Wonderful Ride Paced by Lawson's Motorcycle.

FIVE MILES IN 10:31 2-5 INFERNAL MACHINE DISTANCED ALL OTHER RIDERS.

Crowd Went Crazy When All the Others Dropped Away While Chapman Kept at It—Machine Finally Ran Away From Him Also—Other Exciting Races.

John Chapman rode his way right back into the hearts of the public at the Salt Palace last evening. That he had never transgressed the ethics of cycle racing the crowds forgot entirely, and for his beautiful ride and win of the five mile open behind John Lawson's motorcycle they cheered him again and again.

Never have such scenes of excitement been seen at the local track. Four thousand people were there, and hundreds more were outside clamoring for admission. They had all come to see what would be done by the motorcycle which the terrible Swede had imported, and expected to bring off the things of it, nor were they disappointed.

All interest centered in the five mile race. When Furman and Julius mounted the motorcycle John Lawson started the machine slowly around the track the crowd began to cheer and then to cheer for the machine rather than the rider. Lawson's machine was a masterpiece of engineering and was a marvel of speed.

Chapman Catches Motorcycle. Chapman was first to gain his speed, and with Iver Lawson pressing him close he caught the machine and tucked on close behind. Lawson glared himself to Chapman's rear wheel, Turville hung to Lawson, Caine cast on to Turville, and the machine was in the rear of the procession. Faster the machine went and faster, while the row of cyclists hung on behind, pedaling for dear life, and trying to keep the machine from falling over.

Crowd Goes Mad. How the crowd did cheer! The sharp "phwit, phwit" of the machine was heard from every side, and the officials in the crowd was on his feet. The officials down in the center were dancing around in each other's arms. The band of music was playing and cheering with one corner of their mouths while they blew with the other, struck up a mad ditty that was meant to be "Red, Red, Red."

Jockey Set Down For Life Yesterday. CLOSE OF PARK RACING SENSATIONAL ACTION BY HYMN'S RIDER.

When He Found He Was Going to Be Taken Off the Horse He Deliberately Jumped the Animal Out of the Track and Rode Away—Goldbug Wins the Derby.

Jockey Burns who was fined \$5 at the Agricultural park track on Tuesday for pulling Dina Watts in a race, created a greater sensation yesterday. In defiance of the judges, who were about to order him to get off Dan Conley's bay mare, Hymn, and permit another jockey to ride her, he jumped the horse over the fence and galloped her pell-mell through the crowd and out of the gates.

Cricket. BROOKLYN AT OGDEN Salt Lake Wins the Second Cricket Match.

FINE WORK OF MORRIS MADE NEARLY HALF OF SALT LAKE'S RUNS. Batted Out 10 and Not Out In First Innings and In Second He Made 43, the Largest Score Made In Local Matches This Year—How Match Was Won.

(Special Correspondence.) OGDEN, Sept. 20.—The Ogdien cricketers met defeat today at the hands of the Salt Lake eleven, by a score of 123 to 56. In the first inning Salt Lake scored 45 to Ogdien's 23, while in the second inning the visitors nearly doubled the score of the Ogdienites, largely by reason of the splendid work of Morris who made 42 runs before he was caught out. The score of the second inning was Salt Lake 73, Ogdien 33.

Good Work of Salt Laker. For the Salt Laker Davies and Young did the best bowling. Davies does some particularly brilliant work in the field. Captain Haddenham for Ogdien bowled a good length and strove manfully to pull out a victory, but the Salt Laker picked from a much larger number of players, easily took the field and kept it.

Crowd Saw Match. Several hundred spectators saw the game, it being an ideal day in all respects both for playing and for watching a cricket match. In the first inning Salt Lake made rather a poor showing at the wickets for they had been accustomed to bowled in the field. The Ogdien wicket is entirely bare.

led by two runs up to the seventh today, when McJames weakened, and the St. Louisans won out. The ninth was started with Kennedy in the box, but after Schrecongost had reached third base an out, Lawson caught the game on account of darkness. Cuddy was hit hard, but principally after two men were out. Wigley, whose release was purchased from Sprague, played for Brooklyn today, and fielded well. Attendance, 1,800. Score: St. Louis..... R. H. E. Brooklyn..... 4 2 1 Batteries—Cuddy and O'Connor; McJames and McGuire. Umpires—Latham and Connelly.

Philadelphia, 4; Cincinnati, 3. Philadelphia was mainly responsible for Cincinnati's defeat today. In the fifth inning a double was made off him as he was on two bases on balls, forcing in the run which gave the Phillies the game. Attendance, 2,450. Score: R. H. E. Philadelphia..... 3 2 2 Cincinnati..... 4 2 9 Batteries—Cronin and Kahoe; Orth and Douglas. Umpires—Swartwood and Hunt.

Baltimore, 6; Cleveland, 6. Baltimore, Sept. 20.—Kitson held the Cleveland down to seven scattered hits today, and but for a bunch of three errors would have shut them out. Schmitt was effective at times, but his support was also amateurish. Kitson sprained his back and was replaced by McGinnity in the ninth inning. Attendance, 927. Score: R. H. E. Baltimore..... 6 1 3 Cleveland..... 2 7 3 Batteries—Schmitt and Suggen; Kitson, McGinnity and Smith. Umpire—Schuyler.

New York, 5; Pittsburg, 1. New York, Sept. 20.—The Pittsburgs were outplayed at every point today, the New Yorks batting and fielding in rare form. Score: R. H. E. Pittsburg..... 1 8 0 New York..... 5 1 3 Batteries—Gray and Schriver; Carrick and Warner. Umpires—Manessau and McGarr. Attendance, 300.

No Game at Boston. Boston, Sept. 20.—Chicago-Boston, no game; wet grounds. Pocatello May Not Come South. (Special Correspondence.) OGDEN, Sept. 20.—Indications are that the much-looked-for Pocatello-Ogdien match will not take place next Sunday as an advertising party has been received from Manager Trapp, in which he says that the men are all employed and are very busy, and that it is next to impossible to get the team to Ogdien. A game will, however, likely be arranged with the Salt Laker, either at Salt Lake or Ogdien.

Howe, H. F. Roberts and G. O. Thompson of Boston are among a party of about twenty Klondikers that spent yesterday in town. The entire contingent were outspoken and vigorous in their denunciation of what they regarded as the dishonest propensities of Mine Recorder S. V. Shepard and Captain Walker of the Eighth United States artillery.

A strong effort will be made by the Utah delegation attending this year's national irrigation congress to secure the selection of Salt Lake City for the ninth session of the congress. It was in this city that the first congress was held in 1891, and no one will dispute the propriety of having the congress of 1900 in the place of its birth, where the greatest utility of irrigation and the highest application of the science are best in evidence.

LAKE BONNEVILLE PROJECT AFTER TWO SETBACKS THE FUTURE IS ENCOURAGING. Captain Cavanaugh Has Arrived and Announces That the Great Enterprise Will Be Carried Out. Captain Thomas H. Cavanaugh, general manager of the Lake Bonneville Land & Power company, arrived at the Salt Palace yesterday from his home at Olympia, Wash., after an absence of several months. When the war with Spain broke out, the plan of financing the Lake Bonneville project to build a mammoth irrigation works for the reclamation of about a quarter of a million acres of arid land in Millard county and to develop vast water and electric power from Sevier river, were forced in abeyance, and Captain Cavanaugh accepted a commission in the army, serving most of the time as assistant to the chief quartermaster of the Seventh army corps, with headquarters in Georgia.

White, assistant manager of the Cramsey Package company of Kansas City, is in the city. He reports a growing trade in Utah from dairies and creameries.

Attorney General's Opinion. Questions Relating to the Taxation of Livestock. Attorney General Bishop yesterday handed down an opinion with reference to complications in the revised statutes. He stated that chapter 44 of the 1898 laws, which provided for a complete revision of that portion of the revenue laws in the 1898 statutes, referring to assessment and taxation of livestock, should be held to be inoperative. It was also his opinion that livestock can be legally assessed and taxed for the year, in all counties into which the great irrigation and power works of the same chapter provide for the assessment in proper cases, and it is the duty of the assessor to determine the valuations to be placed upon such property. The phrase in section 3, "Proceed to collect the money due and payable," refers to the taxes assessed against such property, and not to the security mentioned in section 4.
