London, June 15.—[Special London cable letter.—Copyright, 1895, by the Associated Press.]—Strange as it may seem, in spite of the fact that London is more thronged with visitors and tourists than for several years past, there is a general complaint that the season is not up to the high water mark of former years.

So far as business is concerned, the shopkeepers only attract to the Americans who are arriving here in larger numbers this season than ever before.

MISS JOHANNA.

Johanna is in love with him, but Mat, in response to her an insinuation, will query her in Portuguese, the language he always uses to her, and then replies: "No," she says, "I will not marry him."

When asked how he thought she would stand laparotomy if she did get the front of the ruins of a pole stuck in her, she said she would not mind it.

"Speaking of photographs, the show has what looks like some very good photographs of Johanna; but they are really photographs of a wash drawing made by Mr. House, the advance man, those who are to show on the road—Washington Post.

The bird looked surprised. Its round eyes were focussed on its bill, which it again essayed to open. But the rubber band being in the end, had too great a leverage, and the mandibles could get separated four or five inches, only to audibly snap together.
