CHARGED WITH CRUELTY.

Complaint Sworn Out Against Charles Harcourt.

A complaint was yesterday sworn to in Justice Farde's court charging Charles Harcourt with cruelty to animals. T. B. Beatty is the complainant and he alleges that on the 28th of No-

ember Harcourt cruelly beat his horse and in other ways treated it in a brutal manner. Harcourt says that he did nothing of the kind; that the horse had a sore foot, caused by the imperfect placing of a nail in its foot, which he was not responsible for. Har was arraigned yesterday and pleaded not guilty. The case was set for hearing on Tuesday at 10 o'clock in the morning. F. J. Gastin was appointed an attorney for the defendant.

No joy or pleasure on this earth equals that which comes into the home when baby arrives. Who can describe the happiness of man and woman, joined in wedlock, as they look upon the innocent, delicate mite that is blood of their blood

and flesh of their flesh? And who can depict the hopelessness and dejection that hover about the home where the wife is incurable of becoming a mother?

Barrenness proceeds from some derangement of the distinctly feminine organs. Many of the common ailments known as 'female troubles' cause it. Dr. Pierce's favorite prescription overcomes barrenness by stamping out diseases of women, and by healing and curing ulceration. It opens up the system, stops drains, and restores strength. During gestation it softens morning sickness, gives elasticity to the overstrained parts concerned, takes the hour of baby's coming short of almost painless, and gives wonderful recuperative power to the patient. By helping the mother strong and cheerful, makes the little one healthy, vigorous and good natured. Insist upon the medicine dealer giving you Dr. Pierce's Favorite Prescription when you ask for it. Substitutes are often dangerous.

Mrs. James W. Blacker, of San Catherine St., Kansas, N. Y., writes: 'Your medicine has no wonder for me. For years my health was so poor I had but minor ailments, but since I used Dr. Pierce's Golden Medical Discovery, I have become a mother. I have had three children, and now I have a fourth. I have had three children, and now I have a fourth. I have had three children, and now I have a fourth.'

A GOOD TIME

Not a hot time. Just a good, old good time. That's what you want. We hope you'll get it. And say, while you are having it, don't forget the kids. Give them a show, too. Buy them something useful. Teach them to be practical. We have spent thousands of dollars on just such articles. Articles which will brighten the life of every man, woman and child in Utah. This isn't self-praise. It's a cold fact. We won't GIVE these holiday-making goods away. You don't need charity. But we'll come pretty near it. Just look at these figures:
