

NEWS OF THE STATE

Believed That the Wellsville Safe Robbers Have Been Caught.

TWO MEN FROM MONTANA

STRONG EVIDENCE CONNECTING THEM WITH THE CRIME.

Provo Doctors Decide That the Bones Found at Castilla Are Those of a White Girl—Huge Mountain Lion Killed Near Eureka—A Coal Strike.

[From The Herald's Correspondents.] Logan, Nov. 6.—Sheriff Turner, accompanied by Sheriff Davis of Box Elder county, came up on the 11:30 train today, having in charge two tough-looking individuals who had been arrested for the Wellsville burglary and safe blowing. They were captured early this morning by Sheriffs Turner and Davis in the mountains about 15 miles south of Montana, in a place known as Devil's Gate canyon. Sheriff Turner and the trail yesterday afternoon and followed it up Wellsville canyon for about seven miles, when he lost it. He later heard of them being seen in the hills by several parties, and after fixing a plan to follow, drove over to Brigham and, securing the assistance of Sheriff Davis, took the train for Ogden. Arrangements had been made with the deputy sheriff at Brigham to be on the look-out in Brigham canyon while they went up Ogden canyon to intercept the fugitives. The plan worked effectively, the two supposed robbers being captured as stated above.

The prisoners' names cannot be learned. Their hearing has been set for Monday at 10 o'clock. They are both dark and of rather middle build and do not seem to be in the least discomposed over the situation. There is no positive evidence that they are the guilty parties, although every indication points to them. The tracks around the Wellsville store exactly with those of the two prisoners. In their possession was a quantity of greasy moccasins, supposed to have been taken from the Wellsville safe, as quite a sum which was in the safe had been taken from the till of the butcher shop, run in connection with the store. They claim to have come down from Montana, and said when arrested that they were going to the power plant in Ogden canyon to secure work. There are several other indications that they are the robbers. One man from Wellsville claims to have seen one of them in the store buying a plug of tobacco the morning before the burglary.

LOGAN LOCALS.

Three Boys Fined For Fighting—Personal and News Notes.

Logan, Nov. 6.—Edward Fletcher, Moses Carlson and Hammond Spencer, the three young men arrested for assault and battery committed on the night of election in the drunken row at Theaters' brewery, had their trial this morning. They were found guilty and were each fined \$5 and costs.

Miss Emma Smith, a daughter of Justice-elect E. W. Smith, is trying very ill from a severe attack of pneumonia.

Mrs. Robert Hull of Whitney, Ida., who has been critically ill for some time past with typhoid fever, is now rapidly recovering.

W. H. Dancy, the Wellsville merchant, is in town today.

E. C. Eason and family leave Logan this afternoon for Salt Lake City, where they will reside in the future.

F. O. Gooding and wife leave tonight for San Francisco, where they will spend the winter.

City Attorney-elect P. E. Keeler goes to Brigham City tomorrow to attend to the session of the district court, which opens there on Monday.

Mrs. Christina Svenson of Hyde Park has filed a suit for divorce from her husband, N. P. Svenson, on the ground of intemperance.

Chief of Police Davenport came up from Ogden today and returned on the afternoon train, having in charge the men arrested here yesterday for obtaining \$2,400 in stolen money.

The diphtheria epidemic in Axon is now under control. No new cases have been reported of late and those already are gradually recovering.

Bishop Hutchins of Meriden was upon our thoroughfares today.

HUGE MOUNTAIN LION.

A Tintic Miner Succeeds in Bagging Big Game.

Eureka, Nov. 6.—News reached here this morning that a huge mountain lion had been killed in North Tintic, about eight miles north of here. Many have been seen in that vicinity of late and the miners have been on the look-out for them. Yesterday a miner named Reynolds came across one, and went back to his cabin and procured a gun, and tracked the lion until he could get a good shot at him. It is a very fine specimen of the mountain lion, measuring seven feet from tip to tip. Mrs. M. Kelly sustained a paralysis of the left side yesterday afternoon, caused by a heavy fall.

The heaviest snowfall of the season occurred last evening.

Rev. William Murphy of Payson will occupy the pulpit at the Methodist church tomorrow evening.

Superintendent Young came out on his special car over the Oregon Short Line this morning.

But Sullivan, Pat Shea, C. W. Clark and Attorney B. N. C. Scott returned from Nephth this morning.

A WHITE GIRL'S BONES.

Provo Scientists Examine the Skeleton Found at Castilla.

Provo, Nov. 6.—There were a good many visitors at the sheriff's office today, by people curious to know something about the skeleton found at Castilla Springs. Dr. Allen made an examination of the bones, taking some measurements. He came to the conclusion that it was the bones of a young woman, not more than four feet and a half tall. He regarded her as a girl of more than average intelligence, her skin being very symmetrical. The interest in the matter increased, however, when Professor F. A. Fariss, the phenologist and physiologist, came in and examined the skull and the bones. He stated that it was undoubtedly the skull of a white girl, about 20 years of age, who possessed a cultivated mind. The faculties of muscle, constructiveness, form and color, as well as love of home and family, being so highly developed, convinced him that it was not the remains of a squaw. He observed that the ribs had been subjected to pressure, indicating that the girl had been in the habit of wearing corsets and lacing tightly.

There is a mystery attached to the fact that the bones should be sacked up and stowed away in this cabin. The stork does not bear evidence of having long contained these bones, and it is evident that some person living in this vicinity knows something about the matter.

The case of the state vs. William Jackson, charged with running over and maiming Timothy Douglas, has been filed in the district court. Jackson was found guilty in the lower court at

\$200000

for good word-guessers.

Get Schilling's Best tea and baking powder at your grocer's; save the yellow or brown tick-ets; and guess the missing word.

COALVILLE COAL.

Big Strike in the Church Mine—Hopkins Property Sold.

Coalville, Utah, Nov. 6.—There was a sheriff's sale at the court house today, at which the Hopkins property, at Echo, was disposed of to satisfy a mortgage held by Mrs. Adeline Thackeray, in the sum of \$5,800. It was bid in by E. B. Alder for Mrs. Thackeray, for \$4,500 and costs.

A big strike was made in the new tunnel of the old Church coal mine at Grass Creek last night. The strike was made at the foot of the hill, where the extension of the railroad has its terminus. This will greatly facilitate the loading and shipping of coal, and do away with the transfer by teams. The State Coal Mine Inspector, Thomas was in Grass Creek, inspecting the coal mines today, and reports everything in good condition.

Local traffic here in shipping coal has been very extensive of late. Fully 100 tons daily has been taken away by teams.

J. B. Walden and Mr. Curtis of Salt Lake are in town. E. M. Allison, superintendent of the reform school at Ogden, is also visiting relatives here.

A very successful students' ball was given by the students of the Summit State academy last night. It was a neat, pretty structure, well adapted to the needs of this growing mission.

It is just three years since the present pastor, Rev. C. F. Richardson, took charge of the Presbyterian church here.

PUTTING IN CROPS.

Davis County Wheat Acreage Will Be Increased.

Kaysville, Nov. 6.—Farmers have just about completed the planting of their fall grain on the range north of here and they are confidently expecting an unusually large yield next year. The occasional rains that have fallen during the last month have brightened the prospects for winter wheat crops very materially, and if the coming winter is not too severe it is believed that more wheat will be produced on Davis county's dry farms next year than ever before.

A prominent farmer of Layton said today that the acreage will be fully one-third greater than it was this year. This, he says, is because the open and favorable weather has induced many to put in grain who under other conditions would not have done so. If anticipations are realized, next year will be a prosperous one in the north end of Davis county.

The city council will meet on Monday to canvass the election returns and issue certificates of election to the successful candidates.

Mrs. Margaret Manning of Hooper has been visiting here for several days.

Dr. Fisher of Ogden is here on professional business.

THE ASYLUM CHARGES.

Board of Trustees Decides They Are Not Sustained.

Provo Enquirer: Nothing can be more damaging to the charitable institutions of the state than the gossip and charges that some people love to whisper one to the other. The state insane asylum has just passed through a period of that kind, and the board gave the rumors the closest investigation and have declared the charges were not sustained. The board is composed of most impartial and honorable gentlemen, and their judgment may be relied upon as about right. The further spreading of those rumors, therefore, would partake of the nature of maliciousness.

RANDOLPH TELEPHONE.

Work Commenced on a Line to Evanston.

Randolph, Rich County, Utah, Nov. 4.—Work was begun yesterday on the telephone line to Evanston, Wyo. The line will start from Randolph and run through Woodruff to Evanston, a distance of 34 miles. A stock company, composed of Evanston and Randolph business men, has been formed, and they expect to have the line working inside of 30 days. This will be a great help to the people of Randolph, for at present there is no connection with the outside world, except by the stage line.

Utah Fruit Exhibit.

Brigham Bugler: The Bear River Orchard company is preparing to send a carload of Utah fruit to Philadelphia, which will be placed on exhibition in the windows of their offices there. The collection contains every variety raised in Utah, and among the lot is an enormous pumpkin, weighing 130 pounds.

Box Elder Taxes.

Brigham Bugler: County Treasurer Holton says up to date about \$10,000 of this year's taxes have been paid in. The total is \$29,000 odd. Of this large amount, the railroad pays \$25,000, or one-half of the total tax. The railroads are good for something, after all, besides souezing out high fares and heavy freight charges, don't you think so?

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Ogden, Nov. 7.

CAUGHT IN MACHINERY.

A Salt Lake Man Has a Narrow Escape.

J. W. Wilson, the mill contractor, who resides at 277 South Sixth East street, Salt Lake, was painfully injured here in Ogden Friday night at a mill of the Ogden Milling & Elevator company, and near Riverdale. Mr. Wilson was inspecting the machinery when in some way he fell against the moving rolls, injuring his back and badly lacerating his cheek and forehead so that it was feared that one eye was permanently injured. Yesterday the case appeared not so serious, and Mr. Wilson was pronounced out of danger by the physicians. He is at the Broom hotel.

CENTRAL PARK MISSION.

First Presbyterian Church Will Soon Dedicate It.

The First Presbyterian church congregation has in course of construction for the Central Park mission—near Johnson and Patterson—a building which will be their own property, and when finished, probably in the next two weeks, will be valued at least at \$50,000, and entirely free from debt. Towards this building over \$50,000 in cash has already been paid, and the amount in support of the Central Park mission is \$575. It is expected that \$50,000 will shortly be secured, and the balance needed will be given in work by Mr. May and others especially interested in the work. The building, when finished, will seat from 150 to 175, and will be a neat, pretty structure, well adapted to the needs of this growing mission.

It is just three years since the present pastor, Rev. C. F. Richardson, took charge of the Presbyterian church here.

Palace House.

The Bennett block has been renovated and newly furnished throughout. It will hereafter be known as the Palace House and will be under the management of Mrs. Kate Tompcox.

S. J. Griffin, Corner 24th and Grant, Ogden, Utah.

We repair bicycles, fishing rods, shot-guns and rifles; in fact, everything. We make models, rubber stamps and fishing rods. Outside orders given prompt and careful attention.

Artistic Shapes. Are our fall and winter Miller, Warburton, Denney and Schobbe derbies. See 'em. Wear 'em.

BROWN, TERRY & WOODRUFF CO., 195 Main st.

In that time 152 members have been received into the church, while only 126 have been lost by removals, deaths or other causes. The close of the third year finds all the branches of the church work active and in a flourishing condition.

Court Matters.

Judge Rolapp heard matters yesterday as follows:

L. J. Holther vs. Emma Sewell; plaintiff granted leave to amend complaint by making Edward Sewell party defendant.

Anna Andrae Burt vs. Achilles Perrin et al.; case heard in part and further hearing continued to Nov. 10.

Robert M. Burch has filed an action against the receivers of the Union Pacific asking damages in the sum of \$350 for three horses belonging to plaintiff which were killed by the Union Pacific train near Riverdale last September.

Local Briefs.

Mrs. Belle Fisher of Park City yesterday forfeited \$10 bail put up Friday night for her appearance.

R. H. Whipple goes to Washington, D. C., this morning to represent Ogden City in the street paving case coming up in the supreme court.

At the First Presbyterian church there will be regular preaching service this morning, followed by all the other usual services, except preaching service in the evening. A special offering will be taken up at the morning service for the board of freedom.

Palace House.

The Bennett block has been renovated and newly furnished throughout. It will hereafter be known as the Palace House and will be under the management of Mrs. Kate Tompcox.

SUGAR FACTORY AND FARMER

WHO PROFITS BY THE ENORMOUS TARIFF TAX?

That Magnificent 25-Cent Raise, as Viewed From the Standpoint of the Beet Grower.

West Jordan, Nov. 5.

In the Herald of Nov. 3 I see an article headed "The Utah Sugar Co." wherein Manager Cutler makes a report of the year's operations and states the price of sugar was holding out well, and the average received was \$1 per hundred pounds, more than last year, which will be of valuable aid to the "company" in consideration of the partial failure of the beet crop.

A few facts from the farmer's standpoint may be of interest to many readers of your valuable paper. I therefore present the following:

Manager Cutler says, "On account of the raise in the price of sugar, the farmers would be paid 25 cents per ton more than had been paid this year."

What a magnificent gift! Manager Cutler is indeed a philanthropist (7). Now, the factory receives no beets containing less than 12 per cent sugar, 12 per cent is 240 pounds of sugar in every ton of beets. One dollar more per hundred pounds sugar means that the factory receives \$2.40 more on every ton of beets, and they now propose giving the farmer the enormous sum of 25 cents, leaving a nice little sum of \$2.15 which goes to line their own pockets.

Last year, according to the figures which appeared in The Herald, the Lehi Sugar company made 9,000,000 pounds of sugar from somewhat over 40,000 tons of beets. If this year's crop had amounted to the same as last year, the factory would have received the modest sum of \$9,000,000 and above last year's prices, and out of this amount the farmer company would have given the farmer \$10,000,000 by raising the price of beets 25 cents per ton.

Now, as the farmers have stood by the Sugar company through thick and thin, why does not the company give

the farmer a portion of this \$1 raise in price, seeing that he has worked for nothing this season, owing to the almost total failure of the beet crop? They certainly would if they were as good-willed toward them as they would like to appear. "By their works ye shall know the them."

The farmers have concluded that at the present price of wheat they will be making more by planting their best land to wheat, unless beets are paid for at the rate of 25 or 30 cents.

Hoping you will give space to this article in your most valuable paper, which is known as the people's friend, I remain, Yours truly,

DIET RAISER.

Nervous manifestations, such as sleeplessness, nervous debility and nervous prostration are in nine cases out of ten "the cry of the starved nervous food." If you feed the nervous on pure, rich blood the nervous symptoms will cease. It is bad practice to put the nerves to sleep with so-called nervines or sedative mixtures, or malt extracts. What is needed is a blood maker and nerve food. Dr. Pierce's Golden Medical Discovery is composed of vegetable ingredients which have an especial effect upon the stomach, liver, and blood-making glands, and is a veritable nerve food. For the cure of dyspepsia, indigestion, liver complaint, weakened vitality, and for puny, pale people, Dr. Pierce's Golden Medical Discovery cannot be equaled. Thousands have testified to its merits.

Peace at Home.
