

THE STRUGGLE AT AN END

(Continued from Page 1.)
remphas, he severely criticized Blount's
speech at Honolulu.

GOLDEN CLAIMS.

The Republicans Merely Played a
Little Game of Bluff.
Washington, March 1.—[Special.]—The
Bluff here, according to the general belief
will be promptly passed by the Senate.

WENT THROUGH THE ICE.

Sad Fate of a School Teacher and
Her Pupils.
Cincinnati, Ohio, March 1.—A special
to the Commercial Gazette from Wash-
ington, Ind., says a rumor comes from
Bloomington, twenty miles north, this
evening, that a lady school teacher,
near Bloomington, was crossing the
ice of the Tippecanoe river, the meas-
ure of her pupils, when the ice broke
and nearly all, if not every one, was
drowned.

CAVE IN A SLATE QUARRY.

Seven Men Buried, Five of Whom
May Die.
Allentown, Pa., March 1.—The top
of Williams & Sons's slate quarry at
Williamstown, Pa., in this morning,
burying Joseph Beamley, Samuel
Kretz, G. A. Pritchard, W. R. Jones
and three Hungarians. Jones was dug
out alive, but was probably an
victim of the disaster. The others
were probably killed. A large gang
of quartermen is pushing the work of
rescue.

A Miraculous Escape.

Tiffin, Ohio, March 1.—Natural gas
from the high pressure of the main
leaked into the beer cellars of Hein-
rich's brewery, and when Nightwatch-
man Anthony Meyer went in early this
morning with a lighted torch, an explo-
sion occurred which razed the brew-
ery to the ground and badly damaged
the buildings near by and shattered
the heavy plate glass windows two
blocks distant. The shock was felt for
miles. Meyer miraculously escaped
with slight injuries.

Five Rescued Alive.

Ashland, Pa., March 1.—Five of the
seven men imprisoned in Boston Slope
mine, Charles Maber, Edward Mangle,
James Kramer, Louis White and Wm.
Sevigne, have been rescued alive and
uninjured.

Two Killed, Two Fatally Injured.

Warsaw, Ind., March 1.—The boiler
of Freely's planting mill exploded, fir-
ing the building. Charles Dawson,
superintendent, and Frank Hippy, en-
gineer, were killed; fireman Webb
and John Freely, owner, fatally hurt.

The Treaty Referred.

Berlin, March 1.—The debate on the
Russo-German treaty of commerce
was continued today and was finally
referred to the committee, against the
votes of the Freisingian and socialist
members.

THOSE TROUBLESOME A. P. A.'S.

A Row in Evolving Military Circles
in Wisconsin.
Milwaukee, March 1.—The A. P. A.
new in Milwaukee, the 10th regiment,
the Fourth, is exciting military circles.
Captain West of the Rush Guards,
is charged with discharging several
members of the regiment because they
are members of the A. P. A., and at the
investigation ordered West is said to
have admitted the charge and claims
such action was necessary to restore
harmony to the regiment. It is further
said Captain Burron, West's predecessor,
who recently resigned, was a member
of the A. P. A. and filled the com-
pany with members of the association,
fearing an uprising of the Catholics.
It is claimed by some of West's friends
that the proposed investigation will
reveal a plot to pack the Wisconsin Na-
tional Guard with members of the
anti-Catholic organization.

The New Secret Society.

Crawfordsville, Ind., March 1.—The
first Court of the supreme tribe of
Gen. Hur, the new secret society, was
inaugurated in Crawfordsville tonight,
with 47 charter members. The cere-
monies concluding with a banquet.
The organization will now proceed to
institute lodges all over the country,
there being already nearly 3,000 members.

The Kearsarge Accident.

Brooklyn, March 1.—The court of in-
quiry to investigate the wrecking of the
Kearsarge was continued in ses-
sion today. A number of witnesses were
examined. No testimony tend-
ing to fix the responsibility for the accident
was introduced.

STRENGTH WAS SOON SHOWN.

A TENDENCY TOWARDS HIGHER PRICES DEVELOPED.
Final Figures Show a Big Increase
Over the Closing Sales of the Day.
Precious-Lead Weak Bonds Are
Strong - Governments Firm - A
Good Showing.

New York, March 1.—The stock market
today, after a weak opening, quickly de-
veloped strength and the general tendency
throughout was in the direction of higher
prices.

NEWS FROM NEAR-BY TOWNS.

WORK RESUMED AT THE C. P. COAL MINE AT ALMY.
Men with Families Have Been, Quite Properly, Given the Preference.
The Nevada Southern—Reno Re-duction Works - Heywood Is Scored—That Big Canal.

Evansville, Wyo., March 1.—[Special.]—
Work was resumed in the Central
Pacific coal mine at Almy this morn-
ing, with a full force of men. The
men with families were given prefer-
ence.

The Colonel Is Honored.

Evansville, Wyo., March 1.—Company
H. Wyoming National Guards turned
out in full force last night to meet
Col. H. F. Folsom, who was elected
colonel at the state election in Chey-
enne, and who arrived in this city last
night at 10:30. Colored lights were
made upon the steps of the hotel, and
three volleys were fired by the com-
pany as a salute to the colonel, who
was afterwards escorted to the bar-
nack where he delivered a short and
appropriate address.

The Nevada Southern.

Several exchanges are commenting
on the extension of the Nevada South-
ern railway up into this country, and
also of the immigration of people
along its proposed line. A recent arti-
cle in the Salt Lake Tribune says the
line extends 150 miles north of Good
Springs, when the actual fact is pre-
sently that not a mile of track has been
laid or even the grade commenced,
this side of the California line, while
most of the farming land along the
Virgin and Muddy rivers has been
long ago taken up. There yet remains
some land in those sections subject to
entry, but let no man go there with
the belief that there are acres of fine
land requiring little or no cultivation
and without claimants. Such is not
the case. Neither would we have it
inferred that there are no advantages
to be derived from the purchase of
increased water supply there are
thousands of acres which could be put
under cultivation. Timber and graz-
ing lands are abundant, and un-
improved minerals are simply a blank
page. But the development of these
as in any other country, require enter-
prise and capital, which can only be
secured by muscle and money.—Pacifi-
cist.

Utah to Los Angeles.

A CONSTRUCTION COMPANY FORMED
IN DENVER YESTERDAY.
New York Capitalists Behind the
Move—The Late Troubles Are Pili-
ng Up Thick and Fast in the
East - The Atchison Will With-
draw.

Denver, March 1.—The Utah & Los
Angeles Air Line Construction com-
pany was incorporated today with a
capital stock of \$100,000. The follow-
ing are the incorporators: George E. Hicks,
New York; George E. Hicks, New
York; J. W. Lewis, New York; W. R.
Lewis, New York; and W. R. Lewis,
New York.
The object of the company is to con-
struct an air line from Utah to Los An-
geles.

No Arbitration for the Atchison.

Chicago, March 1.—Chairman Cald-
well today took an advertisement from
the request of the Atchison against the
Southern Pacific by the Western Pas-
senger association. The feeling is the
general decision will be adverse to the
Atchison, and it will get once with-
drawn from the association.

The Rock Island Takes a Hand.

Kansas City, Mo., March 1.—John Se-
bastian, of Chicago, general passenger
agent of the Rock Island, wired the
local representative of the afternoon
instructions to make the 8:30 first class
California rate apply to all California
points but San Diego and National
City, rolling westward at 10:30; \$38.50
will be the round trip rate over the
other lines returning.

To Avoid the Tracks.

Pueblo, Colo., March 1.—It is semi-
officially announced here that the Santa
Fe will put a line of steamships in
operation between San Diego, Cal.,
and San Francisco, to connect with its
western trains, thus avoiding the use
of the Southern Pacific tracks.

An Old Complication.

One of the neatest and most adroit
compliments ever turned out was prob-
ably that of Croesus to the Persian
king. That half-brained monarch once,
when the Persians and Croesus were sitting
with him, asked a man to promise to
marry a man in everything and mean it.
The man who was asked to promise to
marry a man in everything and mean it
was Croesus. The Persians, of course,
like good courtiers, replied that he
was better than a fool as he had
all Croesus' possessions and Egypt and
the sea as well. Thus spoke the
Egyptians. Croesus, however, not be-
lieving the man's words, replied as
follows: "Now, to me, O Croesus,
you do not seem equal to your
father, for you have not such a son as
he left behind him in you."—The West-
minster Review.

The Rev. Anna Shaw Omits "Obey."

"I never use the word obey in the nar-
row sense," said Dr. Anna Shaw in a
recent address before the pilgrim
association. "I wouldn't marry a woman
that was such a fool as to promise to
obey a man in everything and mean it.
I wouldn't marry a woman that was
such a fool as to promise to obey her
mother or is so ready to tell a lie and
know as a very young man who has
never tried being either one."—Chicago
Post.

DO WOMEN KNOW?

IF THEY DO NOT, THEY CERTAINLY SHOULD.
A MOST INTERESTING MATTER FOR ALL.
Some Things Which Will Give Pleas-
ure to Every Woman.

There are two things which every woman
desires. She wants to present an
attractive appearance, to look just as well
as possible and she wants to feel well.
Most weaknesses and diseases affect the
blood, make the complexion sallow, the skin
dark and bilious looking, the eyes heavy
with dark circles under them, the breath
foul and possibly cause disgusting
eruptions.

Read the experience of Mrs. Mary A.
Newson, wife of Robert Newson, who has
been connected with, as a trusted em-
ployee, the Z. C. M. I. for the past twenty
years.

In making her statement for publication
she states as follows:
"I was seriously ill for about one and
a half years, before commencing treat-
ment with Dr. DE MONCO's COPELAND
MEDICAL INSTITUTE. I was con-
fined to my bed all last winter. I
consulted many doctors but all to no
purpose, and was just persuaded to try
Dr. De Monco as a last resort, with re-
sults most gratifying indeed, as now I
am a well woman.

"My heart seemed to cause me the most
trouble, and I suffered very much from
irregularity of its action. My nervous
system was completely shattered, at least so
the doctors said. I was a victim of
NEUROUS PROSTRATION.
"Terrible headaches all the time, cold,
chilly sensation all over me at times;
vertigo, or dizzy spells, were unable to
sleep, no appetite, food did not taste
natural, least excitement or exertion
would cause my heart to palpitate vio-
lently and then cease to beat entirely
for what seemed to me an age, but really
but a very short period.

"Memory very bad, eyes weak and
watery and spots before them constantly.
Considerable time was sometimes pre-
sented to me, and the sense of feeling
numb and parched up as a piece of
leather.

"Pains in hands and all joints was very
severe, and I was unable to do any work.
Hands were stiff and could not use them.
My left side was swollen all the time,
more or less, and the sense of feeling
numb impaired, this caused myself and
friends much anxiety, as we were afraid
of paralysis.

"I have forgotten many symptoms but
will endeavor to say what I can. I was
all the time very nervous, and I was
interested for myself or my friends.
Would state that Dr. De Monco's
diagnosis was NEUROUS PROSTRATION
with CIRCULATION, and he was right, and
he lighted the wrong as an now
woman would not be so afraid of
paralysis.
