"Brilliant" Work of the Tribune Volcano Hunter.

DIDN'T KNOW

NORTH FROM SOUTH

LAUNCHING STOCK OF THE COUNTY OF BOX ELDER.

Evidently Made it His Purpose to Interview People Who Did Not Know Anything—An Inaccurate Map Which Causes Peals of Laughter—Martin Bohrer, Whom the Scribe Did Not Desire to Interview, Could Have Given Him Much Information.

Brigham City, March 9.—Smattering under the great scope The Herald scored in the volcano sensation, the Tribune, it seems, could do nothing else but essay to brand the story as a canard. So the Tribune sent a reporter at dead of night and during a regular northern blizzard up here to knock out our volcano in the first round. Of course, he could neither see nor find out anything during such weather.

It seems from his own words that this enterprising scribe interviewed a lot of people in the vicinity of the volcano, most of whom reside ten to fifteen miles from the scene of the alleged spouter. He did not interview one of the half dozen or more reliable men who claim they have seen either a great geyser or a volcano. In regard to all of such he facetiously inquires the brand of the whisky they had been drinking. That is good journalism, we feel to say.

Then he gives a map of the surrounding country (7), locating the volcano. If the remainder of the foregoing account is more accurate than this map, it is a lulu, sure. In it he draws the lake and promontory all right, but he runs Bear river into the lake from a southeasterly direction when in reality it comes in from almost due north. Then he places Corinne about where Willard or Ogden should appear, placing the volcano north of the lake, whereas it is to the south. The other details are similarly ridiculously inaccurate.

In spite of all this, Martin Bohrer, who lives on a farm near the volcano, declares up and down that there is a great natural wonder in that region in the form of either a mammoth geyser or a volcano. He says he could not possibly be taken upon the phenomenon every day for several weeks. It would spout up hundreds of feet many times every day. He says he has seen a geyser, a sober, industrious young farmer, not at all given to exaggeration. His honest statement having been given only after solicitation, the correspondent is sufficient to satisfy me that there is a natural wonder on the briny shores of Bear River bay.

People from Corinne still credit the volcano story. They ask: If nature has not found a surface outlet in the shape of this reported volcano, why is it our earthquakes, which formerly occurred every few weeks, have not been felt now for over two weeks? And this is a fact. There may be something in that. People who have been living in this locality and experienced the numerous shocks during the past few months are not at all surprised at the appearance of a volcano.

The morning Mrs. Louisa Mattison, aged 65, died after a month's illness, of rheumatism and heart trouble. The deceased leaves a husband and family of seven children. She is the wife of a Mr. Mattison, a miner who is working either in Nevada or Montana, and he cannot be reached, as his exact location at present is unknown. Her family are living in Salt Lake City.

Yesterday Dr. Schubert, an old-timer of Corinne, died at that place. It seems a few days before he had a severe attack of the heart, which he overcame. Last week farmers around here were plowing before this time, but they paid dearly for that pleasant winter weather all through April and May.

Yesterday a large number of the Snow family met at the home of Mrs. Adeline Snow in honor of that well-preserved old lady's eighty-fifth birthday. There was a pleasant time, and there was a nice dinner, after which the party was amused by songs, recitations and instrumental music. All hoped they would have the pleasure of meeting this aged lady on many similar occasions.

Alexander Bros. have been awarded the contract for building the bridge in Provo canyon. Their bid was \$1,295. The bridge will be a 60-foot span and the width 14 feet in the clear, elevated 18 feet on feet above the low water mark. They will construct the Howe truss design and will build the bridge with wood. The first five feet will be cement, the abutments of masonry and the remainder of wood. Plans and specifications of A. E. Buckler were adopted by the county board this afternoon, after a protracted session lasting two days.

From the present outlook there will be a monster demonstration on Thursday evening, when the progressive citizens will place their veto on the chronic mossbackism which has so long afflicted Provo.

Tomorrow afternoon funeral services will be held over the remains of Laura Baldwin, who was brought in from Rust, on the morning of the 7th. Wednesday, March 10, is the date set for the Scandinavian annual reunion and jubilee. The committee in charge has arranged a very attractive programme for the occasion.

FREE TO EVERY MAN.

THE METHOD OF A GREAT TREATMENT FOR WEAKNESS OF MEN.

WHICH CURED HIM AFTER EVERYTHING ELSE FAILED.

Painful diseases had enough, but when it was too late to wait away with nervous weakness, the mental forbodings are ten times worse than the most excruciating physical pain. Sleep is almost impossible and under such a strain as scarcely to be able to get what they do. For years the writer roiled and tossed on the troubled sea of sexual weakness, and saw a question whether he had not better take a dose of poison and end all his troubles. But providential inspiration came to his aid in the shape of a combination of medicines that not only completely restored his health, but enlarged his weak, emaciated parts to natural size and vigor, and he now declares that he will take it till he can no longer send his name and address may have the method of this wonderful treatment free. Now, if you say free I mean absolutely without cost, because I want every weakened man to get the benefit of my experience.

I am not a philanthropist, nor do I pose as an enthusiast, but there are thousands of men suffering the mental tortures of weakened manhood who would be glad to pay for the method of such a remedy as the one that I can give. Do not try to study out how I can be benefited, but simply write me, and I will send you the information, and if necessary to mail the information, but send for it, and learn that there are a great many who are getting the benefit of such a remedy as the one that I can give. GENERAL SOLOMON DEAD.

DISTINGUISHED UNION SOLDIER PASSED AWAY MONDAY.

Made a Brilliant Record During the Late War—Was Surveyor-General of Utah—The Funeral Today.

General Fred Solomon died at his residence on Monday evening at the age of 71.

The funeral will take place today at 3 p. m. from O'Donnell's undertaking parlors on West Temple street, under the auspices of James B. McKean, post, G. A. R.

General Solomon was an old resident of Salt Lake, and for several years during territorial days was surveyor-general of Utah. He was a native of Germany and during the war served with marked distinction. His ability and bravery were recognized and led to rapid promotion. He was one of the war he resided in Missouri until he came to Utah.

The bill of the Ogden Gurney Cab company was reduced from \$7.25 to \$4.50 and allowed.

The compensation of Wallace Foulger, assistant in the treasurer's office, was fixed at \$250 per day. The same amount was fixed on compensation for J. M. Langsdorf and H. W. Naisbit in the assessor's office.

The claim of the justice of the peace and witnesses in the case of the state vs. Hayes and the case of H. B. Salkins of \$45, and some other county bills, were referred to the county attorney.

Numerous tax matters were adjusted or referred to committees.

SUNDAY SUITS

Heard Yesterday Before Judge Rolapp—The Damage Case Against Union Pacific.

The case of the Genesee County Savings bank vs. William G. Meyer was completed yesterday, the jury finding for the plaintiff in the sum of \$299.99.

Albert Ladd vs. Citizens' Bank of Ogden; hearing on motion to discharge receiver was set for Saturday, March 16.

The suit of Henry Howell vs. the Union Pacific receivers was heard yesterday. The suit was for \$1,999.99 for injuries alleged to have been sustained by reason of his being ejected from a train by about McCannan in June last. The defense claimed that he was beating his way or attempting to and that he was told to get off, and did so.

The brakeman said the man "scattered" himself about amongst the gravel for a while but got up and followed the train. The case was argued, but the jury will not be instructed until this morning.

THEY MAY BORROW.

Proposition to Keep Schools Open Carried by 670 Majority—Light Vote.

The result of the special election yesterday was a victory for the public schools. The board of education was given permission to borrow \$15,000 or to create \$15,000 indebtedness to run the schools another quarter. The voting was not active, it being a foregone conclusion that the proposition would carry. There was much opposition to the proposition, but it was scattered and without leaders. Considerable street oratory was indulged in but this was not against the direct proposition. Assertions were widely made that the board was too extravagant in maintaining a fancy high school, a high salaried clerk and a music teacher whose work is done by the other.

But these assertions were usually met by the plain proposition that the entire school system would be stopped. The class that stayed at home, that allowed the permission to be given without registering approval or disapproval, was very large. The vote by wards was as follows:

Yes. No. Total

First ward.....188 72 260

Second ward.....149 55 204

Third ward.....103 91 194

Fourth ward.....125 85 210

Fifth ward.....255 58 313

Majority, 672. 972 570 1342

Yesterday's Shooting.

Mrs. Matheal Hinckle was resting easily yesterday and no serious complications are expected as a result of the wound received yesterday from the bullet fired by Mrs. Wolsey. The escape was a narrow one. Mrs. Wolsey fired three shots; two struck the window and another one the house. The bullet which struck Mrs. Wolsey was not shooting at the man whom she thought was trying to get in at her back door but fired to frighten him. Mrs. Hinckle was nearly scattered by a shot through her window facing the side window from whence the shooting was being done, when one of the bullets struck the window. Mrs. Wolsey was nearly scattered by a shot of all, being nearly prostrated by the accident.

SUGAR SCHEDULE.

Outlines of it Agreed Upon by the Republican Members of the Ways and Means Committee.

Washington, March 9.—The outlines of the sugar schedule were agreed upon by the Republican members of the ways and means committee.

Only two points were definitely decided, but they will form the skeleton of the entire schedule. These two points were that the duties on sugar should be a specific rate on sugar, and that a half cent for each hundred pounds on sugar testing 96 degrees, and a cent less for each degree, according to a reciprocity arrangement. This will afford a considerably higher average rate of duty on sugar than the present schedule, and will add about \$30,000,000 to the annual revenue. The points which remain to be decided are the schedule of duties on sugar above and below
