

THE SCHOOL BOARD.

Some Long-Winded Reports on Various Subjects.

Architect Kletting's Claims Allowed—Financial Status of the New District—The Seventeenth Ward Site.

The board of education held its regular meeting last evening, with Vice-President William Neilson in the chair.

Mrs. F. Perkins, a teacher in the annexed district school No. 1, and others, presented the application of Frank Harvey for the position of janitor at \$12.30 per month. Referred to committee on furniture and supplies.

Close & Cannon petitioned for a portion of the insurance being placed on the school buildings. Referred to committee on sites and buildings.

William Harding sent in a bill for \$3 for coal and labor used at the exposition building on election day. Referred to committee on finance.

Williams & Van Cott sent in a bill for \$500 for legal services rendered the board from March 1 to Dec. 31, 1892. Referred to committee on finance.

Proposals for furnishing water closets, etc., at the Eleventh ward school were received as follows: Milgroy & Sons company, \$1,700; J. H. Johnson, \$1,000.

Mr. J. H. Johnson moved that the lowest bid be accepted and the firm notified to immediately begin the work. The motion was carried.

THE SEVENTEENTH WARD SITE. In the matter of the bid for the Seventeenth ward school site, the committee on sites and buildings reported that the Seventeenth Ecclesiastical Ward association had offered \$500 for the site referred to, and recommended that the president and clerk of the board be authorized to execute a quit claim deed to the said association. The matter was laid upon the table for one week.

AN ARCHITECT'S CLAIMS. The committee on sites and buildings submitted the following:

To the Honorable Board of Education: Gentlemen—Your committee on sites and buildings beg to submit the following report on bills of J. Kletting, architect hereto attached:

Bill of December 8, Eleventh school (Bryant), 2 1/2 per cent of \$20,000 for a complete set of drawings for two-story addition to Eleventh school, now complete, \$7.50, and recommended that said amount be paid on condition that he receipt in full for all services rendered at said building.

Bill August 25, Nineteenth school (Washington), for plans as per agreement, \$1000. We recommend that 2 1/2 per cent be paid on amount now paid, 15 per cent when building is roofed and 25 per cent when building is accepted.

Bill of August 25, Twentieth school (Lowell), 2 1/2 per cent of \$27,483, the cost of Twentieth school building exclusive of heating and ventilating apparatus, \$1,000.

You will observe that this bill is rendered "exclusive of heating and ventilating apparatus." In conversation with the architect he stated that he is entitled to a percentage upon the cost of the heating and ventilating apparatus as well as the cost and the construction of the sewer lateral. Your committee recommend that he be not allowed the percentage claimed on heating and ventilating apparatus and sewer lateral. First, for the reason that he is not entitled to it, and that such charge has been made by no other architect connected with the school buildings, and second, for the reason that no plans for the heating and ventilating and sewerage conditions made by him have been accepted. They recommend that he be not paid 2 1/2 per cent of the \$27,483 and 2 1/2 per cent when the building is completed and accepted, provided that in consideration of such amount he receipts in full to the board for services rendered on that building.

He also submits another bill for \$37,74 for plans furnished for the addition to the Eleventh school and services rendered in the years of 1891 and 1892, which plans were not used by this board.

Inasmuch as some of the members of this committee were not on the board at the time, this bill is allowed to have no effect, and they submit the same, without recommendation, referring that the merits of the claims should be decided by the board. In this submitting your committee beg to call your attention to the fact that they have received the payment in full of \$70 for plans furnished in lieu of those for which this amount is claimed. Your committee further recommend that in view of the acquiescence of this committee regarding architect's compensation, that for all future buildings, that contract be made and executed with architects that will provide for the presentation of their claims, in presenting their reports, your committee would also call your attention to the fact that all architects that have made plans for this board have been obliged to rest their claims upon bills submitted before they were finally accepted, and in no case has any bill been presented thereafter. They consider that the situation of this amount would establish a precedent that would, in their judgment, be unjust to other architects and lead to an outcry which your committee believe would be unjust.

The report was adopted and Mr. Kletting's claim allowed in full by a vote of 2 to 4.

THE ANNEXED DISTRICT.

The committee on sites and buildings reported as follows with reference to the recently annexed Sixty-sixth school district:

Assessed valuation for 1892, \$444,464 00
Amount of tax levied, 2,222 22
The school population of the district is 174. The board of trustees reports that the district has a surplus amounting to \$1,622.32, which they consider a liability of the board. They allege that this amount is the aggregate of all the liabilities of the district. Your committee is informed that all of the said Sixty-sixth district is annexed to the city, and that the district is in the southwest corner thereof. Your committee is of the opinion that this board is the successor in interest of the Sixty-sixth district, and is entitled to its assets, and should, after the said assets have been incurred, pay its liabilities as hereinafore stated, \$1,622.32. They recommend that no payment be made on account of said liabilities until the amount, \$1,622.32, be received from the county collector.

We are also informed that the said Sixty-sixth district was by the county court annexed to the Twenty-ninth district on Dec. 7, 1892. Your committee recommends that the board of education be notified of this annexation, and that the board be instructed to demand the amount of said special tax, and of the territorial commissioner of schools, the amount due on account of the school population of the said district, as per the last school census if such demand is in compliance with law. Your committee is of the opinion that if this board is legally bound for the liabilities of the district that it should receive its assets.

The report was adopted.

With further reference to the Sixty-sixth district matter the same committee reported that there was an insurance of \$500 on school furniture in the said district, \$200 on first school and \$300 on the second and third schools, and that the policies be assigned to the board of education; that the first school house can be rented for \$10 per month with recommendation that it be secured at the same rate for the balance of the year; that school No. 2 be discontinued; the insurance be transferred to cover the furniture therein wherever it may be moved, that the third school in the Lincoln park subdivision be continued at a rental of \$12 per month for the building.

This report was also adopted as a whole.

A DILAPIDATED SCHOOL.

The committee on sites and buildings further reported:

Your committee on sites and buildings, to whom was referred the communication of Henry F. Johnson and others, relative to the defective accommodations, condition of buildings, etc., beg to report as follows: First, we found the building is a very dilapidated condition, with five large pieces of glass 24 by 30 out, also that it would endanger the falling of the chimney in said building to the communication suggested in the communication referred to. Second, the building now in use is entirely unfit for school purposes, and is not worth the cost of improving it in any way. The attached plans of a two class room building with four cloak rooms to be constructed of wood in a substantial manner, which your committee believe can be built for about \$1500, and which can be moved at any time. Your committee therefore, recommends that it be authorized to report a suitable plan for building such school house, and to advertise for bids for the erection of such a building and report same to this board.

The report was adopted.

The committee on school work recommended an appropriation of \$200 for a school exhibit for the World's fair. The recommendation was carried.

THE WATT INVESTIGATION.

The committee on teachers reported that the investigation of the charges of Mr. Watt against Superintendent Milgroy had been fully investigated and that the unanimous opinion of the committee was to the effect that the superintendent was entirely justified in refusing

to recommend Mr. Watt; and further that the superintendent had not been influenced in his recommendation of teachers by the church connection of the applicants. The report was adopted unanimously.

APPROPRIATIONS. Appropriations were made as follows:

Table with 2 columns: Item and Amount. Includes Salt Lake Building & Manufacturing company, Level school building, J. W. Zeller, Franklin school building, etc.

Total, \$3,933.13. Adjourned for one week.

A Lunatic's Recovery. When Mr. Amos Ivie, who was sent to the asylum for the insane at Provo the other day, arrived at the building he suddenly became as rational as ever, and realized the conditions to the fullest extent. The boys hardly had the heart to have him locked up, but it was thought that the mania would soon return, so he was left to receive medical treatment.—Highland Advocate.

PILGRIMS IN ZION. Prominent Unionists Who Are Tasting the Pleasures of Metropolitan Life.

B. A. McMillan of Ogden is hustling around Salt Lake in search of school furniture victims. C. H. King, proprietor of a large wholesale grocery at Ogden, is a just of the Templeton. Rex E. Rich the very intemperate Forker of Weber county politics, was in Salt Lake yesterday.

W. A. Wilson, the Park City mining and milling man, came down to see Julia Marlowe last night.

C. E. Lockhart, a Park City merchant, is trying the lower altitude and more salubrious climate at the Knutsford.

Mrs. C. W. Hury and Mrs. E. B. Kitchen, prominent Ogden ladies, among the best of town patrons of last night's opera. They are stopping at the Walker.

A French Vessel Wrecked. LONDON, Dec. 15.—The L'Esperance, a French vessel, was wrecked off the island of Guernsey. All of the crew were drowned.

Grinding Out Corn Meal. HAMBURG, Dec. 15.—Another mill has been started in this city for grinding Indian corn exclusively. This is the third of the kind now running. The establishment of these mills is due to the efforts of Charles Murphy, special agent of the United States Agricultural department, who was sent to Europe to work up the use there of corn as a food product.

A Child Enjoys. The pleasant flavor, gentle action and soothing effect of Syrup of Figs, when used of a laxative, and if the father or mother be constipated or bilious, the most gratifying results follow its use; so that it is the best family remedy known and every family should have a bottle.

Keep Your Money at Home. For your holiday beer try our pure and unexcelled filtered Pilsener lager. Prompt delivery guaranteed.

SALT LAKE BREWING CO. Telephone No. 17.

Out of Sight. The traveling public are now fully alive to the fact that the Chicago, Union Pacific & Northwestern line offers the very best accommodations to the public from and to Chicago, Omaha, Denver and intermediate points.

I have left in stock two beautiful new upright Steingway & Son pianos, which I am very anxious to close out as I am no longer their agent. I will therefore give a discount of \$100 each on the two pianos if sold within the next five days.

J. B. JENSEN, Temple of Music, 73 West Second South street.
