

IN RAILROAD CIRCLES.

The Salt Lake & Los Angeles Brings Suit.

The Courts Appealed to for a Right of Way-The Deep Creek Road Committee Hard at Work.

The Salt Lake & Los Angeles Railway company filed an action against Salt Lake City and the Oregon Short Line and Utah Northern Railway company in the Third district court yesterday, asking that a certain right of way on South Temple street between Sixth and Seventh West, and on Sixth West street between South Temple and First South, which is crossed by the defendant railway company be condemned for plaintiff's use.

The plaintiff's complaint is that they have repeatedly petitioned the council to grant them a franchise for the use of a portion of these streets, but the said council has neglected and refused to grant the request. They have also been refused a right of way across the tracks of the defendant railway company, hence their appeal to the court.

NO CHANGE IN RATES.

But the War May Commence at Any Time.

The situation in the railroad rate war yesterday was unchanged. The Utah rate so far is unaffected by the cutting in Colorado. From Denver to Chicago the round trip is \$85, and the rate from Salt Lake to Denver, round trip, is \$95, hence the \$10 rate to the World's fair from this city is maintained, and there is no likelihood of its being affected unless the rate from Denver to Chicago goes below \$85. While Utah rates are firmly maintained, the railroad people are fully aware that the situation is critical, and a disturbance might any moment occur which would precipitate the war into this territory and then look out for an interesting time.

The World's fair traffic from this point so far is very light, but officials of both the Union Pacific and Rio Grande Western expect that by May there will be a large increase in the traffic. Late last night information was received which indicated that the Union Pacific and Rio Grande would make a rate to Chicago that will meet the cut rate from Denver. This would mean that the rate would be based on the \$35 round-trip rate to Denver plus the cut rate from Denver to Chicago. This ticket would be limited in accord with the cut rate ticket, which is said to be thirty days.

The rate of \$70 already fixed upon from Utah points limits the return until Nov. 15.

THE DEEP CREEK ROAD.

Committees Are Hard at Work-A Meeting Today.

The Deep Creek committee were all out hustling yesterday, and reported to Chairman Bacon last evening that everybody was subscribing. The subscriptions up to date are for the most part small ones, it having been decided to save the big subscriptions until later and then have them make up whatever amount is short. Chairman Bacon and the committee men generally are confident, and all are working with a will.

The ladies of the Eighth ward will hold a meeting at the eighth ward schoolhouse at 3:30 p. m. today to start the subscription list.

WESTBOUND RATES.

The Rate from New York to California and Return Will Be \$50.

NEW YORK, May 2.—The trunk line rate commission met today for the purpose of figuring rates to California points as well as rates to Chicago. The Missouri river lines having named \$45.50 as the rate from all points on the Missouri river a rate of \$10.50 from Chicago to Kansas City, first class, was named and will be used in figuring through rates to California. If the idea of the trunk line rate commission are carried out it will cost \$50 to see the big fair, go through to California and return to New York.

Salt Lake & Pacific Railroad Meeting.

The ladies of the Eighth ward are respectfully requested to attend a meeting in behalf of the railroad, at the eighth ward schoolhouse at 3:30 p. m., Wednesday, the 24 instant.

Min. C. WILCOCK, Chairman.

Railroad Notes.

General Agent J. R. Keoper of the Rio Grande Western at Ogden, was in the city yesterday, under the protection of George Washington Heintz.

M. L. Cummings has secured the Salt Beach privilege for the sale of pop corn, fruit, candy, soda water, etc. The other privileges are yet undisposed, but negotiations are in progress.

The railroads have made a \$1.50 rate from here to Ogden and return on Thursday for those who will escort governors West home. The committee will, it is said, leave over the Union Pacific at 3:30 Thursday afternoon, returning at 7 in the evening.

THE REAL ESTATE EXCHANGE.

Election of Officers Held Yesterday-The Name Changed.

At a meeting of the Real Estate exchange held yesterday afternoon, J. C. Conklin was elected president, in the place of the late William Fuller, and Fred Trimmer was elected vice-president, and J. H. Watts was elected secretary. It was resolved to change the title of the organization from the Real Estate association to the Real Estate exchange.

The committee on subscriptions presented a very encouraging report. The amount of the subscription has been placed at \$1 a month, with the object of encouraging the membership. The exchange will meet again this afternoon at 4 o'clock, in the Wasatch building, to discuss matters of importance to all real estate men.

HEAVY FRUIT SHIPMENT

Rapid Growth of the Trade in Salt Lake.

The Large Region Supplied from This City—Care Taken in Handling the Fruit.

There is perhaps no branch of trade which has developed so largely in Salt Lake during the last two or three years as the fruit business. The number of houses engaged in the trade has increased four fold and the amount of business done is more than ten times greater than it was three years ago. In 1889, oranges, bananas and green fruits came to this market in small quantities by express. Now they come in carloads upon carloads and Salt Lake has become a great distributing center, not only for Utah territory but for Idaho, Montana and part of Wyoming. Bananas, which were formerly very comparatively unknown in this section; now car loads come in every week and a regular communication is kept up here and New Orleans is kept up. The Hughes Produce company have men who travel from the city on the Gulf with the fruit, whose business it is to see that the temperature in the cars in which the bananas are loaded, is kept even on the trip to Salt Lake, and who superintend the packing. This firm alone receives two car loads a week. The bananas generally arrive in green state and are stored in cellars on arrival here for the purpose of being ripened, which process lasts about a week, the fruit being kept in chambers where a temperature of from 60 to 80 degrees is maintained. The temperature is never allowed to get much below 60 degrees as, if the delicate banana gets chilled, it would be spoiled and would never then ripen properly at all.

Grapes are now also brought in by the car load and this is a great distributing point for fruit here. The greatest increase in the orange trade, from April to 22, thirty cars of oranges came to the city. The Hughes company received fifteen cars of these, the greater portion of which came from California. The first oranges of the season came from Florida. Then Old Mexico sends a few and the balance of the season California is drawn upon, so that this market is abundantly and cheaply supplied with this luscious fruit for ten months of the year. The navel leads in quality, being large, sweet and very juicy. At the beginning of the season seedlings came at \$3 and navel at \$4 a box. The combine among the California growers broke up, and large quantities were thrown on the market at from \$1.25 to \$2.50 a box. The great bulk of the crop, over two-thirds, has now been marketed, and the merchants here expect a good advance within the next two or three weeks.

Fruits of all kinds, especially oranges, bananas and grapes, have been selling very low in Salt Lake all this season as compared with former years. The market has gotten to be a large one, and the prospects are that it will grow as a distributing center for the inter mountain region.

The California oranges are gradually pushing out all others. Several large English companies have lately been organized in southern California for the purpose of growing this fruit and the production is expected to be greatly increased in the future. The very latest and most approved methods are in use. One company which owns large groves has put in oil stoves all over their estates of hundreds of acres at regular intervals, and have electric appliances so that when the self-registering thermometer shows a drop down to a degree of coldness which is likely to injure the fruit the electric current is turned on and the oil stoves are lighted up, warming the atmosphere so that no injury is done to the delicate blossoms, thus what has been the great drawback to orange growing is overcome, as the crop, where these appliances are in use, is never injured by frost. The navel oranges are a comparatively new variety in California and they bid fair to supplant all others.

TETTER & ERYSIPELAS

Neck Covered with Glandular Swellings. Scrofula. Ears Running. Suffered Terribly.

All Remedies Fail. Tried Cuticura. First Application Relieved. Complete Cure in 3 Weeks.

Two years ago I was poisoned in my hands. Then I took Tetter. Then Erysipelas went to my head, face, ears, and nose. My ears were swollen and running from the inside and outside. I could do only on my back. My neck was covered with glandular swellings—Scrofula. I suffered terribly. I began to use CUTICURA REMEDIES. The first application relieved me very much, and in three weeks my ears, head, and face were well. CUTICURA REMEDIES cured me when all other remedies failed, and I had despaired of ever being any better. I cannot be without them now, and shall recommend them to my suffering friends, for I do say that they are the most pleasant and best remedies for skin diseases I ever saw. PUTNAM

NAILS and SUNOL.

New York, Nov. 12, 1890. PUTNAM NAIL CO.

In reply to your favor I would state that I have used the Putnam Nail for several years, and have advised my friends to use it only. It is hardly necessary for me to add that I prefer it to all others.

The Putnam Nail enjoys the distinction of being the only Hot-Forged and Hammer-Pointed nail made by machinery, and which imitates the old hand process.

ROBERT BONNER INSISTS ON ITS USE.

All others are COLD ROLLED and SHEARED, as an examination of their edges near the point will show, and are liable to SPLIT or SLIVER in driving, to injure and perhaps kill the horse.

The above picture, from a photo representing Mr. Bonner in the act of handling his smith a Putnam nail, while superintending the shoeing of Sunol, will be sent in the form of a half tone, size, 5x8, on thick, white paper, with wide margin, on receipt of 2 cent stamp for postage, etc.
