

BULLION-BECK ADVANCE

But Little Interest Taken in the Morning Call.

WILL MAKE EXPERIMENTS

TO TEST RESCUE ORES WITH THE ELLIS CONCENTRATOR.

A Nevada Property, in Which Park City People Are Interested—Mammoth Bodies of Ore Blocked Out Which Will Average \$40 in Gold to the Ton—The La Cigale Mill—Work in Its Erection to Begin as Soon as Possible—Fine Bodies of Mineral Being Blocked Out in This Camp Floyd Property—Contract Let for the Development of the Sixteen-to-One—Lousy With Gold—High Grade Quartz From the Golden Star Mine, in Gold Mountain District—A Good Suggestion.

The bulls and the bears failed to exhibit any activity in the pit of the mining exchange yesterday, and as a result there was but a small amount of business transacted on the floor of the institution.

The stock market so far this week has been exceedingly dull, at least this has been the case on the board, and no special activity has been noted so far on the curb.

The listed stocks were very flat yesterday, the only security in this class that made any gains being Bullion-Beck, which advanced to \$2 1/2 in the bidding, which is a tick-up of 1/2 cent over the quotations of the previous day. This advance is accounted for by the fact that the property of the company is looking in magnificent shape, and also because it is believed that a 50 cent a dollar dividend will be paid by the company this month.

The unlisted stocks were practically ignored, and at the close they hung to the quotations of the previous call. Swansea and South Swansea were firm at these figures, but inactive. Northern Light advanced to 34 cents in the bidding; but this bid was later withdrawn. Richmond & Anaconda chronicled a small sale, but this was not a board lot. Buckeye was slightly higher, while Sunbeam failed to move up or down.

The lack of interest taken in the exchange is but a reflex of the feeling of the people of this city in relation to the mining stock business, and cannot be attributed to any doubt as to the merit of the mining properties offered on the floor of the exchange; and, as long as Salt Lake citizens are indifferent to the advantages that are offered them in this respect, just so long will the business in the pit be limited and the call lacking in interest.

The transactions of the day were as follows:

SALE OF STOCK.

Table with columns for stock names and prices. Includes items like 100 Mammoth at \$2.00, 300 Richmond & Anaconda at 2 1/2, etc.

CALL OF LISTED STOCKS.

Table with columns for stock names, bid, and ask prices. Includes items like Anchor, Bullion-Beck, Brierley Consolidated, etc.

CALL OF UNLISTED STOCKS.

Table with columns for stock names, bid, and ask prices. Includes items like Swansea, Little Pittsburg, Sunbeam, etc.

WILL MAKE EXPERIMENTS. To Test Rescue Ores With the Ellis Concentrators.

REGARDING THE MERCUR

The Stock of the Company Making Gains Daily.

WILL GET THE MARION MILL

THE BRICKYARD NEGOTIATING WITH THE GEYSER-MARION.

More Than Likely That It Will Secure a Lease on the Marion Mill, in Which Event the Geyser-Marion Will Increase the Capacity of the Geyser Plant—Both Properties Looking Well—Geyser-Marion Popular With Investors—The War Eagle Deal—Patsy Clark Gives the Details of the Transaction—The West Buckeye Incorporates With a Capitalization of \$150,000—Accident in the Silver King—Ore and Bullion—Silver and Lead—Mining Notes and Personal.

THE LA CIGALE MILL.

Work in Its Erection to Begin as Soon as Possible.

C. H. Schue, the grand mogul of the La Cigale mine, on the west dig, in Camp Floyd district, who was in the city yesterday, informed the Herald that the plans for the mill for the La Cigale are now being perfected in the east, and that as soon as the roads become passable this spring work in the erection of the plant will begin.

As every new plant that goes up is to be an improvement over all previous efforts in this line, it is said of the La Cigale plant that it will be the finest and most completely equipped reduction works erected in the district, and as improvements are constantly being made, there is no doubt that the mill will embody all the construction the latest devices and inventions for the saving of the gold values in the ore at the smallest possible cost.

This mill, according to Mr. Schue, will have a machinery capacity of 200 tons, but at the beginning the tank will be restricted to 100. Additions can easily be made, as it is demonstrated, and as soon as it is demonstrated that the plant works successfully the full capacity of the works will be run.

Lousy With Gold.

J. M. Billingsly, who has been doing contract work in the development of the Golden Star property, on Gold Mountain, whose arrival in the city on Monday was duly chronicled in these columns, brought with him some samples of ore from the Blue Bird tunnel which are fairly covered with native gold, and the appearance of these samples would indicate that the mine as destined to develop into a magnificent producer.

A Good Suggestion.

In the Hot Springs mining district the miners have provided in a section of their by-laws that a copy of the location notice shall be filed with the recorder of the Hot Springs mining district within 30 days from the date of location, and the recorder shall retain the filing for future reference.

TO TEST RESCUE ORES WITH THE ELLIS CONCENTRATORS.

John Diem of Park City is in the city on business connected with the Rescue Mining company, of which he is the president. The property of the Rescue company is located in Maré's district, Elko county, Nev., about 12 miles east

THE WEST BUCKEYE.

Incorporated Yesterday With a Capital of \$150,000.

THE WAR EAGLE DEAL.

Patsy Clark Gives the Details of the Transaction.

A celebrated mining man, in the person of Patrick Clark of Spokane, arrived in town yesterday and is stopping at the Queen's, says the Toronto Mail and Empire. This is Mr. Clark's first visit to Toronto, but he is known by reputation here, as in fact, he is in almost every quarter of this continent where any interest is felt in mining. Particular importance attaches to Mr. Clark's visit at the present juncture because he was the person who made a general manager of the Spokane company from whom the Gooderham syndicate purchased the War Eagle mine, in the Kootenai country.

REGARDING THE MERCUR

The Stock of the Company Making Gains Daily.

WILL GET THE MARION MILL

THE BRICKYARD NEGOTIATING WITH THE GEYSER-MARION.

It has been claimed in certain circles that the failure of Captain De Lamar to take up his option on the Mercur mine would give this property a black eye. Subsequent events, however, have not borne out this prediction, as the stock of the company is stronger today and it is selling at a higher figure than it did a day or two before it was known what the captain would do in the matter. In fact, as soon as it was given out that the bond had been surrendered, there was a haste for the stock from the outside, and investors who were willing before to buy up the stock as a speculation, to buy up the stock all that they could get of it as an investment, and it is believed that it will not be long before this security will once again touch the \$7.50 mark, and this condition of affairs is largely due to the faith and confidence that the stockholders and the public at large have in the present management, as it is well known that it will do what it says it will, and it has lately been given out that it is the intention of the company to enlarge its reduction works, which means an increase in the amount of dividends to be paid in the future.

It has been currently reported on the streets and believed by many, that when Captain De Lamar left for Europe last week, he carried in his suitcase a bond of \$500,000 worth of the stock of the Mercur company. This rumor is without foundation, however, and the Herald is authorized to deny the report, and to say that the company is free from any such obligations of this nature, and also that the heavy stockholders would not part with their holdings at a less price than the amount specified in the De Lamar note, which is allowed to lapse, viz: \$7.50 a share.

The management of the Mercur is now making the necessary arrangements for the enlargement of the mill at Manning to plant a 300-ton daily capacity. The crusher is to be put in, and new tanks added, while the old tanks will be gone over and the smaller ones removed, and the 15-ton tanks will be improved so that they can be unloaded from the bottom.

WILL GET THE MARION MILL

THE BRICKYARD COMPANY NEGOTIATING WITH THE GEYSER-MARION.

It was given out by the initiated yesterday that the officers of the Brickyard company were negotiating with the management of the Geyser-Marion with a view of securing a lease on the Marion mill for the treatment of Brickyard ores.

HIS LEG BROKEN.

An Accident at the Silver King Mine Yesterday.

Park City, March 2.—Mr. T. Williams, son of Reese Williams, met with an accident at the Silver King mine yesterday. He was stopping at the 300-foot level, when a rock fell, striking the handle of a pick which was lying across his left leg, with such force as to fracture the limb to the thigh. He was brought to the city and given medical attention.

ORE AND BULLION.

The ore and bullion receipts yesterday were as follows: National Bank of the Republic, cyanides, \$5,000; Ajax ore, \$5,000; T. R. Jones & Co., bullion, \$10,000; ore, \$4,000; McCormick & Co., bullion, \$11,500.

SILVER AND LEAD QUOTATIONS.

The silver and lead quotations yesterday were as follows: Western Union—Bar silver, 64 1/2 cents; lead, \$2.95; casting copper, 11 cents; United Press—Bar silver, 64 1/2 cents; lead, \$3.00; lake copper, 12 cents.

MINING NOTES AND PERSONALS.

De T. Marks of the Dagmar at Eureka, N. Y. is in the city with some of the rock from the new shaft that is being sunk on this property.

LAUREL MASS.

This is the cradle in which grew That thought of a philanthropic brain; A remedy that would make life new For the multitudes that were racked With pain.

AYER'S SARSAPARILLA

was in its infancy half a century ago. To-day it doth "bestride the narrow world like a colossus." What is the secret of its power? Its cures! The number of them! The wonder of them! Imitators have followed it from the beginning of its success. They are still behind it. Wearing the only medal granted to sarsaparilla in the World's Fair of 1893, it points proudly to its record. Others imitate the remedy; they can't imitate the record!

50 Years Cures.

ing and shipping lots, 2,500,000; common to choice, 2,500,000; light, 3,000,000; plus, 3,000,000. Sheep—Receipts, 11,000. Inferior to choice, 2,000,000; lambs, 3,000,000.

KANSAS CITY LIVE STOCK

Kansas City, Mo., March 2.—Cattle—Receipts, 2,500; native, dressed, best grades, 4,000; stockers and feeders, 2,500; cows and heifers, 2,000; calves, 2,000; western, 2,000; calves, 4,000; bulls, 2,000.

SOUTH OMAHA LIVE STOCK

South Omaha, March 2.—Hogs—Receipts, 6,000. Market weak to lower. Light and mixed, 2,500; heavy, 3,000.

LIVERPOOL WHEAT

Liverpool, March 2.—Spot wheat, steady, poor demand; California club, 5s 2 1/2; No. 1 northern, 4s 6 1/2.

SUNDAY RACING.

A WHEELMAN WHO SAYS IT MUST BE HAD.

If the League of American Wheelmen Will Not Sanction Such Sport, It Will Have to Suffer the Consequences.

Chicago, March 2.—The Chronicle this morning says: "Sunday racing must be had at any cost, if the League of American Wheelmen will not sanction such sport, it will have to suffer the consequences. California and the other states of the west that fought for reforms cannot be snubbed, and will have their rights."

That is the way F. H. Kerrigan, president of California and best known prominent in league circles, summarized the demands made by the majority of the delegates to the recent national assembly. Amendments for reform were adopted by a vote of 100 to 75 in the division, which could not appreciate the greatness of the storm that was brewing to dismember the organization. Mr. Kerrigan has just returned from New York, where he represented in vain to President Potter to commit himself. He is en route to San Francisco, where he will report the fruitfulness of his mission to his fellow delegates.

"I cannot just say what California will do in this matter. We are not over hasty in that part of the country, but when our rights are concerned we will make a stand before we give up. Personally I think that the L. A. W. has lost 90 per cent of its popularity in the west and only a leader is needed to point out the way and a will to execute it. If a real concentrated action on the part of our division."

"The assembly has been decided repeatedly and I think I am honest in saying that I might be expected to look days to discuss could have been transacted in a few hours. It was a case of a few dandies from Broadway trying to run things, with the result which might be expected. The application of their pigmy brains. In spite of the vast majority asking for local option on Sunday racing and the admission of professionals into associate membership of the cause of reform was lost. California will fall into line in opposition to the L. A. W. when the time comes for action."

The Women Who Works, and is tired, will find a special help in Dr. Pierce's Favorite Prescription. Perfectly harmless in any condition of the female system, it promotes all the natural functions, and builds up strength, regulates, and cleanses the system, and very weak run-down, delicate women, it is an invigorating, supporting tonic that's peculiarly adapted to their needs.

Many modest women and girls suffer unendurable torments because they dread telling their troubles to a physician. They fear the almost inevitable examinations and "local treatment." These things are usually wholly unnecessary. Dr. Pierce's Favorite Prescription will do what no other doctor in a hundred can do—it will cure.

Adulterated baking powder is dangerous and makes your pastry bitter. Use Hevlet Bros' pure cream tartar. Three Crown Baking Powder, it will always be light and sweet.

THE SULTAN'S ARMY

is the title of an article of particular interest at the present time, which will appear in the Sunday Herald of March 7th. Read it.
