DEBATE ON EXPANSION. Senators Lodge and Clay Express Their Views.

BOTH FAVOR THE TREATY. LODGE HAS NO POLICY FOR THE FUTURE.

But Thinks We Should Protect the Philippines For the Present—Senator Clay Supports the Treaty and Advocates Independence For the Islands—Hear Asks a Question.

Washington, Jan. 24.—Two notable speeches were delivered in the senate today, one by Mr. Lodge (Mass.) and the other by Mr. Clay (Ga.).

Mr. Lodge's position on the foreign relations committee and his well known antagonism to the views on the question of expansion and ratification of the peace treaty entertained by his distinguished colleague, Mr. Hear, aroused unusual interest in his address.

Mr. Lodge's position on the foreign relations committee and his well known antagonism to the views on the question of expansion and ratification of the peace treaty entertained by his distinguished colleague, Mr. Hear, aroused unusual interest in his address.

Two Alternatives. "Let us look at the two alternatives. Suppose we ratify the treaty. The islands pass from the possession of Spain into our possession without committing us to any policy. I believe we can be trusted to deal honestly and justly with the islands and their inhabitants thus given to our care.

Administration Forces Bluff Under the Treaty and Teller Defends It—Loss of Prestige By Delay.

Washington, Jan. 24.—The senate resumed consideration of the peace treaty in executive session today. The Terry resolution for the consideration of the treaty in open session was voted down without a roll-call.

Senator Teller joined in Mr. Gorman's appeal, and urged Mr. Davis to name a day and an hour when the vote could be taken.

Senator Davis replied, however, that a question of this nature had not been considered by the committee on foreign relations, and that he would not feel justified in assuming such a responsibility.

Mr. Hear defended the course of the opposition. Disagreeable as it was, he said, to arouse the ill-will of his brother senators, he felt that it was imperative to plunging the country into a position that might be of untold consequences to the whole nation.

Clay Opposes Expansion. Clay of Georgia, one of the Democratic senators who expects to vote for the ratification of the treaty, addressed the senate on the general question of territorial expansion.

SENATOR CLARENCE D. CLARK.

HAROLD FREDERIC CASE AGAIN. The general fermentation over the Harold Frederic case, although subsiding, has not yet entirely ceased to attract public attention and discussion.

Among the many interesting newspaper results of this case is a symposium published in the Standard Citizen on the case of Nov. 2, 1898, under the heading of "Briefs for and Against Christian Science—Its Advocates and Its Opponents Talk."

Upon the question of legal responsibility, a number of lawyers were interviewed, and their views are given in the Standard Citizen of the 24th inst.

The whole thing hinges on the question of intent. It has been held that if a man attempts to treat another for disease and honestly and faithfully does his best, he is not liable for any injury which may result.

The next was Robert Redfield, who was for years connected with the city law department. He is a lawyer of high standing and of high repute.

It is interesting to note that the Christian Science movement is not a new thing, but has been in existence for many years.

PHYSICIANS' OPINIONS. Most of what was said by the physicians was unfavorable to Christian Science, although taken as a whole, the sum total of their evidence is such that discrediting positions are maintained for the most part.

Another said: "Public opinion is not created by a single case. It is a point where any successful prosecution of an offending Christian Scientist is largely sustained by the public."

Another said: "No statutory law can reach these Christian Scientists, and it is well that such a case should be brought to the attention of the public."
