SPANISH WAR CLAIMS

MORE MONEY IS NEEDED FOR MEDICAL EXAMINATIONS.

Washington, June 3.—The commissioner of pensions states the results of the efforts of the bureau for the eleven months of the fiscal year ending May 31 as follows:

Original pensions have been granted: For account of war of 1812, widows two; for account of Indian wars, widows, 112; survivors, fourteen; for account of service prior to 1861, six; making a total of 466 pensioners account of service prior to the civil war.

For the account of the civil war there have been pensioned for disability incurred in service: Invalids, 4,517; widows, 14,852; for widows under act of 1882 and amendments, 14,439; for nurses, twenty-five, making a total original issue account of the civil war of 29,813.

There are about 160,000 of those drawing under the act of 1890 and amendments that receive a pension rate of \$12 per month. There have been 614 pensioned that carry a total of \$97,314 (an average of \$1,514 each) as first payment. A large percentage of these cases are known as "old miners," and only appear on the rolls for the one payment.

For account of service in the war with Spain there have been granted 2,369 pensions to invalids, and 1,150 pensions to widows and dependents. The total number of claims on the account of this war to date has been 42,874.

Under the act of March 21, 1901, providing for the re-pensioning of widows who re-married and again became widows, there have been 1,305 claims filed. There will be an increase in the number of pensioners on the rolls at the close of the present fiscal year, June 30, 1901, over the previous year.

More Money Needed. The appropriations made by congress for the fiscal year will be sufficient with one exception. That for medical examinations. In this item there will be a deficiency. Congress appropriated \$700,000, but the demand for medical examinations during the fiscal year has been so great that the appropriation will not be sufficient to meet the requirements of the law under the established practice.

In addition to the number of original pensions granted for the eleven months, there have been issued for increases, re-issues and renewed pensions 50,689 certificates, or the bureau has written for all classes 34,077 certificates. There have been 1,000 claims added to the rolls since July 1, 1900.

On July 1, 1897, the adjudication of original invalid pensions was from twenty to thirty months in arrears and the respective divisions. The commissioner predicts that by the close of the present fiscal year, June 30, 1901, the adjudication of original claims, (invalids, widows and dependents) will be current to the end that just as soon as the claim is made it will be complete that claim will go from the pending files for adjudication.

PLAN OF WOMEN'S WORK

Such Business by Suffrage Association at Minneapolis.

Minneapolis, June 3.—The National American Women's Suffrage association held an executive session today, to which only delegates were admitted. The topics of discussion were the plan of work suggested by the business and professional women of Minneapolis, and the consideration of the report of the state committee on the suffrage of Minnesota.

Important action was taken relating to the registration of social vice. The action of the national association was to send a circular to all state associations, and the convention last week stirred the delegates to righteous indignation.

STRIKE AT CHICAGO.

No Possibility of a Settlement Until After June 11.

Chicago, June 3.—There will be no settlement of the machinists' strike in Chicago until June 11. This was the decision of the local manufacturers today when the members of the Chicago Association of Machinery Manufacturers pleaded allegiance to the National Metal Trades Association and agreed to have no negotiations with any of their employees.

While the manufacturers were discussing the terms of the strike, the machinists were not idle, a number of machinists leaving the three plants of the Crane company to join the strike.

Statements differ as to the number of men who have joined the strike. Business Agent Ireland of the machinists insists that nearly 150 men quit work, while Secretary J. R. Murphy of the company said that not more than sixteen men had quit. Besides the men who have joined the strike, the machinists struck in three other places, while agreements were made with some of the machinists, were signed with five firms whose names will be given out later.

SHIRT AND COLLAR TRUST.

Combine With \$20,000,000 Capital to Be Formed.

New York, June 3.—The Mail and Express says: Under the title of the American Shirt & Collar company, a \$20,000,000 linen goods manufacturers' trust will be incorporated under the laws of this state. It will control completely the wholesale shirt and collar trade of the country. A tentative agreement has already been signed by eight of the largest manufacturers in New York.

The strength of the combination is shown by the "cast iron" clause, by which each individual is required to file a bond of \$20,000 as evidence of good faith in agreeing not to engage in the manufacture of shirts, collars, cuffs and other articles of men's apparel for a period of ten years, excepting in the states of Nevada, Montana and Idaho.

TO WATCH CHINESE.

Three Immigrant Inspectors to Be Sent to Porto Rico.

Washington, June 3.—Assistant Secretary Taylor of the treasury department and Commissioner General Power today decided to send three immigrant inspectors to Porto Rico for permanent duty. It is feared that the recent decision of the supreme court in the Inular cases may attempt Chinese immigration to Porto Rico, with the idea that once there they cannot be denied admission to the United States.

In addition to the number of original pensions granted for the eleven months, there have been issued for increases, re-issues and renewed pensions 50,689 certificates, or the bureau has written for all classes 34,077 certificates. There have been 1,000 claims added to the rolls since July 1, 1900.
