half of their associates, stated that they were neither coerced nor induced in any way to vote contrary to their own wishes and judgment at the Third precinct on Tuesday, by any of the forces of the road. They understood that there was a movement on foot to erect extensive shops here and were anxious to aid the plan, believing it to be for their own and the general good. If this was taken advantage of by a certain party, it was not with their endorsement. They esteem Mr. Patterson as an able and honest man, and state that neither the Mr. Echeles or Mr. Young asked any of them to vote contrary to their own wishes. As to the threat to boycott the road if certain officers are not forced to resign, the commissionmen state that those who talk that way do not understand the situation, and do the officials and the workmen an injustice.

Aftermath.

Let us have peace. Marshal Prier sounds quite natural. Got into your respective parties, boys. The crucial war is over. Let's take a rest. The haters did a rushing business yesterday. Rich is the most lionlike man in town today. O. W. P. has not yet emerged from the tureen.

Newell made a grand run in the First precinct. Shake hands over the bloody chasm and be friends. Jim Deony can still be leading council for the Tuscaroras.

Lawson and his "record" are now both putrid reminiscences. General Twenty-two Voie Colburn is a first-class funeral orator.

The Citizens have demonstrated that they are stronger than the bosses. Andy Bixen telegraphed to The Herald from New York city for the returns.

WILL BUILD A BOILER HOUSE.

One to be Erected at the Joint Building Costing \$20,000.

Sewer Construction Will Not be Pushed—Proceeds of Bond Sale Amounting to \$125,000 Will be Paid by November 13.

The city council met in regular session last evening. Tuesday was the regular meeting night, but owing to the elections that day was a holiday night. Before the meeting was called to order there was considerable pleasantries indulged in regarding the results of the elections, the laugh being on the side of the minority of the present council. Lawson and Moran were both cheered for a good deal on their defeat. Rich, for whom a specially warm reception was in store, failed to put in an appearance. All the other members were present with the exception of Beardsley and Evans. President Loofbourrow presided and a fair amount of business was expeditiously transacted.

The most important thing done was the adoption of a resolution to refund the \$1,400 collected for the construction of sewers on the north side of Brigham street, between State and J streets, and to indefinitely postpone the construction of said sewer.

The council refused to allow the gravity sewer contractors to change the mode of construction of the sewer by substituting cement for brick. It was resolved to proceed with the construction of a boiler at the joint city and county building at a cost of about \$20,000, and that the work, instead of being done by day labor, be done by day labor under the supervision of the city's officials.

An additional refund of sewer tax to the amount of \$1,659.43 was ordered and the amount placed on the appropriation list.

A discussion as to the propriety of passing the appropriation was had, by which it was developed that some of the city's bonds will be taken up before the 12th inst., and the appropriations were deferred until next Tuesday.

A communication was read from E. M. Abbott stating that he had just completed a \$200,000 water main extending to the house. Referred to committee on water works.

The amount of the taxes was 99 cents and the costs \$12.50.

MAY NOT CHANGE CONSTRUCTION.

In the matter of the request of Houshnan, Griffiths & Morris to be allowed to use a concrete masonry instead of brick on the gravity sewer, the board of public works recommended that the substitution be not permitted, and that the same as the contractors shall have completed all the arch work for which it is possible to procure suitable brick, they be allowed to close up work for the winter.
