

Weather Today

Increasing Coldness, Probably Rain

Silver and Lead Quotations.

The silver and lead quotations yesterday were as follows: Silver, 100 lbs. \$1.25; Lead, 100 lbs. \$1.25; Copper, 100 lbs. \$1.25.

CITY CIRCULATION.

The City Circulation of The Herald has been leased to Mr. J. O. McCracken. Subscribers who do not receive their papers promptly will confer a favor if they make complaint to The Herald counting room.

TOWN TALK.

Yesterday's clearings were \$261.12, as compared with \$165.30 for the corresponding day of last year.

Mrs. Isabelle Wink Lake and Dr. E. C. Carver, chief of the city health department, were in the city this evening at 7:30.

Hon. David Keith returned yesterday from California, and will leave in a short time for Oregon, where he has mining interests.

James Myers notified the police that he had lost a horse, bridle and saddle. It was found on Market street and was probably stolen.

The public library and free reading room had a much larger attendance yesterday than on any previous day.

In the series of free evening addresses now being given at Plymouth church, the subject of the evening was "A Scientific Religion: How We Should Study and Meet Every Need."

St. Paul Fish and Game Commissioner Shattuck has received a letter from the Hon. J. E. Jennings, U. S. Fish Commissioner, regarding the sale of fish in the city.

Utah Commercial and Savings Bank. General banking business, interest paid on savings deposits.

Citizens' Coal Company, Office, 15 West Second South, Tel. 49.

General Insurance. Fire, Life, Accident and Liability. H. R. Whittier, Progress block, City and Mercer.

The Keeley Institute. For the cure of liquor, opium and morphine habits. 201 S. Second St., Salt Lake City.

Dr. E. M. Keyser, dentist, Auerbach building, rooms 200 and 201, S. Second street, and all kinds of work, gold and silver fillings.

METEOROLOGICAL RECORD. Yesterday's Observations at the Local Weather Bureau Office.

Salt Lake City, Feb. 15, 1898. Barometer, 6 a. m., 25.82; 6 p. m., 25.82; thermometer, 6 a. m., 25; 6 p. m., 48. Relative humidity (per cent), 6 a. m., 76; 6 p. m., 61. Direction of wind, 6 a. m., south; 6 p. m., east. Velocity of wind (miles per hour), 6 a. m., 6; 6 p. m., 5. State of weather, 6 a. m., clear; 6 p. m., cloudy. Maximum temperature, 53 degrees; minimum temperature, 26 degrees.

RESOLUTIONS AGAINST RAILROADS. A resolution by Harris was adopted, requiring the street supervisor to cause the several railroad companies, both steam and electric, to immediately put in a condition, with plank or other material, the sidewalks on all railroad crossings, in accordance with the ordinances and the requirements of the franchises under which the several crossings are made.

TWO ORDINANCES PASSED. The ordinance reorganizing the fire department, to conform to conditions created by the law abolishing the board of police and fire commissioners, came up at third reading and was passed.

After being in session one hour and clearing up all the business in hand, the council went into committee of the whole to complete consideration of the finance committee's recommendations.

On Buckle's motion the sum of \$6,800 per year for the engineer department was allowed to stand.

With reference to the proposed allowance of \$400 per month for joint building expense, as recommended by the committee, Diehl said he was prepared to vote for it if the committee would guarantee to gravel the muddy paths leading to the building.

REAPPOINTED

Mayor Clark Names Him For Fire Chief.

FAVORABLE TO DR. KEOGH

SANITARY COMMITTEE RECOMMENDS HIS CONFIRMATION.

Final Action Deferred For Another Week—Chris B. Diehl Goes In As Clerk of the Police Court—Fire Department Ordinance Passed—Retrenchment In Expenditures of Departments—The Allowances.

Only two appointments were submitted by the mayor to the city council last evening. One was of Chris B. Diehl for the position of clerk of the police court, and the other of James Devine for chief of the fire department.

In the case of Mr. Diehl, the rules were suspended and the appointment was confirmed by a practically unanimous vote, only Weller voting in the negative. The Devine appointment was referred to the committee on fire and police.

When the report of the sanitary committee recommending confirmation of Dr. P. S. Keogh as health commissioner, was read, Margets and Weller requested that action on the report be deferred for one week under the new rules, the report was laid over.

James Devine, inspector of street lighting, submitted his report for the year 1897. The report showed, among other things, the total sum of \$342.28 for "outages" deducted from the contractor's company's claim.

FOR A FALLEN WOMAN. Police Justice Timmony requested the approval of the council of a resolution of curing a destitute female, who frequently is an inmate of the city jail, of the morphine habit.

An erroneous impression seems to prevail regarding the Martha Washington tea at Mrs. Downey's on Saturday evening. In some way the idea has gone abroad that the visitors are expected to attend in formal costume. The fact is that only those who receive will be in costume, and in other respects the tea will be like other charity teas.

Lieutenant Albert Laws has returned to Fort Douglas, after nearly four months' absence. The lieutenant has been on leave, and returns to duty at the post.

The Card club will hold its regular meeting in the officers' club at Fort Douglas tonight.

Lieutenant J. C. Jenks has been ordered to report to Colonel Keith, president of the examining board at Fort Douglas, for examination as to his fitness for promotion.

The banquet of the Press association at the Knutsford on Wednesday evening will be an enjoyable affair.

Miss Jasmine Young has invitations out for a luncheon on Washington's birthday.

Mrs. Diehl and Miss Agnes Judson leave this week for San Francisco, and from there they will visit the City of Mexico. They will then proceed to New York, where Miss Judson will join a party of friends and sail for Europe, while Mrs. Diehl will return home.

The feature of the social at the Y. M. C. A. parlors on Saturday night will be an old-fashioned card party. The ladies will be invited on this occasion.

The free library reception will take place on Friday.

Mrs. Phelps Holman will entertain at a guessing contest this afternoon.

Lieutenant Arthur Kerwin, Twenty-fourth infantry, has been granted a leave of absence of one month, to take effect about Feb. 22, with permission to apply for an extension of one month.

A resolution by Callister was adopted, calling upon the street supervisor to report a list of all street car and trolley tracks in the city that are not in regular use.

TWO ORDINANCES PASSED. The ordinance reorganizing the fire department, to conform to conditions created by the law abolishing the board of police and fire commissioners, came up at third reading and was passed.

After being in session one hour and clearing up all the business in hand, the council went into committee of the whole to complete consideration of the finance committee's recommendations.

On Buckle's motion the sum of \$6,800 per year for the engineer department was allowed to stand.

With reference to the proposed allowance of \$400 per month for joint building expense, as recommended by the committee, Diehl said he was prepared to vote for it if the committee would guarantee to gravel the muddy paths leading to the building.

IN RAILWAY CIRCLES

A Number of Changes On the Southern Pacific.

EFFECTIVE MARCH FIRST

GENERAL FREIGHT AGENT BECOMES TRAFFIC MANAGER.

Information was received in this city yesterday that effective March 1, the following changes will take place in the offices of the Southern Pacific: William Spruill, general freight agent, will become freight traffic manager of the road and his place will be filled by the appointment of A. D. Shepherd, assistant general passenger and freight agent at Los Angeles, Cal., to be general freight agent. Mr. Boydwick, at present acting as assistant general freight agent, will be appointed assistant general freight agent. Mr. Parkyn, assistant general freight agent at San Francisco, G. W. Lucas, assistant general freight agent at San Francisco, goes to Los Angeles as assistant general freight and passenger agent, to fill the place vacated by the promotion of Mr. Shepherd.

These changes are brought about by the death of Traffic Manager Smurr, which occurred some time ago, mentioned in this city in The Herald at the time.

The circular has not been issued as yet, but will be forthcoming in due time.

U. P. SALES.

Branches to Be Bought In by the Reorganization Committee.

Topeka, Kan., Feb. 15.—Tomorrow Judge W. D. Cornish of Omaha, special master, will sell the government lien on the Union Pacific railroad in Kansas on Saturday the entire line, from Kansas City to Denver, with the government lien is \$4,363,000.

A. W. Kreech, of New York, will make the purchase for the reorganization committee, which is the new Union Pacific company.

Special Master Cornish will sell under a special mortgage, the eastern division of the Union Pacific—140 miles. The upset price is \$4,363,000.

Mr. Kreech also, will buy this property for the new company.

On Friday, Judge Cornish will sell under a special mortgage, the western division of the Union Pacific—24 miles. This sale will take place at Salina. The upset price is \$2,300,000.

On Saturday the entire line, from Kansas City to Denver, will be sold under the consolidated mortgage. This sale will be made in North Topeka. The upset price is \$4,363,000.

There was a talk for a while that the Alton would make an effort to get hold of the Union Pacific road in Kansas, but nothing has been heard about it lately.

The reorganization committee will have a clear field.

In the advertisement for the sale of the Union Pacific road in Kansas, the property has been referred to as the Kansas Pacific, that being the name of the original company—the company which the government first did business with.

DONS ITS FIGHTING GARB. Gulf Line Carries Its Case Into Court.

Kansas City, Feb. 15.—The Kansas City, Pittsburg & Gulf road has secured, through Judge Phillips of the United States circuit court, a temporary order restraining the Atchafalaya, Topeka & Santa Fe railway from enforcing its boycott against the former.

The boycott was to have gone into effect today. The order will be effective till the 19th.

The first legal step taken by the Pittsburg & Gulf road to fight the southwestern roads, who gave notice recently that they would refuse to accept or deliver freight to the complainant road at Pease point, because of its refusal to enter the southwestern traffic bureau. Each of the 11 railroad and steamship lines who announced the boycott against the Pittsburg & Gulf road from 10 to 20 days' notice. The Santa Fe's limit was the first to expire. The same action will, it is said, be taken against these roads as they expire, and an attempt to enforce the boycott is made.

Freight Traffic Bureau. One May Be Established Here in Denver.

Railroad officials say the announcement that they will have a freight traffic bureau, as intimated by a freight paper, is premature, in that, while the establishment of a bureau is going to be a good thing for them, it may not be located here, but in Denver, although the officials are going to do all they can to have same established here.

The Rio Grande line, the Midland, the Santa Fe, the Southern Pacific, the Union Pacific, the Short Line and the Oregon Railway & Navigation. The reasons for the proposed change are obvious and the same need not be dilated upon. It is conceded that everyone will work to get the same established here, but Denver may be successful in securing the place.

The Short Line and the Western constituting the committee, the chances are favorable to this city.

Railway Notes. General Agent McGowan, of the Maple Leaf line, with headquarters at Denver, came over last evening and held a consultation with General Agent Aloney.

A Montreal dispatch says: It is stated on good authority that the Grand Trunk railway has been notified unofficially that it will be permitted to cut rates for the northwest only to meet the Canadian Pacific on its own account.

The Herald yesterday printed an innocent paragraph in which it announced an intention on the part of the representatives of eastern lines to discipline an agent for wearing a scalping knife. The result was something astonishing. From the number of questions similar to the one propounded by the agent, it is believed that the agent was not far wrong when he said "Full many a shaft at random sent, and mazes the archer little mean."

Highest cash price paid for lucerne seed at Bailey & Son, 61 East Second South.

FATED FOR THE GALLOWES. Escaped Murderer Captured After Five Years of Liberty.

Springfield, Mo., Feb. 15.—Peter Renfro, who broke jail here in January, 1893, 14 days before the date upon which he was to have been hanged for the murder of Charles Dorriss, a constable of Texas county, Mo., has been returned to Springfield by officers who captured him in Lawrence county, Arkansas.

HE STRIKES A BIG FLOW OF NATURAL GAS.

ONE QUESTION IS SETTLED

THE SUPPLY NOT EXHAUSTED AS FEARED.

Strike Confirmed By Officials of the Union Light and Power Company—Consumers Will Be Using Natural Gas Once More Tonight With a Good Pressure.

The natural gas supply hasn't petered out after all. A week ago it was feared that the end had about been reached, but Driver, who has stuck to the development of the fields through thick and thin, now reaps the reward for his enterprise and persistence.

Early yesterday morning he struck a flow of a new well which has been boring, and the test showed a pressure of 245 pounds. The conditions all indicate that a big volume has been tapped, and Driver is happy.

There is no doubt about this well or its flow. The officials of the Union Electric company are convinced that Driver has struck it this time. Mr. Hayward confirmed the report by an article regarding it by a Herald representative, and will have a full statement from Mr. Kempf today.

The supply from the new well will be turned into the main today, and consumers will again be using natural instead of artificial gas tonight.

NO ADVANTAGE LOST. While the old settlers have been defeated in their efforts to obtain extraordinary prices for their lands, they are not to be disappointed in the matter of ordinary preference rights for obtaining title to land.

TWO VIEWS OF THE QUESTION. Attorney I. C. Thorsen, who appeared before the hearing on the application of applicants and Aaron Hardy, who pleaded for the Sapsote county claimants, made the hearing so interesting that it would appear to be hard luck if the decision, after having taken up their homes in the Sapsote county, were to be made in favor of the Indians with a market in one hand and plowing, irrigating and gathering crops in the other.

There is often a foul taste in the mouth, coated tongue, and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which leaves the stomach healthy, thoroughly digested before it has a time to ferment and irritate the delicate mucous surfaces of the stomach.

To secure a prompt and healthy digestion, the stomach must be kept clean, and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harrison the safest and best treatment is to use after each meal a tablet, composed of Dipsate, Anepile, Pepsin, a little Nux, Col. and some fruit acids.

These tablets can now be found at all drug stores under the name of Stuart's Dipsate Tablets, and not being a patent medicine, can be used with perfect safety and assurance.

Mr. N. J. Beecher of 2119 Dearborn street, Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the membrane of the nose becomes inflamed and the mucus discharges therefrom, passing backward into the throat, reaches the stomach, thus producing catarrh of the stomach."
