service be more rigidly enforced.

### ADJUTANT GENERAL'S REPORT.

The report of Adjutant General Fred Plisterer followed the address of the commander-in-chief. This report shows there was a gain of 229 in the number of new members during the year. A gratifying and most pathetic sentence of this report is the following:

Practically it may be said that the membership of the G. A. R. is now at its highest point. It is not only the largest stationary for a few years to come, when, necessarily, it must decrease, and the decrease will be rapid.

### WILL MEET NEXT AT INDIANAPOLIS.

The only interesting feature of this afternoon's session was the selection of Indianapolis as the place of the next encampment. Lincoln decided to make no resolutions and communications were referred to the committee on resolutions. The special committee was appointed to pass upon the report of the adjutant-general in a report congratulating the G. A. R. upon the increased efficiency of that bureau. The report was adopted as was the report of the committee on the proposed amendment to the constitution of the adjutant-general and contained no new features of interest.

An adjournment was then taken until tomorrow.

### STATISTICS.

H. F. Stevenson, surgeon-general of the G. A. R., in his annual report, complains of the many persons who are not paying their dues and mortuary returns, so the statistics on these matters are very incomplete. According to Commissioner Raim, the dues of the G. A. R. for the year were \$78,078,078 on the rolls and the appropriation aggregated \$100,000,000. In addition to these vast expenditures the annual appropriation for numerous government homes was \$2,000,000. There were also 178 government cemeteries kept up by government appropriations. These appropriations, says the report, seem large, but when it is considered that there are 100,000 members of the G. A. R. it should be thought of in reference to the grand moving cause calling them into being, the preservation of the government from overthrow, and who can place too high an estimate on that achievement. It is absolutely beyond monetary consideration. In this connection the report makes a statement of the national resources, quoting the superintendent of the census bureau, to the effect that the absolute wealth of the United States may be estimated at \$20,000,000,000. A number of other reports were also made.

### THE UNION VETERANS' UNION.

which has 30,000 members, preceded the encampment meeting today with a fine parade upon Pennsylvania avenue. The commander in chief and his large staff, headed by Adjutant General Street, rode at the head of the procession. At the subsequent meeting General Yoder delivered his annual address, reviewing the progress of the order. General Green Clay Smith offered resolutions which were unanimously adopted expressing sincere sympathy with Comrade Harrison because of the serious illness of his wife and a sincere prayer for her recovery.

A committee, on which ex-President Hayes is a member, was appointed to take measures for the establishment of an industrial home for Sons of Veterans.

### ON BOARD THE KEARSARGE.

It was marine corps day and the old sailors from the land and sea gathered on the Kearsarge, son of Rear Admiral Winslow who commanded the Kearsarge when she fought the Alabama, delivered an address. Vice-President Norton and Secretary Tracy visited the ship and both made brief remarks. Secretary Tracy speaking of the need of a strong navy.

Steps were taken today, having in view the birth of a new G. A. R. subordinate organization under the title of "The Minute Men of '61," to be composed of all who entered the service under President Lincoln's call of April 15, 1861. Massachusetts has an organization of this character, and in Wisconsin a similar organization has been started.

The association of ex-prisoners of war elected Marion T. Henderson of this city president. The association is interested in having Congress act upon the bill granting a pension of \$2 a day to all prisoners who were imprisoned over a certain number of days. A committee was appointed to consider the question further.

The Pennsylvania and New York delegates to the national encampment departed tonight to vote as a unit for Captain Wentworth to be elected as a member of the executive committee. This action, it is asserted, will give Captain Wisner a majority of votes and the election.

The contents from his body have been subjected to examination. Mary Conery, a young girl who is at the reception hospital as a suspect, will be discharged tomorrow. She has not had cholera. Louis Weinlagen is still ill, but it is not yet known whether he has cholera. The health department received this afternoon from Prof. Briggs the result of the bacteriological examinations made in the case of John Knox, fireman of the steamship Nevada, and Louis Weinlagen.
