

RUSH OF WATERS DO
DAMAGE NEW YORK
Rivers and Smaller Streams
Out of Their Banks.

CAUSE, MELTING OF SNOW
FEARED GREAT AMOUNT OF
PROPERTY DESTRUCTION.

New York, March 27.—From many parts of the state comes news tonight of damage by flood. The waters of rivers and the smaller tributary streams are reported as overflowing their banks, causing widespread inundations, which threaten to destroy much property before they begin to subside.

Up to midnight the only accident in which anyone was injured was that due to the washing out of a culvert near Norwich, dittoing of Oswego and Lackawanna train. In the accident three people were slightly hurt.

This rush of water, which is swelling the streams to extraordinary rains and the consequent melting of the snow which has lain for months and has been deeper than usual for the central and western portions of the state. The Mohawk river, swollen by torrents of water flowing from the snow covered Adirondacks, is higher than at any time in almost forty years, and much fear was expressed at Utica during the day that the rising waters would interfere with railroad traffic before tomorrow, but tonight's reports show that the point is reached and water is receding.

The waters of the Mohawk carried the ice out of the river Schenectady and the pressure thus relieved has secured Schenectady from any serious damage. The water has risen so high, however, that Little Falls reports New York Central trains being run over the West Shore between Frankfurt and Utica.

The Genesee valley is afflaid in many places, the Genesee and its tributaries not having been so far from serious. A rise of fifteen inches in twelve hours is an indication of the rapid rate at which the water is flowing into Rochester and its adjacent villages. Much railroad property is already under water.

The people at Corleand are alarmed at the rush of waters that threaten the flood threatens to sweep away houses in the lower part of the city. A similar state of affairs is reported at Binghamton, where manufacturing plants were forced to suspend.

Watertown reported tonight that the Lack river was going up to near the highest water mark, with no signs of a subsidence, and late tonight Eaton, a Madison county, was in danger of a calamity through the threatened escape of a reservoir which supplies the village with its drinking water.

RID THEMSELVES OF
NAME OF SING SING

New York, March 27.—The name Sing Sing so far as the village proper is concerned, is no more to be used. The last night signed the bill changing the name from Sing Sing to Ossining.

The name Sing Sing had become synonymous with prison and the outside world looked upon the village as merely a penal colony. Manufacturers could not be induced to locate in the county during the last ten years have shown the largest increase in the history of the county. Sing Sing village showed a decrease in population. These conditions aroused the people and resulted in the petition to the legislature for the change of name. Sing Sing was incorporated on April 2, 1813, and was the first village in Westchester county to be incorporated under the state government. Sing Sing prison was erected in 1824.

By the provisions of the act which changes the name from Sing Sing to Ossining, the prison property is still within the boundary lines of the village, but the official name of the prison remains Sing Sing prison as heretofore. It is the purpose of the citizens to erect a railroad station on the prison grounds so that prisoners may be brought to the prison without coming to the Ossining station.

WILL NOT USE FORCE.
No Waship to Take United States
Consul to Morocco.

Washington, March 27.—Secretary Long today issued an order to Admiral Sampson to board the cruiser New York, at Tangier, to proceed at once with that vessel to Morocco. This is an order to the plan to have the New York convey United States Consul General to Morocco from Tangier to Mazagan, in the attempt to collect American claims. It is the purpose of the United States government to adjust these claims and other outside issues in Morocco without any show of force and in the ordinary practice of diplomacy.

It is said that the United States consul general who had conceived that obstacles were purposely placed in the way of his access to the court, has received assurances that the actual reason for the departure of the consul from Morocco was to pay a long due visit to another section of the country. It also was promised that he would receive a passport in a month or six weeks and would receive Mr. Junmore probably even at Mazagan, thus obviating the necessity of his part for an overland journey to the capital. In this view of the case, and the New York being badly needed in the east, it is believed that the consul will be allowed to let the vessel proceed at once on his voyage.

Mr. Junmore probably will not enter into fresh communication with the Moroccan government to secure another appointment for a mission.

FIRE IN A MINE.
Flames Raging in Shaft of Republic,
Mich., Property.

Republic Mich., March 27.—Fire started in No. 1 shaft of the Republic mine last night and resisted all efforts to extinguish it. Today the flames were raging through the shaft and no estimate of the loss can be made at this time. The mine has been closed, throwing 500 men out of employment. All the miners escaped.

Fixing Up Commission.
Washington, March 27.—It is learned today that the president still lacks one name of completing the cabinet. The present number of nominees is 14. The committee, the eight men who have been selected are: Dr. Charles D. Walcott, Theodore Roosevelt, James H. McLaughlin, John D. Long, John C. Spooner, and E. S. Scott of Arkansas. This arrangement makes four Republicans and four Democrats selected. The ninth appointee will be a Republican, and the contest for this place is said to lie between C. E. Bristle of Connecticut, C. N. Miller of Indiana and another man whose name cannot be learned.

Want Homes in the West.
St. Paul, Minn., March 27.—Over 3,000 new settlers, 1,800 of whom were Dunkard, passed through St. Paul today en route to new homes in the northwest. The present number of settlers is said to exceed the previous highest record and will exceed that of last year, when the state of Washington alone received 400,000 settlers, nearly as many going to other of the several new western states.

Laxative Bromo-Quinine removes the cause.

AGUINALDO CAPTURED BY GENERAL FUNSTON

Continued from Page 1.
prehended, will be an interesting one for the administration to determine. The possibility of his capture at any time always has been kept in view, and that of his future has been a matter of informal discussion by the officials here. It is not believed, however, that any definite line of action was ever determined upon in regard to the matter.

The attitude of the government for a long time past has been one of comparative indifference to Aguinaldo's capture, it having been determined to crush the rebellion without regard to his whereabouts. His recent activity in directing the course of operations against the American forces probably brought about the recent change in this attitude.

As the leader of an insurrection against the United States government, Aguinaldo may be tried and executed, a lesser punishment meted to him by executive clemency, or complete amnesty extended. While the question of punishment rests with the military authorities, it is believed the president will make the matter one for determination primarily by the authorities here.

COLONEL BRYAN AND GENERAL OTIS
REFUSE TO TALK OF THE CAPTURE

INCOLN, NEB., March 28.—W. J. Bryan was informed this morning of the capture of Aguinaldo, and asked for an expression of opinion. He said he preferred to wait until there was more complete verification of the report. Mr. Bryan did not doubt the accuracy of the Associated Press bulletin, but said so many previous reports had proven without foundation that he believed it wise to postpone commenting.

Mr. Bryan was notified by telephone of the news of General Funston's capture. He had retired, but answered the call and evinced his interest in the report, but no great surprise. He was told that there could be no reasonable doubt as to the authenticity of the cablegram, but positively declined to express an opinion until he was more fully informed and personally satisfied that there had been no mistake.

Mr. Bryan of late has been giving less attention to the Philippine question, and though his interest has not ceased, he has paid more attention to domestic problems.

Chicago, March 28.—General Elwell S. Otis was awakened this morning and told that Aguinaldo had been captured by General Funston. "I am very glad to hear it," said General Otis. He added, however, that he made it a rule never to be interviewed after he had once retired for the night, and he declined to say anything further.

GOV. STANLEY OF KANSAS IS PROUD
OF THE ACHIEVEMENTS OF FUNSTON

Guthrie, O. T., March 28.—Governor Stanley of Kansas, who was the guest of honor at a banquet here last night, was awakened this morning at 1:30 in his rooms at the Royal hotel and told that General Funston had captured Aguinaldo. He said:

"I am very glad. I am glad to hear the news. I am more than glad to know that a Kansan was the instrument in securing this man. It was a great deed. Kansas has had many unkind remarks made at her expense recently, and those who have made them will now have words of praise for our state on account of Funston's exploit. Kansas has reason to be proud of the achievements of her son."

"What effect will this have on the Philippine trouble?"

"I think that it will cause the disturbances in those districts to cease. With the leader captured it will be disheartening to Aguinaldo's followers."

"I am very sure that all of the people of Kansas will be glad as I am to hear that General Funston has captured Aguinaldo. His adventure was watched with interest and much anticipation, and the success of the enterprise will cause rejoicing, not only in Kansas, but over our entire nation."

Lieutenant Admire, who was one of the ten men with General Funston, is a son of J. V. Admire, receiver of the Kingslayer land office, formerly editor of the Osage City-Kan. Free Press. Lieutenant Admire enlisted in this city for service in Cuba, and then went to the Philippines.

SIXTO LOPEZ SAYS THERE ARE
OTHERS WHO LEAD THE FILIPINOS

Boston, Mass., March 28.—Senor Sixto Lopez, former secretary of Aguinaldo, was informed of the Associated Press report this morning announcing the capture of the noted Filipino leader, and asked if he had anything to say. Senor Lopez expressed doubt as to the correctness of the report, but said that even if it were true there were other Filipinos besides Aguinaldo who would take the leadership, and that the defense of the Filipinos would continue. The policy of the latter would not be affected. Senor Lopez would not talk at length, saying that he would prepare a statement for the press in a few days.

BENT ON LYNCHING.
Negro in Illinois Jail Narrowly Escapes a Mob.

Galesburg, Ills., March 27.—A mob of 500 or more gathered here tonight bent upon lynching Ed Jackson, a negro, who murdered Engineer Charles Rowe last night. The mob marched on the jail in a body, and news of its coming reached Sheriff Matthews, and he summoned Jackson out of jail into a carriage and drove with him to Moonmouth.

A committee from the mob searched the jail, finding that the negro was not there, dispersed under solicitation of prominent citizens.

Mr. Smith Will Not Resign.
Washington, March 27.—Postmaster General Smith today gave an emphatic denial to the stories that he intended to resign. He said: "Whenever I have been asked to resign, and I have been asked it a good many times, I have replied that I do not intend to resign, and that at no time during my service as postmaster general have I had such intention."

Want McKenzie Pardoned.
Lisbon, N. D., March 27.—The solicitor of Lincoln District Attorney Rourke, a petition signed by county officials and other prominent Republicans acts for the pardon of Alexander McKenzie, who was sentenced to the state penitentiary for the murder of a woman, and was wired to President McKinley today. It is understood that similar applications from other parts of the state will follow. McKenzie, who was a resident of this county, was sentenced to the state penitentiary for the murder of a woman, of which he was appointed receiver.

Killed Man and Boy.
Williamson, W. Va., March 27.—Near Six Mile yesterday, Charles Core, 30 years of age, shot and instantly killed a 5-year-old son of John Hogar and seriously wounded his father, because some one had stolen his horse. He escaped to Kentucky.

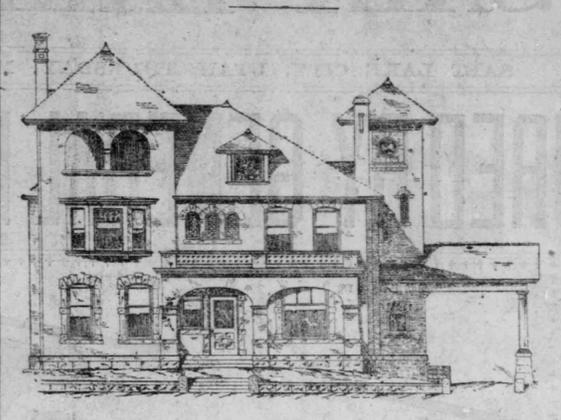

Robbed Savings Bank.
Cedar Rapids, Ia., March 27.—The savings bank at Riverside was broken into early this morning. The burglars entered through the steel doors of the vault, but the inner safe resisted their efforts. They secured only a small sum of money from the cash drawer and escaped on a hand-car towards Iowa City. There is no clue.

Close Cereal Combine.
Akron, O., March 27.—The independent cereal combine general of posts in Cuba, which was broken up by the Chicago, tomorrow. O. C. Miller, president of the Akron Cereal company, and F. M. Holt left Akron for Chicago today to attend a meeting of the parties who are interested.

Hopes to Get Bail.
Havana, March 27.—Pates G. Rathbone, former director general of posts in Cuba, will be given an opportunity to secure another bond for his release. His attorneys are hopeful of getting new bail. In any event, the attorneys will ask for an immediate trial.

Killed Her Betrayer.
Houston, Tex., March 27.—John Walsh, a lieutenant in the fire department, was killed today by Mattie Gra-

New Style of Architecture Introduced in Cosgriff Residence.

The accompanying cut represents one of the fine new homes to be built in Salt Lake during the present season, under the supervision of Architect Fred A. Hale. It is to be built for John B. Cosgriff of the firm of Cosgriff, Knight & Co., who came to Salt Lake from Wyoming last year. It will be located on a fine 52x70-foot lot on Brigham street, between Fifth and Sixth East, facing north, and will cost between \$15,000 and \$20,000.

This new home will be different in many respects from any other in this city. It will be in the Spanish colonial style of architecture, and built of the best shale brick, trimmed in oolite stone from Sanpete county. A large conservatory, 12x17 feet in extent, just back of the port cochere, will be one of the pleasing features, and this conservatory will be separated from the sitting room and the dining room with partitions of French plate glass. There will be a fine main hall, finished in oak, and a broad landing with a settle at the turn. The dining room will be finished in mahogany; the other rooms will be finished in oak, curly birch, red birch, bird's eye maple and Georgia pine. A fine bowling alley and laundry in the basement. The heating will be done by hot water, both direct and indirect systems being used. In the front will be a fine arched porch that will add greatly to the exterior appearance of the residence.

How the "War Taxes" Have
Been Readjusted.

There is much doubt among people generally as to the changes in the "war taxes" made by the law enacted by the last session of congress. An officer of the revenue office at Washington has prepared a summary of the new law goes into effect on July 1 next. The following are those that will be of local interest:

Bill of exchange (inland), draft, or order for the payment of any sum of money, otherwise than at sight or on demand, and for each renewal of the same, for a sum not exceeding \$100, 2 cents, and for each additional \$100 or part thereof, 2 cents. Bill of exchange (foreign), 5 cents on each \$100 of face value thereof. Indemnifying bonds, 50 cents.

There are a number of other items upon which the law will still remain a revenue tax, but the above are the ones that will be of interest to the business men of Salt Lake.

There are a number of other items upon which the law will still remain a revenue tax, but the above are the ones that will be of interest to the business men of Salt Lake.

Logan Man to Manage Saltair
Beach This Season.

The manager of the Saltair Beach for the coming season will be Mr. McAllister of Logan, son-in-law of President Lorenzo Snow, according to the information that was given out yesterday by the Saltair company. The news will be a surprise to the many who had made up their minds that George D. Pyper would be the manager of the beach. It is understood that Mr. Pyper declined the place.

CZAR OF RUSSIA MAKES SOME
CONCESSIONS TO HIS SUBJECTS

St. Petersburg, March 27.—It is reliably reported that at a ministerial committee meeting held in the presence of Grand Duke Vladimir, commander of the St. Petersburg garrison, the proposal to place the capital under martial law, should the indications present further difficulties, was heatedly debated. M. DeWitte, the finance minister, was energetically opposed to the establishment of martial law, owing to financial reasons, not to mention the disastrous effect which it would have upon industry, commerce and the country's standing with foreign capitalists. The committee accordingly sanctioned the issuance of a circular, which has been issued by the ministry of the interior. A ministerial conference has been called for Friday at Tzarevskoe-Selo. The examination of the 1,500 political prisoners is now being conducted in secret by the police.

CALLERS AT WHITE HOUSE.
Number Diminishing Daily—Congressmen Going Home.

Washington, March 27.—The number of congressional callers at the White House is dwindling each day, showing that the members are leaving Washington for their homes. Among the callers today were Senators Cullum, Gilman, Scott, Lodge, Wetmore and Mitchell, Representatives of Kansas, and Jones of Washington.

Representative Jones, who has been in the city for several days, is expected to leave for his home in Washington today. The president's stay in Washington during the western trip, says it is pretty definitely decided that the presidential party will arrive at Tacoma Thursday, May 27, at 10 o'clock. The president will remain in Tacoma Friday and Saturday and spend Sunday at Spokane. On Monday the party will leave for the east.

Gold for Europe.
New York, March 27.—The National City bank has arranged to ship 1,250,000 francs in gold by tomorrow's steamer, and 1,000,000 marks to Berlin either tomorrow or Saturday.

Work of Incendiary.
Attleboro, Mass., March 27.—An incendiary fire here today destroyed property of the value of \$5,000.

CONSOLIDATION OF
PACIFIC SYSTEMS
Central and Union Pacific Officials Meet.

Central and Union Pacific Officials Meet.

CONTROL OF BURLINGTON
J. J. HILL CONDUCTING THE
NEGOTIATIONS.

Chicago, March 27.—President C. M. Hayes of the Southern Pacific, President Burt of the Union Pacific, Vice President Bancroft of the Oregon Short Line and Traffic Manager Campbell of the Oregon Railway & Navigation company passed through Chicago today, en route for New York. It was expected that the distinguished party of railroad men would make a short stop in Chicago, but their special car, on its arrival, was immediately switched to the Lake Shore tracks, leaving attached to the Lake Shore limited, leaving at 10:30 a. m. A conference will be held at 11 o'clock in the morning at the headquarters of J. J. Hill in New York, and it is understood that negotiations will be made looking toward the consolidation of the Union Pacific and Central Pacific railway systems.

BURLINGTON NEGOTIATIONS.
Status of the Scheme Planned by J. J. Hill.

New York, March 27.—The Evening Post says: Burlington and Northern Pacific shares were strong and active today on the revival of the reports that there would be a lease of the Burlington by the Northern Pacific and Great Northern railways. No official confirmation of these reports is to be obtained today and important stockholders' interests in the Burlington denied having information that any offer had been made for the Burlington. It is believed that Mr. Hill is prepared to bid a high cash price for the Burlington, to lease it at a specified guarantee rental or to exchange the stock for new bonds—as the Lake Shore and Michigan Central were acquired by the Burlington Central. In such negotiations the Hill interests have the advantage of owning heavy amounts of stock of Burlington, bought at much lower prices, both directly and through

IMPORTANT FIND MADE.
Records of Kings Discovered Nearly
4,800 Years Before Christ.

Boston, March 27.—Rev. William C. Weston, vice president of the Egypt Exploration fund, has just received official word that Prof. Petri has unearthed at Abydos the records of kings before Achaemenes, the founder of the first dynasty, nearly 4,800 B. C.

"We have found," writes Professor Petri, "the names of Narma Ka and a king named by a fish sign, perhaps also two of kings, Deb and Sam of Mena, and three earliest kings. There are about thirty inscriptions and a heavy strip of gold with the name Aha (Mena). In the tomb of Khasekhoumwi were found stone vases, each with a gold cap tied on with gold. Also two broad barges of gold and a dinner service of a dozen pans and dishes, with 160 models of tools in sheet copper. The frequent use of ivory there is witnessed by the discovery of forty inscribed ivories and stones and two lions cut in ivory."

Examine Turkish Mines.
Washington, March 27.—Geologist J. E. Spurr of the United States geological survey, has left here for Turkey under a special commission from the Turkish government. He will, among other things, examine the mines owned by the sultan and report on their value.
