Another Bloody Collision Between Deputy Marshals and Commonwealers.

SIXTY-FIVE RIOTERS ARRESTED AT SPOKANE.

Sanders' Crew Quite Jubilant Over Their Capture.

It Means, They Say, That Much Nearer Washington—Several Prominent Men Arrested at North Yakima for Inciting the Industrialists to Resistance—McGann's Resolution for a Committee of Investigation on the Depressed Condition of Trade and the Coxy Movement Will Be Favorably Reported.

North Yakima, Wash., May 11.—Another collision occurred between deputy marshals and commonwealers about 4 o'clock this morning, and two of the latter are now confined in the hospital, suffering from gunshot wounds.

Word was received during the night that twenty-five men had captured two freight cars at Ellensburg and were coming down to liberate the coxyites imprisoned in the county jail.

The marshals marched to meet the industrialists, and stopped their cars by means of throwing a rail across the track at a point two miles from this city. The industrialists scrambled out of the cars and started to run, but were brought to a halt by bullets from the rifles of the marshals. Two of the men were wounded, but not seriously.

Others, to the number of 120, were marched to the county jail and locked up. The marshals claim that the first shot came from the commonwealers.

Fifty Coxyites and a number of Yakima citizens accused of inciting the army to resistance were started on an early morning train under heavy guard for Seattle.

YAKIMA RIOTERS.

Sixty-Five of Them Under Arrest at Spokane.

Spokane, Wash., May 11.—Colonel Phillips arrived in Spokane at 10 o'clock this morning with a train load of sixty-five commonwealers, whom he arrested at Yakima, part of them for engaging in riot and others for interfering with trains. They were brought here in order to escape from trouble that might occur at Yakima, and for better protection. After their arrival, another engine was hitched on the train and it was immediately started back to Seattle under guard of a posse of deputies.

E. J. Jeffreys, commander of the Seattle Coxyites, in Spokane, secured a writ of habeas corpus from Judge Buck, of the superior court of Spokane county, to compel the marshal to return the prisoners to Spokane. Jeffreys wired the Coxyites at Tacoma and Seattle to meet the train on the road, and it is feared an effort will be made to stop it before it reaches the sound.

KILLED BY A CONSTABLE.

A Colonel of the Californians Meets His Death.

Rocklin, Cal., May 11.—A constable today killed the commander of the Industrial army marching east from Sacramento.

The slayer was Constable Fleckinger and the victim Colonel Paisley. At 4 a. m. the army, under command of Lieutenant-General Smith, 700 strong, started on a march from the station and came to Rocklin. Engineer Williams, a member of the party, was placed under arrest by Constable Fleckinger.

Smith and Colonel Paisley protested. Fleckinger pointed a pistol at Smith who jumped to one side, whereupon the constable shot Paisley. The industrialists started to Lynch him, but Smith, however, aided him to escape. Citizens, fearing further trouble, liberated Williams.

MORE ARRESTS MADE.

Policeman, an Editor and a Farmer in the Toils.

North Yakima, Wash., May 11.—Additional arrests are being made tonight of those charged with inciting the industrialists to resistance. Among those arrested are E. H. Little, editor of the Yakima Republic; William Mayer, a carpenter; Charles Little, policeman; William Steigler, a farmer named Parker. They were taken to Seattle tonight, for trial at about 120 Coxyites, who were arrested this morning. Troop "C" of the Washington state cavalry, had orders from Governor McCreary, to hold themselves under marching orders, ready to move at any hour. It is supposed their destination is some point on the Great Northern.

Speeches were made by J. G. Waters, G. C. Clemens, Noah Allen and Eugene G. C. Clemens. The resolutions are held behind closed doors, news coming through a reliable press committee.

WALKER AT HONOLULU.

Account of His Assumed Command of the Station.

Washington, May 11.—The navy department has received a report from Admiral Walker, announcing his arrival at Honolulu. His communication is dated April 25, and is as follows: "I have the honor to inform the department that on the 14th inst., the date of assuming command of this station, the English and Japanese vessels in port saluted my flag and their commanding officers. The ceremony of government calls were returned on the 15th inst. On the 17th, accompanied by my personal staff, I proceeded to the United States minister, and later was presented by him to the president of the provisional government. The reception of government troops was paraded and the usual honors were given upon arrival and departure. I shall have the honor to inform the executive council, justices of the supreme court and two aides, returned my call on the 20th of the same day and were received with honors due their rank. Visits were also exchanged with representatives of the Hawaiian, Japanese and Portuguese governments."

Admiral Walker appears to be proceeding to the Hawaiian Islands, and method of improving Pearl harbor for United States naval station, for he asked for detailed maps of the harbor and islands.

JUDGMENT AGAINST LOTTA.

San Francisco, May 11.—A jury in Judge Sanderson's court this afternoon

gave John W. Turner a \$635 verdict against Carlotta Crabtree, "Lotta," for legal services rendered in 1887. Since then "Lotta" has been out of the state and so the statute of limitations did not bar the claim.

Turner also sued for interest since 1880, but the jury did not allow that.

BRANDT IS ALIVE.

Some Startling Testimony in the Meyer Case.

New York, May 11.—Dr. O'Sullivan, associate counsel in the defense of Dr. Meyer, received a letter from M. J. Bretz, denying certain statements in the letter of Clerk Price, of the county jail in Chicago.

"The writer said Dr. Meyer did not attempt to take his (Bretz's) wife to Colorado to poison her, as Mr. Price had stated. 'I have often been in the society of Dr. Meyer,' Bretz wrote, 'but there was no talk of poisoning anybody.'"

"Now I believe that you are an important matter. Brandt, or Baum, known as Wezel, is still alive. I saw him in Phoenix, Ariz., about two months ago. I met him in a saloon kept by a man called Palmer and we talked a great deal. Brandt said he was very badly off, and had been in jail in Monterey, Cal., for some time. He was out of work and could not help him."

"The last time," wrote Bretz, "I ever heard of Brandt was when I received a postal card from him dated Silver City, N. M. He wrote that he had enough money he would go to the City of Mexico. He said Mexico was the best place for swindling people by means of counterfeit money, and there was not the slightest chance of detection or punishment. I wish I had kept that postal card."

"As sure as there is a God in heaven Brandt is alive and you will surely hear from him, but it will be after Dr. Meyer is hanged. 'Dr. Meyer and myself did not part friends, but if I were called on the stand I could tell a good many stories about him.'"

"If you knew Meyer as well as I do, you would know he could not poison anybody, as he is too stupid, and I could tell a good many stories about his stupidity."

The defense attached a good deal of importance to this communication. The proceedings this morning were opened by recalling Frank Snyder, the man who was charged with carrying the body of Baum to Evergreen cemetery. The burial permit to which the name of Gustave Baum was attached, was handed him. He identified the "people," said Mr. McIntyre.

Mr. Brooks then read a long series of resolutions urging the court to dismiss the indictment against Dr. Meyer. The recorder denied Mr. Brooks' motion.

Mr. Chandler, for the defense, began his argument upon reassembling after recess.

The witness called for the defense was Professor Henry P. Loomis, who described the symptoms of arsenical poisoning. From Brandt's symptoms, as described by Mr. Minden, the witness concluded death was caused by dysentery.

Counsel for the defense gave out, after adjournment a startling statement to the effect that the prosecution had attempted to bribe Mrs. Meyer to turn state's evidence, but she had refused. He had been dragged in an effort to secure a confession.

HOT TIMES LOOKED FOR.

An Effort to Be Made to Raise the Cripple Creek Strike.

Colorado Springs, Colo., May 11.—Arrangements are being perfected for raising the strike at Cripple Creek regardless of the miners' union. It is stated that 600 or 700 men have been sworn in as deputy sheriffs, or are being, and hardy, determined men are being chosen for the positions to be expected. They will be heavily armed and supplied with plenty of ammunition.

Portland, Or., May 11.—Portland's Coxy army, which a week ago contained 600 men, has dwindled away, until today it numbers less than 40. They are scattered along the Union Pacific in small squads between this city and Utah, riding on freight trains whenever the opportunity is afforded.

SEIZURE OF THE STEAMERS.

Sir Charles Tupper Not Afraid of Complications.

Ottawa, Ont., May 11.—The report from the commander of the cruiser Curlew, which seized American steamers for violating fishery regulations in Lake Erie, will reach Ottawa today. In an interview, Sir Charles Tupper said:

"Canadian fishermen must take out a license to fish, but these pot-hunters took all the fish they wanted without having to pay for a license. This state of affairs I am determined to prevent in the future. The Canadian government has had a system of granting license which the United States has declined so far to do. As for the international commission arising out of these seizures, I have no fear, as the commissioner of the Canadian cruiser has only followed out his instructions, and the United States vessels found fishing without license and the case of the Canadian government is further strengthened by the knowledge that the American vessels were poaching in Canadian territory."

LOCOMOTIVE ENGINEERS.

Liberal Element Trying to Break Down Conservative Rules.

St. Paul, Minn., May 11.—There was something of a fight in the Brotherhood of Locomotive Engineers' convention today, the younger and more liberal element trying to break down some of the conservative rules that have prevailed for many years.

Grand Chief Arthur's formal address was delivered today in executive session.

The fight over the rules resulted in some changes, but none of great importance.

This afternoon the Ladies' Auxiliary held an open session in the Metropolitan opera house, for which the engineers adjourned their business.

Speeches were made by J. G. Waters, G. C. Clemens, Noah Allen and Eugene G. C. Clemens. The resolutions are held behind closed doors, news coming through a reliable press committee.
