

TAMMANY JOHN BULL

New York Style of Politics Evident in London Election.

PRO-AMERICAN FEELING

STRONG EVIDENCE OF FRIENDSHIP OF GREAT BRITAIN.

An Irish Bill in Parliament to Promote the Prefixed Me and O-Shipbuilders Cautioned by Government to Get Cash in Hand in Deals With Spain.

London, March 5.—(Copyrighted, 1898, by the Associated Press.)—The result of the London county council elections has been to inflict upon the Marquis of Salisbury's government the heaviest blow it has yet sustained. The whole cabinet descended into the arena, and the Unionist caucus pulled the party wires. John Bull's "Scented Delilah," otherwise the Princess Diana, invaded the domain like a swarm of locusts, but London repudiated the attempt to interfere in her municipal concerns. Lord Rosebery's admirable intervention on the women's side has led to a significant revival of the rumors that he aspires to reassuming the Liberal leadership. It is generally admitted that Sir William Vernon Harcourt's period of probation has been unsatisfactory, and many of the Liberals are quite willing to shove him.

THE M'S AND O'S. About 100 bills have already been introduced in parliament, of which number eight are government measures. One legislative course was introduced by Mr. Daniel McAlister, anti-parasite member for North Monaghan, and editor of the People's Advocate of that place. To enable the Government to extract or to adopt the use of the prefix "O" or "Mac" before their surnames, was received with shouts of laughter, and he furnished a fund of paragraphs for the press. The bill, however, is exciting unexpected and serious opposition from the Irish and Scotch members already enjoying these prefixes, who claim, according to one statement, that it would be an infringement of the dignity of their order.

PRO-AMERICAN FEELING.

Now that time and opportunity for reflection have been allowed by a temporary cessation of the patriotic and bellicose statements which since the wreck of the Maine, have been the chief feature of the special cable dispatches from the United States, Englishmen are beginning to realize the depth of the pro-Cuban feeling in the United States, with which the thoughtful element here cordially sympathize, although they believe the Maine inquiry will absolve Spain from complicity in the disaster. An impression, almost amounting to conviction, prevails that public opinion will compel the government of the United States to acknowledge the Cubans as belligerents, and to intervene between Spain and Cuba. The very confidence and patriotism of the people of the United States tends to confirm the conviction here that Americans have become aware that their government is preparing to satisfy the country's aspiration when the auspicious moment arrives. Every one in this country acknowledges the dignity and self-possession with which the cabinet of President McKinley has been handling this most delicate affair, and this attitude of the United States government has had a great effect in changing opinion on this side of the Atlantic.

SHIP BUILDERS CAUTIONED.

Americans express themselves as being much gratified at the friendly attitude which the British government has evinced toward the United States. By advice of the British government, shipbuilders and dealers in iron and steel are still insisting, upon cash payments in the case of all orders booked by Spain. It seems that the Spanish embassy, the cabinet of London, the shipbuilders and other British interests suggested that Great Britain sympathized with Spain. This came to the ears of the British government, and the latter lost no time in putting the firms which are in the habit of doing government work, on their guard.

WOMEN SMOKERS IN ENGLAND.

Enormous Increase in the Middle Classes of Britain. London, March 5.—The Daily Telegraph, in an article recording the enormous increase in the number of women smokers, says: "The great middle class is smoking as unreasonably as the aristocracy, and the working woman is fast following. One well-known woman of this class is sometimes seen driving in the Ripley road with a briarwood pipe in her mouth."

WOMEN SMOKERS IN ENGLAND.

Inquiries made among doctors show that the bicycle is responsible for much, as, with wheel parties, has arisen a freedom of motion unknown in the presence of a chaperone.

CHRISTIAN ENDEAVORERS.

Arrangements Contemplated to Make Chicago Next Meeting Place.

Chicago, March 5.—Chicago will be the meeting place of the big international convention of the Christian-Endeavor unions in July, 1898, if the efforts of the local union go through. A preliminary committee headed by A. E. McDonald, president of the local union, has already been appointed to secure a guarantee fund of \$50,000, the amount necessary for the entertainment of the visitors. It is estimated that over 75,000 people will attend the convention.

Illinois Murder Mystery.

Ottawa, Ills., March 5.—A man supposed to be C. W. Wood of Chicago, appears to have committed suicide, after having shot and killed an Ottawa woman known as Irene Brider. The woman spent last week in Chicago, and Wood followed her here. The coroner is investigating rumors that a man from La Salle, Ills., who was jealous of the attentions to the woman by Wood murdered them.

DISTURBING CAUSES IN FINANCE

SHOWN IN STATEMENT OF ASSOCIATED BANKS.

In View of Such Revelation, Recent Heavy Gold Imports Do Not Appear at All Strange.

New York, March 5.—The weekly bank statement shows the following changes: Surplus reserve, decrease, \$2,125,825; Loans, decrease, \$3,622,909; Specie, increase, \$23,400; Legal tenders, decrease, \$73,760; Deposits, decrease, \$23,193,900; Circulation, increase, 47,209. The banks now hold \$20,822,500 in excess of the requirements of the 25 per cent. rule.

DISTURBING CAUSES.

The Financier says: The statement of the associated banks of New York published in full the disturbing causes which have been making for nearly three weeks past. The heavy decreases, however, cover a period longer than the seven days which the totals are supposed to represent. As was outlined in this analysis last week, the averages did not include the losses which the banks were then sustaining through the depreciation of a political character. The latest statements reveals very clearly the extent of this drain. The decrease of \$23,193,900 in deposits can be traced through a list of 12 of the larger banks to the amount of \$1,669,000 to \$4,000,000 in each instance. The only inference is that this money has gone to other institutions and this is further borne out in the fact that New York exchange at all important centers have advanced from a heavy discount to par, and in some instances to a substantial premium. The amount shipped has been more than sufficient to meet legitimate trade demands. At the present time the movements seem to have ceased. Future developments of a political character must decide whether it is to be resumed or whether the tide will turn and the money again flow to New York.

GOLD IMPORTS.

In view of the revelations made public in the current statement, the heavy gold imports do not appear at all strange. In fact the wonder is that the engagements were not larger. As might have been expected, there has been a corresponding reduction in loans and the decrease of \$12,622,909 is accounted for by the liquidation in speculative circles, and the calls made in order to strengthen reserves. The heavy sales of accumulated sterling exchange at this center are also to be considered in this connection. But for all that the banks lost nearly \$3,000,000 cash, the reserve reduction is only \$2,125,825 and the excess is still over \$20,000,000. The gold coming from Europe will more than make up the loss in reserve for two weeks. The treasury did not call the usual Union Pacific transfers from depository banks last week, while Kansas Pacific deposits will require within the next 20 or 40 days nearly \$8,000,000 now in banks. It cannot be said that the outlook favors anything more than moderate firmness in rates.

EXCHANGE SITUATION.

The exchange situation is so sensitive that sudden advances are bound to bring additional imports and thus restore the equilibrium. If the developments of the next ten days are such that the banks will be able to clear complications is assured, the money market will probably weaken. As it is rates have gradually declined from the high point reached early last week.

LARGEST ON RECORD.

The Commercial Advertiser says: The weekly statement of the associated banks, issued today, is regarded as one of the most remarkable in recent years. There was a decrease of \$23,193,900 in the deposits, and more than \$12,500,000 decrease in the loans. The decrease in deposits is the largest on record. In March, 1897, it was \$22,000,000. All kinds of reports were circulated regarding the statement. But as to the decrease in loans, it may be stated that the city banks, the Chase and other large banks, refused during the week to mark down their rate of interest, and many of the loans were consequently not renewed. These banks will, therefore, show a reduction in the amount of loans and discounts, and an increase of cash in hand. A large amount of money was sent to the country during the week, which accounts for a considerable decline in deposits.

SCORN OUR HORSE SHOWS.

Prizes Won at Them Count Little With John Bull.

London, March 5.—At Tattersall's on Monday, 22 horses, described as prizewinners at the recent horse shows in Chicago and Madison Square garden, New York, were sold at auction. They averaged 56 guineas (about \$74), which is considered a low price. The St. James Gazette, commenting upon the sale, says: "The experiment of sending recruits for Rotten Row is not likely to be repeated. The horses were not of the proper stamp. A New York prize does not carry an equal recommendation with the English. Here the shows are strictly business. At Madison Square garden they are merely society functions."

SWEEP BY A CYCLONE.

Large Number Killed in Mayotta Island, Comoro Group.

Mozambique, March 5.—Advises just received here from the island of Mayotta, Comoro group, says Mayotta was swept by a cyclone during the night of Feb. 27. The government buildings were partly destroyed, many of the native villages and crops were destroyed, and large numbers of people were killed or injured. Many sufferers were left without any shelter, and are now suffering from famine. Mayotta is one of the Comoro Islands, forming with some adjacent islets, a French colony. The area of the island is 137 square miles. The natives are Malabar and Malindan African, Arab and Malaya stock. The population of the island is about 11,000.

The U. S. Gov't Reports

show Royal Baking Powder superior to all others.

The U. S. Baking Powder is manufactured by the Utah State Baking Powder Co. of Salt Lake City and every can sold is guaranteed to give perfect satisfaction or money will be refunded by your grocer.

POOR OLD SPAIN

Carlism Adds Another Danger to Her List of Ills.

AN ARCHBISHOP'S LETTER

PRACTICALLY AMOUNTS TO A CARLIST MANIFESTO.

Made the Text For Much Gush by Carlism Organ—Attack on King George Greatly Overrated—Insultation That It Was Engineered in the King's Interest.

London, March 5.—(Copyright, 1898, by Associated Press.)—The consular general of Spain is responsible for a curious advertisement which has appeared in the London newspapers, calling upon Spanish deserters, fugitives and youths who have not yet drawn lots for military service, to come to the consulate and acquaint themselves with an important royal decree of pardon which concerns them.

Thus far there has been no response. The pastoral letter of Cardinal Cascajares, archbishop of Valladolid, has added another danger to the long list threatening Spain, by giving such a boom to Carlism, and no student of Spanish history will be surprised when the outbreak to occur shortly in the northern provinces. The text of this letter shows that it practically amounts to a manifesto in favor of Carlism as the only party with the manifold evils existing in Spain. The Carlism are using the manifesto for all it is worth, declaring it to be one of the blackest and most infamous mailings of the condition of Spain under the reign of Maria Christina.

CARLIST GUSH.

The Correo, organ of the Carlism, calls the pastoral letter "An outbreak from a soldier's heart suffering for the miseries of the fatherland, and indignation at the insults offered to the Spanish flag by the North American merchants, from the heart of an apostle filled with compassion for our brave soldiers fighting and dying without glory, the victims of treachery," and says: "The article clearly points out that the Carlism are the only party with necessary cohesion, strength and faith to carry on the glorious traditions of Spain."

Even the liberal Imperialist stoutly commends the cardinal's action. The semi-consternation which was created at the time of Prince Henry's visit, when the German warships Deutschland and Gefion, suddenly hoisted out of the fog without having previously been signalled, has aroused the authorities to a sense of the necessity of taking additional precautions. The two new erecting quick-firing guns and search lights. At the entrance to Perra-mouth harbor there will be a light powerful search light, and search lights, and guns will be so placed that ships entering must pass under their muzzles.

THAT KING GEORGE ATTACK.

After reflection, the Saturday Review concludes that the seriousness of the attack upon King George of Greece has not been greatly over-rated. Indeed, it is not a matter of which an affair was engineered with the idea of arousing, as it actually did, a revolution of feeling in favor of the dynasty. The Saturday Review compares the known power of the Gras rifle bullet, capable of piercing 18 inches of steel, with the slight dent in the metal lump and the small mark on the wood-work, which the bullets struck the carriage, notes that the horses had several slight abrasions and that the harness was cut, and concludes with congratulating the British government for not doing it. "In which event there might have been some danger."

JAPAN'S DEMAND.

If the Tsin Tsin correspondent of the Daily Mail was well informed in saying that Japan has addressed a note to Russia demanding explanation of the continued occupation of Port Arthur, it must lead, taken in conjunction with the activity in the fortification of Wei Hai Wei, to a re-consideration of the uncertainty which hangs over the kept the two hemispheres on tenterhooks at Christmas time. As the Associated Press pointed out on Jan. 22, the diplomatic situation is always graded that Japan would take advantage of a defense of Korean neutrality. To this trouble, which seems to be brewing, is attributable the continued dispatch of Russian troops, and they reinforcements to the far east. Evidently Japan is preparing for the struggle which must come some day, and which will be the fiercer the longer it is delayed.

TO PAINT AMERICANS.

Carous Duran sails for the United States on Monday. He is painted one of the best known American beauties. A serious misfortune has occurred to the Cambridge University crew. C. M. Steel, the light blue skipper, has had a sudden attack of gastric influenza. In consequence of the strong recommendation of the bishop of Delaware and others, it has been decided to start the crew of the Cambridge University crew, which was engaged to sail for England, of which many bishops and clergymen are strongly supporting the movement, and a meeting has been convened in the church house on Monday next, in order to inaugurate the order.

It is said in Brussels that when Prince Albert of Belgium returns home from the United States he will be raised to the rank of major in his grenadier regiment, and that his betrothal to his cousin, the Princess Clementine, who was engaged to the late Prince Radouin, will be announced.

DRINK INCREASE.

The Times, in its annual statement, says the drink bill of the United Kingdom is nearly \$2,500,000 in excess of that in 1896, averaging \$3,268,540 (about \$112) for each man, woman and child. The English press has universally printed praises of the statement that Mark Twain (Mr. Samuel L. Clemens) has paid the last of his Webster & Co. debts. Dr. McAllister, writing to the Times on the subject, says: "With the exception of the historical case of Sir Walter Scott, I do not think there is to be found in the records of literature anything quite equal to Mark Twain's conduct."

Army Officer's Fatal Mistep.

Burlington, Ia., March 5.—Lieutenant Frank Katke, of the United States army, commandant at Iowa Wesleyan university at Mount Pleasant, attempted to board a train here today. He missed his footing and was cut completely in two at the waist. He leaves a wife and two children at Mount Pleasant.

ECONOMICAL BUYERS

Are always endeavoring to find the Cheapest and Best Place to buy goods of Standard Quality at the Very Lowest Price. It is our constant effort to give our customers the Best Goods at the Lowest Possible Price. If you have ever dealt with us you know our mode of doing business, if you have not, give us a trial and let us demonstrate our Money-saving ability to you. We have placed on sale for the coming week our entire line of Furniture and Carpets, at prices that will defy all competition.
