

TREATMENT OF ORE

New Smelting Process Invented By C. W. Wright.

THE OLD JOSEPHENE

STORY OF ITS DISCOVERY FINALLY REACHES DENVER.

Important Disclosure On Connor Creek—After Idaho Mines—Bingham Bulletin Briefly—Beaver Lake Copper—Mistakes of Eastern Capitalists—La Salle Copper.

A process which bids fair to revolutionize the smelting business is claimed by C. W. Wright of Denver, who has been in the city for a few days interesting local capital in the matter.

Mr. Wright asserts that he can smelt what kind, so there is not too much lead in it for \$1 per ton, and alleges he has a plant in Denver which is now handling 20 tons per day with the greatest kind of success.

THE OLD JOSEPHENE

The Story of Its Discovery Finally Reaches Denver.

Concerning the finding of the old Josephine mine in Summit county, this state, the full details of the discovery of which have been reported in these columns, the Denver Republican says:

H. S. Andrews of New York, who has been in Salt Lake some time, tells an interesting story of the discovery of an old mine in Utah, supposed to have been opened by the Spaniards centuries ago.

The story sounds like a fairy tale, and yet its truth is established by the fact that a company has been formed for the operation of the mine under the title of the Josephine Mining company. Whether the mine was worked by the Spaniards or not, the fact remains that a shaft and connecting tunnel have been found and are now being reopened.

According to Mr. Andrews, the discovery was made by a man named Bird and his son, while they were prospecting about 15 miles east of the Kanab, Summit county, north of Park City. The two men came upon the shaft and found that while it had once been timbered, the timbers had all rotted away. A strong draft of pure air coming up through the shaft satisfied them that it could be explored with safety, and that there was another shaft nearby.

GOLDEN EAGLE STRIKE.

Important Disclosure In A Connor Creek Mine.

The boys who came down from the Golden Eagle mine, says the Times of Albion, Ind., report a rich strike in that property in the bottom of a 40-foot shaft. The character of the new ore is silica that carries a big per cent of gold. No assay has yet been made of the new find, but it is thought the ore will pay to ship.

AFTER IDAHO MINES.

Agents of De Lamar on the Look-out For Bonanzas.

W. E. Pierce has returned from the Basin, where he went in company with one of Captain De Lamar's experts to look at some mining properties on Orimes creek, a short distance from Idaho City. Among other properties examined by the expert, says the Boise Statesman, were those of the Stevens brothers and Jake Welch of this city and others.

if the ore averages not lower than \$8 a ton.

Mr. Pierce has also been looking after some properties at Grants creek, Oregon, for Captain De Lamar. He had Mr. Healy, one of the De Lamar experts, examine those properties recently. These quartz propositions are said to make a very fine showing. The mines are located about 15 miles from Sumpter, which place is connected with Idaho City by the Sumpter Valley railroad.

Bingham Bulletin Briefly.

Shipping has averaged light this week.

Mayne's teams finished hauling a 50-ton lot from the York last Friday.

The Julia Dean is again shipping, the consignment being a lot of fine lead ore.

Bill Eckman is digging the Wasatch dump and has good things.

Quite a number of locations, lode and placer, have been made in this district during the past week.

The Ophir and Galena mill began running Monday, after a two-days' stoppage caused by the engine becoming disabled.

The Patton & Lark management will probably soon begin work on the placer of the company, next north of the West Mountain placer.

The Dewey mill is finishing up a 200-ton lot of ore from the Red Wing, and will start today or tomorrow on a lot, 1,500 to 2,000 tons, coming from the Old Telegraph.

The frame work of the Highland Boy terminal station is completed and the structure now being roofed and enclosed. Work all along the line is reported progressing favorably.

A. J. Bettles, for the Boston Consolidated company, will put the old Markham mill in thorough repair and add a new table, intending to make experimental runs during the balance of the year on ores from various claims of the company.

Hirsch & Shaw are preparing to do continuous work this winter on the Rosa group, at the head of Markham. The Rosa is on the same vein as the Ophir. It is giving up excellent milling ore, and the boys have faith that with more depth the quality will change to shipping grade.

W. C. B. Allen, the well-known mining man, is starting work under bond and lease on the Morning Star and Morning Star No. 2, at the head of Carr fork, near the Highland Boy. They have been idle a long time and the old workings are being worked over.

Crouch & Benedict of the Zellerba are now in a fine body of high-grade ore, and with two men in the scope could keep Mayne's wagons busy. The upper road, however, is dangerous, especially when coated with ice or snow, and teamsters do not like to tackle it. Mr. Benedict says he has brought down a 25-ton lot, but with the first snowfall will "jump the job."

Mistakes of Eastern Capitalists.

(Western Mining World.)

One of the greatest mistakes made by eastern capitalists is to seek only for developed mines to purchase. As a general thing, owners of mines which can be worked at a substantial profit are not anxious to look for purchasers, and are not anxious to look for them. It is for this reason that those who come to the west for mines are disappointed; that while they are offered partly developed or opened projects, the paying or going mines are not then for sale, except at what they consider high prices. After a man or company has prospectively developed a mine, it is producing point a good mine, it is worth as much to them as any one, and the owners are unwilling to sell except at high prices. While they are unwilling to sell, they are generally willing to keep on working. There are great numbers of "going" mines with the necessary machinery in the west, but the owners do not let them be "piddled" around for prospecting purposes. If any one wants them they must make a good offer and be prepared to prove their intention of actual purchase. Otherwise they are not to be considered. There are plenty of good properties for sale which need development, machinery, reduction works, etc., but the owners are not willing to sell unless they can get the full value of their property for sale which need development, machinery, reduction works, etc., but the owners are not willing to sell unless they can get the full value of their property for sale.

Beaver Lake Copper.

(Beaver County Daily.)

After a long period of apparent inactivity in the great Beaver Lake copper district, we are pleased to note that the camp has again assumed an air of importance and that the metal-laden hills surrounding it are once more made to echo the sound of hammer, pick and blast and to resound the glad song of the miner and the freighter. The festive jackrabbits and the hungry coyotes have long held sway over this region of untold riches, and that they are now forced by the advancing tread of fortune-hunting man to seek new haunts, will be no regret behind them. There are great numbers of "going" mines with the necessary machinery in the west, but the owners do not let them be "piddled" around for prospecting purposes.

La Salle Copper Mines.

(Denver News.)

Owosso, Mich., Nov. 10.—A \$300,000 mining deal was closed in this city today which involves several hundred acres of valuable mining property in the states of Colorado and Utah. J. W. Angell and M. J. Fisher, residents here, and owners of the La Salle mines, in Disappointment valley, sold 300 acres of their best mining property to Phelps, Dodge & Co. of Boston. The property sold represents 2 1/2 of the best copper claims in that district. A Chicago syndicate has an option on a few of the remaining possessions of the company.

Gunnison Island Guano.

(Davis County Clipper.)

George Frarric and some other parties, who went over to look at the guano property with a view of purchasing the same, returned from Gunnison and Hat islands on Friday. The owners ask \$50,000 for their interests in those two islands and had found a buyer in the east last spring at that figure, but the party who died before the deeds could be made out, so the deal fell through.

To Develop the Sunbeam.

(Special Correspondence.)

Springville, Nov. 12.—Messrs. Malmstrom and Rethmiller leave here tomorrow for the Quartz Mountain mining district, in eastern Utah, to do development work on the Sunbeam gold property there. They will drift 100 feet to strike the lode, and will endeavor during the four months they are to be gone to make the Sunbeam a shipper.

NEWS FROM OVER THE STATE.

UTAH GOLDBUGS SURPRISED

FULLY EXPECTED TO CARRY THE COUNTY.

Thought the People Would Surely Head the Advice of the Man Who Had Talked With McKinley.

(Special Correspondence.)

Vernal, Nov. 12.—The Republicans are evidently very sore over their defeat, and they had confidently expected, under existing circumstances, to elect their candidates, that is, a certain portion of them, and among this number John N. Davis for the legislature. They went into the election with a full and complete faith on their side, and that one was the fact that Utah county is a Democratic county.

The returns show some gains for the Republicans, but they are due to the fact that they had for their legislative candidate one of the most popular men in the county. On the other hand, the Republicans dragged their Ohio, McKinley, carpet-bag importation Abbott from under the feet of the voters, and which have remained unnoticed.

The county Democratic organization had no assistance to speak of in the campaign. In the way of speakers, Senator Rowland and W. H. King each collected one speech in Vernal, and outside of that the war was waged by local talent. On the other hand, the Republicans dragged their Ohio, McKinley, carpet-bag importation Abbott from under the feet of the voters, and which have remained unnoticed.

King each collected one speech in Vernal, and outside of that the war was waged by local talent. On the other hand, the Republicans dragged their Ohio, McKinley, carpet-bag importation Abbott from under the feet of the voters, and which have remained unnoticed.

The county Democratic organization had no assistance to speak of in the campaign. In the way of speakers, Senator Rowland and W. H. King each collected one speech in Vernal, and outside of that the war was waged by local talent. On the other hand, the Republicans dragged their Ohio, McKinley, carpet-bag importation Abbott from under the feet of the voters, and which have
