

STUDENTS MAKE A KICK
OBJECT TO OCCUPYING THEATRE GALLERIES.
 University Young People Hold An In-ignation Meeting, But Finally Decide to Accept the Inevitable.

Students of the first, second and third year normal classes of the state university do not intend to be relegated to the Theatre gallery tomorrow night without entering their protest against the action of the fourth-year normal and college students.

Joseph A. West, chief engineer and superintendent of construction of the Utah & Pacific, was in town yesterday. He stated that the work was being rushed now with all possible speed. The recent storm has caused some delay, but the work will probably be finished by the 15th. As soon as it is finished the new schedule will be made. Closer connection will be made at both ends of the line. Now the Short Line train arrives at Milford at 5:20 a. m. and a wait of three hours is necessary in order to give the Utah & Pacific time to make up its train. This time will be saved on each end as soon as the construction work is finished, and the sleeper will run through to the terminus, instead of to Milford, as it does now. Mr. West said that on account of their good road they can meet any time that the Short Line can make. A twenty-four-hour service will be made from St. George and De Lamar. It can't be made in less time, because these points are so far from the terminus.

Freight will be billed from the terminus to all points on a through tariff, and no trouble is anticipated with the Short Line as to a division of the rate. Freight is being billed from the terminus without being handled at Milford.

Mr. West said that the business of the road was very satisfactory. Stockmen from Nevada and the surrounding country are driving to Desert Springs, and the Utah & Pacific will bill their cattle through to Missouri river points. One man was reported to have driven with enough cattle to fill seventy cars on May 5. A rate of \$2.50 a ton has been made on ores. Hereafter it will be \$2.25 and that some of the means that will be possible to work many low-grade properties.

Mr. West stated that the sheepmen are shearing at Lund, but that very little wool is being shorn. The Utah & Pacific offers facilities for storing the wool, and all of the growers who can do so are waiting for a rise in the price.

A prominent railroad man said yesterday that the Utah & Pacific would be pushed through to California before long and that A. W. McCune would be general manager.

MARKET FOR DIXIE.

Utah & Pacific Gives An Outlet For Products.

(Washington, Utah News.) The completion of the Utah & Pacific railroad to Modona will bring St. George within fifty miles of the railroad when the new road to Holt's ranch, for which the recent state legislature made an appropriation, is made. This distance can be easily covered in a day's travel by a light rig, and should enable the farmers to place early vegetables, flowers and fruits on the Salt Lake and other northern markets. The profit on vegetables shipped in this manner should be seriously considered by the people of this section.

Luring our recent trip to Salt Lake we visited, in company with Mr. Thomas Judd, some of the fruit and vegetable dealers of that city. On the 7th of April asparagus was selling for 15 cents a bunch, and the bunches were not large. The dealers of Salt Lake would gladly welcome our Dixie productions instead of those from California, but to enter the market with a certainty of success, care would have to be exercised in the preparation and packing of the vegetables and fruits.

An organization should be perfected among our farmers so that conformity in packing, systematic shipping, and due attention to details could be given, as it is utterly impossible for the small growers to successfully handle their produce at such a distance from the market. Then with a good, reliable commission agent at Salt Lake it seems to us that a success could be made of the business, and a way opened for bringing a little cash into Dixie. Our farmers could organize and depute one of their number to go to Salt Lake and examine into the business and shipping by the California people.

An increasing interest is being shown in our rich mineral deposits, and some properties are being worked. Here again the new railroad and the development of the county, by making the travel by team shorter and thus lessening expense.

Railroad Notes.

Traffic Manager Eccles is still in Chicago and may not be home for a week.

E. D. Boardley, traveling agent of the Chicago & Northwestern, is in Nephi, looking for wool.

A Raymond & Whitcomb excursion party will arrive from California at noon today on the Rio Grande Western. They go on east from here to New England.

Contractor Hendricks of the Utah & Pacific was in town yesterday with about a dozen men from the company. He got some more here yesterday and left for Milford in the afternoon.

E. P. Bacon, manager of the Hercules Power company of Logan, has been in the city a day or two. He is organizing a seven-man crew for the purpose of building a railroad from Salt Lake to Los Angeles. The road is still on paper. The old board of directors was re-elected yesterday. It consists of Frank B. Stephens, L. E. Colburn, L. T. Tierman, E. R. Stewart and R. S. Tierman.

BAKING POWDER
ABSOLUTELY PURE
Makes the food more delicious and wholesome
 ROYAL BAKING POWDER CO., NEW YORK.

SURETIES ARE LIABLE
IN THE COURTS.
DIVORCE RECOMMENDED.
 Case of Adams vs. Adams Heard By Referee Blair.

Deputy County Clerk Blair yesterday sat as referee in the divorce suit of Maud Adams vs. Guy Adams, and after hearing the testimony, recommended that the divorce be granted. The evidence showed that the pair were married in Denver in 1891, and that they have been separated since 1896. Her husband is at present baggage agent in New York City for the Lehigh Valley railway, and receives a salary of about \$15 a month. Mrs. Adams said that her husband had property in Denver valued at \$7,000. She asked and was granted \$500 as permanent alimony.

Verdict For Utah National Bank.
 Judgment was rendered by Judge Hiles yesterday for \$4,605.58 for the plaintiff in the case of the Utah National bank vs. Maurice E. Parsons et al. The matter was a foreclosure proceeding on a note for \$4,000. The original plaintiff in the case was Joseph M. Stout, but at the request of Attorney Helen T. Stafford the bank was ordered substituted for Mr. Stout as party plaintiff.

Transfer Company's Suit.
 Judge Cherry yesterday tried the case of the I. C. Transfer company vs. the Gillette-Herzog Manufacturing company. The suit is on an account of \$23.65, and in Justice Sommer's court the plaintiff received judgment for that amount. The defense claimed that an error in the account was being made by the plaintiff company was broken by their carelessness. Plaintiff was given judgment for \$24.50.

Today's Calendar.
 Besides the usual probate cases, these cases will come up before Judge Hiles today:
 Jordan & Galena Mining company vs. Niagara Mining & Smelting company.
 William Campbell vs. Sheep Rock Mining & Milling company.
 James T. Rank vs. Frank Webb.
 Mrs. E. N. Davis vs. Patrick Phelan.

Federal Court Order.
 Judge Marshall overruled the demurrer of the defendants in the case of the United States vs. the Gibson Asphalt company yesterday morning.

District Court Orders.
 Aaron Keyser vs. David McKay; transferred to the law division.
 John R. Bruff et al. vs. F. W. Ingersoll et al.; stricken from the calendar.

Bismarck's Iron Nerve
 was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the "access they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25 cents, at Z. C. M. I. Drug department.

CITY CANNOT ADVERTISE.
 Ordinance Shuts Off Revenue From Sprinkling Carts.

The city's twenty-five new sprinkling carts will not bear merchants' advertisements, it has been decided by the council committee on street sprinkling, notwithstanding that a revenue of \$350 for the season would accrue to the municipality by letting out the privilege. There is an ordinance forbidding advertising wagons, delivery outfits excepted, from running on the streets, and when Chairman Patrick solicited City Attorney Hall's opinion, the latter advised that law-makers should not be law-breakers. The committee quickly reached a conclusion on the line indicated soon after hearing the city attorney's advice.

However, the Studebaker company, makers of the wagons, will get all the advertising they can out of the new carts before they go into service. By consent of the sprinkling committee, Manager Quigley will tomorrow, weather permitting, parade the new carts, following the lead of a brass band, through the city district. Shortographs will be taken of the display, and from the pictures Studebakers expect to do a little advertising in other cities on their own hook.

White's Cream Vermifuge
 is the one worm remedy that does every possible good without the possibility of harm. It is a purely vegetable preparation that cannot fail to expel worms. If your child eats well, but fails to grow; if it is dark under the eyes, if it is fretful or if it sleeps poorly, the chances are that the worms are sapping its vitality, retarding its growth and endangering its life. You can use White's Cream Vermifuge with absolute certainty of result. Large bottles, small dose. Price, 25 cents.
 Sold by Z. C. M. I. Drug Department.

STATE LAND BUSINESS.
 Large Increase in Receipts—Lorenzo Clark Case Comes Up Today.

The state land board was in session yesterday, clearing up a month's accumulation of routine business. Last month marked a phenomenal increase in the state's land business, over 10,000 acres having been selected on the several grants to the state, and over 11,000 having been received on partial payments from applicants for purchase of lands.

The board today will have under consideration the application of Lorenzo Clark and others to purchase, under the new extraordinary preference right clause, their holdings in the school section near the state prison. If the applicants succeed in showing that they were occupants of the land prior to March, 1885, the date of establishment of the United States land office in Salt Lake City, they will, according to the new law, have derived a distinct advantage in securing contracts to buy their valuable holdings at a minimum price.

LEONARD IS A FUGITIVE.
 Warrant Issued For a Thirteen-year-old Incurigible.

Leonard Laney, truant, is a fugitive from justice, and many big deputy sheriffs, each armed with a horrible weapon known as a bench warrant, are searching for him. Yesterday Leonard, who is 12 years of age, was to have appeared before Judge Blair to tell his story, but he had not been a good boy. But the court waited in vain, for no small youth appeared, and now when Leonard is apprehended he will be put safely under lock and key until he is wanted.

BUYING RESERVOIR SITES.
 Springfield City Will Make Two Purchases of Land.

(Special Correspondence.) Springfield, May 2.—Last night in the city council meeting, the proposition of the Mapleton Canal Reservoir & Irrigation company again bobbed up serenely. According to the city engineer, the declaration that the deal with Springfield City was all off was not official. At any rate, the council yesterday afternoon, by a vote of 10 to 4, decided to buy the canal and reservoir, with thirty acres of land belonging to J. S. Wines, Jr., for \$2,000, and eleven acres of land of David Dibble for \$800. These lands are needed for the reservoir. Details of the purchase of the canal and reservoir, with thirty acres of land belonging to J. S. Wines, Jr., for \$2,000, and eleven acres of land of David Dibble for \$800. These lands are needed for the reservoir. Details of the purchase of the canal and reservoir, with thirty acres of land belonging to J. S. Wines, Jr., for \$2,000, and eleven acres of land of David Dibble for \$800. These lands are needed for the reservoir.

MORGAN'S TRIAL.
 Judge Hart Fixes May 8 As the Date of It.

(Special Correspondence.) Brigham City, May 2.—Through the politeness of Sheriff Gordon your correspondent was this morning permitted to hold a brief interview with the prisoner James Morgan, the desperado now in the county jail awaiting trial.

He stated that he had never been in such trouble before. He also stated that the photos found on the body of his deceased brother, which were in the possession of his dead brother's wife and child, who are living in British Columbia at present, had not been seen by him since May 1 as the date for Morgan's trial.

Blizzard at Mammoth.
 Mammoth, May 2.—The snowstorm continues, with little, if any, indications of abating. The water proposition was given a little consideration, but no definite action will be taken until the committee has received the report of the engineer.

Box Elder's Affairs.
 Brigham City, May 2.—The county commissioners have made a new road district, known as Thatcher, and appointed C. J. Johnson, residing at Provo, to receive \$10,000 for the purpose of building the roads in the district.

Licensed to Marry.
 Brigham City, May 2.—The following persons were yesterday granted licenses to marry: John H. Stapleton, aged 25, and Ida Madison, aged 18, both of Willard.

Conference at Smithfield.
 Logan, May 2.—Conference in Smithfield yesterday was poorly attended owing to the inclement weather. Several delegates were absent. The conference adjourned to meet in Hyrum next time.

For Over Fifty Years
 Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, relieves pain, cures wind and colic, and is the best remedy for Diarrhea.

NEWS FROM OVER THE STATE.
 tions Sunday, received a telegram this morning from Grand Junction, announcing the capture of the burglar. The man stated that he had sold the diamond earrings of which he had relieved Douglas to a business man in this city for \$200. An investigation here failed to discover these earrings. The chief police in the night with his man. There is no doubt in the minds of the officers but the proper man was arrested. Mrs. Bridget Houtz, an aged lady, residing in the north part of town, had her pocketbook stolen yesterday afternoon by a kick from a cow.

Box Elder Teachers.
 (Special Correspondence.) Brigham City, May 2.—The regular monthly meeting for the county school teachers was held in the Whittier school house on Saturday evening. There was a good attendance. The chief police in the night with his man. There is no doubt in the minds of the officers but the proper man was arrested. Mrs. Bridget Houtz, an aged lady, residing in the north part of town, had her pocketbook stolen yesterday afternoon by a kick from a cow.
