How Filipinos Regard the Withdrawal of Volunteers.

THEY ARE ENCOURAGED

BELIEVE THE AMERICANS ARE ABANDONING THE WAR

Details of the Sentencing of Colonel Arguelles, a Filipino Commissioner, to Twelve Years' Imprisonment—Capture of a Rebel Brass Band—Four Americans Dead.

Manila, June 22.—The rebels have learned that the American volunteers are returning to the United States, and the Filipino newspapers show that they construe this to mean that the Americans are abandoning the war, and are encouraged thereby.

Details of the sentencing of Colonel Arguelles, a Filipino commissioner, to twelve years' imprisonment, have just been obtained here.

The charge against the colonel was that in conversation with Filipinos he predicted that disorders would be in the insurgent territory would lead to civil war, and, therefore, he said, he considered the capture of Manila as the Americans preferable to independence.

Confidentially, the Philippine congress tried him on the charge of treason, and a heated debate over autonomy followed.

HITCH IN THE PLANS

Delay in Resuming Operations in Colorado Smelters.

THE STRIKE SITUATION

MANAGERS AND MEN FAIL TO GET TOGETHER.

Manager Jones of Trust's Smelters in Utah Present at Conference in Denver—Men Anxious to Return to Work at Terms Offered By Company.

Denver, June 22.—Very little news has been obtainable in regard to the smelter strike situation in the past twenty-four hours. There is little doubt that the delay in resuming operations is due simply to a failure of the managers and men to get together for conference, but whether this failure is due to pride on the part of both sides or to the fact, as has been alleged, that the smelter company is not yet ready to resume, is not so clear.

The managers of the smelters belonging to the American Smelting & Refining company, who were in the city, held a long conference today, which was attended by Manager Jones of the Germania smelter of Salt Lake.

Managers of the Omaha & Grant smelter here stated today that they had been misquoted regarding the position of the trust managers on the eight-hour system. He says that so far as the furnace men and others whose work must be done twenty-four hours a day are concerned, these eight-hour shifts would be perfectly satisfactory, but in the case of yard men and others who have always worked ten hours a day, it is not regarded as practical to increase the hours to 12 to have the work done in eight hours.

STAMPEDE TO GREET KIPLING

BUT HE MAKES HIS ESCAPE FROM MULTITUDE.

Crowds Gather at Liverpool and London to Welcome the Author Home—His Health Good.

Liverpool, June 22.—A large number of people assembled at the landing stage here today to witness the disembarkation of the passengers who arrived here on the White Star line steamer Tontine, which left New York June 14. When they were all ashore it was announced that Mr. and Mrs. Rudyard Kipling had landed hours previously. A stampede to the railway station ensued, and the train in waiting was ineffectually searched.

It was then discovered that the popular author was still on board the Tontine, and a crowd of people gathered on the steamer, reaching the vessel just in time to see Mr. Kipling walk quietly down the gangway. He refused to be interviewed, saying emphatically that he had nothing to communicate to the public. He made his way to the station and took a seat in a railway carriage and began reading a paper and smoking.

Those who saw him when he went to the station stated that Mr. Kipling looks better than when he left England. He was accompanied by his wife and two children.

Washington, June 22.—Joseph B. Agor, president of the Maryland State Grange, "Palatons of Husbandry," was before the House today to discuss the day. He said a trust among the farmers such as was suggested by Mr. Haverhill was impracticable, owing to the difficulty of getting the farmers to hold up prices. Speaking of colored labor, he said it was unreliable, because of the nature of the race. Differences of individuals of the race, he regarded as the great bane of that people and responsible for nine-tenths of the crimes committed by them.

Mr. Agor considered the condition of the average farmer as worse than it was a year ago. He said that the money invested in farming was not in other lines of business. He attributed the number of abandoned farms in the state to the fact that they were owned by non-residents.

Mr. Agor said the grange was not so prosperous a point of view as formerly, and he attributed the falling off largely to the fact that the grange could not be used in politics.
