A certified check is on its way here for \$5,000 to defray the training expenses of Mitchell and Corbett. This is what the managers required yesterday, and in case the Florida people pull off the fight, this money is to be forfeited to the pugilists.

"This shows Bowden and Mason are in earnest," said Rouse, "and I will call a meeting at 2 o'clock tomorrow afternoon. At this hour I don't see anything to prevent an agreement being signed by all parties."

MEMORIAL OF THE BAR.

Tribute to the Memory of the Late Judge Symes.

The many friends of Judge Symes, who had heavy interests in Salt Lake, and who for two years past had been a frequent visitor to this city, will read with interest the following tribute to his memory by the Colorado bar.

The members of the bar of Colorado have heard with profound sorrow of the death of our brother, the Hon. George G. Symes. Once more we are impelled to stay the busy course of life and contemplate that mystery which is the end of his hopes, his struggles and his triumphs, as it must also be the end of ours.

To review his life is to set forth those excellencies of character that distinguish in every age the moulders and leaders of thought and action. He was called to many responsible public trusts, and he fulfilled them all with honor to himself and to his country. As a soldier, giving his young and vigorous energies to the cause of his country; as a judge, resolute in the wise administration of the laws; as a legislator, bringing to the councils of the nation ripe and practical experience; as a lawyer, zealous in the interests of his clients; as a private citizen, kind and thoughtful in his varied relations with his fellows, his every step was marked with ability, honesty and devotion to a higher purpose, and he maintained throughout a splendid courage and a steadfast fidelity to the lofty aspirations of his youth.

A Conservative Folly.

General Manager Dickinson was interviewed by an Omaha Bee reporter the other day and in the course of his remarks says that there will be no attempt made by the receivers to cut salaries and that they will take a very conservative course in the question of a rate war. He says that the road has not been in so good a condition for many years to pay salaries as this year and that they will be paid promptly. October will show a healthy gain in receipts over September and yet there is a material falling off from the receipts of the same month a year ago.

CROSSING THE CONTINENT.

Many Railroad Men Think the Passenger Rates Are Too High.

The initial move for reducing overland passenger rates was made yesterday, when W. A. Bissell and C. H. Speers, local agents of the Santa Fe, accompanied by H. Thompson, Los Angeles agent of the same company, called on the officers of the Southern Pacific company and made an official request for action looking to the lowering of prices for tickets to eastern points, says the San Francisco Examiner.

Assistant General Passenger Agent

Donaldson was the only Southern Pacific official present in the big brick house at the corner of Fourth and Townsend streets to receive the visitors, and no understanding in regard to proposed rates was reached.

It is well known that the Santa Fe people have long been dissatisfied with the figures forced on them by the Southern Pacific, and that they have been growing more and more impatient. Chicagoan says they hope for speedy relief. The northern railway line, by the use of steamers from here to Portland and Victoria, have been called on the officers of the eastern business firms to secure the same facilities from the regular all-rail companies, and the sensational all-round reduction announced by the Canadian was the last straw which broke a cut all along the line is inevitable.

It is estimated from official figures that there will be at least 7,000 cartons of oranges shipped east from the southern part of the state this year. This is about the same as the output of last season. The fruit is said to be in good condition, but the yield per acre scarcely comes up to expectations.

HAS HER WAR PAINT ON.

Mrs. Lease Scores the Populist Leaders in Kansas. Topeka, Kan., Nov. 10.—Mrs. Mary E. Lease places the responsibility for the defeat of the Kansas Populists on the state administration, which she calls corrupt. She criticises severely Governor Lewelling and repudiates United States Senator Martin as unworthy the support of the People's party. "No party," said Mrs. Lease, "has ever been disgraced with more corrupt men than some of those who hold positions of trust under the Populist administration. Personally, I am jubilant over the result in Kansas. It is not the party that is defeated, but the leaders who are repudiated."

Her place in the Collins company is being filled by "Romany Rye" has been filled by Clementia Pratt, late with the Ethel Ellinger company, and Salt Lake's latest dramatic company.

The House That Mike Owns.

It is a grand house, and to build one like it would cost millions of dollars, if it could be done at all. And yet the man who lives in it had hardly a dollar to his name. But then he didn't buy the house, because it was built by nature on the rocky walls of Sabina canyon, in Arizona, thousands of years ago, and has been ready for an occupant ever since. The man who lives in it is a prospector known as Mike. What other name he has is not known, and he is not in the canyon one day a year or so ago, when he first saw the place and thought it was a house built by man.

When he saw his mistake he simply took possession. Mike's house is truly a most deceptive piece of nature's handiwork, and a very useful one. It is on the canyon walls, probably 100 feet above the bottom, and a light of natural stone steps leads to it. It is hard to convince one's self that it is not the work of man until it is examined closely, when its enormous size alone would make a person know differently. It is only one story, but the notable wall is seen in winter, when the snow which is in good proportion is over twenty feet high, and the room on the inside reaches up and ends in a black vault that there is no telling how far away it is.

When Mike wants a fire he just makes it on the floor, and the smoke curls up to the top and disappears somewhere. As no water ever comes into the place and the smoke cannot be seen coming out anywhere. But it is very likely goes through some fissure into a cave beyond. But Mike doesn't care where it goes. He is satisfied with the convenience and thinks he is the best fixed prospector in the mountains.

WATCH THE CHILDREN.

Are the Warning Words of Drs. Mansfield & Bissett. The Statement of Miss Miller Given Below Should Convince Parents to More Closely Watch Their Little Ones.

"I am fifteen years old and I have suffered from catarrh ever since I can remember," said Mary Miller to the writer.

Continuing, she said:

"I suffered with headaches and roaring in the ears at times. My nose stopped up so bad that I had to breathe through my mouth most of the time. My throat was sore and thick with mucus, and I would have spit every morning for an hour or so getting my throat cleared out. It crugged all day long a kind of hacking cough, and at night it kept me awake a good deal. I suffered with a pain around the heart, shooting pains across the chest that caused me a great deal of annoyance.

"Such was my condition, a young life made miserable, and any remedy I tried did not seem to help me, when I read of Drs. Mansfield & Bissett's remarkable cures of cases of the same nature as mine that I applied to them for treatment.

"I began their treatment and followed their directions and used their remedies, and today I feel like another person. The headaches have stopped, roaring in the ears gone, throat well and clear from mucus. My cough has left me, the pains around my heart and across my chest are gone, and I get up in the morning feeling better than I did before I took treatment. I got up every morning before I took treatment. I got up every morning before I took treatment. I got up every morning before I took treatment.

"I will verify this statement to any one calling on me, or by letter to those of you who wish to write.

MARRIAGE CUSTOMS.

Secret marriages are a very early country in Europe considered illegal.

In Spain, the bride and groom are wedded in a public place, and the ceremony has been dipped in good for some eyes.

In Java, as a part of the marriage ceremony, the bride washes the feet of the groom.

In Greece and Bulgaria the groom gives the bride a tap with the heel of her own shoe.

The Greek church employs two rings in the marriage ceremony, one of gold and the other of silver. The bride opens and began writing. Nephew knew that the interview was over. Just then he was going through the door he heard uncle mutter: Do they need me?
