SAYS BRYAN IS A POP.

RICHMOND, Va., Oct. 10.—Governor O'Ferrall, who was elected three years ago by the largest majority ever given to any candidate in this state, has issued tonight an address to the Democratic party in which he denounces Mr. Bryan as a Populist.

BLACKBURN IS B.I.

VERSAILLES, Ky., Oct. 10.—Senator Blackburn is confined to his bed, very sick from heart and lung trouble, the result of a cold contracted at Tarrytown, N. Y., last week.

JOINED THE ARMY.

Fred Sanson, the well-known barber, left with the Sixteenth infantry yesterday, having enlisted with the regiment just before the departure.

IDAHO POLITICS STIRRED UP

The Alleged Attempted Bribery of Joe Rich Causes a Sensation.

AN ATTEMPT AT DENIAL

PATRIE AND CONDRON CHALLENGED TO TELL THE TRUTH.

Patric Quoted as Saying that There is No Doubt but That His Name Was Signed to One of Them Without His Knowledge—Bryan Democrats and Populists Threaten to Push the Matter to a Finish.

(Special to The Herald.) BOISE, Idaho, Oct. 10.—The announcement by Chairman McGee of the Democratic state committee that the silver pledge made to the Populists to support the latter's candidate for senator, Joseph Rich, was a felony, has caused a sensation in the Democratic ranks.

Mr. Patric, however, admitted today to Joseph H. Stewart, McKinleyite and a prominent attorney, that the telegram was sent, but that his name was signed without his knowledge.

DEFENDER OF THE WHITE METAL

Hon. W. H. King, who should roll up a good big majority for your members of legislature, they are elected and true men, will be fully satisfied with your material interests and whose votes will be cast for an outspoken silver man for the United States senator.

AMERICA IS BIG ENOUGH

strong enough and intelligent enough, not only to defy all the world, but to lead it. I am happy indeed to know, that in our own state, there is no question as to the result. I am pleased to be able to say to you that the indications are that the silver cause should be carried by a majority of all the votes.

I am satisfied that you will send to the house of representatives to help to originate and pass the needed laws upon finance which Bryan will execute, that eloquent, able and uncompromising defender of the white metal.

There is no overproduction when men and women are in want.

AT HYRUM.

In the evening at 8 o'clock they addressed one of the largest audiences that have ever assembled in Hyrum during a campaign. Hyrum has a population of over 1,800, and if there is a McKinley man in it he is not known to this country.

Judge Powers made an eloquent appeal to the voters to do their duty to their country at the polls, his speech being heard by a vast throng of voters.

I have been in this beautiful valley for three days, meeting the people, discussing the great issues of this campaign, admiring the scenery and participating in the pleasures of the valley, held in the mountain's arms of rock is a picture of rural felicity.

There are here homes of peaceful and contented people, who are happy and industrious. There is here a soil which yields only a scanty return to the farmer, but which is rich in the harvest, in the abundance of the school houses and places of worship and here one would have the right to expect prosperity, happiness and contentment.

What is the reason for this? Why is agriculture, once the most independent of all the vocations, being reduced to a condition of dependence upon the market? Why are the farmers being driven down to such a state of poverty? Why are tenants increasing in number? Why are the wages of labor falling? Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling?

Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling?

Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling?

Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling?

Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling?

Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling?

Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling?

able to secure any kind of a dollar.

We are also told, in the same breath, that with the free coinage of silver, there will be some 100,000,000 dollars worth of silver, that we will have too much. It is true, then we need not worry over the 50-cent dollar proposition, for with a flood of silver, there will be many dollars worth only 50 cents that will never reach the 100-cent dollar. I never was aware until this campaign that there were so many who were so philanthropic.

There are the woods are full of them and the cities are crowded with them. They do not want the gold standard for themselves, but they want it for the farmer and the workman. I am informed that there is room for their misanthropic views here. I am told that you have been doing your own thinking and that you have made up your minds almost unanimously to vote for Bryan.

I believe that to be a wise conclusion. I suggest that you reflect as to whether you had better vote the silver Democratic ticket. You certainly should send King to congress. We need him to represent us in the legislature. In fact, a change of politics this year is just as essential as a change of air is to an invalid. Vote the Democratic ticket. Place a cross mark opposite the rooster and let it go.

Judge King devoted his entire remarks to a discussion of the question of overproduction, and quoted from statistics to prove that while the yield of wheat in the United States is 100 million bushels, the United States still the price has gone down.

There is no overproduction when men and women are in want.

AT HYRUM.

IN THE NORTH COUNTRY

Judges Powers and King Doing Great Work.

SILVER AND DEMOCRACY

SPOKE AT PROVIDENCE, PARADISE, MILVILLE AND HYRUM.

The Orators Receive Ovarions Wherever They Go—The Monetary Issue Was the Chief Theme With Both Speakers—The Intricacies of the Australian Ballot System Can Be Overcome by the Voters Placing a Cross Mark Opposite the Rooster and Letting It Go at That.

HYRUM, Oct. 10.—Judges Powers and King carried the gospel of silver into the settlements today and spoke to enthusiastic audiences at Providence, Paradise, Milville and Hyrum. On the trip they spoke to over 2,000 people, and everywhere the speakers were given a hearty reception.

AT PROVIDENCE.

Providence has a population of 1,000. Judge Powers spoke first, and among other things said:

We have a new system of voting this year. We have the Australian ballot, and while it is well calculated to prevent fraud and to give true expression to the voters' will, while it is a secret ballot and enables the wage-worker to vote as he pleases without coercion from his employer, it is also somewhat complicated, and the man or woman who starts in to vote a mixed ticket will, if not very careful, make marks hereon, which will say to you and to the voters can be assured of one thing, and that is, if they vote the Democratic ticket, they will vote a straight silver ticket. They will vote for Bryan and King and they will help to vote out of sight the chance of Arthur Brown going back to the United States senate. Therefore, if I may give you a word of advice, put your cross mark on the ballot opposite the rooster and let it go.

Judge King followed and the keynote of his speech was in the following: He discussed the cause of agricultural depression. He referred to Cache county as one of the granaries of Utah, and declared that the national policy which produced falling prices in all of the products of soil, so generally and with such continuity, was disadvantageous to the wage-earner and all who were consumers.

The speaker showed the relation of agriculture to nations, and contended that prosperity could only be realized when the farmers were prosperous and received an adequate compensation for their labor.

Prices of farm products in the middle west were shown. Judge King said: "When by an imperial edict of Rome in 23 A. D. silver was demonetized, the independence and prosperity of the Roman laborer and farmer commenced to decline. It is not agriculture, agriculture flourished. Because of the lack of money, prices fell, and between the years 1490 and 1560 wheat brought but 10 cents per bushel. When the silver and gold from the new world was poured into the lap of the old, prices rose, prosperity came, and the light of darkness closed. The average price of wheat between the years 1561 and 1691 was about \$1.46. "Measured by wheat, the precious metals had depreciated 50 per cent."

He argued that the mortgage on the farms, the death in agriculture and the stagnation in business resulted from this legislation.

AT MILVILLE.

The campaigner reached Milville at the noon hour, and another warm reception was given them.

Judge King then took up the tables. The battle for silver will not be ended by the election of William J. Bryan to the presidency. The great struggle is not over, and it will be transferred from the speaker's platform to the halls of congress. There will be waged the battle royal. The gold standard men will contest the ground with the silver men. They will be aided by skilled lobbyists and by all the power which is ever at the command of wealth. Nothing will be left untried to bring about a victory at the polls. No argument will be left untried, and no opportunity will be overlooked. The silver men will argue that the mortgage on the farms, the death in agriculture and the stagnation in business resulted from this legislation.

AT PARADISE.

At 3 p.m. the party reached Paradise and for an hour poured silver facts into the eager ears of the people. In the course of his remarks, Judge Powers said:

There is great wrong among the great world of our world. Loans of money and control of capital, that if the Democratic party succeeds in this campaign, the people will be compelled to take their pay for labor in the products of the earth in dollars worth only 50 cents. Well, upon the theory that half a loaf is better than no bread, the people will be pretty well satisfied, for at the present time, a great many folks are unable to secure any kind of a dollar.

We are also told, in the same breath, that with the free coinage of silver, there will be some 100,000,000 dollars worth of silver, that we will have too much. It is true, then we need not worry over the 50-cent dollar proposition, for with a flood of silver, there will be many dollars worth only 50 cents that will never reach the 100-cent dollar. I never was aware until this campaign that there were so many who were so philanthropic.

There are the woods are full of them and the cities are crowded with them. They do not want the gold standard for themselves, but they want it for the farmer and the workman. I am informed that there is room for their misanthropic views here. I am told that you have been doing your own thinking and that you have made up your minds almost unanimously to vote for Bryan.

I believe that to be a wise conclusion. I suggest that you reflect as to whether you had better vote the silver Democratic ticket. You certainly should send King to congress. We need him to represent us in the legislature. In fact, a change of politics this year is just as essential as a change of air is to an invalid. Vote the Democratic ticket. Place a cross mark opposite the rooster and let it go.

Judge King devoted his entire remarks to a discussion of the question of overproduction, and quoted from statistics to prove that while the yield of wheat in the United States is 100 million bushels, the United States still the price has gone down.

There is no overproduction when men and women are in want.

AT HYRUM.

In the evening at 8 o'clock they addressed one of the largest audiences that have ever assembled in Hyrum during a campaign. Hyrum has a population of over 1,800, and if there is a McKinley man in it he is not known to this country.

Judge Powers made an eloquent appeal to the voters to do their duty to their country at the polls, his speech being heard by a vast throng of voters.

I have been in this beautiful valley for three days, meeting the people, discussing the great issues of this campaign, admiring the scenery and participating in the pleasures of the valley, held in the mountain's arms of rock is a picture of rural felicity.

There are here homes of peaceful and contented people, who are happy and industrious. Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling?

Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling? Why are the prices of the products of the soil falling?

request to Mr. Hahn, asking for an extension of Mr. Butterworth's time in that state, but he is responsible, and Mr. Butterworth will go next week to Oregon and Washington as previously arranged.

Congressman Dingley of Maine, who has been speaking in Indiana, was in the city today. He reports that state safe for McKinley and "sound money."

Congressman Bourke of Maine is expected to be in the city tomorrow, and unless his itinerary is changed, will go on to the states of Washington, Oregon and California. It is expected that Mr. Bourke will speak for the coast on the 15th or 16th inst., and will remain there until the close of the campaign.

Speaker Reed has been assigned to Indiana for three speeches, one of which will be delivered at Peru on the 18th.

Ex-President Harrison, it is definitely announced, will make several speeches in Indiana within the next ten days. It is not yet determined where those speeches will be made.

The "Union Generals" train has arrived here and the generals spoke tonight at Edinburg.

George R. Galther, jr., one of the Republican leaders in Baltimore, reports to headquarters that there is no need for the silver men to get out on the situation in Maryland. Everything is most promising, he says, and the state is sure for McKinley.

THE SHIPS.

New York Arrived: La Taurante from Havre, Neustria from Mediterranean ports, Veendam from Rotterdam, Umbria from Liverpool. Sailed: La Bourgeois for Havre, Campania for Liverpool, Bonn for Bremen, Perse for Hamburg, City of Rome for Glasgow, Thetis for Seattle. Arrived Oct. 7: Fulda at Genoa, October 7; Normant at Quebec, October 7; Tallentire at New York, St. Paul from Southampton, La Gasconne from Havre, Karlsruhe from Bremerhaven, California Southard, October 7; Sight: Sigsbee from Hamburg, October 7; Antwerp, passed the Lizard; Marsala, New York for Hamburg, passed Isle of Wight, October 7.

EVEN AT YALE.

A BRYAN AND SEWALL CLUB IS ORGANIZED THERE.

Broadminded Boys Who Apologize to Bryan for the Hoodlum-Like Antics of Their Fellow Students.

NEW HAVEN, Conn., Oct. 10.—A Bryan and Sewall club was formed at Yale tonight, with an attendance of nearly 200. Gerald Hughes of Denver, Colo., is president. The following was passed:

"Whereas, At the recent visit of Mr. Bryan to New Haven, certain members of Yale university did thoughtlessly and unfortunately interfere with the proceedings, and
