

THE COUNTY TAX ROLLS.

Experts Estimate the City Valuation at \$38,000,000.

TWO BIG CATTLE DEALS.

INVOLVING THE TRANSFER OF EIGHT THOUSAND HEAD.

County Treasurer Lynn Will Pay Warrants Tomorrow—The New Buildings to Be Erected by Richard Mackintosh—Utah Sugar Company—General Business Notes.

IN SPORTING CIRCLES.

THE CITY BALL TOSSERS WIN ANOTHER VICTORY.

Soldiers Defeated in a Well Contested Game—Lively Scene at the Race Track—Wheel Notes.

The game of baseball between the Fort Douglas and city teams, at Calder's park yesterday afternoon, was the most hotly contested one of the season so far. The city boys won after a hard battle by a score of 12 to 11, but the winning run was scored in the last inning, and that, too, after two men were out. The score by innings was as follows:

THE COMING RACES.

NORTHERN AND SOUTHERN CATTLE

Two Important Deals Were Consummated Yesterday.

The most important of the sales was that of John W. Taylor's stock cattle, which have been held in the south central portion of the territory under attachment.

First Day—June 26.

Second Day—June 27.

Third Day—June 28.

Fourth Day—June 29.

Wheel Notes.

County Warrants to Be Paid.

Treasurer Lynn Will Make an Advance of Seventy Numbers.

R. Mackintosh's New Buildings.

Sugar Company Pay Day.

Will Not Withdraw.

Patriotic of Ireland Has Two Many Long Time Contracts.

Will Pay on Monday.

To Be Opened on Friday.

sort in the heart of the Wasatch mountains, will be opened on Friday, the 15th inst. by the owner, Mr. Brighton was in the city yesterday and to a Herald reporter stated that he had made all of the necessary arrangements for the formal opening of the resort on the day named. A number of improvements have been made since the last season and the hotel is in admirable shape.

Members in Convention. The members of the Salt Lake Millers' association were in session again yesterday, but the business transacted was confined entirely to the routine. No changes were made in the price of either wheat or flour. The mills are fairly well supplied with wheat, of which there is a much more plentiful supply, on account of the approach of harvest. It is very evident that the holders have stamped in, in a measure, and are unloading while the price is up. The grain is now selling at 70 cents per bushel.

The game of baseball between the Fort Douglas and city teams, at Calder's park yesterday afternoon, was the most hotly contested one of the season so far. The city boys won after a hard battle by a score of 12 to 11, but the winning run was scored in the last inning, and that, too, after two men were out. The score by innings was as follows:

The stalls at the Driving park are nearly all occupied with flyers, and they are being put through their paces preparatory to the big June meeting. The track presents a busy scene every morning when the racers are given their daily spin. All of the horses are in good condition and the field will be a large one. Every indication points to the fact that this meeting will be a most successful one. The new Driving club hangs up \$4,000 in purses. Following is the programme of the races:

Three-minute pace.....\$300
2:25 trot.....\$300
2:40 trot.....\$300

Second Day—June 27.
2:15 pace.....\$400
2:28 trot.....\$400
Three-year-old trot.....\$400

Third Day—June 28.
2:20 pace.....\$400
Three-year-old trot.....\$400
Free-for-all trot.....\$400

Fourth Day—June 29.
2:23 pace.....\$400
2:35 trot.....\$400
Free-for-all pace.....\$400

The new quarter-mile track at Calder's is in good shape, and there is no reason why the boys should not make fast time.

Weiler says he intends to lower the quarter and half-mile Utah records, and his friends say he will get it.

The new racing wheel built to order for Gunn has arrived, and it is a beauty. It is an Ariel, weighs twenty-one pounds, and is built of steel with an aluminum finish. It is a beauty, and can be used on the road as well as the track.

Leg 15 will be another red-letter day to the wheelmen of Salt Lake, as the annual racing meet of the season. The prizes for the event are on exhibition in "Brooklyn Brothers" window, on Main street.

There will be one entry in the next races who hails from the coast—Carl Holcal.

Real Estate Transfers. William S. Martin to Janet Waddell, lots 2 and 3, block 45, plat A, \$35,000.

LABOR TRUST ORGANIZED.

Queer Mix Up at a Meeting Last Night.

A PLATFORM ADOPTED.

THE ORGANIZATION CLAIMS TO BE NON-PARTISAN.

An Enthusiastic Meeting of the County Democratic Society Yesterday Afternoon—Rousing Mass Convention at Tooele—The Workingmen's Democratic Club—The Fifteenth Ward Club.

The immediate restoration of silver to its patriarchal power, "full protection to every American industry, admitting free of duty the necessities of life only," the admission of Utah to its rightful place among the sisterhood of states, and that all office seekers put themselves on record as sympathizing with this propaganda, was the declaration of principle announced by the new organization which was last night launched under title of "The Labor Trust." It disclaims any element of partisanship, expresses its faith in the ballot box, the masses and legislation as the remedy for hard times and pledges itself to that line of conduct which will bring the greatest good to the greatest number.

The organization was effected in the old chamber of the Wasatch block where justice so long held its sway and participated in by several hundred, who cheered the speaker and launched their protest with convulsive emphasis, when Theodore Burmester, an ex-Democrat, urged it upon them to baptize the new-born party in the blood of the Republican fallacy.

The meeting was called to order by John Witbeck, who stated as the object of the organization of a Workingmen's club, that the party might be organized to protect his rights, a co-terminous purpose being to establish a labor bureau. To protect themselves Mr. Witbeck called attention to the necessity for unity to harmonious action always having uppermost in word the welfare and prosperity of the nation.

Mr. Witbeck was made temporary chairman, which honor he acknowledged, after which the preamble and resolutions were read and adopted, as follows:

That grand American citizen, Abraham Lincoln, in his first annual message to Congress said:

"Labor is prior to and independent of capital. Capital is only the fruit of labor and could never have existed if labor had not existed."

"Labor is the superior of capital and deserves much the higher consideration."

Further on he said: "No man living are more worthy to be trusted than those who toil up from poverty, none less inclined to take or touch ought which they have not honestly earned. Let them beware of surrendering a political power which should rightfully possess the earnest and industrious, will surely be used to close the doors of advancement against such as they and fix no disabilities and burdens upon them till they are able to lift them."

Labor, properly stated, includes all citizens, men and women who furnish an equivalent for what they receive from others, and is built of steel with an aluminum finish. It is a beauty, and can be used on the road as well as the track.

The first fatal blunder was made when labor permitted the destruction of silver as a money metal done by both the dominant parties at the combined solicitation of London and New York banks.

Both of those parties have witnessed the awful shrinkage of all property values as the result and, having had the power to do so wrong, have utterly refused to do so.

Labor has surrendered all its rights to mercenary capital, until, to most minds, it is impossible to regain its rights but by force.

As a last peaceful resort, in the hope of forming a perfect "labor organization" against whatever foe to its rightful progress we are, we hereby organize the Salt Lake city and of the territory of Utah, organize under the title of The Labor Trust, adopting the following basic principles and making the following demands:

First—The true line of human conduct consists in doing only that which will bring the greatest good to the greatest number.

Second—That the law of action does not bind us to supply our wants from the resources of England and other foreign countries because they may cost less and do a good to the foreign artisans, for our own laborers will necessarily remain idle or crowd other industries.

Third—Nor will the rule require us any longer to keep open our heretofore hospital doors to the influx of another foreign pauper or laborer, and until every man, woman and child now in our land has found profitable employment.

OUR DEMANDS. First—The immediate restoration of silver to its position and power as a money metal prior to 1873, without regard to the action of any or all other governments.

Second—A full protection to every American industry, making wise discrimination in all duties imposed favoring the weaker industries, admitting free only necessities of life that we cannot produce profitably in our own country.

Third—The Congress of the United States to furnish all the money to the people, and, in addition to gold and silver, a sufficient volume of legal tender treasury notes to equal 350 per cent of all the people.

Fourth—The immediate admission of Utah to its rightful place among the sisterhood of states. This last demand is founded on justice and should be at once complied with.

The four preceding demands granted, labor will resume its rightful place in the nation and peace and prosperity will supplant the present unrest and distress.

The immediate political action of the Labor Trust will consist in demanding of all candidates for office that they place themselves on record as being in full sympathy with its purposes before obtaining its support.

FRANK MEYER, Chairman of the Committee. The declaration of principles having been approved and the platform upon which the trust will stand having been adopted, the oracular features of the meeting were proceeded with. Judge Bowman was introduced and spoke at length upon the part that labor had performed in the upbuilding of the nation, what could be accomplished by the agencies of the ballot, and the duty that intelligent and patriotic labor owed its home and its country. He was not present to espouse the cause of any party, was not an aspirant for any office, although as a Republican he would accept a nomination for president. It was, he said, in the power of the workingmen to correct the abuses from which the country was suffering and it was their duty to correct them in the election of men of honesty, men of intelligence and men of integrity.

Theodore Burmester spoke with characteristic fervor and assured the audience that it was their duty to correct them in the election of men of honesty, men of intelligence and men of integrity.

"Organize as Republican workingmen! Organize as—"

"No!" rose with tumultuous volume from the hundreds who were gathered. "No! No! No!"

The speaker was dazed. The outburst of disapproval had reached his ears, and he was the object of a thousand Burmester looked into the face of the chair, then at the storm of reproach which swept across the audience. In his ill-timed effort to promote the interests of the Republican party, of which he is a recent annex, he had committed an egregious blunder.

"I don't know what this interruption is about," bellowed Burmester, his face alternating between the pallor of the grave and the blush of a cranberry marsh, "but I think it is ill-timed and ill-bred."

"Let him speak!" was interposed by a voice that was burdened with pity. "He doesn't mean anything."

Mr. Burmester's peroration lost its glitter—it was an abject apology to the gentlemen to whose purposes and whose patience he had done such violence.

Colonel Miller deplored the fact that conditions in this country were such as to lead to classes that must be designated as the workingman and the capitalist but admonished the audience that under this government the remedy lay with the masses and no matter how humble the man to vote was his sovereign right. He drew some very pretty lessons from the lives of Lincoln, Garfield and Grant, demonstrating that nothing was beyond the reach of intelligent effort, honesty and integrity and warned the workingman that in his might, it was his fault if the evils of which he complained were perpetuated as long as the present form of popular government existed.

H. L. R. Jones, whose white hairs rested on his forehead, in his administration, reaffirmed that the organization was non-partisan in its nature. That it had been effected for the purposes of capital, and that its administration, he affirmed that the organization was non-partisan in its nature. That it had been effected for the purposes of capital, and that its administration, he affirmed that the organization was non-partisan in its nature.

At the conclusion of his remarks the meeting adjourned until Monday evening next at which time permanent organization will be effected.

County Democratic Society. There was an enthusiastic meeting of the county Democratic society at the council chamber, "Wasatch block," at 2 o'clock yesterday afternoon, over which Hon. E. H. Richards presided with George E. Blair at the secretary's desk. Nearly all the ward precincts were represented. Instructions were given as to the holding of meetings and the holding of caucuses, and a full attendance is desired.

For the territorial convention, preparations that must bear most gratifying results are in progress, and it is expected that at least 1,000 delegates will be present. Addresses will be made by prominent Democrats, and correspondence is now being exchanged that will very likely induce a number of national reputation to lend their presence and their voice. From all parts of the territory the day's mail brings assurances of a large attendance and nothing will be omitted by the local committee that the social and oracular features of the event may be in keeping with its importance.

Tooele Democrats. The Democrats of Tooele county held a rousing mass convention at Tooele yesterday afternoon for the purpose of re-organizing the county society and selecting delegates to the territorial convention. The attendance was very large and the meeting extremely enthusiastic. The following officers of the county society were elected: President, A. J. McCuiston; first vice-president, A. J. Robinson; second vice-president, John A. Beckwith; secretary, W. Foster; treasurer, George Hammond.

A. J. McCuiston, W. J. Robinson and Walter Adanson will represent Tooele at the territorial convention.

Workingmen's Club. The Workingmen's Democratic club will hold a meeting at 151 Main street next Thursday evening. Good speakers will address the meeting.

Fifteenth Ward Democratic Club. The Fifteenth Ward Democratic club will hold a meeting on next Thursday evening, June 14, at Armstrong's hall, on West Second South street near Fourth West street, at 7 p. m. Powers and P. S. Richards will address the meeting. All Democrats of the ward are cordially invited to be present.

THOMAS HULL, President. J. A. GREENMAN, Secretary.

Delegate Rawlins Leaves Today. Delegate Rawlins, who has done yeoman service for Utah at Washington, leaves this morning to resume his labors in Congress.

A SURE CURE. It is told of Hannah Moore that she had a good way of managing tale-bearers. It is said that whenever she was told anything derogatory to another her invariably reply was: "Come, we will go and ask if this be true." The effect was sometimes ludicrously painful. The talebearer was taken aback, stammered out a qualification, or begged that no notice might be taken of the statement. But the good lady was inexorable. Off she took the scandal-monger to the scandalized to make inquiry and compare accounts. It is not likely that anybody ever came a second time to repeat the story to the Hannah Moore. One would think her method of treatment would be a cure for scandal.—Harper's Bazar.

NOT DISTINGUISHABLE. James Whitcomb Riley tells this story: Three bosom friends started out one evening for a walk, and when the time for going home came, and when so drunk that walking was difficult. They finally reached the home of Brown and turned in to walk to the neighbor's house. A window was raised and a feminine voice said: "What on earth's wanted?" In thickened accents came the answer: "With Miss Brown, please come down and pick out her white Indian Sentinel."

EUROPE'S FLOWERS. Of the 420 kinds of flowers growing in Europe, only 40 are odoriferous. Less than one-tenth of the white kinds, which number 1,200—875 fragrant, 75 of the yellow kinds, 84 of the red kinds, 31 of the purple kinds, 25 of the blue kinds and 25 of the violet kinds combined colors.—Philadelphia Press.

You Can, Like Others,

Be Cured by Drs. Shores & Shores New Treatment

No Doctor Has Ever Given Such Overwhelming Evidence of His Success as the Statements Published By Drs. Shores & Shores.

And No Treatment Has Ever Been Introduced That Has Produced Such Wonderful Results.

Did you ever notice that the cases cured by Drs. Shores & Shores have been of very long standing? Cases that have received no benefit from other physicians?

Did you ever notice how quick this new system effects a cure? Did you ever notice how the misfit doctors cry fraud? Did you ever notice how Drs. Shores & Shores always have new statements and the old system doctors have no new evidence whatever.

New discoveries are being made in medical science every year. Look at the great surgeon who first announced to the world the discovery of the process of skin grafting. He had something new, that has proved a most wonderful help to suffering and disabled cases.

Look at the man who first used cocaine in surgery. It has been a remarkable and now indispensable medicine in the use of the alleviation of the suffering.

All these learned gentlemen had something new, a new system that has advanced the science of medicine within the past few years.

Drs. Shores & Shores have discovered a new and wonderful system for the cure of catarrh and kindred diseases, that has created a sensation among the medical fraternity of the territory and people who have been given up by so-called doctors and specialists have been cured in one month by this new and wonderful treatment.

Below will be found evidence proving conclusively the virtues of Drs. Shores & Shores' new treatment:

SKIN DISEASE CURED. The Statement of Mrs. Scott will convince all skeptics.

Rheumatism Cured. James Carlisle, of Mill Creek, was troubled Thirty Years; in ten days he is cured.

\$500 REWARD. We repeat here that our remedies are purely vegetable, and in proof of this assertion we offer the above reward to any chemist who will show by analysis, or other means, that they are not just as we represent them, or that they contain Arsenic, Mercury, Calomel, Opium, Morphine, or Adulterated Liquors, either of which have a tendency to break down, sooner or later, the strongest constitution.

\$5.00^a Month. This is no cheap treatment, but in order that the public may have an opportunity to see the difference between the real and the imitation, Drs. Shores & Shores will treat all diseases for \$5 a month and furnish all medicines.

No matter what or how many troubles you may have \$5 pays the bill. Other people say they will treat all diseases for \$5 a month, but when you get there they charge you \$5 for your catarrh and \$5 for dyspepsia, or in other words, \$5 for every disease you may have. Drs. Shores & Shores are honest; they do not have to resort to such disreputable means. No matter if you have one hundred diseases, \$5 pays the bill, and your medicine free.

Shores will treat all diseases for \$5 a month and furnish all medicines. No matter what or how many troubles you may have \$5 pays the bill. Other people say they will
