

MANY DEALS ARE PENDING

W. F. Snyder Returns From a Two Months' Trip East.

ANENT THE CALIFORNIA SALE

INTIMATE BREAKERS HEAD FOR BINGHAM CON.

After a two months' whirl among the big operators and investors of the West, W. F. Snyder, president of the Western Exploration company, landed at his office again yesterday prepared to devote whatever time may be necessary to his affairs on this end of the line.

An effort was made to draw him out on matters at which the affairs of the Bingham Consolidated company, which secured the bulk of its property from P. M. and P. L. Kimberley.

There have been numerous rumors floating about ever since the meeting held in Boston at which the management was changed. A report reached here previous to the gathering that a warm time would be had, but so far no one has been found who would out with the facts.

TURNING OUT BIG

The Iron Mines Bought by Senator Pettigrew and Others Look Fine.

Just sixty days ago ex-Senator Pettigrew of South Dakota joined A. E. Hyde and Joseph W. Fox, Jr., in the purchase of the Iron mines group of gold-bearing claims in London county, Nevada, from James Johnson and others, on a report showing 19,000 tons of ore in sight.

The present management decided to go around that cave and continue in on the vein to the north and east, or passing it a short distance, the same red oxidized iron ore identical with that sampled previous to purchase, was struck and is now being followed in the tunnel with out order the old workings at a depth of 400 feet or more and everything points to the conclusion that the ledge will be productive of fine milling rock for the entire distance of 1,200 feet at least.

DIVIDENDS AND DEVELOPMENT

What Utah Min. is Paid Out This Month—Future Looks Bright.

The month of February, now drawing to a close, has been a rather light one as respects the dividends paid by Utah mines. The quarterly distribution not appearing is accountable in a measure for the shortage, but the showing as it is would be heralded in great headlines from the press of any other state as being remarkable.

To begin with, the "consolidated" stock paid its initial 5c a share or \$2,000 on the first and a day later declared the same amount should be paid on the first of March, Saturday next.

In addition to these, the Annie Laurie of Gold Mountain is earning about \$1,000 a day, and the Horseshoe is doing the same. The Consolidated Mearns and Utah Consolidated are shipping along with clockwork precision and while no losses are being indulged in it is known that not a few shares, including the Ajax, Uncle Sam, Carissa, Victor, Boss Tweed, Little Chief, L. A. Reine and other properties prominent in the changes are being bought, but surely bringing themselves into positions that will command attention as the season progresses.

STRIKE IN R. G. W.

Ore Worth Over \$44 in Gold Was Encountered Thursday. After years of hard work and an expenditure of a sunk fortune, the efforts of the R. G. W. company, which has been exploring its ground away to the north of the extension of Godiva mountain in Tintic, is now in a fair way to reap its just reward.

On Thursday very fine looking ledge matter was seen and appeared and samples were sent to R. G. Wilson. They were promising to him and he decided to have it assayed. Returns were received yesterday. The figures reading 23 ounces silver and \$44.20 in gold.

The company's property is crossed by the main line of the R. G. W. railroad running into Eureka and with bodies of pay ore developed it will be an easy proposition to handle.

THE NEW SMELTERS.

Splendid Headway Being Made at the American and U. S. Plants.

Reports from the American Smelting company's new plant at Murray are of a very cheering nature. Assistant Manager Frank M. Smith, who went through the works during the week, says there is practically no doubt that they will be completed and in commission in inside of ninety days. As is usual in starting up works of that character, the great furnaces will be warmed up gradually, one set following another till finally the entire works are in operation.

Over at the United States company's great smelter, Contractor Dederich reports the big 250-foot steel stack completed and awaiting the painters, while the monster steel furnace building is practically finished.

WOULD NOT SELL OUT.

Park Valley Claim Owners Decide to Develop on Their Own Account.

Sam Kirkham, superintendent of the Suse mine in Park valley, expects soon to return to that property. During his absence, good progress has been made under the direction of W. E. Bailey. The latter writes a very interesting letter in relation to the property, which he says is attracting a great deal of attention these days all over Park valley.

THUNDER MOUNTAIN STRIKE.

Salt Lakers Have Report on Finding Good Ore in the Fulton.

The Salt Lake owners of the Fulton group of claims at Thunder mountain—H. S. Joseph, D. E. Rurley and Ed H. Meade—are shaking hands with themselves over a strike just reported from the men in charge. The information that fine ore had been encountered was brought down from the north yesterday by K. O. Eyes of the Chicago, Milwaukee & St. Paul railroad. He got the report from William Black of Salmon City, who came out from Thunder mountain two weeks ago.

Tintic Shipments.

The shipments from the district for the past week, according to the Tintic Miner, are as follows:

Table with columns: Concentrates, Cans, Bullion, Bars, Mining Notes. Lists various mines and their production.

The April Follies company has levied an assessment of 5 cents a share. C. H. Barton came down from Ogden yesterday on mining business. G. McChrystal, superintendent of the Gemini, was in from Tintic yesterday.

H. S. Ball, treasurer of the Annie Laurie company, came up from Gold Mountain yesterday. M. L. Nebeker, superintendent of the Ajax, came in from camp on Friday night on private business. He will leave for camp again today.

W. M. White, engineer for the Majestic and Imperial companies, came up from Beaver yesterday morning and left on the night train for home again. E. L. Hutchins, under whose direction the Blue Bird company's Copper King group of claims out at Milford, Beaver county, is being systematically developed, came up to camp yesterday for a short visit at home.

Tintic Miner: In the Spy shaft of the Carissa a drift has been driven for 120 feet south on the 500-foot level along a seam of quartz partaking very much of the character of a fissure vein, but which, it is believed, will open out into a good body of ore. Vernal Correspondent: William Donaher, who is working Milton Lyons' Split Mountain copper claims on a lease and bond, came up from the camp last night and reports that the work of sinking is bringing encouragement, and that all the indications are favorable for a pay proposition.

S. S. Clawson, the mining engineer, left last night for a short business trip to Denver. It was Mr. Clawson who rounded up the West Ontario and other property for eastern clients last year. He says active operations on the property will commence some time during the coming season, without doubt. Boise Capital-News: Judge J. W. Burton, president, and Fred Stauffer, vice president of the Ella Hill group of mines in Neal district, and H. A. Smith of the Elmora, arrived in this city and left by private conveyance to look over their properties in that coming district. A. L. Morris, manager of the Boise mining exchange, accompanied them on the trip. Tintic Miner: The Tesora concentrator, to which some additions were made recently under the direction of J. E. Fleming, is now running satisfactorily, and Mr. Fleming, having concluded his

duties, left Tuesday for Salt Lake. About 100 tons of ore are run through the mill every twenty-four hours, resulting in some thirty odd tons of concentrates, which yield a small margin of profit. Underground stoping is being conducted from the 400-foot level up, and some good shipping ore is being dug out to the market. With better price for copper it is believed that a handsome profit could be earned.

Hogs—Receipts, 4,000. Bulk of sales, 5.90¢@6.30; heavy, 6.25¢@6.40; packers, 5.80¢@6.15; medium, 5.80¢@6.15; 5.80¢@6.15; light, 5.40¢@6.20; yorkers, 5.40¢@6.00; pigs, 4.50¢@5.35. No sheep. Market unchanged.

Roosevelt's Doctrine.

Canadian Statesman Predicts it Presages Trouble For United States.

London, Feb. 22.—David Mills, in an article in the March number of the Empire Review, written while he was Canadian minister of justice, bitterly assailed President Roosevelt's and Senator Lodge's interpretation of the Monroe doctrine. He declared that the United States "are so long enamoured of their own political institutions and so devoted to self-worship that they think no others are deserving of admiration." Mr. Mills maintains that it would be to the state of Maine's commercial advantage to enter the Canadian federation, and says: "America has no more right to dictate to South and Central America than to Canada." In conclusion, Mr. Mills quotes the United States' reply to the Barbary states: "We prefer war to tribute."

Named by the President.

Washington, Feb. 22.—The president sent the following nominations to the senate: George L. Seibrecht, United States marshal for the western district of Texas. Receivers of Public Money—James W. Ross, at Glenwood Springs, Colo.; Harry J. Mowrey, at Waterson, S. D.

IRRIGATION CONVENTION.

SALT LAKE, FEB. 26TH.

Half rates from all points in Utah via Oregon Short Line. Tickets sold at near-by points Feb. 26th, and from farther points Feb. 25th, limit returning on all tickets March 1st.

Exhibitions of Surprising Dexterity Given by Cowboys.

Arizona sportsmen and cowboys are anxious lest the amusement of steer tying may be placed in the same category with bull fighting and prohibited by law. Their anxiety is not groundless. A number of visiting easterners witnessed the record-breaking and bone-breaking exhibition here on Christmas day, and have been begging the fight to stop the sport, says a Phoenix, Ariz., correspondent of the New York Sun.

He Knew It Was Sarah.

(Richmond Dispatch.) An old man would not believe he could hear his wife talk at a distance of five miles by telephone. His "better half" was in a country shop several miles away where there was a telephone, and the skeptic was also in a place where was a similar instrument. One day he happened to operate it, he walked boldly up and shouted: "Hello, Sarah." At that instant lightning struck the telephone wire and knocked the man down. As he scrambled to his feet he excitedly cried: "That's Sarah, every inch."

then, with his other hand on the steer's nose, he twisted the steer's neck until the animal went down with Horrell's knee on his neck and a tie thrown around his front legs.

Requires Splendid Nerve.

It is not likely that any other sport in the world requires greater agility of brain and brawn, involves so much that is likely to unstring the nerves of the player. To rope and tie a steer calls for the finest horsemanship and the most exact co-operation of the horse and rider. Indeed, the rapid roping of a steer will avail the puncher little unless the horse lends his aid at that critical time. With rope kept taut by the horse, the steer is held down until the cowboy reaches him and puts the "hog-tie" around his legs.

Steer tying, altogether practiced as a sport wherever the cow-puncher is a necessity, has reached its highest state of perfection in Arizona. A puncher, here, who cannot give a 30-yard start and then rope and tie in less than one minute is considered a very slow worker. Some of the best ropers in the range come reports of remarkable ties in eleven, fifteen and twenty seconds, but such time can only be made under conditions that are accidental. A request to the State Medical Institute, 502 E. State Building, Ft. Wayne, Ind., stating that you wish one of their free trial packages, will be complied with promptly. The Institute is desirous of reaching that great class of men who are unable to leave home to be treated, and the free sample will enable them to see the effect of the medicine on their own weakness when the proper remedies are employed. The Institute makes no return for the sample, but the recipient must send a free sample, carefully sealed in plain package so its recipient need have no fear of exposure. Readers are requested to write without delay.

SECURITIES ARE FIRM.

Investment Shares Advance in Price Before Active Demand.

Another lively week in the local investment market has passed. While the sugar stocks were inactive, from Davis' Review, written while he was Canadian minister of justice, bitterly assailed President Roosevelt's and Senator Lodge's interpretation of the Monroe doctrine. He declared that the United States "are so long enamoured of their own political institutions and so devoted to self-worship that they think no others are deserving of admiration." Mr. Mills maintains that it would be to the state of Maine's commercial advantage to enter the Canadian federation, and says: "America has no more right to dictate to South and Central America than to Canada." In conclusion, Mr. Mills quotes the United States' reply to the Barbary states: "We prefer war to tribute."

Where Nero Sat As Judge.

(Rome Cor. Chicago Record-Herald.) Before leaving the Palatine Hill the guide takes you to what they called the Basilica, which was the law court where the emperor sat and tried criminals. A part of the mosaic of Justice is still preserved and a portion of the richly wrought marble bar at which St. Lawrence and many other Christian martyrs were judged is still visible. There is also that St. Paul was tried before Nero. Augustus heard appeals in private, but administered public justice through delegates. Julius Caesar, Tiberius and Claudius occasionally held court in the Forum, but the decisions of a distinguished bench of the most cultured and able of the civilized world, and usually perceived both law and justice to gratify his humor or his whims.

Easily Reconciled.

(Chicago Post.) "For a defeated man you seem to be rather happy." "Yes," replied the politician, "we went down in defeat, of course, but I see the other fellows trying to make the fourteen offices that are outside of civil service do for 40 clamorous men, somehow I can't feel so awfully unhappy about it."

FRIED ONIONS

Indirectly Caused the Death of the World's Greatest General.
