LABOR RIOTS IN SPAIN THREATEN THE THRONE

Disturbances in Barcelona Spread and Take On a Serious Character Presaging Revolution.

Troops Clash With Malcontents and a Bloody Battle Ensues—Government Blames Anarchists.

MADRID, Feb. 20.—In the chamber of deputies today Senor Robert, deputy from the province of Catalonia, interpellated the government on the recent events at Barcelona. The minister of the interior, Senor Gonzalez, replying on behalf of the government, accepted full responsibility therefor.

to the labor movement the ever present Catalan home rule agitation is likely to prove a serious factor in the situation. One hopeful sign is the fact that almost alone among the ministers and governing authorities General Wever is in sympathy with the Catalan demands and is inclined to study their grievances. He has held military commands in Catalonia, speaks the Catalan language and thoroughly understands the situation.

Censorship is Strict. The government declines to publish figures of the casualties in the riots of Tuesday and Wednesday. It is inferred from private information received here that forty persons were killed and 200 wounded during the encounter of those days, and 500 arrests have been made.

Women took a prominent share in the riots and were more violent than the men. Among the incidents related of the disorders at Barcelona is the case of a policeman who fell a victim to his resemblance to an inspector named Pissis, who is much hated by the anarchists. The policeman, mistaken for the inspector, was assassinated.

The telegraph lines have been cut between Sabadell and Tarrasa. It is feared the strike will next extend to Seville and Verona, and a ministerial crisis is not an unlikely outcome of the trouble. It transpires that last Sunday several workmen's meetings were held in Barcelona. The principal meeting was held at Circo Espanol and was attended by 6,000 persons.

Troops Fight Strikers. London, Feb. 20.—A message to the Exchange Telegraph company from Barcelona via Perpignan, France, says a fierce battle has been fought between the troops and the rioters in the suburb of Barcelona, known as Sano. Before the engagement the cavalry and infantry had been posted in the most dangerous points and held heavy machine guns located on the plaza, from which vantage point the guns could sweep the surrounding streets.

San Francisco Jobbers Are Anxious to See an End to the Conflict. (Special to The Herald.) San Francisco, Feb. 20.—The cutting of prices on sugar by San Francisco jobbers has become so severe that it will probably soon become its own remedy. In the opinion of those conversant with the situation, the rate war cannot continue much longer, as sales at present prices involve heavy losses.

Other Places Involved. It is learned late tonight that martial law has been proclaimed at Manresa (about thirty miles northwest of Barcelona) and at Saragossa. At the latter place the troops occupied a strategic position in order to check the disturbances.

Official telegrams received here describe a slight improvement in the situation at Barcelona, and officials tonight seem more hopeful. Owing to the strict censorship over news from Barcelona it is difficult to ascertain the real state of affairs there. It is quite evident, however, that all the efforts of the authorities to persuade the labor leaders into a conciliatory attitude have so far failed, and the extension of the strike movement is more likely than its restriction. COUGAR IN THE TENT.

Boise, Ida., Feb. 20.—Wood Moore, a Neale miner, had a narrow escape from being torn to pieces by an immense cougar, which got into the tent occupied by Wood Moore and John Edwards. Wood Moore went in to see if the cougar was still in the tent. He fought it with a knife and a stick, and was about exhausted when his partner arrived and with an iron bar drove the animal off. Wood Moore leaped at Edwards and went clear through the tent. Wood Moore's clothes were torn to shreds.

TRIES TO ROB A BANK

Mexico City, Feb. 20.—A daring and foolhardy attempt was made to rob the London & Mexico bank, one of the strongest financial concerns in the City of Mexico, by an unknown robber, who after killing the cashier and seeing that he would be captured, blew out his own brains.

At an hour when business was slack, and when no one in the bank, the robber entered the building, and, unobserved, made his way to the vault near which was the cashier.

The dead robber had no papers or articles on his body that would serve to identify him, and other than that he was an American nothing is known of him. He was well dressed, wore a full beard, was well trimmed, and was about 45 years old. His general appearance was that of a well-to-do business man.

LAND FOR HOMES IN THE WEST

Prospects For Opening Uintah and Crow Reservations Bright.

GIVES MILLIONS OF ACRES

SENATOR CLARK OF MONTANA MAKES FAVORABLE REPORT.

(Special to The Herald.) WASHINGTON, Feb. 20.—Senator Clark of Montana today reported favorably from the committee on Indian affairs his bill ratifying the agreement with the Crow Indians for the opening of the Crow reservation in Montana. This ties along the Wyoming-Montana line. The bill provides for the opening of over 1,000,000 acres to public settlement at a cost to the government of about \$1,100,000.

The lands include about 200,000 acres along the valleys of the Big Horn and the Yellowstone rivers susceptible of irrigation and cultivation, the remainder being chiefly grazing land. A bill similar to Senator Clark's was introduced last session by Senator Carter and passed the senate.

It was also favorably reported by the House committee on Indian affairs, but failed to pass the house. It was then opposed by Representative Cannon on general principles and Representative Mondell because the rights of Wyoming settlers were not sufficiently protected in the bill. The present bill obviates that difficulty.

Agent Nickerson of Shoshone agency, Wyoming, is here with three Arapahoe and three Shoshone Indians to confer with the Indian office relative to the affairs on the reservations. The Shoshone Indians will ask the Indian office to reimburse their tribe for lands which have been used by the Arapahoes for the past twenty years. The reservation was originally created for the sole use of the Shoshones, but later the Arapahoes were quartered there.

The two tribes were traditional enemies, and while living in ostensible harmony on the reservation, there has at all times been strained relations and jealousies. The Shoshones will now insist upon payment for their lands.

The Indian committee of the senate did not take up the bill until Saturday morning on account of the press of business, but concluded to hold a special meeting on Saturday to consider this measure. It is said the bill will be reported favorably from the committee on that day.

The situation with regard to the bill in the house has changed since the speech of Representative Sutherland. Several members say Mr. Sutherland's speech made the matter of the opening much clearer to them, being particularly impressed with the fact that the provisions of the bill dealt justly with the Indians and that the government had the right to open the reservation without treating with the Indians.

ACTION OF CONGRESS WORRIES SPECULATORS. New York, Feb. 20.—There was a sensational flurry in the stock market this morning which proved how disagreeable a surprise President Roosevelt's speech made today and his purpose was to have the same filed by this evening. The particular offense is the breaking into the post house and the further violation of the quarantine laws.

Glasmann will be remembered, was convicted of this offense and paid his fine of \$10. In the view of the attorney preparing the complaint the payment of the fine makes the case prima facie evidence for impeachment proceedings.

A resume of the statutes to be invoked follows: Chapter 7, laws of 1898, provides that the governor and other state and judicial officers except justices of the peace shall be liable to impeachment. Sec. 4565, chapter 8, R. S. 1898, says: All officers liable to impeachment shall be subject to removal for high crimes, misdemeanors or malfeasance in office, as in this chapter provided.

Sec. 4566, R. S., says: An accusation in writing against a district, county, precinct, municipal or school district officer or officer of any board of education, or any high crime, misdemeanor or malfeasance in office may be presented by the grand jury or by the county attorney of the county in which the officer accused is elected or appointed.

Sec. 4577, R. S., is as follows: Upon a conviction the court at such time as it may appoint must pronounce judgment that the defendant be removed from office.

The interpretation of the law on which the proceeding is based is that a conviction and payment of the fine in the lower court constitutes complete evidence, and if it is possible for the case to go beyond this, then at least the burden of proof will rest on the defendant to show that he was unjustly convicted.

The district attorney act provided for the performance of all duties affecting the state which have heretofore been performed by the county attorney to be performed by the district attorney.

District Attorney Hayes said this evening that he will probably file the papers in the case when submitted to him, as he believes that to be his duty, but they have not yet reached him. Mr. Macmillan said this evening the papers would be ready for filing tomorrow.

King Emmanuel Opens Italian Parliament. Rome, Feb. 20.—King Victor Emmanuel opened parliament today with considerable ceremonial. In the speech from the throne he referred to the tranquillizing effect on the country of the government's liberal policy and to the excellent relations existing between Italy and all the powers.

"A policy," said his majesty, "which bears in mind all our rights and all our duties has earned us a large share of good will and flattering testimonials of the esteem in which our country is held by foreign nations. The confidence which Great Britain and Brazil placed in me by selecting me as arbitrator is very pleasing to me.

"Thus, in the concert of the great nations the defense of our interests and fidelity to our duties and of cordial friendships are fully reconcilable with Italy's supreme aim, which is peace."

Among the bills announced for introduction were measures providing for divorce and a reduction in the price of salt.
