

HISTORY MADE WITH RAPIDITY.

Inside Facts of Official and Diplomatic Circles.

MANCHURIA IS RELEASED.

JAPAN SUFFERS AN IRRETRIEVABLE DISGRACE.

Question of the Ratification of Peace Was Regarded With Comparative Slight Interest. Although it was clear that a renewal of hostilities was probable...

Tokio, May 16, via Victoria, B. C., May 21.—History has moved with extraordinary rapidity during the past two weeks.

The newly-established peace has been endangered and complications of greater magnitude than any produced by the contest between China and Japan have threatened to involve at least three European powers in a desperate struggle for supremacy in eastern Asia.

For several days, the attitude of Japan indicated a resolution to set the enormous odds against her at defiance; then, with a suddenness which the most watchful observers are puzzled to explain, the spirit of resistance subsided and complete submission was promised to the harsh demands of the hostile league.

Manchuria Released.

What I am about to relate is unknown in this part of the world except to official and diplomatic circles. An outline of the facts has been sent abroad, but the general community in Japan remains in almost utter ignorance...

The Russian and French governments were then in their declaration that Japan must renounce Manchurian territory, while the tone adopted by Germany was decidedly intemperate.

When it became apparent that Japan had only her own resources to rely upon, the government devoted its energy to securing the best terms of accommodation. This, however, was divulged only to ministers for confidential attendance upon the sovereign...

When it became apparent that Japan had only her own resources to rely upon, the government devoted its energy to securing the best terms of accommodation. This, however, was divulged only to ministers for confidential attendance upon the sovereign...

A decree of the war department summoned all reserves for actual service and ordered reinforcements of the garrisons in Yezo. While it appeared incredible that such a move should be made...

At this point secret service agents of the government were called into the case. A detective was sent from Washington...

At this point secret service agents of the government were called into the case. A detective was sent from Washington. Before the detective reached the scene of the alleged operations...

KICKAPOO FULL OF 'SOONERS.'

They Are Very Bold and Much Trouble Is Looked For.

IS MUCH BAD FEELING

GREAT EXPECTATIONS BEING INDULGED IN.

Thousands Who Have Had Some Choice Spots Picked Out For Years Past Will Be Able To Attend To Get Them After Thursday at High Noon—How Many of Them Have Been Taken In By Unprincipled Men.

Oklahoma City, O. T., May 21.—The Kickapoo country, which will be opened to white settlement Thursday noon, is full of 'sooners,' and more are going in every day.

These men are very bold in their declarations, and there can be no doubt that the most shameless acts of 'soonerism' will be practiced on all sides.

The news of the president's proclamation has not penetrated much beyond the towns lining the railroads. In the inland towns and on farms are many people who have been waiting years for the opening of the Kickapoo lands, and they will hardly receive the news in time to get ready and get to the country by Thursday.

The people of Chandler and Tecumseh, who several times during the past two months were fooled by counterfeiters riding in to the town with the announcement that the Kickapoo country was open to settlement and who rushed to the land perfectly and each of the past two months were fooled by counterfeiters riding in to the town with the announcement that the Kickapoo country was open to settlement...

As yet, however, nothing real has happened to mar the universal feeling of happiness that prevails along the border lines of the new Eldorado and great expectations are harbored by many of the old timers who know the lay of the land perfectly and each of whom long ago picked out some particularly fine claim that he hopes to secure.

Excellent Prospects For Another Firecracker Revolution.

Private letters received here tell of renewed political disturbances in Venezuela with prospects of another revolution. The plan of general amnesty to draw back to the country all its noted exiles has proved a failure.

From New Orleans there went General Pizarro, General Hernandez, General Pulido and several others. General Guzman refused to be drawn from his retreat in Paris, although the new government offered to him every inducement.

By the last steamer General Monagas returned to New Orleans. General Pizarro who was formerly minister to Washington will go next week.

The celebration was not a success so far as national harmony was concerned, and the exiles have become suspicious. Nearly all intend leaving the country again.

Business in the leading cities is poor. In politics there is rapidly reaching a crisis. Marañon and Los Andes have protested against the national government's alleged operations, contribution, thereby invading the autonomy of the states. Manuel Matos has not yet been elected president.

President Crespo is reported to be getting ready to form a new cabinet. His wife has just returned to the president's brother, General Luis Crespo, to come immediately to the capital and take command of the army in order to protect her and her husband.

Young Griffio, pugilist, has been arrested in Philadelphia on a fugitive warrant. Griffio is wanted in New York City to answer to the charge of having killed William Gray's secretary. He was committed to prison without bail to await requisition papers.

The grand jury at Phoenix has found three indictments for embezzlement against L. E. Briggs, late president of the Arizona bank of Tempe. Bail has been fixed at \$5,000. It is expected that others connected with the bank at the time of its failure will be indicted. Sensational disclosures are expected.

An order upon Charles B. Tidicaste, transfer clerk of the Oregon Improvement company, who looks to William Y. Hoffman, a stockholder, was granted today by Judge McAdam. It was claimed that Hoffman had refused the representative of Hoffman access to the books on the ground that it was the latter's purpose to induce the election of directors in violation of the provisions of the charter.

Judge McAdam, in the New York Superior court, special term, granted an order yesterday for the appointment of a temporary receiver for the New York Fire Insurance company, and a temporary injunction restraining the directors of the company from interfering with the management of the company. The petition sets forth that the stock effects and other property are not sufficient to pay all its demands.

Sensational reports have been circulated regarding the subsidy to the carrying mails between New York and Europe. It was announced that the post-general had determined to break the contract made by Postmaster General Wanamaker, on the ground that he exercised powers in making the agreement read per statute mile instead of marine mile. The contract goes into effect October 1. Second Assistant Postmaster General Nelson said today: 'The matter has not been discussed at all. The rumors are utterly false and ridiculous.'

Chinese emperor has issued a decree recalling from Formosa all Chinese officials. Three hundred houses have been burned and fifty people killed in Koboueden and Kusaway, Russia.

A special to the Herald from Buenos Ayres says: The popular opinion here is that Minister Mendonca is correct, but undiplomatic in his statements about Uruguay aiding the Brazilian revolutionists in Rio Grande do Sul. Flery talk in favor of war continues in the Brazilian congress.

Cattle shippers at Montreal say that cows have been a large increase in the number of lung disease cases, which have been stopped on their way to England. Some of these cows have been slaughtered and evidently sold for meat. The matter is being investigated.

A special from Rio de Janeiro says: The papers have just printed a list of names of the persons who were shot without trial during the recent revolution. It includes many foreign-born persons. The minister has formally protested against the insults to his country contained in the speeches to Congress of President Mello.

Patrick F. Benapp, a lawyer of Oakland, Cal., has just received information that goes to confirm the recent news that he had a vast estate in England. Since the first notification was received by him on April 10th, another of his titled relatives has died, leaving a fourth interest in an eight million dollar estate. Six weeks ago Mr. Benapp received news of the death of his grand-uncle, Sir John Downes, of Scotland, who left him an interest in his estate valued at \$750,000. His attorney has now received news confirming the death of his grand-uncle, Sir Andrew Downes, of Jamaica, British West Indies, who leaves him a quarter interest in his estate, valued at \$8,000,000.

Two men in a small boat are said to be illegally killing seals along the coast, and also buying skins from the Indians. The sealers Director has arrived from Halifax Bay, and is expected to visit the islands and take up skins. She reports the lighthouse on Termination Bay having been changed from Thetia Bay to Success Bay.

A special from the City of Mexico says: James G. Thompson, formerly cashier of the Sedalia, Mo., bank, has been apprehended in extradition proceedings connected with the failure of that bank. It is believed here that he is innocent of any crime. Thompson came to Mexico a year ago, and then wrote a letter to Mr. Critchfield, the American consul, offering to go back providing a trial should take place outside of Sedalia.

Hearing on the Question of Divisions of Properties Constituting the Short Line and Utah & Northern Will Begin This Afternoon. The Latest by Wire-Local Railway Notes.

The Mexican Central Definitely Decides to Build On. Mexico City, May 21.—It has been definitely decided to extend the Mexican Central railroad from Queretaro westward to the Pacific coast. Louis Kingman, chief engineer, is making the final survey. The terminus will probably be either at San Blas or Chametlas. A new issue of bonds will be made to furnish the requisite capital for the construction of the extension.
