

PARK CITY OPTION

New York Group Bonded For Fifty Thousand.

WILL DEVELOP GROUND

Daly-West Output to Be Increased.

Completion of Union Pacific Spur Will Be Followed by Heavier Shipments of Ore—Reports From the Southern Camps—Big Serpentine Ledge at Orizaba Mine.

A gentleman down from the Park yesterday reports that Messrs. Sherman and Wilson, the Colorado mining men who last week made an examination of the New York group, lying south of the Ontario, have taken a lease and bond on the property for a year, at the end of which time they agree to pay \$247,500 for it and perform certain work in the meantime.

The New York is incorporated, and the bulk of the stock is owned by Charles McFall and Jack Crook of Park City. Mrs. Margaret Rogers of Salt Lake and Dr. G. D. Greaser of Watertown, N. Y. The ground is considered to be very valuable, and is all entered.

WILL INCREASE OUTPUT.

Daly-West Making Preparations For Lively Campaign.

General Manager John J. Daly returned from the Park Monday night, where he has been giving his attention to operations at the Daly-West. The gentleman stated yesterday that the mine was responding in a gratifying manner to the new plan, and that the output will be materially increased. Mr. Daly says that a very large force of men and some fifty teams on plows and scrapers are now making the dirt fly on the upper part of the grade, and that it will not be many days until track-laying has commenced.

VISITS SOUTHERN CAMPS.

Colonel Pickett Returns From a Two Week's Trip Among Them.

Colonel H. L. Pickett reached home yesterday after an absence of two weeks. He has been on a tour of the southern camps, in which he holds extensive interests.

While at St. George the colonel let a contract to parties there to extract and deliver to the railroad at least a carload of ore from the Sylvania copper mine, located twenty miles this side of the Colorado river, in Mohave county, Ariz. This lot will be the first shipment sent out from the property, the object being to demonstrate the quality of the ore, in order to lay out plans for future developments. Very little exploratory work has been performed on the ground, but the colonel asserts that the ore is very rich, and he expects to realize a good profit from the coming shipment, which will be at the same price as the other ore. At the Grand Gulch copper mine, located about four miles from the Sylvania, which is owned by the Jennings brothers of the Amethyst, the colonel is at work developing the mine and extracting shipping ore. A car is being loaded at Modena for shipment to the local smelter. The Grand Gulch mine is said to be looking exceedingly encouraging, having large bodies of ore in sight. Colonel Pickett offers the opinion that it will develop as one of the largest copper propositions in Arizona.

People living at St. George are enthused over the developments being made on the Amethyst, which is bonded to Salt Lake parties several months ago. A force of thirty men is employed there. The clay furnace smelter at the mine is ready to start, and the new thirty-ton plant at St. George will be in operation soon.

On his way home Colonel Pickett spent several days in the Grand Gulch and Deer Lodge districts. All of those camps, he says, are full of activity. A. W. McGuire and associates, who bonded no longer ago, are working away, and the Amethyst claim a new shaft has been put down to a depth of 100 feet. A new mine was recently opened up in the Deer Lodge district, and the new thirty-ton plant at St. George will be in operation soon.

The Independence Mining company, incorporated in the state of Utah, has completed a shaft 150 feet deep, in the bottom of which good values have appeared.

The Monitor mine, which was incorporated by Thomas S. Coffey, Dr. Harvey, Don C. Robbins and King, Burton & King of Salt Lake, the colonel thinks is a promising property. It has a good showing of ore, containing splendid gold values.

Charles S. Short is operating the Fremont claim, considered to be one of the best in the district.

Developments are being pushed at the Deer Trail, which is owned by the colonel and M. M. Miller. The mine shows considerable gold values and is being brought up under large figures.

Over in the Deer Lodge district, Messrs. McCune, Lund & Howe are employing as many as seventy-five men at the Horseshoe and Horseshoe East. The properties are both being opened up and at the same time new developments are being pushed. The new developments are under way. The new development house is nearly completed and will be ready for occupancy in a few days. In Stalsette, the Johnny mine is improving right along. Every foot of development shows more ore of a better quality, and everything is taken out of the workings is pay rock.

The Aggie De. now under bond to McCurney & Erickson, is being worked vigorously. The shaft is now at a depth of 100 feet and looks promising.

Willard F. Snyder, who bonded several claims on the hill, has two men at work upon them. The Gold Hill and Wang groups have considerable work being done, owing to strikes being made in them.

Next year, the colonel thinks, will see a season of unprecedented activity in the camps below.

AT THE RED WING.

A Night Shift Has Been Put On at the Mill.

Manager G. A. Duncan of the Red Wing mine, at Bingham, is in from that camp. The mine and mill are both running along nicely, so he reports, and that the mill is doing very satisfactory work since the capacity was enlarged. Heretofore only a day shift has been employed, but Mr. Duncan before commencing into the city ordered a night shift put on.

BIG SERPENTINE LEDGE.

One Fifteen Feet Wide Discovered at the Orizaba Mine.

at the property, he uncovered a ledge of serpentine rock about fifteen feet wide, which appears to carry good values in gold. Samples of the rock were taken yesterday and taken to an assay office to be tested.

COAL STRIKE OFF.

Sunnyside Miners Go Back to Work at Increased Pay. (Special Correspondence.)

Price, Utah, Nov. 21.—The striking miners at Sunnyside have gone back to work at an increased scale, the differences between the men and the company having been patched up yesterday afternoon. A new agreement between the camp and the shipment of coal will begin in the next few days for the Salt Lake City and the California trade. Work is progressing nicely on the coke ovens, the company store and the boarding house, the electric light plant has been installed and the coming of spring will see the mine in the hands of the Carbon county. Superintendent Forrester was here today and stated that a new and satisfactory scale had been fixed up with the men, but he did not state what that scale is.

R. A. Kirker left here today for his asphaltum properties six or seven miles west of the camp of Sunnyside, and to which the Rio Grande Western will soon build an extension of the Sunnyside line. He will this winter put a force of men to work developing some half dozen "wax claims" there. The properties are now under bond and are apt to be taken up by eastern people at any time at a big consideration. The 500 or 700 acres of asphaltum deposits in the same neighborhood lately located by officials of the Pleasant Valley Coal company, are now being worked this winter on a very extensive scale.

TO INSTALL POWER DRILLS.

An Engine and Compressor For the Elamego.

George H. Aris and W. H. Dodge will leave for the Elamego mine, in the Park Valley district, on Friday for the purpose of making arrangements for the installation of a three-drill compressor plant at the mouth of the tunnel, in which a big vein of nice milling grade silver ore was recently encountered. Mr. Aris was busy engaged yesterday in figuring on just what would be needed, and said it was no longer than a matter of a few weeks with a little effort possible what was hidden in the other four or five ledges which traverse the company's ground. On the surface the biggest veins are the ones which lie some 500 feet back in the hill from the vein recently struck, and it is to reach that point expeditiously that the new machinery is being installed. A gasoline engine will supply the power.

SHOWING IN EAST VALLEY.

New Organization With Bright Prospects Ahead.

R. T. Kimball, one of the officers of the newly organized East Valley Mining company, with property adjoining the Valeo mine at Park City, was down from camp yesterday attending to some private business. Work on the tunnel on the East Valley, Mr. Kimball says, is being pushed right along, and though no great depth has yet been attained material of a very encouraging nature has been followed into the hill for some distance. It can be quite sure that before the winter is over good shipping ore will be coming out.

Mineral Applications.

Applications for patent were filed in the land office yesterday as follows: Nos. 295-6-Ridge & Valley Mining company, by Delos Lombard of Eureka, its attorney-in-fact, for the Patti and Tappa lode claims, in Tintic mining district, 2,470 and 4,473 acres respectively. No. 295-7-Burford & Sons Mining company, by J. C. Reynolds of Salt Lake, for the Bunker Hill, Cash Box and Little Jessie Consolidated lode claims, in the Tintic mining district, Toolee county, 10,371 acres.

Gold Extraction Co. Incorporated.

The Smith Gold Extraction company was organized in this city yesterday to conduct the business of extracting gold values from various kinds of ore, and the process for which a government patent was recently issued to Joseph Smith of Salt Lake City. The capital stock is \$250,000, and the officers are: Joseph Smith, president; J. H. Burford, vice president; S. T. Pearson, secretary and treasurer; and the other directors being U. U. Hiskey and J. J. Biaker.

Antelope Island Claims.

Joseph Beck is back from Antelope island, where he went about ten days ago with three men, expecting to keep them working all winter. It was found, however, that the men could not get the necessary supplies across the lake without great hazard, so it was decided to roll up blankets and store the tools away until next spring, when the claims will be worked again and surveyed for patent. Samples of the ore brought over assayed as high as 16 per cent copper.

Ore and Bullion.

Ore and bullion settlements in this city yesterday amounted to \$41,400, as follows: T. R. Jones & Co., ores, \$14,100; bullion, \$24,300.

Metal Market.

Silver, 54 per ounce.
Lead, \$4.40 per 100 pounds.
Copper, 15¢ per pound.

Mining Notes.

The Daly-West marketed six cars of ore yesterday.

W. V. Rice came down from the Park and the Swanson is in the market with six cars of ore yesterday.

The Cooke sampling works received eight cars of ore from Tintic yesterday.

Manager C. E. Allen of the Centennial Mine will go out to the mine again today.

James Duffy, one of the veteran hands at the Ontario, is in the city for a breathing spell.

The Geysers-Martin reported at the gold sampling works yesterday with 50 pounds of cyanide.

Professor W. H. Tibbals visited Bingham yesterday and spent the day at the Red Wing mine.

The Yankee Consolidated Mining company will contract for the running of the 190-foot drift.

The Taylor & Burton sampling works received six cars of ore from Park City yesterday.

President David Keith of the Silver King company will return from his extended western trip today.

Fred G. Ward is back from the Mercur offices, after a couple of weeks' residence with "walking" tiphead.

Robert E. Warral is back from a five weeks' trip into Idaho, where he succeeded in trying up a mining proposition.

Come Just to See.

Extra Premiums Given Free.

Great American Importing Tea Co.

ing made is showing up well. Mr. Dignowity was well pleased with the property and expects to see it open into a big mine.

Manager George Moore of the gold sampling rooms is back at his desk after a trip into the Leadville district, where he had been seen in a stock on the board with possibly one exception, the bear crowd having everything in control.

Daly remained about the same, but Daly-West was hammered and 25¢ asked. The opening sale was made at \$12.40, followed by a decline to \$12. The closing bid was \$12.00, with \$12.11 asked. Dexter made no sales, but the best bid was \$2.30, with \$2.35 asked. Ingot fell below 10 cents. Mammoth and Bunker Hill saw a decline in their prices. Mammoth was at \$1.70, falling from \$1.75 to \$1.65. Bunker Hill was at \$1.60, falling from \$1.65 to \$1.55.

At a meeting of the directors of the Brigham City Copper & Slate company, held Monday evening, it was decided to begin active developments on that property at once. Manager John Sharp left for the mine last night with several men and supplies to last them for some time.

W. H. Child has returned from a trip to Park City, where he made an inspection of the East Valley, more generally known as the Deer Valley group. Mr. Child says that the property is very valuable, but it was proposed to run a tunnel at least 1,000 feet long to determine whether the ore is of a milling grade. Messrs. Shear and Greaves will leave for home this morning.

Tablet's Buckeye Pile Ointment.

cures blind, bleeding, itching and protruding piles. Allays inflammation, soothes inflamed surfaces and reduces swelling. No violent action. The ointment comes at once and is a cure promptly followed. Recommended by physicians because it is so safe, so sure, and is the only radical cure ever proposed. It contains the active principle of the buckeye, the newly discovered specific for piles, and is not an experiment, but a medical certainty. Price, 50 cents in bottles. It can be had of any drug store. Can be sent by mail.

Sold by Z. C. M. L. Drug Department.

FUNSTON AFTER HIS ACCUSERS.

CALLS SOME OFFICERS IN KANSAS REGIMENT COWARDS.

Also Denounces Those Who Charge "Him With Looting Churches as 'Liars and Blackguards.'"

San Francisco, Nov. 21.—General Frederick Funston is quoted by the Examiner as saying in an interview: "Some of the rankest cowards in the army were officers of the Twentieth Kansas regiment, and they were far from being non-commissioned officers, too. They left the firing line without permission during the battle of San Fernando and went to town. All efforts to get them back to their places were fruitless, and they were not there."

"Had I not allowed a sentiment to interfere with duty at the time, I should have preferred charges against them for cowardice. There were five of them, some of whom were staff officers, and it is in this same class of skulkers that is now making the contemptible and unendurable campaign against Colonel McCaff and myself.

"I want to deny most emphatically and absolutely that Colonel McCaff was guilty of anything but a heroic and brave death in the hands of the men who were shot in the treatment of my prisoners that fell into his hands. The whole trouble arose over the fact that both Colonel McCaff and myself were compelled to reprimand some of the disgruntled officers because of their inefficiency and lack of courage."

The general then explained that McCaff was not a coward, but that he was not of the class of officers that he was now making the contemptible and unendurable campaign against. He said that he had a letter in which he emphatically denounces the men who are charging him with looting churches as "liars and blackguards" in the Bank of California, and challenges his accusers to put up an equal amount, the sum to go to the Red Cross society if it can be proven that he ever took, connived at the taking of, or knew of the taking of any article, sacred or otherwise, from any church in the Philippines.

In conclusion, he says that if his challenge is not accepted within forty-eight hours, he will brand his alleged accusers, the editors of the Donnell, Monitor and J. J. Sullivan, journalists as "liars and blackguards of the first water."

Will Take No Action.

Washington, Nov. 21.—Relative to the allegations that have been made by some of the late officers of the Kansas volunteers against Colonel McCaff on the ground of cruelty, it is said at the war department that the regiment and all of the officers concerned, having been mustered out of the United States army, the war department can take no cognizance of the matter.

Consul Is Appointed.

Washington, Nov. 21.—Daniel S. Kiddler of Florida has been appointed consul at Algiers, Africa, vice C. T. Grellier.

What is Koda's Dyspepsia Cure? It is the newly discovered remedy, the most effective preparation ever devised for aiding the digestion and assimilation of food and restoring the deranged digestive organs to normal condition. It is a discovery surpassing anything yet known to the medical profession. F. C. Schramm, Prescription Druggist, McCornick Block.

Senator Hayward Grows Worse.

Nebraska City, Neb., Nov. 21.—While physically not much changed, Senator Hayward, however, grows progressively worse, so much so that his physician is fearful of an inflammation of the brain. The senator had some rest last night, but seems to be improving very slowly. At all. His right arm seems to be completely dead, the sensory nerves and muscles being alike useless. It is hard for even the physicians to say whether the patient's condition is not growing better from day to day.

What is Shiloh?

A grand old remedy for Cough, Colds and Croup. Used throughout the world for half a century, has cured innumerable cases of incipient consumption and has cured many of the advanced stages. If you are not satisfied with the results we will refund your money. Price, 25 cents, 50 cents and \$1. For sale at Z. C. M. L. Drug Dept.

BEARS STILL CONTROL GOES TO THE OWNERS.

Mining Stocks Forced Down to Bottom Notch.

The Home in Washington is Transferred to Him.

REASONS FOR THE DEAL PROVISIONS FOR PROPER SUCCESSION OF PROPERTY.

TINTIC STOCK LOST A FEW MORE POINTS.

Daly-West Was Also the Victim of an Attack and Went Down to \$12.—Declined 40 Cents During the Call—Bowers Stocks Were Also Pinched.

Low prices were the feature of the trading done on the Salt Lake exchange yesterday. Not a single improvement was made in any stock on the board with possibly one exception, the bear crowd having everything in control.

Daly remained about the same, but Daly-West was hammered and 25¢ asked. The opening sale was made at \$12.40, followed by a decline to \$12. The closing bid was \$12.00, with \$12.11 asked. NERVOUS SUFFERING DUE TO STOMACH DISEASE.

But Dyspepsia is not the only symptom for Dyspepsia, proper only means imperfect digestion—which indicates a stomach gone wrong. Until lately even Dyspepsia was regarded as a curiously incurable ailment, and many physicians claimed to cure the trouble.

If doctors, however, had understood Dyspepsia and had known how to treat it properly, how do they account for the thousands of dyspeptics to be seen on every side?

If doctors generally failed to cure Dyspepsia because they did not properly understand it, and hence could not properly treat it, how much more reason is there to believe in their inability to cope directly with heart and nervous troubles that were more remotely, but just as directly, connected with the organ of digestion?

It has already been shown in these columns how the
