A quartette of tourists were arrested by the police yesterday for laying in a supply of winter apparel. They were arrested because it was very apparent that the greater part of the garments they wore had not been acquired by purchase.

EARTHQUAKES IN ICELAND. LONDON, Nov. 6.—Advices received here show that earthquakes were renewed in the southwestern part of Iceland on October 4. 150 farms being ruined, a large number of cattle killed and quantities of stored food destroyed. There is much misery among the people, who are ramping about under the improved shelter. The loss is estimated at 500,000 kroner. No loss of life is reported.

IT WAS PLEASANT. METROPOLIS, Ill., Nov. 6.—Judge James C. Courtney fulfilled his election agreement with Miss Jane Neftzger. It was that if McKinley was elected he was to wheel her from her home to the postoffice and return, after first kissing her, the programme to be reversed at the event of Bryan's election. About 1,500 people witnessed the parade, and the judge was lustily cheered.

HARNESS THIEVES HELD TO THE DISTRICT COURT FOR BURGALRY. A. Willis and J. H. Richards, the harness thieves arrested last week by Officer Shannon, after a lively gun play, had their hearing before Judge Wenger yesterday and were bound over to the district court for trial in bonds of \$300 each.

Assistant County Attorney Eichner appeared for the defendants, who were represented by Attorneys Morris Sommer and J. M. Hamilton. Heber S. Sheets and Joseph L. Sheets, sons of Bishop Philip F. Sheets of Tenth South and Eighth East streets, testified that a set of double harness and a single harness had been stolen from their father's barn on Friday night of last week. They identified the harness which the defendants had in their possession when arrested.

Officer Shannon and Joe Wilkerson testified to the details of the capture—how the defendants had made a gun play and been compelled to throw up their hands at the muzzle of a pair of shotguns before they would submit to arrest. They stated that the harness had been hidden under a haystack and the defendants were in the act of carrying it away when arrested.

The defense offered no testimony, but counsel asked for leniency in fixing the amount of bond to enable them to secure their liberty pending the trial of their trial. The state made no objection and Judge Wenger complied with the request.

Minor Police Mention. John Ryan, released by Justice Harvey only a day before, when he was up on a charge of burglary, was arrested yesterday charged with violating the license ordinance.

Mrs. Cornelia Paddock, superintendent of the Woman's Home, swore out a warrant yesterday charging J. J. O'Reilly, a saloon keeper, with selling liquor to minors. The arrest was the outgrowth of families in the vicinity of O'Reilly's saloon sending their children to "rush the growler."

FUERST BISMARK. She Limped Into Port the Victim of an Accident, Which Might Have Been Worse.

NEW YORK, Nov. 6.—The disabled Hamburg-American line steamer Fuerst Bismark, limped into port this afternoon having met with an accident which rendered useless one of her engines at 3:30 o'clock Thursday morning.

At that hour, the ship was 460 miles east of Sandy Hook, making for port at a 20-knot gait.

Suddenly, a decided vibration was felt all over the steamer. Chief Engineer

Heavy Movement of Stock Being Recorded Just Now.

WIGHT CASE ARGUED

BALTIMORE AND OHIO OFFICIAL CONVICTED OF DISCRIMINATION.

Case Now Before the Supreme Court of the United States—First Railroad Officer Convicted on That Charge—Result Being Watched by Shippers and Railroad Men With Much Interest—Plans to Rehabilitate the Philadelphia and Reading Companies—Railroad News and Notes.

Heavy shipments of stock have been in the order with the railroads for the past few days and will be for some time to come, according to present indications. Prices are good both for fat stock and stock to feed and heavy consignments are being daily recorded.

Among the shipments noted are one of 17 cars of cattle, loaded at Wells, N. Y., today for Chicago, routed the Rio Grande roads and the Santa Fe. Another shipment was made yesterday by E. J. Bonnemont of 12 cars of sheep from Kelton. The consignment was routed via the Rio Grande roads and the Missouri Pacific.

Shipments to go east in the next few days are as follows: Ben Craighead will load 15 cars of sheep at Deeth, N. Y., today for Chicago, routed the Rio Grande roads and the Santa Fe; Keoh Bros. will load a train of cattle at Wells, Nev., today and another tomorrow for Omaha, routed the Rio Grande roads and the Burlington; W. M. Dorsey will shortly load 15 cars of cattle at Carlin, Nev.; Thomas Hunter will have 20 loads from Elko, and Ross Wright loads 12 cars at Halleck, the three latter consignments going to Omaha.

According to Scott Davis, the representative of the Omaha stock yards, who says that he takes the same order is likely to continue for some time.

WIGHT CASE HEARING

Convicted Official's Case Argued Before the Supreme Court.

WASHINGTON, Nov. 6.—The case of C. S. Wight, general freight agent of the Baltimore & Ohio railroad, was argued in the supreme court today. Wight was convicted by a jury of unlawful discrimination between shippers in violation of the interstate commerce act. He granted a special rebate of 2 1/2 cents per hundredweight to one Bruening on beer shipments from Cincinnati to Pittsburg. It was discovered through the interstate commerce act. Meanwhile the Panhandle railroad, unable to find out where the trouble was, had cut schedule rates. Its freight agent was indicted, pleaded guilty and was discharged without trial was that Bruening had a siding on the Panhandle road and that the Baltimore & Ohio could not get his business without giving him a rebate which was in the nature of an allowance for cartage. The case was argued by Hugh L. Bond of Baltimore for Wight and Edward B. Whitney, assistant attorney general for the United States.

All the justices except Justice Field were present. This is the first criminal conviction of a railroad officer for an act to act as the parent company of the Baltimore & Ohio railroad. The suit will be watched by all the shippers and railroad men in the country.

Reorganizing P. & R. Companies. PHILADELPHIA, Nov. 6.—Important steps in connection with the plan to reorganize the Philadelphia & Reading Railroad and Coal and Iron companies were taken this afternoon at a special meeting of the stockholders of the National Coal company, at which it developed that this corporation is to act as the parent company of the reorganized Reading properties. The conference was called for the purpose of increasing the capital stock of the National company to \$40,000,000.

In the case of Joseph Dederichs vs. the Salt Lake City Railway company, the petition for a rehearing was denied by the state supreme court.

THE SANTA FE. Attorney Hurd Gives His Views Upon the Receivership.

TOPEKA, Nov. 6.—A. A. Hurd of the Santa Fe legal department has this to say about the receivership: "The commencement of this suit is not a surprise to us, although the fact that a receiver was appointed by Judge Myers without notice to any party in interest is a surprise. Although this suit is brought ostensibly in the name of the state of Kansas, under what is known as the alien land law, passed in 1881, it is really for the purpose of forcing the payment of a private claim. Down On the Wires

GETS THREE MONTHS.

MRS. CASTLE'S SENTENCE IN LONDON YESTERDAY.

She Pleaded Guilty to Seven Counts—Her Husband Pleads Not Guilty and is Discharged—Mrs. Castle's Confinement May Be Temporary Only.

LONDON, Nov. 6.—Mrs. Castle has been found guilty on all the indictments against her, and has been sentenced to three months' imprisonment. No evidence was offered against Mr. Castle, who pleaded not guilty to each and every charge. Mrs. Castle pleaded guilty to all the counts.

A great deal of evidence was introduced leading to show the amount of time Mrs. Castle was in, and that she had been suffering from certain diseases peculiar to females for a great many years.

When sentence was pronounced, Mrs. Castle stood as though dazed for a moment, and then as the full import of her sentence became known, she began to sob and to utter faintly incoherent words, and finally to cry out in a voice of despair: "God, what does it mean? A great many of the ladies in the courtroom exhibited signs of sympathy for her. Mrs. Castle was congratulated upon his own release from custody. Mr. Castle said it was only justice that he had received the same sentence as his wife. He was exceedingly anxious about her, he said, and desirous of her removal to a place of rest at the earliest possible moment.

Application has already been made to the chief clerk of the court, and it is believed that her sentence is practically formal, and that she will be liberated in a few days.

The Central News announces that a petition was lodged at the home office this afternoon, praying for the release of Mrs. Castle, on the ground that the lady's physical and mental condition are not equal to the strain of imprisonment. United States Ambassador Bayard, the Central News says, has also addressed a note to Secretary W. H. Taft, home secretary of the subject.

After the excitement from the conviction and sentence of Mrs. Castle had been allayed, the stolen articles found in her possession were ordered to be restored to their owners. Mr. Avery, counsel for the prosecution, Dr. Scott, one of the expert witnesses, expressed surprise that the sentence would be so nominal. Everything possible would be done for her in a medical way, he said, during her imprisonment.

Several of the merchants who had testified to having lost property found in the possession of Mrs. Castle, said at the trial that they were convinced that the lady was mentally irresponsible, and that they had no expectation that she could be returned to their possession. Mr. Hodson, of the United States embassy, expressed the opinion that Mrs. Castle would be released in a week, and Mr. Abrahams of counsel for the defense said that measures for a reprieve were being taken.

Mr. Castle expressed the thanks of himself and his wife for the unceasing kindness of their friends and hoped that Mrs. Castle would speedily be relieved from the terrible condition in which she is placed.

LEGITIMATE DISPATCHES.

Advantage of the United Press Over Its Rival Slow Competitor.

LINCOLN, Neb., Nov. 6.—Today's issue of the Nebraska State Journal contains the following editorial: "The Journal is the only newspaper in Lincoln that has received legitimate telegraph dispatches on the result of the election since Tuesday night. It is secured by the full report of the United Associated Presses, a great non-partisan organization that makes the collection and distribution of news its sole business. This association includes in its membership the New York Journal, the Omaha World-Herald, the San Francisco Examiner and other Bryan organs, as well as hundreds of gold standard newspapers all the way from New York to San Francisco. It has agents in every city in the United States, who are charged with the duty of gathering and sending to its members the most reliable news obtainable. Its correspondents are sometimes deceived and sometimes make errors, but the deliberate falsification of news is followed by the discharge of the man guilty of the offense. Newspapers of opposite political beliefs could not remain in the same association without truth as the basis of the work of the organization.

Nothing to Fear. NEW YORK, Nov. 6.—It is learned at the office of the Atchison, Topeka & Santa Fe Railway company that the matter relating to a receivership for the property of the company in Kansas is merely the carrying out of an agreement between the old and the new companies to clear up old legal complications.

Food For the Tired Brain. Herford's Acid Phosphate. It furnishes building material for brain and nerves (the phosphates) and imparts renewed strength.

RESSLER'S REASONS. Judge Keeler, this morning, gave out this statement as his reason for applying for a receiver: "The condition of the new company is worse than the condition of the old company at the time it was closed out. On June 30, 1895, the outstanding capital stock and mortgage bonds of the old company amounted to \$38,718,500. On June 30, 1896, the outstanding stock and mortgage bonds of the new company amounted to \$38,718,500. The property and assets of the old and new companies are practically the same. The income of the old company for the year ending June, 1895, was \$272,100 less interest on its bonded indebtedness. The result of the first year's operation of the new company will not be known to the public until it files its annual report in June, 1897. Its net earnings will be sufficient to pay its dividend on capital stock, nor even the full amount of annual interest on its bonded indebtedness. The entire property of the new company is mortgaged for \$60,000,000. For the foreclosure proceeding against the old company, and by what is called the 'reorganization,' the manipulators of the affairs of the old company forced out all parties not in the new deal, took the property at \$60,000,000 and proceeded to stock and bond it for \$98,718,500. In other words, it took the property which had already been mortgaged into bankruptcy and proceeded to water it \$54,049,870 more."
